The Grange Visitor.

March 15, 1884.

The style of the Grange Visitor remains unchanged, but its contents are wide-ranging and informative. The editor speaks of the current administration of the Grange, discussing the various resolutions passed at the conventions and the importance of these resolutions in guiding the Grange movement. He also touches on the need for the Grange to maintain a strong presence in the political arena, advocating for the Grange to work towards the passage of legislation that is favorable to the farmers and rural communities.

The editor also comments on the need for the Grange to be more proactive in addressing the economic challenges facing farmers, such as the high cost of seeds and the need for better credit options. He encourages the Grange to work towards solutions that would benefit the farmers and their families, and to provide a better life for all of the people. The editor concludes by expressing his hope that the Grange will continue to grow and thrive, providing a voice for the rural communities and working for the common good.

The Grange Visitor continues to be a vital tool for the Grange movement, providing information, inspiration, and encouragement to the members and offering a platform for the Grange to speak out on important issues. The Grange Visitor's role in the movement is indispensable, and it continues to be a vital part of the Grange's mission to improve the lives of their members and the communities they serve.
A correspondent of the Popular Farmer says: "A great many farmers who are not very thrifty, but who are able to carry on the farm, would do much better if they would make up their minds to engage in dairy farming. In some places it is profitable, and in others it is quite as profitable as other branches of farming."

A farmer family describes an unusual harvest of grain. They grew 100 bushels of corn, 50 bushels of wheat, and 25 bushels of oats, all of which were sold at the highest prices. The family has a large garden and a small orchard, and they plan to increase their acreage next year. The father says, "We are going to diversify our crops next year, and we are going to plant a larger garden this year."

A visitor to the settlement says, "The people are very friendly and hospitable. They have a large school and a good church. The community is fast growing, and I think it will become a prosperous place."
School System.

TheMESSENGER'S TRADE.

One day at a workhouse I saw four women, the pictures of despair.

"Oh, look at them!" said one, and she added, "Oh, what a life!"

The women were dressed in the shabbiest manner, and their faces were drawn and wan.

"Oh, it's too bad!" said another, "They're just like us, only not so fortunate."

The women were working hard, but their spirits were low.

"Oh, I wish I could help them," said one, "but I don't know how."

The women were tired and discouraged, but they were also determined not to give up.

"Oh, it's tough, but we'll get through," said another, "we'll keep on working and hoping."
PUT DOWN THE BRAKES.

I have just received from the manufacturers of the beautiful new velocipede a pair for ten dollars, and I want to let everyone who has a chance to buy them know how much better they are than the old-fashioned kind.

THE WHEEL IS THE THING.

The inventions of recent years have been wonderful, but the velocipede is the most important of all. The wheel is the thing. All the other parts are simply made to work with it.

THE FINEST IN INVENTIONS.

I have been using this velocipede for several weeks, and I can tell you that it is the finest invention I have ever seen. It is so easy to ride that anyone can learn to do it in a few minutes. I have taken it down to the nearest street car and my friends have been amazed at how quickly I can get there.

FOOLISH WOMEN.

It is not a good idea for foolish women to try to ride a velocipede. It is too dangerous for them. Even men have been known to fall off them. But women should not try it.

FOOLISH WOMEN.

I should have said that only foolish women should try to ride a velocipede. It is too dangerous for anyone else too. Men should not try it either.

FOOLISH WOMEN.

I should have said that only foolish people should try to ride a velocipede. It is too dangerous for anyone else too. Everyone should not try it.

FOOLISH WOMEN.

I should have said that only foolish people should try to ride a velocipede. It is too dangerous for anyone else too. Everyone should not try it.

FOOLISH WOMEN.

I should have said that only foolish people should try to ride a velocipede. It is too dangerous for anyone else too. Everyone should not try it.

FOOLISH WOMEN.

FOOLISH WOMEN.

I should have said that only foolish people should try to ride a velocipede. It is too dangerous for anyone else too. Everyone should not try it.
THE GRANGE VISITOR. MARCH 15, 1884.

1848  1884.

Winslow & Crooks. DEALERS IN
GRANITE AND MARBLE,
Near L. S. & M. S. Depot, Kalamazoo.

OUR MARBLE WORKS WERE ESTABLISHED IN 1848
and are the largest in the State, extending along the east side of the Grand River, and including the entire area of the town of Kalamazoo. They are built on a solid foundation of hard sandstone, and are erected on a level surface, to which they are connected by a system of railways, and are equipped with the most modern machinery for quarrying and cutting marble. The work is carried on with the greatest care and attention, and is conducted under the personal supervision of the proprietors, who have been engaged in the business for many years. The marble is of the finest quality, and is made to order, in any shape or size, and in any quantity. The marble is of the finest quality, and is made to order, in any shape or size, and in any quantity.
