Patrons of Michigan.

It is not necessary to reside, particularly to you, the history of the contest covering a period of over twenty years, nor the personal interest of Michigan on the one hand, and the manufacturer of plaster, on the other.

It is sufficient to say, that the contest grew out of a violation of contract, by an old manufacturer, or plaster, after the agreement was entered into by the Patentee, the President of the Patentee Association, on the one hand, and the manufacturer of plaster, on the other.

This Association held a meeting at its place of business, held the arrangements of your Executive Committee enabled the Patron of the State to obtain a list of the names of those manufacturing concerns comprising the Association, who deseased one month to prepare and break down the properties of the Grange plaster mill, Messrs. W. B. Young.

This effort involved half the manufacturers who were the first parties to the contract to the benefit of the manufacturer, and those who have held out have done so in an amount of thousands of dollars.

Day & Taylor, with commendable liberality, have continued their business for this purpose, and are prepared at all times to make their business at the least cost to any manufacturer in the State.

The Patron of the State have manifestly stood by the arrangements, and will go to their business in their best energies.

The third quarterly meeting, held at Wayne Co. Pomona Grange, was one of the most important that the Association has ever held; the music and all the exercises, essays and discussions, were excellent; every minute was full, and but for fatigue, as much more time could have been profitably occupied.

We have so often been told by our Michigan Patrons, that the Patrons of the State have bravely stood by them, notwithstanding a 24-hours rain, and a pressure, and resisted temptations to get out, and to abandon their principles.

The Michigan Patrons at $2.00 per day. All members of the Michigan National Grange at $5.00 per year are entitled to the National and weekly, which consists of the best local, fruit, fruits and honey that can be procured, served in a manner that skill and purity can combine, but they are not to be carried away from the dinner table, and but for those moments of time, and results not surrender the principle involved in the arrangements.

Music, then discussion (continued) on "Good of the Order;" discussion on "Flowers," and "Why do Surface Phosphates Fail?" with black-board illustrations, by E. C. Nordin.

After a recess of fifteen minutes, the Grange was called to order, and Ada Gordon recited the "Patron's Prayer," by E. C. Nordin, written for the occasion.

THE GRANGE VISITOR.

The whispering breeze of summer was the only breeze we heard all day; and the leaves, they were falling upon us. The leaves were falling upon us.

And let it be so, for the excitement of Mission's fair day when the May Pole was set up was the great event of the day.

That which has walked and gone to glory.

To a new scene and sweet new home.

Delightful as was the few days of vacation, we longed for the witching scenes of the Mission, and the lovely scenes of the twilight that was as the day and evening was as the night.

Nowhere do we enjoy our meetings more than in our old home, in Mission, being surrounded by our friends. We are all the more blessed in seeing our friends, and all the more blessed when we are surrounded by our friends...

That is at the gate of the morning.

When traversed by sweet birds of song, and when the sun beholds the scenes of Beauty takes up and prolongs.

The evening is a season for contemplating on the close of our day's work, and for the stewardship of the day.

The feeling we do not express.

Pickings by the Way, No. 17.

Inland we left our readers. Had not they heard of the great and impressive meeting of the last number of the VISITOR.

Mr. and Mrs. E. L. Reynolds, with whom we enjoyed a very pleasant visit. Several members of the family met us, and a general expression of interest, we were shown several specimens of very white, and even a single, cotton, that was not analyzeable.

It is a season of blanketing, whether by the printer or ourselves.

Tuscalo, Sept. 9th.

Mrs. Reynolds could bear his pouncing impound to take us in the home of the W. M. of Inland Grange, Y. T. Gardner. A few minutes with a fine member of the family, and we then took as our way toward home.

A ride of 6 or 10 miles, and G. A. Gardner, of Monroe Center, met us, and we changed to his buggy, and in company with him and wife, rode to the home of Mr. and Mrs. Forbush, which is a truly comfortable home.

The ride was pleasant, and the thanks due to the friends. To a new scene and sweet new home.

To be his to vore when she calls.

As we go hence we earnestly hope the members of the Order in this vicinity, would do well to instruct their constituents in the unwritten work, and the means of our Order...to them.

During the meeting, and with a true spirit, we were shown several fine shows of...to the fair.

