The Most Important and Economical Article of Food is Milk.
The Most Important Question is its Purity.

BORDEN'S MILK PRODUCTS
STAND
Supreme for Quality.

Origin of Condensed Milk. In 1856 after years of patient research Mr. Gail Borden was granted the original patent for the Vacuum Process of Condensing and Preserving Milk.

Why Borden's is Best. The Company has spent 50 years in educating dairymen and employees, resulting in a system so broad in its scope that absolute purity and highest quality are always attained. This long experience, perfect equipment, close observance of rigid sanitary regulations at dairy and condensing plants, with fixed purpose to supply only the Best, insures the "Best that Science can Produce."

The Borden Products have received the highest awards wherever exhibited for half a century, as having no equal for purity, richness and flavor.

Unsweetened Since the beginning of the scientific handling and preservation of milk the use of Eagle Brand Condensed Milk has become general, but for those purposes where an unsweetened milk is preferred Borden's Peerless Brand Evaporated Cream fills every requirement, having all the advantages of fresh fluid milk and none of the disadvantages.
EAGLE Brand Condensed Milk is now universally regarded as a household necessity, available for the preparation of ice cream, puddings, sauces and nearly all recipes calling for milk. Its general use as an Infant Food is Unapproached by any other substitute for Mother’s Milk. An experience covering a period of 50 years has demonstrated beyond question its superior­ity. It is prepared simply by evaporating a large percentage of water from the best quality of milk by Borden’s original Vacuum Process and adding a sufficient quantity of refined sugar for preserving, constituting a pure and wholesome food.

DIRECTIONS FOR USE.

Four to five parts of water to one of Eagle Brand Condensed Milk will make rich milk.

For coffee, tea, chocolate, and cocoa use undiluted, for which purpose it surpasses cream.

For ice cream, sauces, puddings, etc., add one to two parts of water to one of Eagle Brand Condensed Milk.

FOR INFANTS the extent of dilution required necessarily varies according to the different natural health conditions, and it is therefore impossible to give exact directions for diluting applicable to all cases. Experience, however, enables us to give the following general directions for infants in ordinary health:

First Month add 14 to 16 parts water to 1 part Eagle Brand Condensed Milk.
Second " 12 to 14 " 1 Condensed Milk.
Third " 10 to 12 " 1 Milk.

Continue to decrease gradually the amount of water as the child grows older, so that at the age of ten to twelve months, six or seven parts of water to one part of Condensed Milk may be used. After the twelfth month other food may be used in connec­tion with the Gail Borden Eagle Brand Condensed Milk, but until that age no other food is required.

In all cases water used in preparing milk should be boiled and cooled to proper feeding temperature before using.

Feed regularly, but do not overfeed; prepare milk fresh at each feeding.

Attach nipple direct to nursing bottle, avoiding use of all tube attachments.

RECIPES.

FISH SOUP.

Put fish bones and trimmings, with skin, into a saucepan; cover them with water, add a little carrot, turnip, etc., a few pepper-corns, salt and a blade of mace. Cover, let simmer for a couple of hours, and skim frequently; strain, and when cool remove the scum. Heat a quart, throw into it a filleted haddock, cut into small pieces; let boil three minutes, removing any scum as it rises. Mix one tablespoonful rice flour with one-half cup Peerless Brand Evaporated Cream and one and one-half cups water; add this to the soup with one heaping tablespoonful butter. Stir all together till it boils, season with cayenne and salt, if necessary, and just before serving, sprinkle into the soup one spoonful finely chopped parsley and the strained juice of half a lemon.

CLAM CHOWDER.

Wash a quart of clams in a quart of cold water; drain and strain the liquor through a sieve; remove the hard parts of the clams and chop fine. Fry two or three slices of salt pork in the kettle, add a large onion, cut fine, and cook until yellow; add one quart sliced potatoes, and add the clam liquor and enough hot water to cover. Cook until the potatoes are tender, then add a teaspoonful salt, a dash of pepper, one tablespoonful butter, one-half can Peerless Brand Evaporated Cream diluted with one and one-half cups water previously heated, the chopped clams, six crackers split and the soft part of the clams. Let it cook up once, and it is ready to serve. Cut the pork into strips and then across, forming dice.

