I make job sites as beautiful as my profit margin. In seasonally driven work, a missed day is a serious hit to my livelihood. That's why I count on my International® DuraStar™ to keep things rolling. Its Diamond Logic® Electrical System is fully programmable, giving added protection to both my crew and equipment. And with twice the frame rail strength and braking surface of the typical pickup, I've got the all durability I need for the toughest tasks. Add to that the support of the nation's largest dealer network, and you can see how job sites aren't the only place I'm seeing green. International DuraStar, Miles Ahead. In productivity and profits.

Rave reviews. Proven results. Steady profits.

Now that Talpirid has proven its success in the field, it’s time to enhance your business.

"We finally have something we can depend on for mole control that is simple and easy to use making our job easier and our yards better."
- Ryan McGrady, Pro Green Inc.

"Talpirid had provided us with an additional revenue generating service while solving mole problems for our customers."
- Jeff Cooper, Lawn Connection, Inc.

"We did an analysis of cost and Talpirid is extremely profitable to use."
- Bill Johnson, All Green Corp.

This is a great opportunity to generate incremental revenues with an effective and profitable new service. Contact your Bell distributor or representative to best determine how to begin your own success story.

The B Series Compact Excavators from Case Construction Equipment deliver the precision, durability and confidence you need to work in tricky areas. Zero tail swing, a center-swing boom and narrower, durable rubber tracks let you focus on the dig when working alongside buildings or near obstacles. High engine and hydraulic horsepower means faster cycle times so you can tear through your toughest jobs. And easy-access panels make maintenance simpler. Visit the professional partners at your local dealer for a demo, purchase or rental options, and details on financing and service plans. See www.caseoffers.com for the latest special offers and promotions from Case.

In life it's all about priorities, and ours is to design and develop irrigation solutions that reinforce our commitment to The Intelligent Use of Water,™ like our nozzles that reduce water use by up to 30%. Everything we do revolves around water, so we feel it is our responsibility to extend our commitment beyond products and technologies to include educational and training programs that encourage others to conserve. We want to do even more, and with your help we can. To partner with us, visit www.rainbird.com/IUOW.
Today's improved turf-type tall fescues are naturally darker and finer-leafed with enhanced disease resistance bred into each seed. Landscape managers find tall fescues now have less vertical leaf growth for fewer mowings and less clipping removal, and many newer cultivars contain endophyte for insect resistance.

Don't forget that low maintenance tall fescues have always been drought, wear, shade, and cold tolerant.

To ensure quality and integrity in the seed you buy, make sure it says Origin: Oregon on the seed package analysis tag.
