Only CHIPCO® RONSTAR® herbicide gives you safe, season-long control of crabgrass, goosegrass and tough broadleaf weeds.

Like most turf professionals, you want a herbicide that works the first time, every time. One that controls crabgrass, goosegrass and tough broadleaf weeds all season long...without damaging your turf.

But there’s only one place you’ll find that kind of control. Inside every bag of CHIPCO RONSTAR herbicide.

A single application of CHIPCO RONSTAR herbicide delivers the longest-lasting, most dependable pre-emergence control of crabgrass and goosegrass you can buy. In addition, CHIPCO RONSTAR herbicide keeps oxalis, carpetweed and many other broadleaves out of sight and out of mind.

Unlike most turf herbicides, CHIPCO RONSTAR herbicide controls weeds without harming turfgrasses. In fact, tests prove that CHIPCO RONSTAR herbicide will not cause the root pruning problems associated with other products.

CHIPCO RONSTAR herbicide can also be used near trees, ornamentals and ground covers without fear of damaging sensitive varieties. And, CHIPCO RONSTAR herbicide won’t leach or move laterally like some other herbicides.

When it’s time to plan your weed control program, remember the herbicide that has everything you need in one bag. CHIPCO RONSTAR G herbicide or new CHIPCO RONSTAR WP herbicide.

Rhone-Poulenc Ag Company, CHIPCO Department, PO. Box 12014, Research Triangle Park, NC 27709.
Cabinet maker branches into golf course market
Robert P. Marasco Cabinets has added golf signs to the company product line. The sandblasted, 1/4-inch-thick vertical grain redwood signs come painted in a variety of colors indicating tees, hazards, distances, etc.

In addition, the company shoots distances for accurate installation of yardage markers. It will also install tee markers if requested.

Injection-molded products add to company’s line
Five new injection-molded golf accessories have been added to Outdoor Products' line of golf accessories. Directional signs are sturdy plastic and 6x12 inches in size. They are mounted on foot-long stakes. Two-inch lettering is easy to read from a distance.

Boom sprayer mounts on back of golf cart
The Westheffer Company’s newest golf cart sprayer features a “Cable-flex” boom, a completely cable-suspended boom for less bounce and more even coverage. “Cable-flex” booms are available in 15- or 21-foot lengths.

The sprayer also features an adjustable boom height rack, three section boom control valve, an easy-to-read pressure gauge and a polyethylene corrosion-resistant tank with 100- or 150-gallon capacities.

In addition, it comes with a centrifugal pumping system and gas engine or PTO drive. The golf cart sprayer is also available with a 30- to 40-foot swath Boomjet. A hand-gun, hose and hose rack assembly for spraying trees and shrubs is optional.

Before you fertilize...
GET THE THATCH OUT!

According to turf experts, excessive thatch must be removed after a hard winter in order to have healthy turf in the spring. Thatch prevents nutrients from reaching down into the root structure. Result: the lawn cannot breathe and grow properly.

BlueBird has the most complete line of power rakes in the industry, a rake for every lawn and purpose. Spacings for every application. Interchangeable flail reels and knife reels are available for vertical mowing, and together they answer every need of lawn service professionals in every part of the country. Call your distributor today for a BlueBird catalog. For the name of your distributor call the BlueBird Action Center. BlueBird International Inc., 2778 South Tejon, Englewood, Colorado 80110. Phone (303) 781-4458.
do you know that...
Brouwer sod harvesters harvest more turf each day in more countries around the world than any other sod harvesters!

do you also know that...

Brouwer sod harvesters come in roll, slab or fold configuration.
They harvest "off the turf" and cut close up to pipes, ditches and the edge of the field, reducing waste.
Harvesting can be done in almost any conditions — wet, dry, soft, hard and all types of grasses and soils, with uniform thickness and minimum topsoil loss.
Standard tractors are used giving small tractor maneuverability, economy and excellent resale value.

There is room for two stackers, and the conveyor and cutting blade are operated by finger-tip hydraulic controls.
The optional Autosteer system eliminates waste, increasing yield per acre, and reduces driver fatigue. It also produces consistent, accurate width regrowth strips.
Brouwer products are quality engineered for superior performance and reliability.

