KNOWLEDGE IS POWER. Every day, Advanstar opens up a world of knowledge, becoming the prime source of information that you need for success — through leading publications serving diverse business and professional markets...productive expositions that deliver quality audiences...and sharply focused database marketing services. Look at your world in a whole new light. Advanstar. Serving business' need to know.
Kubota has introduced a complete new mowing system, the FZ2100 Front Mower. From “A” – Auto Assist Differential (AAD) to “Z” – Zero Diameter Turning Radius (ZDT), it increases your power and mobility to handle all your mowing needs.

Equipped with 20 horsepower and four-wheel drive, the new FZ2100 Front Mower’s zero diameter turning radius gives you the agility and power to get into the tightest spaces effectively. You can mow around trees, hedges, flower beds and other obstacles much more precisely and in less time. And, with the Auto Assist Differential drive system the machine automatically switches between 2WD and 4WD to match operating conditions and terrain, providing more traction and eliminating slippage. This increased productivity in all mowing conditions, and the FZ2100’s ability to turn completely around in one spot without damage to the turf, cuts way down the time spent on labor-intensive hand trimming jobs.

The FZ2100’s front wheels rotate freely through your tightest turns, and Kubota has designed round shoulder tires that virtually eliminate turf damage. And, the FZ2100 offers all the durability and innovation commercial operators have come to expect from Kubota. Like our powerful Kubota liquid-cooled diesel engine, hydrostatic transmission, 55 degree tilt deck for easy access and blade maintenance and optional grass catcher.

Your authorized Kubota dealer can show you the complete commercial mowing system with the power and maneuverability to handle your tough jobs from A to Z. For more information write to: Kubota Tractor Corporation P.O. Box 7020-Z Compton, CA 90224-7020.
