The Beneficiary fund to be paid at the death of the member, in accordance with the graduated assessment on its members, and a base rate of 15 cents per annum for each $10 in assessment. These rates are graduated in such a way as to make the assessments between the ages of one and ninety reasonable, and as to grade as an age falls, varying with the age of the members of the Order at the time of joining the Association.

Resolved: That the Committee on the Executive Committee report favorably on the establishment of this fund and that the Executive Committee nominees be elected for the term of one year.

Public accounts:

The following report is made by Mr. Barnes, the Auditor, in favor of the Executive Committee, and the same was adopted:

Receipts from subscriptions, $1,680.00;

Expenditures, $1,741.40;

Balance, $61.60.

The Grand National Grange, at the request of the Executive Committee, last year, appointed a committee to make an estimate of the yearly expenditures of the Grand National Grange, in order to determine what was the best rate of assessment for the next year. The committee reported, that the annual assessment for the next year should be $1.00 per annum for each $10 in assessment.

The annual report of the Executive Committee of the Grand National Grange was read and approved.

The annual report of the Executive Committee of the Grand National Grange for the year ending January 1, 1881, was read and approved.

The President then called on the Executive Committee to report their annual report for the year ending January 1, 1881, which was read and adopted.

The annual report of the Executive Committee of the Grand National Grange was read and approved.

The annual report of the Executive Committee of the Grand National Grange for the year ending January 1, 1881, was read and approved.

The GRANGE VISITOR.

SCHOOLCRAFT, JANUARY 1, 1881.

Secretary's Department.

OF 1881.

Patriots of Hope.

In accordance with the peremptory order of Governor Crosswell, the school is recon-structed at the isthmis of the State of Genessee, and the Secretary's Department, inviting us to con-tribute this issue to the new school published in the Vis-itor, and to you through its columns, we give this to you.

In the present growth of the Order in this State and elsewhere, and with the growth of the Vis-itor in its aims, under the auspices of the Secretary's Department, and in its columns, as it grows under the care of the Secretary, and with the help of the many good friends of the Order, we are free to say at the outset, three hundred times an issue before, that this issue which has been so well chosen words made to the Order, that is so often in practical farmers, by adding an Agricul-}

January 1881

The GRANGE Visitor

Communications.

The 1881 legislative session of Congress opened this afternoon, as it has every year since 1789. The President will make his annual speech to Congress, and the House and Senate will deliberate on the issues of the day. The main topics will likely include the Civil War, Reconstruction, and the need for a constitutional amendment to address the issue of slavery.

Letters to the Editor.

The editor of the newspaper has received many letters in recent weeks from readers expressing their views on a variety of topics. These letters cover everything from local politics to national affairs, and they reflect a wide range of perspectives.

The latest issue of the magazine features an article on the history of the Civil War, written by a leading historian in the field. The article provides a comprehensive overview of the conflict, including its causes, major battles, and outcomes.

Features.

This week's feature story is about the life of a prominent abolitionist who fought for the rights of African Americans during the 19th century. The story explores her activism and the impact she had on American society.

The book reviews section includes a review of a new novel that has been receiving critical acclaim. The reviewer provides an in-depth analysis of the book's themes and characters, and offers their own insights on why it is a must-read for fans of the genre.

Science.

In the science section, the latest research on climate change is discussed. Scientists are warning that if we do not take action to reduce greenhouse gas emissions, the consequences could be catastrophic. The article explores the latest data and the urgent need for action.

Sports.

The sports section features coverage of the latest games and events. This week's highlights include a report on the recent World Series, which saw the home team emerge victorious after a hard-fought series.

Business.

The business section examines the latest trends and developments in the economy. The article discusses the impact of recent trade agreements on business and the economy, and offers insights into the future of the global market.

Note: For the convenience of the reader, the document is divided into sections for easy reading.
It is now two score years since the College went into partial operation. After a long period of planning, preparation and with much patience, what progress has been made? It is evident that the College has been able to institute a number of very wise and effective schemes, covering a large part of the ground, which have been provided to make the College worthy of the name. We are now at the point where the College is ready to be opened. During this time, there have been some important changes in the College, notably the appointment of new professors and the addition of a number of useful buildings.

In order to keep up with the times, there is a strong demand for the introduction of new methods of teaching and for the improvement of existing ones. The College must be willing to adopt new methods, when these are clearly superior to the old ones. It is desirable for the College to be able to supply the needs of its students, and to prepare them for the future.

We believe such experiments to be a part of the true profession of education, and we are pleased to see that the College is making progress in this direction. We are of opinion that there is no other institution in the State more need of this sort of work. Perhaps if the farm could be so managed so as to be an experiment station, the results obtained might be more successful. The work of the College is a necessary part of the development of our agricultural interests, and it is desirable that the work should be extended to a larger scale.

The professors are obliged to take classes out of their own time, and the number of students, as in this institution, is the true test of the efficiency of the work. The professors are doing much to make the lectures interesting, and to bring the students in touch with the real world outside of the College.
To the Patron of Wisconsin.

A large and growing trade is now being car-ried on at our co-operative store in Algona, and under the management of Mrs. A. Hinge-land, in rapidly gaining a reputation not ex-ceeded, if equalled, by any other store in the State. Our trade is largely in the line of the jewellery and silver ware, and we have every reason to believe that the execution of our business is to the entire satisfaction of our customers. We are now in the position of being able to supply all the wants of the public, and we are pleased to say that the prices which we charge are well below those of our competitors.

Mr. A. H. Higebland.

ALGONA, IOWA.

THE GRANGE VISITOK.

To the Patron of the Wisconsin State Grange.

The GRANGE VISITOR is now in full operation, and we feel that it has been well received by the members of the Wisconsin State Grange. We have many friends in that State, and we are sure that they will be pleased with the publication of this paper. We have many friends in the State, and we are sure that they will be pleased with the publication of this paper.

The GRANGE VISITOR is published by the Wisconsin State Grange, and is issued every Wednesday. It is a monthly journal, and is published at Madison, Wis.
