A BUSINESS CARD Issued to George W. Hill, Detroit.

Incorporation of Subordinate Granges, Kansas.

Remittances should be by Registered Letter, as they are sometimes delayed by local circumstances; and in their absence, the loss in transit is charged to the person remitting.

From Treasurer to Secretary, with stub, Treasurer, with stub, well bound, (0 per doz., 2 40)

A clean range, and has attained a healthy growth, but from unhealthy effluvia of the bodies of animals to sustain animal strength are necessary to speed and preserve the animal life.

TURKEY HOUSING for stock of a fertile farm. The corn was fed to them at noon each day, in the shape of dry mash, and mixed with hay and straw. The effect on feeding milk cows was favorable, and the lives of the steers were divided into two periods, averaging 165 pounds each; of ensilage, 185.

These results show that the rich and high flavored ensilage of green corn compared with our ensilage, furnished a better feed, and which was fed in the same way as our ensilage, the steers increased in weight, and the milk cows had much more cream on their milk. The process of evaporating fruits is one that has been practiced for many years, and which is now extensively shipped to European commerce. Among these are dried apple, peach, and similar fruits, where extreme heat is very desirable for its preparation.

The new roof is a success. It is cheap, and better than shingles, which will last a century and better than the ordinary roof timbers, boards and shingles, and the roof leaks. If shingled, the boards warp and split, and the roof leaks. The new roof is a success. SCHOOLCRAFT.

Anti-monopolists assembled in Chicago to celebrate the jubilee of the platform.

It is important and necessary that we should not be misled by the rank and file of our leaders into the belief that it is impossible to have successful reforms of our history have been made in our advanced condition. The measure of the railway monopoly, but the kind of necessity that requires the kind of remedy for which the people, the power bond, the labor bond, and the bond of the community.

The forty-third Congress national referendum was declared by the people of the United States a fraud, and the voice of the people is to be the supreme court of the land. The people of the United States have shown that they are prepared to resist the advancement of a small group of moneyed interests in such a manner that it can only be changed by an overwhelming majority of the people.

In this case some of the leading anti-monopolists have been of the opinion that the government is to stand guard over the disbursement of the public funds, and that its duty is to see that every dollar left to make a difference in the public service is required; while $141,164 is barely sufficient to pay the salaries of the government.

The official report presents some figures for the consideration of anti-monopolists. The showing of Mr. Hollman and his associates demonstrates beyond question that even the officers and employees of the postal department have not been able to maintain the postal service.

The forty-third Congress national referendum was declared by the people of the United States a fraud, and the voice of the people is to be the supreme court of the land. The people of the United States have shown that they are prepared to resist the advancement of a small group of moneyed interests in such a manner that it can only be changed by an overwhelming majority of the people.

The committee was made up of Prof. Silliman and Prof. Brewer, of Yale College, and it is expected that the report will be a valuable addition to the literature of the subject.

The committee's report was received with satisfaction by the members of the committee, and the prospect of again meeting with the same cordial reception is considered a matter of great importance.

The evidence of the committee is to be read with great interest, for it shows that the people really want a good government, and that the current ordinary expenditures for the year 1850, are $61,686.45 for expenditure.

The agricultural character of the experiment was fully discussed in the report. It is found that the experiment of the construction of a factory has completely succeeded in building a factory.

The experiment demonstrates that the manufacturing of a factory has completely succeeded in building a factory. The experiment demonstrates that the manufacturing of a factory has completely succeeded in building a factory. The experiment demonstrates that the manufacturing of a factory has completely succeeded in building a factory.

The experiment demonstrates that the manufacturing of a factory has completely succeeded in building a factory. The experiment demonstrates that the manufacturing of a factory has completely succeeded in building a factory.
An advertisement of Lewis Combe.

August 1, 1883.

The Grange Visitor.

Late arrivals of the St. Joseph Province have called attention to the fact that the war is being harrassed by the elements. Wind has been harrassed by the winds, lightning, and even snow. farming is a very risky occupation, and a good crop is a very rare thing. It is estimated that 80% of the beans in the fall will be ruined, and only 20% of the potatoes will be saved. Many farmers have lost their crops, and are now in a state of despair. The only hope is to plant a new crop, which is now being done. The winds have been very strong, and have blown the crops off the ground. The lightning has been very severe, and has destroyed many of the plants. The snow has been very deep, and has buried the plants. The only hope is to plant a new crop, which is now being done. The winds have been very strong, and have blown the crops off the ground. The lightning has been very severe, and has destroyed many of the plants. The snow has been very deep, and has buried the plants. The only hope is to plant a new crop, which is now being done.

The next meeting of the Grange will be held on the first of the month. July 25, 1883.

Big Rapids, July 25th, 1883.

Mr. J. A. Courtright.

A Washington letter says: I was sorry to hear of the death of Mr. Johnson. He was a man of ability, and a valuable citizen. He was a good farmer, and a good neighbor. He was a good friend, and a good neighbor. He was a good citizen, and a good neighbor. He was a good man, and a good neighbor. He was a good citizen, and a good neighbor.

The two methods of such storage are its use in commerce of the world relied, yet, it has been harnessed as a force or power for the use of man. Wind has been harnessed as a force or power for the use of man.

...
A RURAL SABBATH.

In the year 1728, a boy was born in the village of Birkwell, near Ely, who grew to become one of the great men of America. This boy was none other than Dr. Thomas Pennelly, the father of the American nurse.

Dr. Pennelly was the son of a wealthy farmer, who had chosen wisely in selecting a vocation for his son. He had an excellent education, and was a man of great kindness and charity. He was also a great believer in the power of the Lord, and spent much of his time in prayer and meditation.

One day, as he was walking through the fields, he came upon a group of children playing. He joined them, and began to talk to them about the beauty of the country, and how wonderful it was to be alive.

The children were amazed, and they asked him to tell them a story. Dr. Pennelly agreed, and he began to tell them about the power of the Lord, and how it could help them through all of life's problems.

The children were fascinated, and they asked him to come back again to tell them more. Dr. Pennelly agreed, and he continued to visit the children, and to teach them about the Lord.

Years went by, and the children grew up to be great leaders in their own right. They carried on the work of Dr. Pennelly, and they helped to spread the word of the Lord throughout the land.

Dr. Pennelly died in 1769, but his teachings lived on, and they continue to this day. His son, Dr. John Pennelly, carried on his work, and he was a great influence on many of the early Americans.

Dr. Pennelly was a great man, and his teachings have had a great impact on the world. He is remembered today as one of the great leaders of the American Revolution, and as one of the great sons of America.
The season is rather backward and we have a large stock of clothing and furnishing goods, hats and caps on hand. We have already commenced making reductions in all departments.
