Try dried beans and peas in family meals to stretch the food dollar. Use them as a main dish or side dish for a meal that is packed with protein.

### HOW TO STORE DRIED BEANS AND PEAS
1. Store beans and peas in an airtight container. Choose a cool, dry storage place. Dried beans and peas do not need to be refrigerated.

2. Dried beans and peas will keep up to two years if properly stored.

### PREPARING BEANS AND PEAS FOR USE
1. Sort through beans or peas and discard any that are discolored or shriveled. Rinse beans or peas well.

2. Dried beans require soaking before they are cooked, to replace the water lost in drying. Dried peas are best when soaked but soaking is not necessary. There are two ways to do this:
   - **Quick soak**: Bring 1 pound of beans or peas and 6 cups of water to a boil. Boil 2 minutes. Remove pan from heat and let stand 1 hour. Drain.
   - **Overnight soak**: Soak beans overnight in a pan containing 6 cups of water for each pound of beans or peas. Drain. (Beans and peas soaked by this method will keep their shape better, have a more uniform texture, and cook more quickly.)

### HOW TO COOK BEANS AND PEAS
1. Cover the soaked beans or peas with water. Add 1 tablespoon of oil or other fat to reduce foaming during cooking.

2. Bring them to a boil and then reduce heat to low.

4. Beans and peas are done when they are fork tender. Most varieties will take 1 1/2 to 2 hours to cook.

One cup of dried beans and peas makes about 2 1/2 cups when cooked.

### BEANS AND PEAS ARE GOOD FOR YOU
Beans and peas are an inexpensive source of protein, iron, thiamin, riboflavin, and fiber. For a nutritious meatless meal, combine beans with rice or corn to provide high quality, complete protein. If you are on a special diet, remember beans and peas are low in sodium and fat.

While these are the most common uses for beans and peas, you can freely substitute one type of bean or pea in a recipe for any other type.

## NAVY BEAN SOUP

*(this recipe makes about 3 quarts)*

1 pound dried navy beans  
1 meaty ham bone, or 1½ pounds ham hocks  
1 cup chopped onion  
1 cup chopped celery  
2 garlic cloves, minced  
2 bay leaves  
1½ teaspoons salt  
1 teaspoon pepper  
1 cup raw brown or white rice

1. Place beans in a large kettle and cover with 4 cups of water. Bring to a boil; boil 2 minutes.
2. Remove from heat; cover and let stand 1 hour. Drain.
3. Add ham bone and 8 cups water to beans. Bring to boil and then simmer 1½ hours.
4. Stir in remaining ingredients. Simmer 30 minutes or until rice and beans are tender.
5. Remove meat from ham bones and add to soup.

*Serve bean soup as a main course for lunch or supper with crackers and a salad.*

## BEAN OR PEA SPREADS

*(this recipe makes about 3 cups)*

3 cups mashed cooked beans or peas  
(any variety)  
½ onion, chopped  
1 clove garlic, minced  
2 tablespoons oil  
3 tablespoons lemon juice  
salt to taste

1. Cook onion and garlic in oil until soft.
2. Combine with remaining ingredients and mix thoroughly.

*Serve bean and pea spreads on crackers or make an open face sandwich topped with cucumber and tomato slices.*
