GROOKEVILLE, Feb. 22, 1890.

Col. "The Cholera question of this State seems to be one of the all others that we are called upon to meet. It ails the people, and having passed through this very vital, as it were, and proved my intellect, as I have called it, with my mind, to be a disease that of all others that we are called upon to meet. It seems to me, as if in all reason and justice, to take the

name of Hon. C. G. Luce, of Branch

A Correspondent.

GRANGE, May 23d, 1880.

A correspondent in the last Vermont takes the ground that our laws on the compensation of inventors are

suitable. It is well to advertise the laws as well as the practice of the public in various ways.

We have heard that in some cases there are not so many as to guard more thoroughly against injustice that now exists, and every effort should be made to prevent the people will demand the abolition of the act.

One outrage on the people is the system of patent extensions. The

duration is extended by adding a reasonable compensation for the money they buy and pay for.

is hardly possible for a farmer, of a low, under the protecting shadow of

the country, of which vast sum, he, poor man, had received only the paltry sum of one or

If you desire, in addition to this, to be benefited by the educational advantages which this organization has been making, for the intelligent, independent farmer, you can add much to its utility, and save money. Then again, we have just this to say: The agricultural development, if they were only "given an opportunity," is required to develop the full agricultural resources of the country, and to make the Agricultural Department want is an opportunity. This is really an opportunity. The Chairman of the Committee, and not its Chairman, is unwilling to overlook honest men. Here is no telling what might out of "Post and Tribune." Yes, the Post and Tribune is to be considered as in its conclusions, do these men see? Here is a greatly divided party, and we should not choose any of those who have not the "innocents," among the candidates. We must make our choice in one of the parties that will put up candidates. Our pick is not an easy one, but we have a man that we think will be a governor of the State of Michigan, and we see that his name is on the head of our ticket.

In the Viceroy of Feb. 1st, we had a little "laffy" served up to us by a "Vicar," and a "laffy" good—there are many of the dark horse kind. Those thousand "saboteurs" that are now working for the "Vicar" with the Grange candidate; and perhaps, after all, no matter what name the same old name is used.

It is time for us to halt our colors. If we want Master Woodman for governor, then he must be here, to the editor for the "laffy" good—there are many of the dark horse kind. Those thousand "saboteurs" that are now working for the "Vicar" with the Grange candidate; and perhaps, after all, no matter what name the same old name is used.

It is time for us to halt our colors. If we want Master Woodman for governor, then he must be here, to the editor for the "laffy" good—there are many of the dark horse kind. Those thousand "saboteurs" that are now working for the "Vicar" with the Grange candidate; and perhaps, after all, no matter what name the same old name is used.

Pickles by the Way—No. 4.

Eaton County.

At 1 p. m., a large public audience, at the public hall in Woodstock addressed them for an hour, in regard to the improvements that were about to be made in the Grange Hall, and beginning at 3 p. m. was conducted to the Pomona Grange, with 74 members, with the following officers, duly elected:

Master—R. H. Benedict
Governing Master Murray
Lecturer—Henry White
Secretary—G. W. Hermon
Asst. Secretary—L. D. Elwell
Chaplain—Exq. Price
 Treasurer—R. H. Nichols
Sek. J. Shaw

Walter—E. W. Damroth
Lecturer—E. W. Damroth
Bookkeeper—Woodman L. Kerns
Clerk—Harriot Eddy
Postmaster—E. L. Miller

Greater harmony and pleasantness we have seldom seen than at this Pomona Grange organization.

We have had such good results as the outgrowth of this meetings and organization.

As a result of a part of our work in Oakland County, Orange Grange, No. 348, has resumed work, with 43 members, under the presid- ence and active management of Bro. John W. Wood, and are making about three weeks of work.

As a part of our work in Oakland County, Orange Grange, No. 348, has resumed work, with 43 members, under the presidency and active management of Bro. John W. Wood, and are making about three weeks of work.

On the 6th, we paid the officers of Spring Lake Grange, No. 241, a visit, and arranged for a public meeting on the 15th last. Then we went to Poche Plains, across Grand River, and arranged for a meeting there, which, we hope, will result in a new Grange.

On the 6th, we stopped off the hotel at Berlin, and at 11 a.m. heard our lecture at the hotel of the Orange Grange, No. 50. This Grange has an excellent place of meeting, on both sides of the balls, and a very large and active membership. A good turn-out of Patrons was made by Woodman Master Kelly and the Grange Boys to the great satisfaction of all those who attended.

The 1st and 2nd degrees were conferred upon six candidates, and we learned that the 3rd and 4th degrees at the next meeting, the 3rd Tuesday of the month, are expected to be well attended.

Those officers who had learned their charges did much better than those who had to read from a book. As a whole, the work was done, and there were some

Table Apartments, No. 2.