We were met by Bro. H. Parmalee, who A. M. we were at Hunter's Creek, and Bro. Hatch delivered us at the depot in year-old short-horn that has taken sale of Mr. Ingall's, of Almont, also his interest in the action. At 2 p. M. the principles or interests, or both, of ance begun 24 years since. At 2 p. M. pleasant call upon David Clark, who is with host and hostess we made a pleasant call upon old pupils and friends, and the society of its companionable members were soon ready to be called for to take results from it. At a late hour Bro. E. and the society of its companionable members were soon ready to be called for to take results from it. At a late hour Bro. The GRANGE VISITOR.

SCHOOLCRAFT, NOV. 1, 1880.

Secretary's Department.

EXECUTIVE COMMITTEE MEET-ING AND OTHER MATTERS.

In the absence of our President, Bro. Childs, the Executive Committee of the Michigan State Grange, met at the Union Building, on the evening of the 19th of October.

The committee were called together for the purpose of making arrangements for the annual session of the State Grange, and to dispose of two or three appeal cases from Subordinate Granges. All the members of the committee were in attendance except Bro. Rothwell.

The preliminary arrangements for the next session were soon made. Representative Hall in the new Capitol is the place, and 10 o'clock, December 14th, the time of meeting. It was agreed to notify the Commandant in charge of the annual sessions, and as our Capital City has been ordered the committee will correspond with this office, will please give the necessary instructions.

The committee were called together for the purpose of making arrangements for the annual session of the State Grange. All the members of the committee were in attendance except Bro. Satterlee.

We have seen enough of it to be satisfied that the President and Professors are doing earnest, faithful work, and are really anxious to improve both the Agriculture and the Agriculturists of Michigan.

Thursday morning we took a run over to the Agricultural College. We had but little time to look about, but we have seen enough to be satisfied that the President and Professors are doing earnest, faithful work, and are really anxious to improve both the Agriculture and the Agriculturists of Michigan.

We have not offered dry goods, groceries or hardware, but just news, and we feel morally, as premiums to those who send us subscribers. We have only offered an extra copy to any person sending us ten names with pay for the paper for one year. We have some-times thought that some of our farmers who get into the Legislature entertain such views. We have sometimes thought that some of our farmers entertain such views. We have not offered dry goods, groceries or hardware, but just news, and we feel morally, as premiums to those who send us subscribers. We have only offered an extra copy to any person sending us ten names with pay for the paper for one year. We have some-times thought that some of our farmers who get into the Legislature entertain such views. The people, a body, are not once comprehended and every proposition which is brought before them is subject to their, rights and bettering their condition, on the more pugnacious side, but at no period in the world's history have they been progressing more rapidly than at the present time.

Of Bro. Holloway, we know that he is thoroughly honest, is a genuine farmer, and has no interest in the liquor dealers, for whose business we have a decided abhorrance, and with whom we could in no way affiliate. We understand that the temperance question occupies a prominent place in the canvass, that Mr. Jerome has substantially refused to commit himself either way, and that Mr. Holloway has so replied to the interrogatories of the liquor dealers association as to be thoroughly antagonistic to them. We understand that Mr. Woodman has pronounced directly in favor of temperance legislation.

We have not offered dry goods, groceries or hardware, but just news, and we feel morally, as premiums to those who send us subscribers. We have only offered an extra copy to any person sending us ten names with pay for the paper for one year. We have some-times thought that some of our farmers who get into the Legislature entertain such views. The GRANGE VISITOR FOR 1881.

We have not imported our friends much this year in behalf of the Grange, but the real friends of the order, the honest, steady, dry goods, groceries or hardware, but just news, and we feel morally, as premiums to those who send us subscribers. We have only offered an extra copy to any person sending us ten names with pay for the paper for one year. We have some-times thought that some of our farmers who get into the Legislature entertain such views. The people, a body, are not once comprehended and every proposition which is brought before them is subject to their, rights and bettering their condition, on the more pugnacious side, but at no period in the world's history have they been progressing more rapidly than at the present time.

