All around the house...

Remember that environmentally friendly Roundup® herbicide is biodegradable. It won't build up in the soil, so you can use Roundup with confidence along customers' driveways, sidewalks and fences, and — wherever trimming, edging or weed problems pop up. For more information, see your dealer, or call toll-free **1-800-323-1421** and REMEMBER THE ROUNDUP.

Always read and follow the label for Roundup® herbicide. Roundup® is a registered trademark of Monsanto Company. ©Monsanto Company 1990 RGP-0-970L

REMEMBER THE
Roundup

ROOTS™ TO THE RESCUE...

PLANTING A TREE IS HALF THE BATTLE

The other half is keeping it alive. Use ROOTS*, the root growth enhancer, to make your installed trees and shrubs thrive. Landscape contractors use ROOTS for fast root regrowth that reduces transplant shock and helps the tree support its above-ground biomass. Just drench the soil after planting with ROOTS diluted 50 to one. Two ounces of ROOTS (concentrate) to one inch caliper, so a gallon will treat sixty seedlings or ten to twenty large trees.

WARRANTED PLANTINGS

If you have an obligation to replace any plants in a contract period, doesn't it make sense to encourage root growth? There is really nothing else that will do the job ROOTS does. ROOTS may be the best insurance policy available for plantings.

KEEP EVERYTHING LOOKING GOOD WITH ROOTS*

If you are not getting the growth, healthy appearance, or flowering that you want in your plantings, you use ROOTS on all your trees, once in the spring, once in the fall. Apply as a soil drench or with root feeding (but not more than 12 inches deep).

ROOTS was developed by scientists at the Yale School of Forestry and is widely used for transplanting, and the maintenance of all stressed trees. Send in for simple explanation of how ROOTS works, and a list of distributors.

Ask about
our early order
program!

Still the Product of Choice for Preemergent Control.

Turf managers keep choosing LESCO PRE-M® 60 DG preemergent herbicide because it's cost effective. They know from experience that it gives them control. Control over most major annual grassy weeds plus a variety of the most troublesome germinating broadleaf weeds.

PRE-M stops crabgrass, annual bluegrass, foxtail, goosegrass, barnyardgrass and fall panicum. And it's effective on these tough-to-control broadleaf weeds: oxalis, spurge, common and mouseear chickweed, henbit, evening primrose and hop clover.

LESCO PRE-M contains **pendimethalin**, a proven performer for

broad-spectrum weed control. Programmed applications of LESCO PRE-M control both early and late germinating weeds. Labeled for use on most northern and southern turfgrasses, PRE-M's water-dispersible formula can be tank mixed with most fertilizers and pesticides.

For added convenience, try LESCO PRE-M 60 WP, a wettable powder that comes in easy-to-use water soluble packaging. Contact your LESCO Sales Representative, visit your nearest LESCO Service Center or call toll free (800) 825-3726. In Cleveland, call (216) 333-9250.

Always read and follow label instructions before applying any herbicide product. PRE-M® is a registered trademark of LESCO, Inc.

**“ALCA is the best
landscape business
resource in the
country.”**

“When I started my business seven years ago I needed expert advice,” says Joe Skelton, president of Lifescapes, Inc., Canton, Georgia. “That’s when I joined ALCA.

“By attending marketing and technical seminars, using the *Operating Cost Study* to estimate projects, enrolling in ALCA’s business insurance program and simply working hard, I have been able to build my business to over four million dollars.

“ALCA is a great resource. Through their meetings, videos and publications, you can find out how to increase sales and profits, reduce costs, and learn about the latest products and technology developments.”

Join ALCA today and meet people like Joe Skelton.

If you are an exterior, interior or management landscape contractor or simply want to see the landscape industry grow, call (703) 241-4004 for more information or write to: ALCA, 405 N. Washington St., #104, Falls Church, VA 22046. Fax (703) 532-0463.

ORTHENE® Turf, Tree & Ornamental Spray keeps pests out of your club.

Stop pests from playing a round on your course with ORTHENE Turf, Tree & Ornamental Spray. One treatment provides a broad spectrum of protection for turf as well as a wide variety of trees and ornamentals.

ORTHENE kills quickly on contact, then by systemic action. So you'll keep hard-to-kill pests like mole crickets, armyworms and leafhoppers under

control. ORTHENE supplies long-lasting residual action against other insects including tent caterpillars, aphids and thrips.

ORTHENE Turf, Tree & Ornamental Spray. It's more than enough to drive unwanted pests right off your course.

ORTHENE® Turf, Tree & Ornamental Spray

Avoid accidents. For safety, read the entire label including precautions. Use all chemicals only as directed. Copyright © 1990 Valent U.S.A. Corporation. All rights reserved. ORTHENE is a registered trademark of Chevron Chemical Co.

Now Sevin[®] gives you two ways to control tough turf pests.

Now SEVIN[®] brand carbaryl insecticide is available in an easy-to-handle granular formulation. So you have two ways to apply the effective, economical and environmentally sound control of SEVIN[®] brand carbaryl on your toughest turf pests.

One thing's for sure, whether you choose the liquid or new granular formulation, you get the same broad-spectrum pest control that has made SEVIN[®] brand carbaryl insecticide the first choice of turfcare specialists across the country.

Tests prove that SEVIN[®] brand carbaryl insecticide delivers effective control of white grubs, sod webworms, chinch bugs, bluegrass billbugs, cutworms and more than two dozen other turf pests. Plus, the liquid formulation can be used to control 86 troublesome insects on trees and ornamentals.

And, because other formulations of SEVIN[®] brand carbaryl insecticide are used to control pests on poultry, pets and even some species of game birds, it's one of the most environmentally sound pesticides you can use.

Contact your turfcare chemicals distributor today, and put the proven performance of SEVIN[®] brand carbaryl insecticide to work for you. Now available in a quality granular formulation.

Sevin[®]

Brand Carbaryl Insecticide

As with all crop protection chemicals, always read and follow instructions on the label.
