"WHITEMARSH Valley Country Club.

We've been around a long time — over 75 years.

The players demand impeccable turf and we deliver. But the **highest standards** around here are those I set for myself.

I have the future of the course to think about. So, I make sure the herbicides I use to keep the course gorgeous are also **respectful of the environment**. I try to make sure the course and the world will be around for another 75 years. **Pendimethalin** is the turf herbicide that **meets these standards year after year**

**Pendimethalin**

"I've got some pretty broad shoulders. The **future's on them.**"

Tony Gustaitis, CGCS

WHEN YOU NEED TO PUT THE PEDAL TO THE METAL.

Engines that deliver maximum performance when you need it most. That’s Echo Pro Performance. At Echo, we’ve been giving landscaping professionals exactly what they need for over twenty-five years: superior outdoor power equipment that more than performs... day after day after bumping, jostling, banging, hard-working day.

Inside every Echo power tool beats our world-class, two-stroke engine - the heart of Echo’s legendary performance and unsurpassed reliability. It’s here, in the engine, that our rugged construction and intelligent engineering make the difference.

The result? Power equipment that exceeds professional demands for quality, durability and dependability. Echo Pro Performance. Built by the team that knows what professionals need. Maybe that’s why more landscaping professionals choose Echo than any other brand of outdoor power equipment. For more information on Echo Pro Performance products call 1-800-432-ECHO (3246).
This year, Landscape Management celebrates its 35th year of service to the green industry!

This is a great industry, with a great history of achievements, discoveries and advancements on all fronts: landscape; lawn care; golf course; athletic turf; grounds facilities.

We plan to highlight some of those achievements in our 35th Anniversary Spectacular, in October, but we need your help.

This month’s “Talkback” (page 54) contains a form we’d like you to complete and send back to us. We want to know how you got into the green industry, when you got started, what you were doing, and what you’re doing now. We want to know what you think have been the most exciting, positive developments to come along over the past 35 years.

- From equipment, to control products, to business management, to golf course turf, to athletic fields...we want to hear what you’ve liked, and what you’ve not been so crazy about since 1962, (or whenever you got into the industry).

- What have been your “personal bests” in the green industry? Is it building a top-flight business? An award-winning design/build staff? A model athletic field operation? Let us know!

- We also want to know what you think of this magazine. We have strived, since the days of Weeds and Turf, and later, Weeds, Trees & Turf, to be a comprehensive green industry publication, one you keep on your desk and refer to often.

- So, how are we doing? Which stories have made the most lasting impression on you and the way you manage your operation? What would you like us to do differently? What are the issues you face daily you would like to see us cover more often. What would you like us to give more coverage, whether it be industry trends or news?

- Where do you think the green industry is headed as it nears the year 2000? What are you most excited about? Do you see any signs of in your local economy that make you especially glad to be in this industry at this particular time?

- What do you think needs to be done for the green industry to keep up with the times, in terms of service, agronomics, employee relations, government relations, turf management, or business management? Where are we headed, in your opinion?

- State and local associations: we want to hear from you as well. When did you get started, and what has been some of your history in terms of growth, activities and benefits to members?

- We’d also like any of you who respond to include a photo or two (one you can part with) from the days when you first got started.

Use an extra sheet if necessary. That space on page 54 is pretty small for 35 years of memories.

Send your “Green Industry Memories” to:

The Editors, Landscape Management, 7500 Old Oak Blvd., Cleveland, OH 44130; fax: (216) 891-2675; e-mail to landscape@en.com

Please get in touch as soon as you can. This is your magazine, and we can’t tell your history without you. LM
Move to Kubota Country

Move to Kubota country and you'll find versatility, durability and operator comfort. The Kubota B-Series (13 to 18 PTO horsepower) tractors are compact to fit in tight places and powerful to get lots of jobs done. Kubota performance matched implements include rotary tillers, front loaders, mid and rear mount mowers, box scrapers and snowblower.

Need more power? Move up to the innovative Grand L-Series (25 to 37 PTO horsepower). Hydrostatic steering, shuttle transmission with shift-on-the-go provides ease of operation. Kubota's exclusive optional Glideshift transmission has clutchless operation through all eight speeds, forward and reverse. These tractors are smooth and quiet, with Kubota's E-TVCS engine which ensures clean emissions while providing high torque rise. Get one with an integral cab with heat and air-conditioning for year 'round comfort.

Visit your Kubota dealer and find out how to make your move - to Kubota country!

This new single-source reference provides the most current and comprehensive information on the basics of turfgrass and landscape management available today!

The Landscape Management Handbook

edited by William E. Knoop

125 pages, softcover
Item #LSMB830
$34.50

Provides an overall understanding of turf and landscape care and management and covers all the basics of the green industry

Covers all the topics both golf course superintendents and students of turfgrass and landscape management need to know about

Combines practical information with the tried and true basics of management to provide a single, practical, affordable and up-to-date text

Features detailed information, charts, diagrams, figures and tables to illustrate key information points

The Landscape Management Handbook provides a unique, single-source reference of comprehensive information on a variety of turf and landscape topics. It's an ideal handbook for golf course and lawn care superintendents and crew members, and is also appropriate for schools that teach basic turf and landscape management.

There’s more than fertilizer in this bag.

There’s a total resource. One that can help you grow healthy, green turf with a strong root system and a solid base. Turf that’s healthy and better able to fight disease, pests and everyday wear and tear. That resource is Terra. You’ll find a complete, new line of Terra Professional Fertilizers – with primary, secondary, micronutrient and pesticide packages available. Plus, you can count on the support, service, assistance and expertise it takes to select and use the right fertilizer. The product that will do the job for you. For fertilizers, turf seed, plant protection products and a whole lot more – work with Terra. You’ll get more.

Working with you.

STIHL's new Professional Series™ Trimmers are dependable, lightweight, heavy-duty, power tools. Available with “bike” or “loop” style handles, each features STIHL's exclusive ElastoStart™ shock absorbing handle, dual stage air filter, anti-vibration system, and high quality aluminum shaft for reduced weight and increased strength. There's also a one-year commercial use warranty on the unit and lifetime warranty on the drive shaft.

The FS 80 and FS 85 are just two of eleven different power tools manufactured exclusively for lawn care professionals and arborists. The entire line is powered by STIHL's all new, made in the USA, 25.4 cc engine. Common parts mean you could pull an air filter, starter rope or other engine part, from your edger to keep your grass trimmer going. And it means routine engine maintenance is the same, as is the fuel mix. Saving you both time and money.

The STIHL Professional Series™...as tough as STIHL from the ground up. Call 1-800-GO STIHL (1-800-467-8445) for more information or for the name of your nearest STIHL dealer.

There are times when it is critical to know that you’re getting the real thing. Like when you’re buying Dursban* insecticide.

No Dursban wannabe can give you the same level of confidence, performance and support that you get from DowElanco. Not to mention the superior control of over 140 insects, including worms, ants, fleas, ticks, mole crickets, aphids and chinch bugs.

The only way to get the real Dursban is to buy Dursban. So always look for the Dursban trademark on the label, whether you buy from DowElanco or one of our formulator partners.

For more information, call us toll-free at 1-800-352-6776.

Always read and follow label directions.
