Anthracnose on maple
I have a Japanese maple that has white spots on some of the leaves and dying branches on the top. What is the problem, and how do I treat it? Also, do you know where I can find a dwarf apple?
— MICHIGAN

The foliar symptoms you have described suggest anthracnose fungal disease. The dieback you mentioned could be related to a number of stress factors. For example, if the root system is damaged, the corresponding top growth will show declining symptoms. Generally, maples produce surface roots. If these roots are cut off or damaged, the connecting aboveground parts will show dieback.

Another reason for the dieback is the activity of maple wilt fungal disease caused by Verticilium sp. To further diagnose this, take a finger-sized branch, remove the bark and look for greenish discoloration. If the twig is dry, it may not display the green well. In this case, slightly wet the cut surface and look for greenish discoloration in the xylem. If the xylem is plugged by fungal activity, wilting and dieback will occur.

For positive diagnosis, send representative samples to the diagnostic clinic or the Cooperative Extension Service. For anthracnose disease management, apply fungicide treatments in early spring two to three times at 7- to 10-day intervals. For maple wilt disease management, reduce stress and improve plant health care through proper mulching, watering and fertilizing.

To find a dwarf apple, contact some reputable nurseries such as Stark Brothers, Henry Fields, Gurneys Seed and Nursery Co., and Miller Nursery. Make sure the dwarf apple trees are adaptable to the cold hardiness zone in your area.

Why all the rust?
We are seeing more and more rust disease in lawns. Do you know why? Also, how can we manage this? Some of our clients think we are spreading the disease through our mowers, shoes, etc.
— MICHIGAN

Rust disease makes lawns unattractive. In many situations, however, turf will recover.

In recent years, there has been an increase in rust problems. One factor could be related to not bagging clippings. Many cities are now imposing laws that don’t allow you to collect clippings after mowing. This exposes healthy turfgrass to infected turfgrass clippings, and under certain conditions will spread disease.

It’s also possible to spread the disease with mowing equipment and shoes but this is usually not the main cause. The reason is because there are disease-causing agents in other areas as well. Unless the turfgrass is susceptible and favorable conditions exist, the disease will not establish just because spores are present. For any disease to occur, there must be a susceptible turfgrass, virulent pathogen and favorable environment.

For disease management, consider using fungicides such as Bayleton, Rubigan, Banner or Heritage. Repeat treatments as needed. Two to three applications at 10- to 14-day intervals should provide adequate control. Where feasible, pick up the clippings, and water as needed in the morning.

Messy cottonwoods
Each year, nearby cottonwoods shed seeds with a fluffy, cotton-like substance, and this creates a problem. How can we get rid of these? Is there a product we can inject to eliminate these messy seed structures? When should we treat?
— ILLINOIS

Cottonwood trees (Poplar sp.) can present a serious problem when they begin to produce seeds, which are attached to cotton-like outgrowth. During the seed production and dispersal period, they can be blown to different places by the wind. This can trigger allergies or become a “messy” nuisance.

Florel growth regulator, a spray treatment, can eliminate undesirable, messy fruit. It is best to apply the treatment when most of the flowers are open in the spring. More research is needed to fine-tune the suitable treatment period. Applying from full bloom to petal fall in the spring should be adequate. Thorough coverage is important. While treating, make sure there are no nontarget objects like cars in the area since Florel causes a reaction on car paint.

I’m not familiar with any products you can inject for fruit elimination. Following good application techniques will help minimize drift potential.

Read and follow label specifications for best results.

Want a new source for pest information?

www.pestfacts.org

Termites, cockroaches, rodents, even poison ivy and other nasty weeds. They're all pests, which means they can cause real problems that pose health and safety risks to children and adults. The good news is now you've got the Pest Facts Information Center at www.pestfacts.org. It's a handy resource discussing the problems caused by pests, as well as the safe and responsible use of urban pesticides and related issues. So don't just sit there...log on.
**Easy stump removal**

BlueBird International's new stump grinder maximizes cutting performance with its 14-in. diameter blade with carbide-tipped teeth, offering a variable cutting depth up to 12 in. A HiPower Double V drive belt offers more operating stability and control. An adjustable, ergonomic handle reduces operator fatigue, and user-friendly lift handles simplify transport to and from job sites. The stump grinder comes with either a 9- or 11-hp Honda engine.

For more information contact BlueBird at 303/288-5880 or www.bluebirdintl.com / circle no. 250

---

**Turbo-charged chipping**

Ariens' Pro Chip 12115 features a turbocharged 115-hp diesel engine with 15-in. x 17-in. throat capacity. The only 12-in. capacity, 90° chipper in the industry, its SaverCut eliminates dead space behind the feed wheel, reduces jams, and uses less fuel than machines with a 45° angle cut. A switch on infeed and discharge chute hinge prevents machine from operating when hinge is open.

For more information contact Ariens at 800/678-5443 / circle no. 252

---

**Washing parts**

National-Spencer's new 20-gal. capacity parts washer removes particles and soil from mechanical parts. It features a fusible-link steel cover that closes automatically in the event of a flash fire, stores up to 12 gallons of solvent, and re-circulates 50 gallons of solvent per hour. A built-in drain and chrome-steel flexible spigot come standard, and an optional cleaning brush attached by vinyl hose is available through special order.

