82 WEEDS TREES & TURF/OCTOBER 1986
GET THE FEELING THEY KNOW SOMETHING YOU DON'T?

They do. It's their job to know things first and then pass that information on to you fast. Things like new turf management techniques, effective methods of insect and weed control, what really works... and what won't.

LOOK FAMILIAR?
They should. You've seen them often at turf shows, seminars, conventions—wherever industry news is in the making. They're the editorial and sales management team of WEEDS TREES & TURF. Please meet (sitting from left to right) Heide Aungst, Jerry Roche, Ken Kuhajda, (standing from left to right) Dick Gore, Bob Mierow, Ron Kempner, Jon Miducki and Bob Earley.

THERE'S NO GRASS GROWING UNDER THEIR FEET.
They apologize for not always being in when you call, but great stories are found in the field, not in the office. These pros know that the only way to really cover the green industry is to get out and be a part of it. From turf test plots in Oregon to the corridors of our nation's capital, they're following the leads, surveying the markets, and interviewing the landscape professionals who make our industry grow. Then, they use their years of experience to pull it all together, analyze and present it to you in a crisp, easy-to-read and easy-to-use style. That way, you have the information you need to do your job better, faster and more effectively.

The next time you want to know something about the green industry, give them a call. If you can't reach them at the office, don't worry. They'll reach you in the pages of WEEDS TREES & TURF.
INTERNATIONAL SEED MARKET - seeking a person with experience in market development, trade shows, and sales experience. Must have some knowledge of turf products. Experience in the turf industry preferred. Send resume and references to P.O. Box 401, All replies will be confidential. 10/86

Until now, there’s never been a utility vehicle designed and built specifically to meet your turf-care needs.

But now there’s the Cushman Eagle. The Cushman Eagle is not a converted golf cart. It’s not a redesign. It’s a revolutionary new turf utility vehicle that sets a new standard of performance.

You can choose from more options to meet a wider range of needs. Bodies made of sleek, dent-resistant polyurethane or time-tested diamond-plate steel. Models that allow four passengers to face forward. You get a smoother, more comfortable ride. More responsive handling. And longer service life.

The Cushman Eagle is the kind of rugged, reliable vehicle you’ve come to expect from Cushman, the leading manufacturer of cost-efficient time savers. A comparison will convince you of its performance. The price will convince you of its value.

Test drive one at your Cushman dealer today or call for more information. You’ll see that nothing else works as well or looks as good as the new Cushman Eagle.

Our Reputation is Built to Last.

Finally, An Aid For Teaching Turfgrass

Superintendents, Contractors, Lawn Care Managers, New, On-the-Job Reference. The Turf Managers' Handbook is a comprehensive, organized approach to turfgrass science and care. It has been designed and written by leading turf specialists from Purdue, Dr. William Daniel and Dr. Ray Freeborg, for on-the-job reference and as a text for students.

The book contains 150 illustrations and 96 color photographs. Data includes 240 tables and forms. Included are specifications for rootzones, employment, calculations for chemical applications, and extensive metric-imperial conversion. Business and technical aspects of turfgrass management are covered in this 424-page book. Planning, purchasing, hiring, construction, and plant selection are put together for easy on-the-job reference. Markets covered include lawn care, sod production, golf course management, cemeteries, athletic fields, and low maintenance areas. If it concerns turf, it's in the Turf Managers' Handbook.

The pesticide issue

Recent assaults by the nation's media—especially the big three television networks—on pesticide use have brought the professional landscape manager some unwanted problems.

"This happened to me," relates one golf course superintendent, "the day after the story on '20/20' about the Navy lieutenant who allegedly died from exposure to pesticides used on a golf course.

"I got a call from a lawyer whose client had visited us the day before and was now breaking out in a rash. He demanded to know exactly what his client had seen being spread on the course. I think the lawyer had visions of a major killing in the courts.

"Of course, we keep pretty detailed daily records of what's being put down. So I went to my assistant and asked him what that man saw being applied. And do you know what it was? Not insecticide, not herbicide or fungicide. Not even fertilizer. The only thing our crews put on the course the previous day had been sand topdressing! Can you believe that?

"Needless to say, the lawyer didn't bother me again."

The "20/20" story, plus one on the "CBS Evening News with Dan Rather" brought a torrent of response from the green industry. Jim Brooks, executive director of the Professional Lawn Care Association of America, wrote CBS news director Gordon Sauter. Essentially, he said that the network had no cause to air the story, and that the PLCAA takes the utmost pride in its service.

Brooks received this response from an unbending CBS vice-president Emerson Stone, who answered every point of Brooks' criticism: "Because we do take care in research, I am glad to have your specifics in case we examine this subject again. Thank you for your interest in CBS News. I hope that we do better by you in the future."

This 1986 version of what might be called anti-pesticidism—shoot and ask questions later—can only be met with long-term and very disciplined consumer education. And it is up to the individual lawn care company, landscape contractor and golf course superintendent. That means you.

Jerry Roche, editor
One more thing to consider before you buy any compact tractor

Plus—50% off on Extended Service Protection

Now there are even more reasons to buy a Ford compact tractor. From July 14 to November 30, 1986, participating dealers can arrange low 5 3/4% ANNUAL PERCENTAGE RATE FINANCING for qualified buyers. You can also save 50% on an extended service protection plan that stretches your service protection to three years or 2,500 hours, whichever occurs first.

But there's more to consider than financing rates and service protection when you're buying a Ford compact tractor.

Mowing experts. They don't come any better than the 13 to 38-horsepower* Ford compact diesels—models 1110, 1210, 1310, 1510, 1710, 1910 and 2110. Seven quality tractors that can be equipped with 15 different mowers, from mid-mounted to tough flail mowers.

A world of experience. Since 1917, Ford has delivered over 1.7 million small tractors in North America. We know what it takes to keep your tractor working in all kinds of conditions, year after year.

Strong dealer support. With 1,400 Ford Tractor dealers in North America, there's probably one near you. A full-time tractor dealer, experienced in meeting the needs of farm, industrial and residential customers.

Now there are more reasons than ever to consider Ford before you buy a compact tractor. Including the name behind it.

*Gross engine horsepower

Is your tractor built as well as a Ford?

FORD TRACTORS

Circle No. 123 on Reader Inquiry Card

Photographed at James Madison University, Harrisonburg, VA.
