Correspondence.

Calhoun County Farmers' Grange, No. 3.

Mr. Ed. — We (I mean our Grange, of which we are junior partners) have been "over the top" the past summer, and have no time to be "over the hill" just now. We have been kept busy in the village (a new hall which is admirably fitted up, and with which we are very well pleased), and we believe we have made it a truly fine place.

We are working the old national grange system, which we believe is the best one that ever was invented. We have a lot of work to do, and we believe we are making good progress. We have a lot of work to do, and we believe we are making good progress.

The Grange in Tennessee.

Mr. Ed. — We are glad to hear that the Tennessee Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.

The Grange in Michigan.

Mr. Ed. — We are glad to hear that the Michigan Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.

The Grange in Indiana.

Mr. Ed. — We are glad to hear that the Indiana Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.

The Grange in Ohio.

Mr. Ed. — We are glad to hear that the Ohio Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.

The Grange in Illinois.

Mr. Ed. — We are glad to hear that the Illinois Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.

The Grange in Wisconsin.

Mr. Ed. — We are glad to hear that the Wisconsin Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.

The Grange in Missouri.

Mr. Ed. — We are glad to hear that the Missouri Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.

The Grange in Arkansas.

Mr. Ed. — We are glad to hear that the Arkansas Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.

The Grange in Louisiana.

Mr. Ed. — We are glad to hear that the Louisiana Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.

The Grange in Texas.

Mr. Ed. — We are glad to hear that the Texas Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.

The Grange in California.

Mr. Ed. — We are glad to hear that the California Grange is doing so well. We have been working hard to get things in shape in our own grange, and we believe we are making good progress.

The return of Mr. Ed. will be a great relief to us. We have been doing a lot of work, and we believe we are making good progress.
SCHOOLCRAFT.

Mr. Garver knows very well that an inventor has often been absorbed by men with pecuniary value of the brain work of the invention. We believe and cheerfully accord to the inventive genius developed of patents," and adds in the next, "how purchasers of patented articles are to be protected in all their rights.

Mr. Garver says that he is twice as good at the "inventions," and adds in the next, "any other to make America famous in every other way."

To ten trial subscribers for three months we will send the book "The State Capital Engraving." For one year will entitle the person to one splendid engraving of the State House in Michigan, size of forty by sixty inches.

Mr. Garver and the Patent Defense.

We are interested by a conversation with an inventive genius, and have on this occasion talked to him from this recognition from a class of our readers as such. We believe that he is twice as good at the inventions, and adds in the next, "any other to make America famous in every other way."
The light of the house circle has gone, and never to return, and may the possession of her fellow men beget in their hearts of loneliness and sorrow.

To the Memory of Mrs. Ann E. Law, by Thos. F. Moore. No. 4.

A home is not a home without a wife.

A home is not a home without a wife.

The following announcement we will make:

The northern portion of the country is near-ly all wheat land, and many white men in the railroad stations of the north of the country are evidently better equipped as farmers than our own. The following are some of the chief reasons:

1. The climate is generally more amiable, and the weather more favorable for growing

2. The soil is generally better suited to agriculture, and the land more easily cultivated.

3. The labor is more abundant and cheaper.

4. The transportation facilities are better.

5. The government is more stable and efficient.

wages, and the same amount by those in

the best goods for the least money.

STATE WOOL COMMISSION MERCHANTS,

WHOSE OFFICE IS AT:

HANNAFORD, WHIPPS, BLANCHFIELD, THOMAS,

72 W. Market Street, Boston, Mass.

I am pleased to announce to the farmers in
other States that I am now offering to ship
the best goods for the least money.

FENNO & MANNING,

Wholesale and Retail Dealers in

German Horsc and Cow Powders.

In the only preparation based on the
proper proportion of the ingredients used, as it is not based on the
weight of other ingredients, but on their strength, which is determined
by the time that has elapsed since they were ground. The powder is
made up with a silvery white, and as it is not sold by the pound, but by
the ounce, the price of one ounce is $3. Per ounce.

GRANGE HORSE NETS,

Scotsman, and all the pedigrees of horses now
in the United States, will be sold at

120 W. Washington St., Chicago.

FIRE AND WATER PROOF CEMENT.—TO

BRINE.
THE GRANGE VISITOR.

SEPTEMBER 1, 1882.

ACME CREAMER & BUTTER COOLER

A combination that will produce an even grade of Butter, winter and summer. No ice required. Saves two-thirds the labor. It will save in cost twice the first year. A RESPONSIBLE AGENT waited where an agent is not located. Correspondence Welcome.

MCCALL & DUNCAN, Schoolcraft, Mich.

BORDER AMEND. OF THE L. W. PRODUCE EXCHANGE ASSOCIATION,

SEPTEMBER 1ST, 1879.

To Farmers and Shippers: This is the only Established House in Chicago exclusively engaged in the Produce of the Patent of the New Mason Evaporator. The aims and objects of the association are to give the farmer and grower a chance to bring his products to market at lowest possible prices, and to exterminate the curse of the premium system. The Mason Evaporator is the only one that will produce an even grade of butter, winter and summer.

Agents Wanted Everywhere.
