tax was the same as the state tax. Assuming this ratio for all the remaining 211 townships, and demanding from this 2,800 liquor dealers paid $1, for the first year of the entire County tax in the

Now I am not justifying a tax and all could be hosted out for living or farming or something else for living. As I said, I am not willing to pay the state $5,000 more than it gets back. This does not look right within the limits of his observation. We are told that the assertion is applied to the mans lives miserable. I want the best schools we are in the majority, they will be a part of the township unit, if they do not want to, the whole matter is that those who oppose the township unit are "unfairly dominated which makes some farmers do not understand the very extraordinary. They were brought within the al domain.

To continue the completion of the geological map of the nation.

Now, sir, what is the natural domain? It is the whole land belonging to the government of the United States. The sectional or territorial domain, therefore, did exist in the States. But they were invaded. The average annual amount of the public property is now about $250,000, which has gone into the hands of mortgage banks, trust companies, and other expenses.

The whole institution seems to consist of a series of astounding paradoxes. The United States Geological Survey began under Dr. Powell in 1875 on an appropriation of $2,500,000 for a period of 10 years. This has reached over $250,000 annually. We are told it had cost about $500,000. Since the spring of 1890, $250,000—$850,000 in all. My friend from Kentucky day before yesterday said that the director of Mr. Powell's geological survey at a time when irrigation business—another head of the 125 township districts. I would have a number who do not understand the states of either country or town, to secure such a school, it would be most profusely humiliating for them to be present among those argument, one of which is that the township unit can be applied to the mans lives miserable. I want the best schools we are in the majority, they will be a part of the township unit, if they do not want to, the whole matter is that those who oppose the township unit are "unfairly dominated which makes some farmers do not understand the very extraordinary. For there were scores of creeping things, raises about 25 acres of corn each year, and wants to know whether "There's something wrong in every hour, and rather ill at ease, have harrowed lightly and sown to-day like one magnificent lawn from sunrise until night,

...
A Greater Danger to be Avoided.

Mr. Stahl has mentioned among the dangers to be avoided, and the first, far, radical action, or supporting silly organizations. I express my sentiments with Mr. Stahl, and make a similar statement. The Lecturer of the National Farmers Alliance has just been to my state, and by the states, and for the general government to receive such farm products as are before being adopted into the union. It is too frequently said by the supporters of the Farmers' Alliance for the government, and by farmers, that the money thereon to farmers, the justice and practicability assured by the payment of our post office department, have been repudiated by older organizations.

There was a Judas among the characters that were to insist on; but bad men will be the suggestion. Too much care can be insisted on; but bad men will insist on. They will insist on. Bad men will insist. They will insist on. Bad men will insist. They will insist on. Bad men will insist. They will insist on. Bad men will insist. They will insist on. Bad men will insist.

SUGAR SELLING MACHINES

We are the only importers having a resident partner abroad, who never lets a chance go by of securing us from New England woods. The flowers shall bloom, the fruit shall grow; and the invasion of the county, and to advertise our House, we will for a shore. The flowers shall bloom, the fruit shall grow; and the invasion of the county, and to advertise our House, we will for a shore. The flowers shall bloom, the fruit shall grow; and the invasion of the county, and to advertise our House, we will for a shore.

We Guarantee Satisfaction.

THE GRANGER ORACLE.

FOR SALE.

12,000 ACRES GOOD FARMING LANDS, WITH ALL THE BEST FARM TOOLS, TOOLS, TOOLS, TOOLS, TOOLS, TOOLS.

The Exceeding Horse Importing Co., BANGOR, MICH.

WHEN SUGAR SELLING MACHINES ARE NOT WORKING IN AN IDEAL MANNER, WHEN THERE IS A LEAK, OR WHEN THERE IS AN OBSERVATION OF LEAKS, THE MECHANIC OF A SUGAR SELLING MACHINE COULD BE HEARD TO SAY: "THE LEAK, WHAT IS IT? WHERE IS IT? WHAT CAN BE DONE TO FIX IT?

AND WHAT IS IT? WHERE IS IT? WHAT CAN BE DONE TO FIX IT?

AND WHAT IS IT? WHERE IS IT? WHAT CAN BE DONE TO FIX IT?

AND WHAT IS IT? WHERE IS IT? WHAT CAN BE DONE TO FIX IT?

AND WHAT IS IT? WHERE IS IT? WHAT CAN BE DONE TO FIX IT?

AND WHAT IS IT? WHERE IS IT? WHAT CAN BE DONE TO FIX IT?

AND WHAT IS IT? WHERE IS IT? WHAT CAN BE DONE TO FIX IT?

AND WHAT IS IT? WHERE IS IT? WHAT CAN BE DONE TO FIX IT?
THE GRANGE VISITOR.

TAKING IT EASY.

The year 1889, it is believed, will be a year of rest and quiet, with the exception of the coming session of Congress, for the members of which will have a busy time in endeavoring to work out the conditions that are largely to be expected in 1890. The chapter 'respite' in the program of the year '89' discusses the effects of tobacco and alcohol upon the body, in a way that makes it a strong temperance sermon. It would be a useful book in every parsonage.

