THIS IS NOT A GOOD TIME TO BE A STUMP.

In fact, things couldn't be much worse for stumps. Especially when there's a Chevy Silverado nearby. It's got all the proven power you've come to expect from a full-size Chevy Truck. Get the available Big Block 8100 Vortec V8 and wrap its 340 horses and 455 lb-ft. of torque around the nearest stump. Then put it in gear and let the chips fall where they may. With six proven Vortec engines available to choose from, Silverado has the power to get the big jobs done. Silverado. The Truck. From Chevy. The most dependable, longest-lasting trucks on the road.**

Healthy tree growth right out of the box

Install Confidence: Install Rain Bird® RWS Series.

Water, air and nutrients are able to reach deep roots directly, using this patent-pending system that features a retaining cap and 36” long semi-rigid mesh tube.

• Root Watering System comes ready to install right out of the box, making installations quick and easy.
• Watering time can be reduced, because nourishment is delivered directly to the roots.
• Enclosed design with grate-locking feature protects the system from vandalism.
• Compatible with drip emitters, or can be purchased with a pre-installed bubbler and check valve.

www.rainbird.com
The revolution in engine technology has started. Where is everybody?
The Shindaiwa T2500 is in a class by itself. It meets all EPA emission requirements for 2005, today. But rest assured, it's environmentally friendly in a take-no-prisoners, grass-obliterating kind of way.

Shindaiwa's patented C4 Technology™ delivers a power-to-weight ratio you never thought possible in an ordinary 4-stroke. You also get true all-position operation - even when you run it upside down.

The T2500 has no oil reservoir, which means no oil to change or check. And it's quieter and more fuel efficient than a typical 2-stroke engine.

To find out more, see your local Shindaiwa dealer today, visit us at www.shindaiwa.com or give us a call toll-free at 800-521-7733.

Maybe we should print our patent number for our competitors to see. Naah. That would be rubbing it in.

Shindaiwa T2500 with C4 Technology™

- High-visibility debris shield with line cutter
- Splined, 1-piece steel mainshaft for strength
- Walbro WYL carburetor for all position operation
- 4-bearing gearcase with helical gears
- Chromed-plated cylinder with 2 ring piston
- Vibration reducing loop handle
- Heavy-duty
Work with a sound heart

As you send your teams out of your facility for a productive day in the field, don’t feel guilty that you’re not in Baghdad, helping our boys restore order. You’ve got your job to do, and they’ve got theirs. Now go do it. What you’re doing is good for yourself, your employees, your customers and, ultimately, for your country.

If you’re like me, you’ve been thinking how unfair it is for someone to be dodging bullets for your freedom while you’re safe at home. I mean, if you love your country and what it stands for, shouldn’t you be helping the cause?

Life can be unfair
Just after the war started, I was surfing through coverage on CNN.com and clicked on “Casualties of War.” I saw a picture of a man who died when two helicopters crashed over the sea. He was a young, good-looking guy with bright blue eyes and a great smile. The next photo stabbed me in the heart — it showed him and his wife with their two children, aged 10 and seven. I immediately had a vision of this man’s son grown up, looking at his father’s picture on the mantle, lamenting about how many games of catch and lazy Sundays they missed.

How unfair, I thought, that these kids will grow up fatherless while mine won’t. I wondered why his helicopter crashed while the wobbly wheel on the two-ton dump truck I passed the other day stayed on.

Fortunately, I came to my senses a short while later and realized how ludicrous these thoughts were.

Our soldiers would expect nothing less than for us to continue doing our jobs at home, just like we expect them to fulfill their mission. They’re the best trained people for that job, as you’re the best trained person to do yours. They enlisted in the service knowing that one day they might have to put their life at risk. You took all of your money and started a landscaping business, accepting that one day you might lose everything.

Follow your path
We all have chosen paths in life, and we shouldn’t look back after making those choices. Maybe the Vietnam War ended before one of you out there was called up for duty. If you had been drafted, how would your life have been different? There’s really no point in trying to figure that out.

I’ll tell you what you can do. Hug your kids every day. Don’t grumble too much about losing a bidding war for a big commercial account. Be glad you were there to give it a shot anyway. And don’t ever take for granted the smell of freshly cut grass again.

Compared to what our boys are doing in Iraq, our jobs and lives aren’t that difficult. In that light, taking a reaming from Mrs. Smith for running over her daylilies with a mower isn’t such a big deal.

Go do your job, and do it proudly. And when our boys come home, make sure their lawn is neater than the captain’s quarters.

