The Workhorse

...with more horsepower!

RCM adds 18- and 24-Station Models.

Next time the job requires an 18- or 24-station controller, consider the RCM Series from Rain Bird.

The addition of 18- and 24-station models to the existing 4-, 6-, 8- and 12-station family means there is an RCM controller for virtually any residential or commercial application.

These new models offer all the outstanding features that have made RCMs so popular including simple operation, independent dual programming capability and a convenient 14-day cycle. And, they offer a NiCad battery recharge circuit that delivers maximum program protection during power outages and a new deep-drawn, seamless cabinet for unsurpassed rust protection.

The RCM Controller...a workhorse with the breeding of a thoroughbred.

PRODUCTS

Protective fabrics for overwintering
New Kimberly Farms protective nursery fabrics are now available to ornamental and foliage nursery growers for overwintering and other seasonal frost protection uses.

The soft, white fabrics—spun-bonded polypropylenes known for their porosity, insulation and UV-stability properties—are products of five years' research and development by Kimberly-Clark. Both lightweight (0.6 oz. per sq. yd.) and heavyweight (1.5 oz. per sq. yd.) nursery fabrics in varying widths and sizes protect high value nursery stock.

Granular fungicide preventive and curative
Lebanon Total Turf Care has introduced a new granular fungicide product for use by the professional turf market—Lebanon Benomyl Lawn Fungicide Granules. This time-proven fungicide cures as well as stops certain diseases all season long.

When used as directed, Lebanon Benomyl Lawn Fungicide Granules contain 30% Benomyl and provide up to 15,000 sq. ft. of coverage.

Automated controls mean cost-effectiveness
Fertigation allows groundskeepers to inject liquid fertilizer into an existing irrigation system. As a result, labor is greatly reduced, fertilizer costs are lowered and turf growth is stabilized.

In such applications, Signet Industrial, a manufacturer of flow monitoring and process control equipment, offers a variety of control systems. The MK2517 Perma-Flo flow sensor, which can be inserted into any standard ¾-inch threadolet fitting, measures water volume. This is typically done on the main line from a booster pump station. After a specified amount of water has passed the sensor, Signet's MK9520 Feed Pump Pulser sends a pulse signal to an injection pump, which then delivers liquid fertilizer into the main irrigation line in pre-designated quantities.

Signet's MK585 Flow Alarm completes the system. This analog meter not only provides local flow indication, but also such safety features as audible alarms which shut off the main valve in cases where flow rates exceed desired limits.

Mid-size mower makes an excellent companion
Exmark's 36-inch commercial power mower has the power to handle tough mowing jobs on its own, plus is an excellent companion to larger mowers. This mower's compact design and angled-corner deck provide excellent handling, balance and stability on slopes, Exmark says.

Single-adjust caster pins allow quick adjustments in mowing heights from 1¾ to 5 inches in ¼-inch increments. The unique, hinged grass-discharge chute flips up for quick and easy catcher attachment, and access into tight spaces.

This Exmark is available with 8 or 12 hp Briggs & Stratton I/C engines. It also has two transmission options variable speed or five-speed Peerless.

Increased economy from sprinkler head
Increased economy is added to Toro's line of best-selling sprinklers, with the introduction of its new Super 604 Full Circle Sprinkler for medium residential and commercial turf areas.

This new product has a lower precipitation rate to reduce runoff and waste.

The Super 604 features a dual-nozzle with pop-up, to a nozzle height of 3½ inches for use with tall grasses. In addition, the Super 604 has an adjustable water radius feature offering up to 25 percent reduction in radius to prevent overspray.
Look closely at this course. No dollar spot in sight. Not even resistant dollar spot, thanks to Rubigan.

Rubigan controls dollar spot on your tees, greens and fairways for only about 10 cents per 1,000 square feet per day. That's all. And you get a full 28 days control with just one 0.4 oz. application per 1,000 square feet.

Now look closer. Notice there's also no fusarium blight, necrotic ring spot, summer patch or take-all patch. And no large brown patch, either, with a Daconil 2787® tank mix.

