300 - LANDSCAPE DESIGN: A PRACTICAL APPROACH by Leroy Hannebaum
Geared for the commercial designer/salesperson, this is a one-stop guide to the landscape design process. Covers the entire highly competitive field including design analysis techniques, pointers on land forms, specialized business landscaping methods, environmental design guidelines, specifications, estimations, bids. $22.95

305 - LANDSCAPE PLANTS IN DESIGN by Edward C. Martin
An annotated photographic guide to the design qualities of ornamental plants and their aesthetic and functional use in landscape designing. Over 600 trees, shrubs, vines, ground covers and turf grasses are described in non-technical language. Over 1900 photographs. Provides a basis for selecting the best plant materials for any particular use in landscape design. Contains detailed indexes that provide quick reference to particular design qualities and growing conditions. $55.00

375 - RESIDENTIAL LANDSCAPES by Gregory M. Pierceall
An excellent reference for individuals involved in the design and development of plantings and constructed features for residential sites. Illustrations and actual residential case study examples are used to communicate graphic, planning and design concepts which are the focus of this text. Topics covered include Site Design and the Landscape Industry, Graphic Communications, Landscape Symbols, Residential Landscape Design Portfolio, Design Principles and Elements, Multifamily Site Design. $26.95

385 - ADVANCES IN TURFGRASS ENTOMOLOGY edited by H.D. Niemczyk and B.G. Joyner
A complete account of the facts presented at the 1980 Symposium on Turfgrass Insects. 200 photographs, tables and graphs make this volume an indispensable reference for anyone connected with the turfgrass industry or research. $24.95

620 - MANAGEMENT OF TURFGRASS DISEASES by James Beard
Written by an eminent turfgrass researcher, this USGA sponsored text is an ideal reference and “how to” guide. Details all phases of golf course operations including course design and construction, turf management, course administration, irrigation, equipment and disease and pest control. Fully illustrated. $27.95

645 - MANAGEMENT OF TURFGRASS SCIENCE AND CULTURE by James Beard
Comprehensive basic text and reference source used in many leading universe turf programs. Includes findings of current research compiled from 12,000 sources. $29.95
BOOKSTORE

510 HORTUS THIRD from Cornell University
A 1,300-page concise dictionary of plants cultivated in the United States and Canada. A reference which every horticulture professional should have. $125.00

575 MODE OF ACTION OF HERBICIDES by Floyd M. Ashton and Alden S. Crafts
Provides worldwide body of information on each class of herbicides. Cross-indexed tables of common and trade names of herbicides are included. New herbicides accepted since 1972 are listed in this revised second edition. Excellent practical reference for specialists in field of weed science. $58.95

565 WEEDS by Walter C. Muenscher
Second edition. Premier text for identification and basic natural history for weeds found in the continental United States and Canada. Ecological data on weed biology combined with excellent keys and plant descriptions make this an essential reference book. $39.95

405 WOODY ORNAMENTALS by Partyka, Joyner, Rimelspach, Carver
Illustrates plant identification characteristics. Organized in two basic sections: plant identification and plant problems, this text utilizes 430 color photos, 430 line drawings and 45 black and white photos to simplify identification. Goes into detail on plant identification and description as well as plant problems such as diseases, chemicals, insects, animals and physiological disorders. $27.00

SEPTEMBER 1985/WEEDS TREES & TURF 33
Distributors: optimistic but wary

Green Industry suppliers are becoming more aggressive in a business economy that promises good rewards, but also keener competition and tighter margins.

by Ron Hall, associate editor

The concerns—stiffer competition, shorter margins—are real. Distributors and dealers serving the Green Industry can't whistle them away. Even so, the coming months should be good ones, an informal WEEDS TREES & TURF suggests.

Our poll reveals strong distributor enthusiasm for the coming year, guarded optimism for the longer haul. It also shows distributors taking aggressive action to remain players. The stakes in the game are growing, but not fast enough to allow every would-be participant a financial score.

"We are in a growth market so business will be good," says the head of a $2.5 million dealer/distributorship. "However, margins will continue to be squeezed, particularly on our primary products: fertilizers, chemicals, and grass seed."

Almost 83 percent of those responding to the WT&T query (a surprising 35 percent of those contacted answered) anticipate increased sales in the coming year with 12 percent feeling business will remain about the same. Five percent see sales dropping.

Two out of every three respondents beefed up inventories for the 1985-86 selling season.

Concerns (listed in the frequency of their appearance in the poll) are:
1. Reduced margins.
2. Increased competition from a growing number of domestic manufacturers with similar lines and the impact of imported products.
3. Direct sales by manufacturers.
Start getting better quality turf... from the ground up.

Country Club & Greenskeeper Turf Products

Unique homogenous granules mean even element distribution.

Every particle of Country Club & Greenskeeper fertilizer contains a balanced combination of N-P-K. So no matter what sizing or coverage your turf requires, each plant comes in contact with every important element for consistent quality growth and extended feeding.

Your turf grows beautifully... and economically, too.

Because Lebanon products are homogenous and contain the right balance of insoluble and soluble nitrogen, you get even element distribution for quick green-up as well as long range feeding. The result? You'll see significant savings grow along with a lush, green turf.