Contact Jason at 440/891-2623 or e-mail at jstahl@advanstar.com

Our soldiers would expect nothing less than for us to continue doing our jobs at home, just like we expect them to fulfill their mission.
Options are good.
Now you’ve got Options™. Your custom plan for replacing Dursban® and Diazinon®.

Have government restrictions left you feeling, well, restricted? Options from Bayer Environmental Science gives you the freedom of seven replacements — all proven in countless trials and in years of use — to deliver consistent results that alleviate the risk of callbacks. Let our experts customize an Options program for you. Because in the quest for lush, green turf, less is not more.

DeltaGard
Quick knockdown, broad-spectrum control and good residual — all at an economical price. That’s what makes DeltaGard the world’s most popular pyrethroid. Controls more than 50 turf and ornamental pests, including ants, chinch bugs, mole crickets and fire ants, at a low use rate.

MERIT
The #1 preventive/curative treatment for grubs delivers outstanding broad-spectrum control of turf and ornamental insects at extremely low use rates. Active ingredient provides strong residual activity and superior biological performance.

DYLOX
Gain quick control over white grubs, mole crickets, sod webworms, cutworms and more. Dylox penetrates up to 1/2-inch thatch to control grubs within 24 hours.

Sevin
Over 35 years strong, Sevin controls more than 130 pests, including billbugs, armyworms, cutworms, sod webworms, June beetles, chinch bugs and white grubs. Good knock-down and excellent residual control.

TEMPO
The perfect OP replacement — safe, convenient and economical. Tempo features a low-rate active ingredient that mixes easily with water and/or fertilizer and binds to soil molecules for up to four weeks of control — giving you the most broad-spectrum bang for your buck.

topchoice
Up to 52 weeks of fire ant control and prevention with just a single, low-dose broadcast application. With its outstanding granular formula, nothing streamlines traditional two-step programs like TopChoice.

FireStar
Easy-to-use fire ant control for hard-to-reach areas. Featuring the powerful active ingredient fipronil, FireStar delivers a unique, low-dose, granular bait to landscape beds, sign bases and trees to control fire ants for 12 to 16 weeks. Works great with TopChoice and can be used in areas adjacent to water.
We need to ask ourselves, "How do we get the consumer to purchase landscaping with so many other choices?"

Sell value, quality of life

It’s amazing when you look at what’s going on this year: lowest interest rates in 40 years, people afraid to put money into the stock market and war. With so many advantages on our side, I would guess that 2003 is treating most landscapes well.

Many of you reading this are probably thinking that I’ve taken one too many whiffs of compost lately. Obviously, low interest rates are fantastic because homeowners can borrow money as low as 4.25% on a line of credit. Or even if they refinance their home, they can save hundreds of dollars per month from the higher rates of 9% to 10% that were the norm. If you do the math, every $100,000 of mortgage refinanced from 9% to 5.5% will save you $237 per month, based on a 30-year mortgage. With rates this low, homeowners can refinance and borrow 40% more than they currently owe and have the same payment they’re used to!

On your next appointment, give your customers the name of a good mortgage banker. Help them to see the benefits of refinancing their home so that they can afford a beautiful new landscape, including that backyard patio where they can entertain their friends.

Investing at home
Another advantage of being in the landscape business is we’re helping people invest in their homes. Over time, home values continuously rise from 3% to 5%, depending on the area. In these conservative times, people will invest in their homes instead of the stock market. You can help them see their landscape as an investment because making 3% is a lot better than losing 30%.

Due to our war on terrorism and the war with Iraq, people aren’t traveling as much as they have in the past. However, they still want the quality of life they’re used to. So sell them on relaxing at home by having their very own retreat, spa or waterfall. I believe we tend to be negative about certain situations, but we need to become positive and stop talking about how bad things are. Sell and make things happen!

Changes needed
So, with all these good things, why did many landscapers have a slow 2002? I believe that we have to change the way we advertise and market ourselves to the customer. We’re competing for consumers’ money because they have so many choices of how to spend it, including remodeling their homes or purchasing home entertainment systems, new cars, boats and hundreds of other big-ticket items. We need to ask ourselves, “How do we get the consumer to purchase landscaping with so many other choices?”

Most landscapers rely on word-of-mouth promotion. In my opinion, word of mouth (referrals) is the best form of advertising, but we do little to promote our referral business. Small ideas that have worked for my company are sending newsletters to existing customers, telling them of all your services and asking them to refer their friends to you or even give you a list of friends who are thinking of landscaping.
