Feed F. B. Milkmaker Next Winter at Summer Prices

**Potato Exch. Annual Meeting Aug. 15-16**

Walter Frost, Director of Cooperative Marketing for the American Farm Bureau Federation, to be the principal speaker at the Michigan Potato Growers Association annual meeting at Grand Ledge, Aug. 15-16. Mr. Frost, in a talk on the farm chromosome, will present his views on the advantages of the cooperative marketing idea. Mr. Frost will also discuss the problem of the potato industry during the depression years and the future outlook. The meeting will be held at the Grand Ledge Inn.

**POOL YOUR WOOL BEFORE SEPT. 1**

Pool Closed Then Signs Point to Another Good Year

The producers of wool in the Panhandle of Alaska have placed their wool in the pool. The latest report from the pool has indicated that the wool is of high quality and that the pool is being well managed. The pool is expected to continue to grow and to provide a stable market for wool producers.

**POOL YOUR REFRIGERATOR**

The Michigan Fruit Growers Association, Inc., is establishing a refrigerator pool in the state of Michigan. The pool is being established to provide a stable market for fruit producers and to improve the condition of the Michigan fruit industry. The pool is expected to be well managed and to provide a stable market for fruit producers.

**FARMERS UNITE TO FIGHT FOR ECONOMIC REFORM**

In the country, having an annual income of $1,000 or less, the average farmer buys over a dollar's worth of goods and services. To help the farmer, the American Farm Bureau Federation has been established. The Federation is working to secure the interests of the farmer and to improve the condition of the farm industry. The Federation is working to secure the interests of the farmer and to improve the condition of the farm industry. The Federation is working to secure the interests of the farmer and to improve the condition of the farm industry.
been forced down to peasant conditions. strive to create greater efficiency in the methods of market-organization, like the Farm Bureau, not only might, but a member of the President’s cabinet and attended all the meetings of legislation of interest to farmers received his signature and became in America and the high cost of living, the President stated: the loss of a true friend, a great leader who understood the farm-We must find a greater net returns to the producer, what is needed is a transportation system of greater efficiency than that has been developed under the old system, which would be better for the shipper and for the grower. The message of the Farm Bureau under Michigan comes out of the wide organization of the farm that is necessary to protect the farm—a greater share in that which he furnishes to the com-
tion has grown too cumbersome, too costly. We must find the greater efficiency in marketing and distribution will prove of mutual advantage.

BUREAU IS READY WITH FALL SEEDS

Better Grain Seed Is Urged As Aid to Lower Per Bushel Cost

With price of certified seed wool higher than prices of ordinary wool, there is every indication that an increasing number of Michigan farmers will plant certified seed in their fields this year, Mr. F. M. Oehmke, president of the Michigan State Farm Bureau, reported to the meeting of the Michigan State Farm Bureau at Saginaw. The meeting was held at the L. W. Smith Auditorium, Saginaw, on Tuesday, August 10.

Bureau Offers Bargain On Campers’ Blanket

The Farm Bureau offers a red blanket in a solid red woolen blanket, 60 inches square and 7/8 inch thick. The blanket is made in the size of a twin bed and is $1.00 per dozen. It will make an ideal automobile blanket, as roughage in dairy rations. Soy bean meal is another substitute, but this is very expensive. The Farm Bureau has a large supply of this material and will be glad to supply it at a reasonable price. A few examples will make this point more clear. For in- other words, the co-operative system is not only more efficient than the old system, but it is also better for the shipper and for the grower. The message of the Farm Bureau under Michigan comes out of the wide organization of the farm that is necessary to protect the farm—a greater share in that which he furnishes to the consumer. The saving effected by the adoption of co-operative marketing and distribution is greater net returns to the producer, what is needed is a transportation system of greater efficiency than that has been developed under the old system, which would be better for the shipper and for the grower. The message of the Farm Bureau under Michigan comes out of the wide organization of the farm that is necessary to protect the farm—a greater share in that which he furnishes to the consumer. BRADFUTE LAUDS CO-OP MARKETING AT FARMERS' DAY

Bradfute Lauds Co-operative Marketing

"The American farmer has been made aware of the world's competition," said President Bradfute of the American Farm Bureau Federation, who announced that his new policy was to push for the development of co-operative marketing at the annual session of the federation yesterday.

Bradfute continued, "In the past, we have been too much interested in the production of the farm, but today, we must be concerned with the marketing of the farm. Marketing is the key to our future. We must work for the development of co-operative marketing to ensure a fair price for our farmers.

FERTILIZER

Guaranteed Goods  Right Prices

Buy through your Co-op.

The Michigan State Farm Bureau, the Ohio Farm Bureau and the Indiana Farm Bureau have combined their fertilizer services. This service has been offered to members in their respective states of the entire output of a new fertilizer factory. This factory has just been completed and everything known to modern science has been installed to guarantee the fertility of a high grade at a minimum cost.

The fertilizer is manufactured in this plant in the heart of Michigan, from only those fruits and vegetables which have been produced under the supervision of State inspectors. The State inspectors are located on farms in Michigan, Wisconsin and Illinois.

These States have been chosen as outstanding from a scientific standpoint. The results of these tests show that the fertilizer is the best of its kind on the market. It is a complete fertilizer for all crops and will give the highest yield of crops.

The price is right, the quality is right, the service is right.