There's no turf too tough for Lebanon products.

We have more than three dozen standard fertilizer, sulphur-coated urea blends, and fertilizer/chemical control products to solve just about any turf problem. But soil conditions vary. So if your soil has special needs, we'll be happy to put our more than 35 years' experience to work to meet those needs. We can formulate an exclusive blend for you that will coax greener turf from your soil.

Better service from the ground up, too.

From custom-designed turf care programs to a solid nationwide network of distributors, Lebanon can assure you of knowledgeable, prompt service. And an entire range of proven top performance products developed to help your turf look its best where it counts. From the ground up.

Call us today...and let us give you what you need.

We'll send you a free copy of our agronomy manual at no obligation. And we'll tell you how we can start giving you better quality turf from the ground up. Call our Greenline today at 1-800-233-0628; in Pennsylvania, 717-273-1687.

and price pressure exerted by large national and regional operators.

4. Price cutting.

5. Government regulations and the specter of additional ones for chemical applicators.

None stands by itself. All are interconnected. Respondents to the WT&T survey fretted to a lesser extent about the growth of discount chains, credit problems with under-capitalized commercial accounts, and the lack of qualified personnel entering the distributor network.

Lower margins (specifically mentioned as a "trend" by 12% of our respondents) cause one special products manager to reflect: "Just how much service can I provide and still turn a profit?" An equipment distributor sees "some dropouts within the next two to five years. The volume is not there to support a replacement for the farm market or for the consumer market." While a third supplier predicts: "the industry cannot survive on the margins being made today."

Tied to reduced margins is price cutting. Four out of five distributors feel price cutting is "more common" now than a year ago although one distributor described the practice as "not more common, just more intense."

"Many distributors and dealers feel price cutting is necessary," the head of a $10 million firm notes. "This, of course, has gone on for years but I believe it is increasing due to the success (for a short time) of the retail discount stores." While a third supplier predicts, "the distributor-manufacturer relationship, like any marriage of interests, is not without its disagreements. Raising the ire of some distributors is direct sales by manufacturers to customers (45%).

And, who are the best customers of the distributors and dealers? Golf course superintendents were near the top of the list for 60% of the respondents followed by landscape contractors (55%), parks and schools (52%), commercial lawn care (35%), general public (30%), and athletic field managers (28%).

"Many distributors and dealers feel price cutting is necessary," the head of a $10 million firm notes. "This, of course, has gone on for years but I believe it is increasing due to the success (for a short time) of the retail discount stores."

The "typical" respondent to the WT&T survey was either the president, owner, or general manager of a business doing $2.3 million in sales. Slightly under half described themselves as both distributors and dealers. Almost two-thirds of those we contacted handled chemicals; 50% dealt with seed, 40% golf course equipment and irrigation supplies, and 33% consumer lawn equipment. 18% of their sales is to homeowners."

To offset these trends distributors are:

—Adding product lines. 67% in the WT&T poll indicate they will expand product offerings. Of the remaining 33%, reductions are most often being eyed for similar products from different manufacturers, or low profit items. 33% are expanding service/repair departments.

—Increasing promotion (54% of respondents).

—Seeking more manufacturer support (45%).

—Exhibiting at regional shows (50%).

—Adding education seminars for customers (45%).

—Increasing sales force (47%. Only 5% planned sales force reductions).

The realities of increased competition and tighter margins, however, are causing distributors to reassess their offerings (with some expanding into turf-complimentary lines) and to rethink the amount of service they can offer to remain profitable—and competitive.

The message coming from the survey: as long as the national economy remains strong most distributors serving the turf and landscape industries are confident they will find ways to prosper.

The WT&T survey was either the president, owner, or general manager of a business doing $2.3 million in sales. Slightly under half described themselves as both distributors and dealers. Almost two-thirds of those we contacted handled chemicals; 50% dealt with seed, 40% golf course equipment and irrigation supplies, and 33% consumer lawn equipment. 18% of their sales is to homeowners."

G.C. Duke Equipment Ltd. remains king of Canadian turf equipment distributors by keeping abreast of the newest maintenance equipment. Its reward? $15 million in annual sales.

by Ron Hall, associate editor

Salesman Dick Raycroft eases into the cushioned saddle of the tractor as the huge Dutch-built Verti-Drain aerifier, driving 16-inch spikes into the hardpan of sunbaked parkland, bucks and heaves behind him.

Thirty years of demonstrations like this make G.C. Duke Equipment Ltd. the largest distributor of turf equipment in Canada.

“We sell by demonstration,” says Duke sales manager Jim Tanner. “The customer has to see what any piece of machinery can do under his conditions.”

Big doings

This month, G.C. Duke Equipment expects to attract 2,000 visitors to its Lawn-O-Rama, a day of equipment demonstrations and displays wrapped around a fish fry at its five-acre Burlington, Ontario, headquarters. Lawn-O-Rama occurs every other year. Off-years are devoted to six weeks of customer service schools. “Hands on” is Duke Equipment’s way of doing business.

The payoff is sales of $15 million (and growing) annually.

Sales boss Jim Tanner shows off Duke’s newest offerings in front of the company’s headquarters.
