Portable power
The new Honda Portable Power System (HP2S) combines a Honda generator, a smart transfer switch and a battery backup (uninterruptible power supply, or UPS). When utility power is interrupted, the UPS maintains power to the pre-selected emergency systems (such as lights or garage door opener) while the user turns on the generator. Once the generator is powered up, the HP2S transfer switch automatically transfers power to the pre-selected systems. www.honda.com or 800/426-7701

Biodiesel ready
All 2009 model year Toro Dingo TX 525 wide track and TX 525 narrow track diesel compact utility loaders will be biodiesel compatible for blends up to B20, which represents a mixture of 20% biodiesel and 80% petroleum diesel fuel. Biodiesel is a biodegradable, non-toxic alternative fuel derived from biological sources. www.toro.com/dingo or 800/DIG-TORO

Speedy delivery
The new Boxer 106 Power Barrow is a motorized, four-wheel-drive wheelbarrow designed to move materials quickly and safely across terrains less navigable for traditional wheelbarrows and competing products. Powered by a Honda GXV160, 5.5-hp gasoline engine, it can travel up to 3.5 mph and transport up to 850 lbs. in a single load. Lugged tires come standard; turf tires are available for use on delicate ground, such as sports fields. www.boxerequipment.com or 800/476-9673

U.S. LAWNS
GROW YOUR LANDSCAPE MAINTENANCE BUSINESS.

Want to Own a High Profile Franchise?
Does your business provide:
- Economic Stability

Thanks for LM’s birthday makeover

Landscape Management is in a class of its own — serving as “The Preferred Resource for Growing Businesses” for 48 years and counting. And as the Green Industry’s elder information statesman, Landscape Management isn’t afraid to show a little gray. Case in point: Check out the column mugshots of our editors and you’ll see that our gray hairs are matched only by our lack of hair.

At Landscape Management, though, it’s “Age with (not before) beauty.”

No, I’m not about to unveil LM’s version of a firemen’s calendar, featuring Ron Hall, Dan Jacobs and myself defiling otherwise-beautiful landscapes. I’m merely pointing out that with each Landscape Management print edition, enewsletter, podcast and event comes 48 legitimate years of publishing and tradeshow experience. Our editorial team’s collective 100-plus years of journalism experience — including one-third of that serving the Green Industry — is another unmatched thing of beauty.

While some lawn and landscape magazines’ staff mastheads have amounted to little more than a revolving door, Ron Hall has faithfully served as our print publication’s patriarch and one of our industry’s top advocates for a quarter-century.

Equally important as our unparalleled stability and maturity, Landscape Management has always realized that progress requires change — the right changes made at the right time by the right people. That’s why we decided to update our print edition’s line-up of award-winning content and to freshen up our always-captivating design style, starting with this January 2009 issue.

LM’s 48th birthday makeover was truly customer engineered — thanks to a series of research studies, internal and external editorial audits, and comprehensive focus groups conducted over the past year. By now (the last editorial page of our first redesign issue), you no doubt have given the turbocharged LM 2009 a good test drive. Please call or email me to tell me what you think.

Following are just a few of the myriad redesign upgrades we’ve implemented thanks to loyal readers like you teaming with our experienced, award-winning editors and talented Art Director, Carrie Parkhill:

» Reader Advisory Panel — Underlining our continuous commitment to receiving, and acting quickly on, customer feedback, we rotated our Reader Advisory Panel members to ensure we’re tapping the wisdom of different movers and shakers from each key business segment.

» Table of Contents — Our new Contents page underlines Landscape Management’s more-flexible flow (departments/columns/features format) and incorporates LM’s Market Match icons directing readers to features targeting their respective core businesses (lawn care, maintenance, design/build, irrigation and business topics) so each reader can spend more time diving into the information that matters most to him/her.

» News + Views — Recognizing the extensive time demands of our readers’ work, this section comprises more quick-hitting bulletins on Green Industry events, trends and tips. It also features our new “Word on the Street” quotables from industry insiders on the hot topic of the month and factoids such as our new “Believe it or Not” nuggets.

» My Biggest Mistake — Managing Editor Dan Jacobs taps his vast industry contacts and freely shares their biggest business lessons learned the hard way.

» Livescapes — A new bimonthly special section covering color trends and tips.

The list of customer-engineered upgrades goes on and on. And as always, more redesign twists — to both our print and digital media platforms — will be revealed in the coming months, so please stay tuned.

Everyone knows that with age comes wisdom. After reading this redesigned issue, we hope you also now see that beauty need not be compromised in the aging process — that nip-and-tuck makeovers aren’t just for Hollywood’s 40-somethings.
Think of this as our own little “stimulus package.”

Two great products. More money in your pocket.

Now more than ever, the key to profitability is installing quality products. For years, Rain Bird DV and JTV Series Valves have been known by contractors everywhere for their reliable performance—fewer call-backs, happier customers and more positive job referrals. Now the valves you trust are available at a much lower price, so you can stay profitable even when times get tough. Choose Rain Bird, the irrigation partner you can count on for proven performance.

For more information, see your Rain Bird Distributor or visit www.rainbird.com.