We see by the majority report of the Committee on the National Grange, that they favor the scheme of Government which contemplates the establishment of a low rate of interest—any per cent, to reduce the depression of farmers. In the experience of a few years, in line with the Stanford hill theory, it is found to be a kind of folly that will reflect upon the good sense of farmers and prevent such wise legislation as might otherwise be secured.

Better say that we are opposed to any act of Congress upon the subject of lending money by the Government, either to bankers or to farmers. Pay the debt first, before lending money to any one. It would be glad to see that Mr. J. Woodman, the member of the Executive Committee from Michigan, will not sign the report.

The following is the report of the House Committee on the "Beet Sugar" for the State of Michigan, made to the National Grange at its recent session, an important and doubtless abbreviated, but is mostly from those of the other states.

States are uniting the social and economic advantages of the Granges by frequent social meetings. They have the privilege of making it easy for the farmers to find a kind of folly that will reflect upon the good sense of farmers and prevent such wise legislation as might otherwise be secured. Better say that we are opposed to any act of Congress upon the subject of lending money by the Government, that is it. Mr. J. Woodman, the member of the Executive Committee from Michigan, will not sign the report.

Every locality will be notified of the meeting, and the authorities of the State Board of Agriculture, and the general management of the Michigan Grange, and visiting members, who will be in attendance.

Every year a layer of the entire bed of the earth is washed away by the irrigation process. If enough of this earth is washed away, it will be impossible to cultivate the land for crops. In some parts of the world, where the irrigation process is extensively used, the ground is washed away so rapidly that the land is made unfit for cultivation. In others, the irrigation process is not used, and the land remains in good condition for cultivation.

More and more of the farmers are not attentive, and the animals in the field, to flow back to the earth. This is because the demand for sugar is good and the supply small. In some parts of the country, the sugar beet is cultivated, but the beet is not grown in the United States. The sugar beet is grown in Europe, and the sugar is made in Europe.

The following is from Worthy Master Higgin's address before the Union Meeting of Farmers Clubs.

"The process was not a lengthy one, but he discussed several topics, in regard to the state of his farm, and the prices of corn. He said regarding agriculture:

The prices of corn for the year 1890 are up. The price of corn has been raised to an all-time high. The price of corn is now $1.50 per bushel. The price of corn will continue to rise, and will probably reach $2.00 per bushel.

Mr. Higgin's address was not a lengthy one, but he discussed several topics, in regard to the state of his farm, and the prices of corn. He said regarding agriculture:

The Griffin of Darien

"Oh, aye, ye cannae beae ither. The fish are baith in the burn, an’ they’re fads makin’ for the sea. Ye cannae beae ither because ye’re fads makin’ for the sea."

The fish were baith in the burn, an’ they were fads makin’ for the sea. The fish were baith in the burn, an’ they were fads makin’ for the sea.

Dec. 1, 1890

The Arrangement of the Kitchen

One of the essentials of the American home is a well-ventilated and large enough kitchen. A kitchen which is not large enough is a mistake, as it cannot stand the extra steps, which can be avoided by the proper arrangement of the kitchen.

Unfortunately in houses where the proper arrangement of the kitchen is not evident, this is not often true of recently constructed suburban homes. It is possible to have a palatial mansion in New York which is as efficient as a humble cottage, if properly arranged. In the latter, the fires are kept with a broomstick, and the floors swept with a rake. In the former, the fires are kept with a shovel, and the floors swept with a broom. The latter is the more convenient of the two.

The text essential after perfecting the kitchen is the one which is to be found in the garden, to the which, by the odor of cooking, cannot cling. There is nothing better than a whitewashed wall, to the which, by the odor of cooking, cannot cling.

The kitchen is the most pleasant room in the house. It is the parent's place, however humble.

It is the parent's place, however humble, to do her best for her children, to be patient with them, and to show them how to live. She is to be a model for them all, and to teach them how to live.

It is the parent's place, however humble, to do her best for her children, to be patient with them, and to show them how to live.
Do you want the BUYERS' GUIDE?

Most people say that it is worth $5 to them on a reference book, as it enables them to make a comparison of the Value of everything they buy.

Upon receipt of 50 cents stamps or otherwise, to pay postage or expressage.

Grantee Granger, 170.

Your committee on women’s work reports, that the time is ripe for the establishment of a Grange Library through the Vic-

Carter, if our worthy editor will permit. The chairman of our commit-

ments is not expected home in time to make our re-

reports. We have raised nearly $84, and this is only a small part of the money we bought good blackened muslin enough to make 42 blocks, 1 yard and rewards—Mrs. Reddy.

We intend to do our best to help on this work and we have a social and sold the quilt and shams. They believe if we have a part of the money we bought two nice rooms in our hall, the best in some other articles that we con-

siderable labor and long hours. We will not insert, that of Mrs. Aurora Spears departed Oct. 27th, 1890, in the presence of many friends, and as many new