For more information contact National-Spencer at 316/265-5601 / circle no. 251

---

**Clean with power**

Landa Water Cleaning Systems introduces a line of economy, natural gas-heated, hot-water pressure ENG washers that range from 2.8 to 10.6 GPM in water volume and 1,000 to 3,000 PSI in pressure. Features include an enclosed cabinet, the ability to support up to four remote washing stations, the ability to be fitted with LP gas, and 50 ft. of high-pressure hose rated for up to 5,800 PSI.

For more information contact Landa at 800/547-8672 / circle no. 253

---

**No more mower downtime**

With its stay-sharp Tungsten carbide-coated blades and maintenance-free Gravely XL spindles, the Gravely 260Z zero-turn mower is designed to reduce maintenance downtime. Available with either a Kohler Command OHV 25-hp engine or Robin OHV 22-hp engine, the 260Z's larger fuel tank and air-flow deck allow for all-day mowing.

For more information contact Ariens at 800/678-5443 or www.ariens.com / circle no. 255

---

**Grinding away**

Morbark introduces the Wood Hog, a 90,000-lb. horizontal grinder with horsepower options from 860 to 990, a 49-in. diameter grinding drum mounted on a 8 1/2-in. shaft and an aggressive feed system that allows for product output of up to 400 yds. per hour. Standard features include auto feed system, wireless remote control, magnetic end pulley, hydraulic continued on page 54

continued from page 53
dual fold discharge conveyor and self-contained air compressor.
For more information contact Morbark at 800/233-6065 / circle no. 256

The answer to de-thatching
Growth Products’ Control De-Thatcher is an organic inoculant concentrate containing microbes that produce enzymes which digest protein in thatch. Other enzymes break down organic matter into nutrients for other beneficial soil microbes.
For more information call 800/648-7626 or www.growthproducts.com / circle no. 257

Compact skid steer
Finn Corp.’s new Eagle 250 compact skid steer is a “hydraulic power plant” that helps labor crews do more work faster, and with fewer personnel. A 25-hp Kohler engine generates a hydraulic flow rate of 13.4 gpm. Full power is delivered to wheels and tools at same time. Oil cooler is standard. Quick-change feature allows attachment changes in less than one minute. Over 30 attachments are available, including trencher, tiller and box rake.
For more information contact Finn Corp. at 800/543-7166 or www.finncorp.com / circle no. 258

Know where you apply
Riverdale Chemical Co. introduces Razor SPI, a broad spectrum post-emergent herbicide with a blue dye spray pattern indicator to show applicators where the product has and hasn’t been applied. Razor SPI contains glyphosate which controls a variety of herbaceous plants, including Canadian thistle, velvetgrass and knapweed.
For more information contact Riverdale at 800/345-3330 / circle no. 259

Engineered To Move More Snow In Less Time.

DANIELS WING PLOW
• Unbeatable maneuverability.
• Wings fold back to transport easily.
• Six sizes ranging from 12 to 24 feet.
• Turns your skid steer or wheel loader into an unstoppable machine.

DANIELS PULL PLOW
• Ideal for small jobs and tight spaces.
• Complements your front-mounted plow.
• Hook up is fast and easy.
• Sizes to fit light trucks, sport utility vehicles, 3/4 ton and 1 ton trucks.

Putting The Fun Back Into Snowplowing.

Want to know the advantages of building a tiered retaining wall system rather than a single, taller wall? Then check out Versa-Lok’s technical bulletin on tiered retaining walls, which covers slope stability, foundation evaluation, drainage and geogrid placement. Line drawings and photographs help illustrate these and other points. For more information or to obtain a copy of the bulletin, call 800/770-4525 or log on to www.versalok.com / circle no. 276

Cosella Dorken Products says its DELTA-MS is an effective remedy for "wall weep," or the stains left on retaining walls when water seeps through joints or fissures. This dimpled, high density polyethylene membrane controls water flow and provides a cushioning layer that buffers walls against expansion and contraction of soil due to freeze-thaw cycles. It’s available in rolls from 3 ft. to 9.8 ft. wide and 65.6 ft. long, and unrolled along the wall and affixed near the top using either a termination bar or L-shaped flashing plus two courses of nails and plugs just below. For more information call 888/4DELTA4 or visit www.deltams.com / circle no. 274

Anchor Wall Systems’ interactive multimedia training program for retaining wall installation features a CD-ROM with virtual reality animation and video that showcases basic wall construction, as well as retaining wall building instruction for terraces, curves, radii, steps, fences, guard rails and water applications. For more information or to obtain the CD-ROM, call 800/473-4452 / circle no. 275

Barco Products’ recycled plastic landscape timbers are perfect for small retaining walls, walkway and garden edgings, planters and pond enclosures. They resist rotting, splintering and insect damage. The timbers measure 8 ft. X 5.5 in. X 5.5 in., feature an interlocking edge and pre-molded knockout holes for rebar rod reinforcement, and can be cut and drilled with conventional hand tools. For more information call 800/338-2697 / circle no. 277
No other product beats the durability and design flexibility of VERSA-LOK solid retaining wall units. No exceptions. Only VERSA-LOK, with its unique pinning system, permits construction of an unlimited variety of curves, corners, and steps without specification of special units.

Creating Simple Solutions

As manufacturers expand controller capability and size, we create convenient solutions to easily adapt our remote control systems. To eliminate hardwiring, we produced Receiver Cards for quick and easy, permanent installation that are capable of operating up to the controller's station capacity. With one transmitter you can control Receiver Cards for Rain Bird® ESP MC & LX, Superior Sterling and Irritrol® Dial & MC controllers. We also offer portable, universal models for all 24VAC controllers.
