CUCUMBER BEETLE

He Will Not Be Coming All Kinds of Trouble—Bees and Cucumbers Will Make Him a Victim of His Own Pest Control

The cucumber beetle is a serious pest to gardeners, causing damage to cucumbers and other vegetables. It is a small, greenish-blue beetle with a black stripe down the back. It feeds on the leaves and flowers of cucumbers, causing them to wilt and die. The damage is often not noticed until the cucumbers are already too far gone to save.

To prevent or reduce the damage caused by cucumber beetles, gardeners can采取以下措施:

- **Planting Crops Early**: Planting cucumbers early in the season can help reduce the population of cucumber beetles before they become a significant problem.
- **Rotation of Crops**: Rotating crops with cucumbers can help reduce the population of cucumber beetles by breaking the life cycle of the pest.
- **Cultural Practices**: Practicing good cultural practices such as proper irrigation, sanitation, and removal of debris can help reduce the population of cucumber beetles.
- **Natural Enemies**: Encouraging beneficial insects such as ladybugs, lacewings, and syrphid flies can help keep the population of cucumber beetles in check.
- **Chemical Controls**: In some cases, chemical controls may be necessary to manage the population of cucumber beetles. However, it is important to use these controls judiciously and to follow all label directions to minimize harm to non-target organisms and the environment.

In this article, we discuss the cucumber beetle, its life cycle, and some strategies for managing its population in your garden. We also share a recipe for a cucumber salad to help you enjoy your harvest despite the presence of the cucumber beetle.

CUCUMBER SALAD

Ingredients:
- 2 cucumbers
- 1 red onion, thinly sliced
- 1/2 cup cherry tomatoes, halved
- 1/4 cup sliced almonds
- 2 tablespoons olive oil
- 2 tablespoons red wine vinegar
- Salt and pepper to taste

Instructions:
1. Cut the cucumbers into thin rounds.
2. In a large bowl, combine the cucumbers, red onion, and cherry tomatoes.
3. In a small bowl, whisk together the olive oil, red wine vinegar, salt, and pepper.
4. Pour the dressing over the cucumber salad and toss to combine.
5. Sprinkle with sliced almonds and serve.

Enjoy your cucumber salad and be sure to keep an eye on the cucumber beetle in your garden. With the right management strategies, you can continue to grow healthy cucumbers.

LOWEST POSTAGE RATE

Leaves on for Two-Cent Agency

The new rates do not take effect until July 1, all orders entered before that date will be returned to the sender if postage is insufficient.

ALMOST MAKES IT EASY.

As a result of changes that will be made in the 1921 Postal Service Act, the Postal Department is able to offer the public the lowest rates possible. The new act will provide for the establishment of a two-cent agency, which will enable the public to send letters at the lowest possible rate.

The advantage of this new service is that it enables the public to send letters at the lowest possible rate. It also allows the public to use the two-cent agency for letters that are not too heavy to be sent by the regular service.

For more information on the new rates and how they will affect you, please contact your local post office or visit the Post Office website.

New Telephone Toll Rates

Effective June 13, 1919

By order of the Postmaster General, new schedules of toll rates for telephone calls are now in effect. The new rates are lower than those in effect prior to the change.

Under the new schedule, the rate for a telephone call from one telephone to another is $0.02 per minute. This rate is lower than the previous rate of $0.03 per minute.

In addition, the rate for a call from a telephone to another telephone is $0.01 per minute. This rate is lower than the previous rate of $0.015 per minute.

The new rates are intended to make it easier for people to make telephone calls. The lower rates should encourage more people to use the telephone as a means of communication.

The new rates are also intended to increase the use of the telephone in businesses. The lower rates should encourage businesses to use the telephone as a means of communication.

For more information on the new telephone toll rates, please contact your local telephone company or visit the website of the United States Postal Service.
