

MICHIGAN AGRICULTURAL COLLEGE
EXPERIMENT STATION

PRESS BULLETIN NO. 33

TO THE EDITOR:

The notice below may be of value to some of your readers. We, therefore, ask you to co-operate with us in calling attention to this timely matter.

R. S. SHAW,
Director.

OF INTEREST TO ORCHARD
OWNERS

Orchard owners would do well to inspect the trunks of their trees without delay, for evidence of injury by rabbits or mice. Now is the time to repair this injury. It is not difficult and a little work may save a valuable tree. Full directions as to how to do this work are given in a circular issued by the Michigan Agricultural Experiment Station that will be sent free upon request.

Now is the time to graft over undesirable varieties of fruits to good sorts. The work is easy to do. Circular 14, Michigan Agricultural Experiment Station, gives plain directions. It is sent free on request to R. S. Shaw, Director, East Lansing, Michigan.