For more information or video demonstration contact your Brouwer agent. Also enquire about the Brouwer Lease Plan. (U.S. only)

Company’s complete line fits golf course needs
A complete line of golf course accessories from Rico Manufacturing & Supplies can outfit a golf course from the practice green to the 18th tee.
Fiberglass flag poles come in regulation and tournament sizes in seven- and eight-foot lengths and are highly flexible. Custom striping is available. Fiberglass sand trap rakes have a flexible four-foot handle and will float if they encounter any angry golfers. Flags come in custom designs with either numbers, course logo or both in tube or grommet styles. The silk-screened nylon flags also come in sizes for putting greens.
In addition, the company manufactures ABS plastic cups and other accessories like brooms and squeegees. Circle No. 199 on Reader Inquiry Card

Hole designs etched in “natural stone”
Tri Dimensional Designs puts numerous finishes and colors in a distinguished appearance on new Cylex Granite signs. The signs won’t crack or peel and have the look of real sandblasted granite. Raised or depressed lettering gives distinctive, multi-dimensional signs. The company also makes tee, cart path and yardage markers in both Cylex granite and Cylex marble. Jacobsen triplex works in tough conditions
Jacobsen’s new Tri-King 1471 offers superintendents 3-wheel drive. The new option gives operators better traction and maneuverability. The triplex will perform on slopes or in wet conditions.
The turf manager can mold the mower to fit the property’s conditions. The triplex is available with options including 5- or 10-blade reels, grass catchers, grooved or solid front wheels, front micro-height adjusters and traction wheel weights. Circle No. 201 on Reader Inquiry Card

Ball washer cleans up with six-pint capacity
The new Lesco Ball Washer has a six-
The Andersons introduces Tee Time™ with Team® and Dursban.

New Tee Time with Team and Dursban controls weeds, kills pests and fertilizes in one easy application.

It can help you provide more effective, more efficient service. Because it lets you cut down on service calls, without cutting down on service.

This great labor saver is available in many analyses. It's also available in a half rate of Team and a full rate of Dursban. But this 3-in-1 product is only available from The Andersons.

So to find out more about new Tee Time with Team and Dursban, just call 1-800-225-ANDY, or contact your local Tee Time distributor. And get the latest TurFact from your partner.

Personal service. Consistently high product quality.
Technical innovation. Proven performance. All backed by a genuine integrity that is all too uncommon in today's business world. That's The Andersons.

Tee Time™ and TurFact™ are trademarks of The Andersons.
Team® is a trademark of Elanco Products.
Dursban® is a trademark of Dow Chemical Co.
pint capacity and is constructed of rigid ABS plastic. The helix-shaped agitator, unlike crank-type agitators, provides agitation for complete cleaning. A minimum of working parts keeps mechanical troubles down. The red plastic body resists damage, can be painted as desired and can be personalized with decals. Circle No. 202 on Reader Inquiry Card

Tee markers supported by national sponsorship
Tee markers manufactured by T-Graphics, Inc., are made of sandblasted California redwood and painted in different colors for tees, fairways, greens and hazards.

The company operates on a national sponsorship program which allows golf courses to obtain the signs for free, and even get revenue sharing for each sign.

The company does this by attracting national sponsors such as American Express, for the signs. The advertising pays for the signs, which are supplied to golf courses at no charge under a five-year program. Courses get $75 per sign per year in revenue sharing. About 400 courses receive the signs, which the courses must install. T-Graphics will be in booth 2653 at the GCSAA Show. Circle No. 203 on Reader Inquiry Card

Controlled release nitrogen has low burn potential
Coron slow release nitrogen fertilizer from the Coron Corporation is an organic slow release fertilizer with low burn potential.

It is storage stable and has low volatility of nitrogen to the atmosphere to stay where it is put. Coron promotes quick green-up and even turf growth over a longer period of time.

It is compatible with commonly available turf care products and is easily blended into N-P-K liquid fertilizer. Circle No. 204 on Reader Inquiry Card

Repair tool cuts sod for all parts of golf course
The Turfgrass Repair Tool from Gordon Witteveen Enterprises cuts a square piece of sod nearly four inches deep. It is ideal for repairing scars and scrapes, fertilizer burns or chemical spills.

