HOW TO TURN
A ROYAL PROBLEM
INTO SOLID GOLD.

AMDRO® FIRE ANT INSECTICIDE
INTRODUCES A GUARANTEED MONEY MAKER
FOR LAWN CARE PROFESSIONALS.

If you've been looking for an easy way to build your business, you've just struck gold. With AMDRO.
AMDRO lets you offer customers an added professional service. Killing fire ants is big business, and your existing lawncare customers are a built-in market. Plus, AMDRO can help you attract many new customers.

A PROVEN KILLER THAT COMES WITH A GUARANTEE.

There's only one sure way to eliminate fire ants. Eliminate the queen. And AMDRO is specifically formulated to kill the queen.
Here's why AMDRO insecticide is so effective. Worker ants are attracted to AMDRO, carry it back to the mound, and pass it on to other workers including the queen. The queen eats the bait and dies. So does her colony, typically in less than a week.

For best results, apply AMDRO as a broadcast application when ants are actively foraging.
We're so sure AMDRO kills the queen, we guarantee results with proper use of the product.
For more information about this exciting business-building opportunity and the AMDRO Royal Guarantee, call us today at 1-800-545-9525.

Always read and follow label directions carefully.

KILLS THE QUEEN.
If You've Forgotten How Well We Control Mole Crickets And Nematodes, Consider This A Refresher Course.
We wrote the book on mole cricket and nematode protection. Now we’d like to send it to you.

In it, we’ll show you why there’s nothing better for controlling mole crickets than OFTANOL Insecticide. It gives you excellent residual control. It costs about 30% less per 1,000 square feet than the closest competitor. And it stops mole crickets. Plus, it controls fire ants, too.

Also, we’ll show you why there’s only one choice for controlling nematodes. NEMACUR nematicide. It has a 20-year history of controlling more kinds of nematodes than any other product.

For your free booklet, call 1-800-842-8020. Or write Miles Inc., Specialty Products, Box 4913, Kansas City, MO 64120.

Examine the information. Then apply it. And you’ll have a course everyone will study.

Save a few lawns this year.

Treat for grubs with OFTANOL insecticide. It's about twenty cents less per 1,000 square feet than most grub control products. Which means you'll be saving more than your customers' turf this year. For more information, contact Miles Inc., Specialty Products, Box 4913, Kansas City, MO 64120. (800) 842-8020.

66 Landscape Management, September 1993
Tree roots break through sidewalks. They can break through into greens and sand traps. They can even break through into hazardous waste sites and contaminate everything around them. In fact, wherever you need to maintain the integrity of the soil and vegetation around an area with trees, you need a root control system that works.

And that's why there's Biobarrier, a breakthrough in environmentally sound prevention of root encroachment. It stops roots without damaging the tree or the soil around it.

Biobarrier is a geotextile fabric that contains controlled-release nodules with trifluralin, a non-systemic active ingredient that has a successful track record spanning over 30 years. It is non-soluble and biodegradable, making it an environmentally friendly root deterrent. Plus, Biobarrier is made with Typar, a rugged polypropylene fabric that allows air and water to flow through while holding the nodules in place.

Biobarrier's guarantee is as impressive as its performance. Biobarrier is guaranteed to control roots for over 15 years when used in vertical applications, and can remain effective for up to 100 years in some applications. Plus, its fabric flexibility allows it to be cut, shaped, or formed to meet virtually any configuration your site requires.

Biobarrier. It's a root control breakthrough that we guarantee will keep your roots from breaking through. For information, call 1-800-25-ROOTS.

WEED CONTROL

PRE-M
Pre-emergent Herbicide

Since 1985, LESCO's PRE-M preemergent herbicide has been recognized as the industry standard for weed control. No other preemergent herbicide combines outstanding control of annual grass and broadleaf weeds at the most economical price.

Simple to use and available in four formulations, PRE-M's proven, consistent performance is unbeatable. Ask your LESCO Sales Representative about the best preemergent herbicide available today: PRE-M.