CRAB SOUP.

Put half the meat of twenty medium-sized crabs and all of the claws into a stew-pan; add a bit of mace, a tablespoonful of salt, a little white pepper, a stalk of celery, a sprig of parsley, a slice each of carrot and onion and two cups chicken or veal stock; let simmer three-quarters of an hour.
Put one pint of stale bread, without crust, into another saucepan with one pint of stock and let simmer about half an hour. Strain the crab mixture into the other, mix well, and rub through a sieve; return to the fire. Rub two tablespoonfuls of butter and one of flour to a smooth paste, and add; then cook for five minutes. Heat in a double boiler two cans Peerless Brand Evaporated Cream and three cups water; and add this together with the remainder of the crab meat and a scant tablespoonful of salt and a dash of cayenne. Boil up once and serve immediately.

VEAL SOUP.

Put a knuckle of veal into a saucepan with three pints cold water and two teaspoonfuls salt; let it simmer slowly for two hours. Then remove the knuckle, cut off all the meat and put it aside. Add to the broth two sprigs of parsley, a little pepper and celery salt; stir two teaspoonfuls flour into one-third cup Peerless Brand Evaporated Cream diluted with two-thirds cup water; add this and one-fourth cup granulated tapioca, or rice. Let soup boil slowly for one hour and a half longer. Remove the bones before serving.

CREAM OF CORN SOUP.

Grate the corn from half a dozen small ears; put the cobs in a kettle and cover with three pints of boiling water; let boil slowly thirty minutes. Rub three tablespoonfuls of butter and two of flour well together, add these to the soup and stir until thick. Scald one can Peerless Brand Evaporated Cream and three cups water; add to the soup; cook one minute, then add the beaten yolks of two eggs. Serve immediately.

FARINA SOUP.

Season one quart hot chicken stock with a small slice of onion, a sprig of parsley, a stalk of celery or celery salt, four pepper-corns, two cloves, a bit of bay leaf, and salt and pepper. Add to the hot stock one-quarter cup farina, stirring it in, the onion, parsley, celery, etc., having been removed first. Let boil fifteen minutes, stirring occasionally to prevent the farina from settling to the bottom and form-
ing a solid mass. Bind together by adding a tablespoonful of flour, and add one-half cup Peerless Brand Evaporated Cream and one and one-half cups water, scalded. Season with a slight grating of nutmeg and salt and pepper to taste. This soup may be made without the stock, using water instead, but will be lacking, of course, in the flavor which the stock gives.

**CREAM OF PEA SOUP.**

Braid one tablespoonful flour and one round tablespoonful butter together; let one-fourth cup Peerless Brand Evaporated Cream and an equal quantity of water come to a boil, stir in the flour and butter and let simmer five or ten minutes; add the sweetbreads and

Those who heretofore have not been able to enjoy this cooling delicacy by reason of disagreement will find upon experiment that the treatment of the subject contains a remedy and obviates the feeling of regret that often attends the indulgence of one's taste for ice cream.

VANILLA ICE CREAM.

Dilute one can of Borden's Eagle Brand Condensed Milk with twice the quantity of water, previously boiled. Add one teaspoonful vanilla. Strain and freeze. This will make about two quarts of ice cream.

Or to each can of Borden's Peerless Brand Evaporated Cream add an equal amount of water that has previously been boiled and cooled, also one-quarter pound of refined sugar. Flavoring can be added to suit the taste. Freeze in the usual manner.

IMPORTANT NOTICE.

In the preparation of the many iced delicacies that can be made for family use from Borden's Peerless Brand Evaporated Cream it is important that all utensils be scrupulously clean. Keep the freezer perfectly dry when not in use, not allowing it to become rusty.

FREEZING.

Ice should be cracked finely or shaven, and in packing the freezer about one-half pint of common salt should be sprinkled upon every quart of cracked ice thrown in. The ice should be higher than the mixture in can. Rock salt is preferable if it can be obtained.