The Repair Tool can be used on tees, greens and fairways. It is available in six- or nine-inch sizes. Circle No. 201 on Reader Inquiry Card

Versatile barrier fence available for crowd control
“Fence-it Plus,” a barrier fence, is available from J.A. Cissel Mfg. The versatile Fence-it can be used for crowd control, as a snow fence or to protect newly-seeded areas.

It is highly UV-stable, has long life and is lightweight and easy to install.

It is available in rolls of 4x50 feet and 4x100 feet. See J.A. Cissel at booth 2838 at the Golf Show.
Set A New Landscape Speed Record

Ask any seasoned turf maintenance professional, and they'll tell you that productivity is measured in maneuverability.

The Excel Hustler's unmatched performance comes from its unique hydraulic steering that lets you trim close, even cut square corners without wasted motion. And there are no clutch or brake pedals to fool with. You have total command of the mower's forward, reverse and turning movements with just one-hand!

Start setting your own landscape speed records. Visit your local Hustler dealer today, or call Excel toll-free for the name of the dealer nearest you.

370 - LANDSCAPE OPERATIONS: MANAGEMENT, METHODS & MATERIALS
by Leroy Hannebaum
An in-depth examination that combines technical training in landscape science with methods of accounting, business management, marketing and sales. Discusses effective methods for performing lawn installations, landscape planning and maintenance. Step-by-step accounting calculations are explained in simple terms. $31.95

375 - RESIDENTIAL LANDSCAPES
by Gregory M. Pierceall
A practical how-to reference for individuals involved in the design and development of plantings and constructed features for residential sites. Illustrations and actual residential case studies are used to communicate graphic, planting and design concepts which are the focus of this text. $36.95

405 - WOODY ORNAMENTALS
by Partyka, Jayner, Rimelspach, Carver
Illustrates plant identification characteristics. Organized in two basic sections: plant identification and plant disorders, this text utilizes 430 color photos, 430 line drawings and 45 black and white photos to simplify identification. $32.90

410 - DISEASES & PESTS OF ORNAMENTAL PLANTS
by Pascal Prione
This standard reference discusses diagnosis and treatment of diseases and organisms affecting over 500 varieties of ornamental plants grown outdoors, under glass or in the home. Easy to understand explanations of when and how to use the most effective fungicides, insecticides and other control methods. $34.95

415 - WESTCOTT'S PLANTS IN THE LANDSCAPE: CARE OF TREES, SHRUBS AND VINES IN THE LANDSCAPE
by George Symonds
This handbook gives a specific description of each disease, susceptible plants, specific symptoms of the disease, reported locations and control measures for each disease and their side effects. $41.95

420 - DISEASES & PESTS OF TROPICAL & SUBTROPICAL PLANTS
by Prione
This standard reference discusses diagnosis and treatment of diseases and organisms affecting over 500 varieties of tropical and subtropical plants grown outdoors, under glass or in the home. Easy to understand explanations of when and how to use the most effective fungicides, insecticides and other control methods. $34.95

490 - WESTCOTT'S PLANTS IN THE LANDSCAPE: CARE OF TREES, SHRUBS AND VINES IN THE LANDSCAPE
by George Symonds
This handbook gives a specific description of each disease, susceptible plants, specific symptoms of the disease, reported locations and control measures for each disease and their side effects. $41.95

530 - HANDBOOK OF LANDSCAPE ARCHITECTURAL CONSTRUCTION
by the Landscape Architecture Foundation
A practical how-to reference on landscape construction. Published by the Landscape Architecture Foundation, the book covers the expertise of more than 25 landscape professionals. $45.00

565 - AMBICULTURE: THE CARE OF TREES, SHRUBS AND VINES IN THE LANDSCAPE
by Richard W. Harris
Provides comprehensive coverage of complete planting, site analysis, preparation and special planting methods, fully detailed coverage of fertilization, irrigation and pruning guidelines on preventative maintenance, repair and chemical control, how-to's of diagnosing plant problems, practical data on non-infectious disorders, diseases, insects and related pests and pest management. $47.95

