**Weekly peeks**

Save time at the end of the work week to check these systems:

- Remove the engine shrouding and clean out the cylinder cooling fins. Dirty cylinder fins will hamper a unit's ability to cool itself and can reduce engine life or even cause seizures because heat won't dissipate as efficiently from the unit.
- Check the grease in the gear head to make sure it's at the proper level. If necessary, add grease until it reaches the level recommended by the manufacturer.
- On trimmers, inspect the starter rope for frays.
- Remove spark plugs; clean and replace if necessary.
- Check the fuel lines for cuts, deterioration or other damage.
- Remove the fuel filter and inspect it for any physical breaks or cracks and replace the filter according to the manufacturer's guidelines.
- Use a tachometer and check the engine's RPM at idle and at wide-open throttle. When checking your unit at wide-open throttle, refer to the manufacturer's guidelines to determine if these should be done with the line extended, or with the manufacturer's recommended line size.
- If the unit features anti vibration systems, check the rubber or spring mounts to make sure they're secure and free of cracks.
- On trimmers, inspect the string head and the bump knob. Check the knob and the eyelets for wear. Also, inspect the spool and housing for breaks or cracks. Never use a string head or blade with a visible crack or break.
Agronomy
Satisfy the plant's demand, February, pg. 34; Phosphorus, February, pg. 35; These sprouts must go, April, pg. 10; Dallisgrass control, May, pg. 12; The root of the problem, May, pg. 12; Landscapes go “native”, May, pg. 34; Guide to Overseeding '99, May, OS6; Don’t under estimate overseeding details, May, OS3; Overseeding overview, May, OS4; Most common causes of failure on a golf course, May, OS5; Overseeding's hidden costs, May, OS5; Lawn care overseeeding: room for growth, May, OS6; How the Irish stay green, May, OS8; Transplanting, March, pg. 12; What do you know about transplanting?, March, pg. 12; Maple in trouble, May, pg. 30; Arbor Care

"I earned 78% more with a FINN HydroSeeder®"

Brian Kerber, The Lawn Firm, Excelsior, MN

“I bought my first hydromulching machine for price. But it’s a toy compared to my new FINN HydroSeeder. I’ve easily doubled my production.”

No other machine compares to a FINN HydroSeeder for high production and long trouble-free service life. You’ll get faster loading, better coverage, longer spray distance, and more reliable performance. You can get a real HydroSeeder for as little as $149 a month. You’ll soon know why the most successful contractors agree, “Nothing makes money like a FINN HydroSeeder.” Call today.

HOW TO USE THIS DIRECTORY

 Suppliers Listings (see page 57)
 Turn to this section for an alphabetical list of suppliers. Each listing includes the company's name, address, telephone and fax numbers. In addition, Buyers' Guide advertisers are highlighted in black; use the ad locator cross reference at the bottom of the listing to locate their ad.

 Distributor Listings (see page 86)
 Turn to this section for an alphabetical listing of distributors by state. Each listing includes the company's name, address, telephone and fax numbers.

 Product Index (see page 104)
 This extensive, alphabetical product listing includes reference to the Yellow Pages headings in the Buyers' Guide. For example, look under "C" in the product index for chemicals-protection and nutrition—then turn to the page number indicated to find the complete listing of fertilizer suppliers in the Yellow Pages section.

 Yellow Pages Buying Directory (see page 107)
 This section provides specific listings by product headings and includes the name and telephone numbers of all companies offering these products. Refer back to the Suppliers Listings for company addresses and fax numbers.
