Mega-Tandem Mass Segmental Retaining Wall

The Mega-Tandem MSRW system provides the natural appearance of chiseled stone and can be used to create curved or straight retaining and freestanding landscape walls. Available in 12-in.-by-24-in. panels weighing 65 lbs. apiece, the system has a running bond configuration so no patterns are required. It’s offered in three color blends and 12 different facial textures.

BT60, BT65 and BVT65

BOMAG’s new line of vibratory tampers includes the BT60, BT65 and BVT65. The tampers combine low operating weights with compaction performance to optimize productivity and ease of operation in applications such as trench construction and landscaping, among others. These models range in weight from 128 pounds to 150 pounds and in impact force from 3,372 pounds to 3,822. Each model is powered by a 4-cycle Honda engine with recoil starter.

Bradco Hardscape Grapple

Mount the new Bradco Hardscape Grapple on skid-steer loaders, compact tool carriers and compact tractors to handle materials such as concrete paver sections, small boulders and granite/limestone/concrete steps. As a hydraulically powered alternative to forks, pry bars and brute strength, the attachment’s grapple arms and rubber grips adjust automatically to the shape and contour of the material being grasped without additional positioning.

PLANET DAY OF SERVICE
NATIONWIDE, APRIL 22, 2014

Each year, landscaping professionals from across the nation unite for a day of giving back to their local communities. On April 22, 2014, thousands of volunteers will participate in hundreds of projects that brighten communities, improve quality of life, and bring national awareness to our industry.

Giving back is a fundamental value we all share. Join in this nationwide effort. Visit PLANTDayofService.org to include your project in the collage of caring.
Gary LaScalea, 
president of GroGreen, Plano, Texas

Who’s your mentor? I’ve been in the industry for 40-some years, so I’ve had several. Bob Maddux, he’s one of the guys that inspired me back in my early days when I worked at a garden center (Delhi Flower & Garden Centers) in Cincinnati, Ohio. He was the guy that worked you very hard, but you respected and learned from that. Thomas Smith was another. He was one of my professors at University of Cincinnati. I worked under him at Spring Grove Cemetery in kind of an internship. My wife, Sallie, also has been a real mentor. It’s that marriage team. Your spouse has to get you inspired when you get out of work or in those times you’re frustrated. Without my wife, I probably wouldn’t be successful.

Your business has a pest control component. Any tips for business owners considering implementing that service? We always look at how we use that word “pest control.” It’s more pest prevention, looking at issues on the outside to see what homeowners can do to prevent them from coming inside. It’s a better integrated pest management outlook that requires a lot of perimeter treatments to prevent inside invasions. There was a time when everyone went inside the home and treated all the baseboards, but now you have environmentally conscious people. You always want to look at what that need is.

What in the industry has changed most over your “40-some years” in lawn care? The workforce has changed quite a bit. For one, you don’t put an ad in the paper anymore. It’s all about networking and having an eye open to try to recruit somebody. In terms of work ethic, people get educated now and I don’t think their first focus is to work outside. They like to work behind the computer. You have to make sure they see an opportunity (in the Green Industry) for growth and advancement.

I’d say regulatory issues, too, just in general. The labor board, ordinances and laws about what you can and cannot do sometimes make it hard on a business. You spend a lot of time on those interruptions and there are costs associated.

How do you strike a work/life balance? In our industry it’s hard to plan things for your personal life. You have to take advantage of when time opens up for you to do something you enjoy. Do it in the moment. Sallie and I will take a weekend to head to our place in Sarasota, Fla., and we go to Dallas Mavericks games. We’ve been going to those for, gosh, maybe eight years. Now we have floor seats.

What’s the most satisfying part of your job? It’s that moment when you go on the lawn, see how good it looks and know you contributed to that beauty. Related to that is when I’m at church or shopping and someone recognizes me for my service because they’re my customer. It makes you feel good because you know you’ve built a reputation. When you try to be a part of the community, people know who you are. Everything in life is about relationships.
NEW from Quali-Pro®...

**2DQ Herbicide**

Containing three active ingredients that provide weed control of annual and perennial broadleaf weeds in warm-season and cool-season turf grasses. 2DQ is for use on ornamental turf lawns (residential, industrial, and institutional), parks, cemeteries, athletic fields, sod farms, golf courses (fairways, aprons, tees, and roughs), and similar turf areas to control clover, dandelion, henbit, plantains, wild onion and many other broadleaf weeds.

Innovation you can apply.

For more information on our wide selection of turf and ornamental products, visit quali-pro.com or call 800-242-5562