729 - SHRUB IDENTIFICATION
by George Symonds
Pictoral reference to identifying shrubs. Contains more than 3,500 illustrations to check specimens. Popular and botanical names are given for each shrub and handy index tabs for quick reference. $12.95 paperback

760 - TREE MAINTENANCE
by Pascal Prione
The fourth edition of this guide for anyone involved in the care and treatment of trees. Special sections on tree abnormalities, diagnosing tree troubles, non-parasitic injuries and assessing the suitability of different trees. $49.95

770 - TREE IDENTIFICATION
by George Symonds
Pictoral reference to identifying trees by checking leaves, buds, branches, fruit and bark. Like its sister publication, SHRUB IDENTIFICATION, this guide is based on ecological data on weeds, biology combined with excellent keys and plant descriptions make this an essential reference book. $39.95

780 - WESTCOTT'S PLANTS IN THE LANDSCAPE: CARE OF TREES, SHRUBS AND VINES IN THE LANDSCAPE
by George Symonds
A standard reference discusses diagnosis and treatment of diseases and organisms affecting over 500 varieties of ornamental plants grown outdoors, under glass or in the home. Easy to understand explanations of when and how to use the most effective fungicides, insecticides and other control methods. $34.95
MANAGEMENT COMMITTEES... YECCH

Golf course superintendents are consistently great about dealing with agronomic problems. But there are others problems.

by Rudd McGary and Ed Wandtke

One of the hardest things about being a golf course superintendent is having to work with the various management committees. While this is a fact of life, many managers find that their time frame, particularly for new equipment or other major expenditures, depends on the committees approving a budget or unforeseen expenses arising from weather or climatic stresses.

Here are some factors to consider when working with these committees. The following suggestions may help to lessen the time between request and approval. They may also yield a better working relationship with the committee.

1. The committee generally isn't a full-time body involved in day-to-day operations. Because of this, you have to plan both your regular budget requests plus a plan for contingency spending. This can be done in the following manner.

2. Try to select an executive committee from your major committee. In other words, select a smaller group from the larger one and agree that these people can vote on unforeseen expenditures. If you do this, you will at least have a smaller group with which you can work, which may help lessen the time needed for decisions.

3. A second way to deal with unforeseen expenditures is to have a second fund, clearly earmarked for use only in emergencies. You don't have to draw down on it during the year, but it will be there if needed.

4. Prepare any requests, particularly your major budgets, well before time. Then send them to the committee before the meeting so that they have time to consider your requests. This will generally save you from having to explain everything in the proposal at the time when you are actually making it.

5. After you send out the budget, call the people on the committee—at least the key people. Make sure they understand why you have made the requests and be prepared to answer any questions. It's always easier to have people on your side before you meet with the whole committee so that they can help in the discussions.

6. Remember that most committee members wouldn't know fescue from Bermudagrass. On many occasions, too much time is spent explaining technical agronomic information that doesn't mean much to committees. The committees aren't chosen because of their agronomic background, so don't give them too much technical data with which to work.

7. Always have alternatives ready. By doing this, the committee can vote on fewer expenditures, thus feeling better about what is spent for your program. This means that you might offer them a "Blue Ribbon" program, which includes every type of turf management possible; as well as a second program, one that includes all you need for the year. If the committee approves the top program, more power to you. If not, you at least have all the essentials needed for the year.

The committees like to feel that they have costs under control. Give them something to cut from the budget and they'll do it.

8. Finally, don't just talk to the committee once a year. Most superintendents can identify the key people on the committee, but occasionally don't keep the communication lines open during the year. The spring, when everything is greening up, is a good time to invite the various committee members to walk the course with you. Anytime the course is looking green and lush is a good time to take a committee member on a tour.

Summary

The basic issue here is that committee people usually represent someone else. They may represent the whole membership. If so, they are generally more conservative than if they represented only themselves. So your job is to make them comfortable about the actions they take on behalf of others. In order to do this, you need to give them information on a timely basis, give them options, and continue communication with them throughout the year. If you do these things, you'll find that meeting with your management committees can be productive, and that these people are working with you.

LM

Wandtke and McGary are senior consultants with All-Green Management Associates in Columbus, Ohio. Dr. McGary focuses on marketing and management issues. Wandtke focuses on operations and financial questions.
