I MAKE JOB SITES AS BEAUTIFUL AS MY PROFIT MARGIN.

In seasonally driven work, a missed day is a serious hit to my livelihood. That’s why I count on my International® DuraStar™ to keep things rolling. Its Diamond Logic® Electrical System is fully programmable, giving added protection to both my crew and equipment. And with twice the frame rail strength and braking surface of the typical pickup, I’ve got the all durability I need for the toughest tasks. Add to that the support of the nation’s largest dealer network, and you can see how job sites aren’t the only place I’m seeing green. International DuraStar, Miles Ahead. In productivity and profits.

The tough, tolerant, terrific turfgrass preferred by today's homeowners!

Today's improved turf-type tall fescues are naturally darker and finer-leafed with enhanced disease resistance bred into each seed. Landscape managers find tall fescues now have less vertical leaf growth for fewer mowings and less clipping removal, and many newer cultivars contain endophyte for insect resistance.

Don't forget that low maintenance tall fescues have always been drought, wear, shade, and cold tolerant.

To ensure quality and integrity in the seed you buy, make sure it says Origin: Oregon on the seed package analysis tag.
