The Best Overcoat
You’ll Buy This Winter...

Winter desiccation can be costly to the landscape causing loss of trees and turf. Protect your client’s investment from drying winter winds with the dependable coverage of Transfilm® Anti-transpirant. An application of Transfilm® this fall, prior to transplanting, will prevent moisture loss during the critical period when the root system cannot compensate for water lost by transpiration. And a late fall application will provide turf and ornamentals winter protection from dry, cold winter winds. Use the best overcoat available – Transfilm® Anti-transpirant.

Always read and follow label directions.
