Simple lines, simple greenery. Designer Joanne Troutman of Plantscaping Inc., Cleveland, Ohio, created one focal point in the atrium of the new Cleveland Heights City Hall: an 18-foot multi-trunk ficus nitida surrounded by pothos. Other plants include Prince Albert philodendron, Plutos, aralia elegantissima, arboricola bush, ponytail palm and a seven-foot braided arboricola. The plants grow in custom-designed planters. The tall planters, built by Reserve Millworks, complement the oak finish throughout the building and match the soft-seating and low planters by Landscape Forms. The design won a 1987 “Best Project” award from Interiorscape Magazine.

Interior landscape designer Kim Parker Associates, Inc., San Jose, Calif., created a park/forest environment in the Corvis Systems building, San Jose, Calif. The company devoted more than 5,000 sq. ft. to the interiorscaping. Parker worked closely with building architect David Birskovich and landscape architect Hoffman Associates, in developing the area. KPA used ficus Benjamina trees ranging from 8 to 14 feet tall. She used aglaonema as ground cover and impatiens for color. Other plant materials include silver queen and king, baby’s tears, spathiphyllum and aspidistra. Norfolk island pines surround a seating area to create a forest atmosphere. KPA eliminated the need for manual watering by designing and installing an automatic drip irrigation system. The atrium cost $150,000 and won a 1986 “Excelsior Award” from the California Landscape Contractors Association.
What The Average Person Considers An Eyesore On The Golf Course.

Just the sight of Poa annua makes us cringe. And it seems to never go away.

So after putting our ears to the ground and our best minds in the lab we discovered a beautiful solution. Our remarkable new TGR™ Poa Annua Control.

Scotts patented TGR technology weakens Poa annua on fairways and bentgrass greens, while controlled-release fertilizer helps desirable turf thrive and overtake the Poa.

But most important, the transition to desirable grasses is gradual. So there's not a
What A Scotts Tech Rep Considers An Eyesore On The Golf Course.

sudden change in playing surface conditions.

At least you'll have one less ugly problem to worry about.

Ask your Scotts Tech Rep to help you incorporate TGR Poa Annu Control in your turf management program.

For more information contact your Scotts Tech Rep or simply call 1-800-543-0006. In Ohio call collect 513-644-2900.

Grounds for Ransomes.

When you're playing host to millions of visitors each year, looking good is part of the action. And that includes maintaining your grass areas in peak condition. If the acreage is substantial, but not extensive enough to warrant a tractor, consider the M36 mid-size mower from Ransomes. The 36” cutter deck makes it easy to work around trees, shrubs and flower beds while the 11 horse engine powers you through 11 acres in an 8 hour day. And that's grounds for seeing your Ransomes Bob Cat distributor. Or, call Ransomes, Inc., One Bob Cat Lane, Johnson Creek, WI 53038. (414) 699-2000.

Add beauty.
Subtract problems.

Otterbine® Floating Aerators from BAREBO, INC. do more than just beautify your grounds. They're the natural, economical way to improve water quality. Eliminate algae and sludge. And, remove odors.

So the next time you need beauty plus brains, contact BAREBO, INC. We have a wide variety of aeration systems to meet your aesthetic and water quality management requirements. Write or call today for your free corporate catalog.
Name your challenge, then look us over.

If your job were simple, ours would be, too. But, it isn't. That's why our line is so broad. And growing. Jacobsen engineers are working on the design, development and improvement of turf-care equipment for the future.

Our objective, on the other hand, is simple. To make the strongest, most efficient and cost-effective turf maintenance equipment possible. Simple objectives with sophisticated solutions. From Jacobsen. The line that keeps on growing.

Lease and finance plans are available.

Jacobsen Division of Textron Inc., 1721 Packard Avenue, Racine, Wisconsin 53403.

**GRASSHOPPER**

**The easy-money savers.**

Tough. Powerful. Downtime free. Grasshopper — the professional front-deck line with true zero-turning-radius maneuverability — is all that. Plus the one thing you want a mower to be.

We're easy.

Starting with the unique drive lever system. Which lets you turn 360° circles with fingertip ease. While Grasshopper out-front torsion-action decks ease against and under obstacles.

What's more, Grasshopper PTO-driven accessories save you time all year round.

That, in a nutshell is your next mower: Grasshopper. For a test drive, see your Grasshopper dealer or rep, or call us. Today.
