A Point Worth Following.

A dealer from New York who looks after the market for the State of New York, has stated that the wheat is going off very well at the present time, and that it is expected that there will be a large export in the near future. He said that his dealers and commission men were buying wheat at the rate of 30 to 40 per cent. above the average price, and that they expected to make a large profit on the sale. He also stated that the wheat was in very good condition, and that it was expected to be a fine crop. The dealer further said that the market was very active, and that there was a great deal of business being done. He added that the wheat was in great demand, and that it was expected to be a fine crop.

favorable seasons. Then let us heed the increases, and the crops become larger, especially is this true of the longer period, for the continued raising of a particular crop seasonally.

The most beautiful roadsides in the country are the result of proper farming and landscaping. The continued raising of a single crop, especially in a narrow area, can deplete the soil and reduce its fertility. By diversifying crops, farmers can improve soil conditions, increase yields, and maintain a more sustainable farming practice.

In a troubled state, we must do as much good as we can, and when we have passed through these trying times, we can point to the improved conditions of the land, the increased wealth of the people, and the happiness and prosperity of our community.

The value of all produce, whether grown for food or for sale, is determined by the demand for it. When the demand is high, the value of the produce increases, and vice versa. This is why it is important for farmers to stay informed about market trends and to adapt their farming practices accordingly.

The Grange Visits.

The Industrial Classes' Association in New York City has decided to make a visit to Buffalo, where the national convention of the Grange will be held, and to the industrial and laboring classes in that city, with a view to impress upon them the necessity of organization for the protection of laborers and the interests of the working classes.

It is expected that the visit will be of great benefit to the working people of Buffalo, and that it will serve to strengthen the ties of the Industrial Classes' Association and to promote the interests of the laboring classes in the city.

The visit will be made by a delegation of the Association, who will spend several days in Buffalo, visiting factories, workshops, and other places of employment, and holding meetings with the working people.

The Association hopes to impress upon the working people the necessity of organization, and to show them the benefits that can be derived from such organization.

The visit will be made in the interest of the working people of Buffalo, and it is expected that it will do much to advance the cause of labor and the interests of the working classes in that city.
Their country, and heroes in their day, had a mission which would add...
Now To Build A Home.

The members of the Youth Department will thank us for giving them this following advice, taken from an old book.

"I have felt that it would be as well to have the boys spend the first day of the new school when they have been and had gone through the school and have been and had the boys read aloud from the book, or to write a story or something that would be of interest to them."

The foregoing is a part of a special meeting held at the Grange Hall, May 16th. The members of the Youth Department were present, and the discussion was conducted in a most interesting manner.

ZIMMERMAN
FRUIT AND VEGETABLE EVAPORATOR

Angler’s Complete Outfit

Sold by all dry goods dealers.

Paint at Factory Prices.

We put the tallies and sell you the lowest wholesale factory prices, as soon as you come to the factory. We were the first concern that sold to Patrons, and we don't want some keeper's uncle now. Brother B. B. Thomas, Secretary Pennsylvania State Grange, says: "Many of our members have more than saved their Grange expenses for a lifetime by purchasing your print. It lasts many times longer than any other print, and would look magnificent at the price per gallon." Brother Thomas was formerly a printer. Broth. T. J. Crisler, Secretary, and C. W. Whitten, formerly Lecturer of Michigan State Grange, have used and approved this paint, and have recommended its services on our other jobs. Manufacturers and furnaces equipped with color at our specification of about 1400 colors, and we will also furnish in the following colors: Black, Blue, Blue Green, Green, Blue, Green Yellow, Yellow, Brown, Red, Wine, and White.

All orders receive proper attention.

Thos. Mason, General Commission Merchant.
181 South Water Street, Chicago.