Only Rubigan is labeled to prevent and treat all these harmful diseases. No wonder Rubigan is the superintendents' choice for dependable dollar spot control in all types of weather.

This year, make your course look this spotless. Make it dollar spotless with Rubigan. See your Elanco distributor. Or call toll-free: 1-800-352-6776.

Plant care products are safe, effective

PEP plant food products contain a natural growth stimulant enriched with chelated micronutrients which promote rapid cell growth, disease resistance, earlier maturity, lusher foliage, brighter more abundant blooms and increased plant production.

PEP plant food is packaged as a ready-to-use liquid, a liquid concentrate and as a time-released granular. Special formulated mixes are for every type application ranging from lawns to decorative indoor plants.

Other NCF products include Kleen leaf shiner and Saf-T-Oil insecticide.

For professional lawns, PEP has turf products with growth stimulant that result in visual proof of filling divots or bald spots in 72 to 96 hours after application.

New line of mid-size walk-behinds is announced

Howard Price Turf Equipment of Chesterfield, Mo. has introduced a new line of mid-size walk-behind mowers.

Model WB48K offers a 48-inch deck while Model WB36K has a 36-inch deck. Both mowers are powered by a Kawasaki 12¾-hp air-cooled engine.

Standard features include top greaseable spindles, easily-removable deck covers, double drive belts, five-speed transmission with reverse, pneumatic caster wheels and individual wheel brakes. Models WB48K and WB36K are designed to be highly productive and maneuverable while offering the user ease of maintenance.

Need a wide cut? Try this one

A full 144-inch cut, true dual-hydrostatic zero-turn radius capability and a 42¾ hp water-cooled diesel engine are the main features of the new 4500D Turf Runner being introduced by the CTL Corp.

Developed from the ground up as a 144-inch rotary cut machine, it features hydraulic drive wing decks, direct-drive front deck and hydraulic lift on all decks. The machine folds to 78-inch width for easy transport, with a maximum ground speed of 9 mph. It carries a 20-gallon fuel tank and 20-gallon oil tank with oil cooler. The fail-safe hydraulic-release torque hubs are designed to deliver 11,000 inch/pounds of torque to each drive wheel.

Remove surface stones in minutes

Terracare Products Company of Pardeeville, Wisc. has introduced the Stone Ex Tractor.

The Stone Ex will remove surface stones in minutes, Terracare says. The tractor is fully hydraulic and is used with a 3-point hitch. It can also be used for many other heavy lifting jobs.

ACCLAIM makes your pre work better. Because weather can affect the performance of preemergence herbicides, many lawn care professionals have resorted to making two pre applications. But now, Acclaim® 1EC Herbicide provides a new approach. By tank mixing Acclaim with your late pre applications, you can skip the early pre treatment. An Acclaim/pre tank mix provides low-rate postemergence control of emerged crabgrass and insures that the pre will be at full strength later into the season, minimizing the need for later rescue treatments.

ACCLAIM works better on reseeded lawns. After a season of drought, you don't want a herbicide to interfere with established fall-seeded turf. That's the beauty of Acclaim. You can delay or eliminate your pre on newly established turf and confidently plan on crabgrass control with Acclaim. Acclaim even allows you to overseed almost immediately before or after application. So even as crabgrass is dying, you're replacing it with lush, beautiful turf.

ACCLAIM for total flexibility. Acclaim gives you new confidence against crabgrass, both early and late. As a rescue, Acclaim provides control you can count on without turf damage. By treating borders and sidewalk areas early, you'll control crabgrass before your customers ever see it. And Acclaim can be used near ornamentals without damage.

The money-saving ACCLAIM program. Take advantage of the special offer for lawn care professionals: Buy 3 gallons of Acclaim before March 31, 1989 and get 1 gallon free.
**LEARN** Professional Landscaping and Gardening at home. Accredited program provides thorough training in all phases of commercial and residential landscaping. Certificate awarded. Free booklet describes program and opportunities in detail. Lifetime Career Schools, Dept A-349, 2251 Barry Ave., Los Angeles, CA 90064. 12/88
