A Lambe gorg'd wolf who close in kenell lay, | The conquering Swain his Justice to evince
First kills the wolf, and then the Evidence.

F A B. XLII. De Vulpes & Lupo.

Vulpes quum in puteum fortuito incidisset, Lupum in ripâ pretereuntem vidit, rogavitque ut funem sibi compararet, opemque daret ad seipsum à tanto periculo extrahendum, cui Lupus ; Miserrime Vulpes condoleo tuum Infortunium ; dic precor quomodo in hunc puteum incidisti ? Respondebat Vulpes, Non opus est ambagibas, Quin tu funem comparato, & deinde omnia tibi in ordine expediam.