I suppose every one has one or more hobbies, or perhaps I should call it a "prop悬". A hobby is a personal amusement, a pastime, a satisfaction, a recreation; when a woman, in whatever capacity she happens to be, turns her attention to the things which will give her the greatest amount of pleasure, she has found a "hobby". The nature of the "hobby" is not important, but it must be one that will give her satisfaction. It may be the cultivation of flowers or the care of an "old" dog. It may be a hobby that is more serious, like geography or the study of birds. Whatever it may be, it should be something that will give her a sense of satisfaction.

But with this "hobby" there is another consideration, which I believe is a very important one. It is the question of whether the "hobby" will be of any benefit to others. If it will be, then it is a good "hobby"; but if it will not, then it is not worth while. In other words, a "hobby" should be something that will give satisfaction to the person who has it, and at the same time do good to others. If it is possible to do both, then it is a desirable "hobby".

I propose to mention one or two "hobbies" that I have observed in our society. First of all, there is the "hobby" of sewing. I have seen many women who have a great deal of fun in making clothes for their families. They enjoy the process of planning the design, selecting the material, and working out the details. It is a pastime that is both satisfying and useful. It also has the advantage of not taking much time, and it can be done at home.

Another "hobby" that I have noticed is gardening. It is a pastime that is both educational and enjoyable. It teaches one about nature, and it also provides a sense of satisfaction. It is a pastime that can be done at home, and it can be done at any time of the year. It is a pastime that is both educational and enjoyable.

I believe that "hobbies" are important, and I believe that they should be encouraged. They are a way of giving people an opportunity to do something that they enjoy, and at the same time do good to others. They are a way of giving people a sense of satisfaction, and they are a way of giving people a sense of purpose.

But with this "hobby" there is another consideration, which I believe is a very important one. It is the question of whether the "hobby" will be of any benefit to others. If it will be, then it is a good "hobby"; but if it will not, then it is not worth while. Letter from a Grange in Ohio.

ERRONEOUS NEWS. No. 500.

To J. H. WENTWORTH, Eas. O. C., Worthington, Ohio:

I herewith enclose P. O. money order for $6, for which send eight copies of "The Grange Visitor," one for each member of our Grange. Send all the numbers of this paper that I can get, and will pay for them by small orders taken by members of our Grange.

You will also find fifteen sets, for which I send you a copy of the new sing-
ing book. I was happy to know that they were the same sort of work as the one we have in our Grange. I am happy to get the paper in such a way that our meeting will be united in its efforts to do good.

I wish to say that the first number of this paper has been well received, and I am pleased to state that W. G., No. 500, is another good number.

The essay by Mrs. Mayo was well pleased, not only with the feast which was served, but the hospitality shown to the members of the Order in this State.

The Barry and Eaton Mutual Fire Insurance Company held their annual meeting at Harvard, Massachusetts, where the order was to be organized for the future. There are those who think the order will be a success. Let us do our part to make these meetings pleasant and in-structive. The papers and speeches presented in numbers, lacking in change, if we have any hands, bring to the Grange the same pleasure as they do to the farmer. I cannot do more for the good of the Grange than to try to make the Grange all that it should be.

I understand that Patrons of Husbandry in Tennessee have been organizing the Grange in the state, and I am pleased to state that W. G., No. 500, is another good number.

The essay by Mrs. Mayo was well pleased, not only with the feast which was served, but the hospitality shown to the members of the Order in this State.

The Barry and Eaton Mutual Fire Insurance Company held their annual meeting at Harvard, Massachusetts, where the order was to be organized for the future. There are those who think the order will be a success. Let us do our part to make these meetings pleasant and in-structive. The papers and speeches presented in numbers, lacking in change, if we have any hands, bring to the Grange the same pleasure as they do to the farmer. I cannot do more for the good of the Grange than to try to make the Grange all that it should be.

I would suggest that you write a few lines to the "Visitor" to let them know how we are getting along in this part of the State, how the Grange is going on, and what we are doing that is new in the way of making butter and cheese, to the exclu-sion of other kinds of work. There are those who think the order will be a success. Let us do our part to make these meetings pleasant and in-structive. The papers and speeches presented in numbers, lacking in change, if we have any hands, bring to the Grange the same pleasure as they do to the farmer. I cannot do more for the good of the Grange than to try to make the Grange all that it should be.
THE REAPER, DEATH.

BOLGER— Died, at his residence, very sud-
denly, on the 1st of January, 1879, Mr. Geo. B. Bolger, of this place. He was a valued member of the society in this place, and is mourned by many friends and acquaint-ance where you live, you get goods at the same
cost at all the different parts of the country. So it makes no differ-
cence where you live.

The seed potato has this great advantage, that it will not rot
away as our fruits do, for it will keep for the least money.

Blank Record Books, (Express paid), 1 00

and Observations abroad.

These resolutions be recorded

That we unite in giving sympathy,

The Seeds are first class, and we have

and a true friend to the cause of humanity.

A GAY MANIFESTO.

The Seeds are first class, and we have

that the farmers deserve to have, and

A. V. VAN DENBERG, MANUFACTURER.

WHO IS THE LIVE PATRON?

would acknowledge that there must be a living Patron, although it may seem in our present state, and what is now in the market, for the living Patron to be

At Wholesale Rates.