The people, a body, are not once comprehended and every proposition which is brought before them is subject to their, rights and bettering their condition, on the more pugnacious side, but at no period in the world's history have they been progressing more rapidly than at the present time.
We publish hereon a list of Counties, with the names of the holders of the first position and the voting members of the State Grange. This matter of electing a slate of candidates for Congress, the question of Governmental control over the railroads, the coal question, and the currency question are all vital topics which are not in the least discussed in the press. This is the one topic which every farmer feels the importance of. Our correspondents have so frequently expressed the desire that we should be able to get a clear and concise view of the situation. We have been endeavoring, as far as possible, to put these matters in a form that will make them clear and comprehensible, and we are quite willing to have our friends come close to the line of constitutional restriction in treating this subject. The election over, it will then be in order to make the most we can out of the situation, whatever that may be. We do not, however, consider the Farmer Boom for Governor has not been in vain.

TRANSPORTATION QUESTION.

We cannot say whether our friends in other parts of the State are agreeing with the candidates for Congress in this State that circular of energy, the question of Governmental control, or if they have failed to forward answers to us. Or, perhaps a more conclusive list of our correspondents, and we have been quite willing to have our friends come close to the line of constitutional restriction in treating this subject.

It strikes us that the circular itself covered enough facts to settle the best course for our country, and the treatment of the question of Governmental control, and the necessity for protective legislation, and no man of average common sense and a distant acquaintance with the interests of the people, would be at a loss for an answer to this circular. Of course the men who know of no rule of action but political wills, and we have been quite willing to have our friends come close to the line of constitutional restriction in treating this subject. The election over, it will then be in order to make the most we can out of the situation, whatever that may be. We do not, however, consider the Farmer Boom for Governor has not been in vain.

BOUND-LAWS.

When we had the Constitution of the National Grange, the Decennial Circulars, the By-Laws, and the General Boice.

Shall the Farmers of this Country Preserve their Own Wheat? (In the Future.)

This is the one topic which every farmer feels the importance of. Our correspondents have so frequently expressed the desire that we should be able to get a clear and concise view of the situation. We have been endeavoring, as far as possible, to put these matters in a form that will make them clear and comprehensible, and we are quite willing to have our friends come close to the line of constitutional restriction in treating this subject. The election over, it will then be in order to make the most we can out of the situation, whatever that may be. We do not, however, consider the Farmer Boom for Governor has not been in vain.

A RECIPE FOR A RACKET.

WAYNE, Oct. 23, 1880.

WAYNE GRANGE VISITOR.

I received a letter this morning from a gentleman in the Prussian State, who says he engaged in a handsomely paid official capacity to maintain a political organization. He found it a racket, wrote, and says he is glad to have gotten out. The man's name is... (additional text not provided)

THE GRANGE VISITOR.

November 10, 1880.

WAYNE, Oct. 23, 1880.

WAYNE GRANGE VISITOR.

I received a letter this morning from a gentleman in the Prussian State, who says he engaged in a handsomely paid official capacity to maintain a political organization. He found it a racket, wrote, and says he is glad to have gotten out. The man's name is... (additional text not provided)

THE GRANGE VISITOR.

November 10, 1880.
Dear Sirs and Brethren:

Mt. Hope Grange is still alive, and doing well. We have a membership of 30, and only eight of these are charter members; we have lost one by death, and two by removal. We have an excellent library, and we are preparing for the coming year.

Sister L. C. Penuel.

Essay by Sister Antionette Ennest.

General discussion, subject, "Dairying."

FRANK CONE, Sec'y.

The next regular meeting of Branch Co. Pomona Grange will occur on Tuesday, Nov. 16th, at 10 o'clock A.M., in the Grange Hall, Berlin, Mich. All members of the Order are cordially invited.

The HUSBANDMAN has been widely recognized as standing in the front rank of agricultural journalism. While treating fully all questions embraced in PRACTICAL AGRICULTURE, it discusses with fearless ability the economic problems that affect all productive industries. Its contributions are original and based on the latest research. Its materials are gathered from the best sources and are full of practical suggestions, and its articles are full of plain, hard facts, and no fancy

Para. 1500, Yale and Alm. Sts., N. Y.

J. T. COBB, Sec'y.

BERLIN, Oct. 30, 1880.

The past regular meeting of Branch Co. Pomona Grange was most satisfactorily conducted. All members of the Order are cordially invited to attend the next regular meeting.
