The Union bakery provides more than fifty varieties of baked goods for the Union food service. All are of the highest quality obtainable and cannot be duplicated.
Use the Union, it is your privilege.

Michigan State News

Published twice weekly during the college year by the students of Michigan State College. Entered as second class matter at the postoffice, East Lansing, Michigan.

OUR POSITION

When a new group takes over the management of an organization, it is natural that those who are partaking somewhat in the results and watching the progress should desire to know something of the attitude or general policy which will be maintained.

First, above all, the new staff of the Michigan State News will attempt to give unbiased and impartial information on events which transpire on this campus. With a comparatively small staff, it is oftentimes impossible to know of all things which may go on. Information as to news from those taking part in activities is always appreciated. Every effort will be made to obtain and publish all news.

In the course of the year, it is inevitable that delicate situations should arise in which pressure may be brought to bear to suppress or color some aspect of news. We believe that a college newspaper owes to its campus a certain moral obligation in dealing with news of this type. For the good of all, some should be suppressed and on the other hand, some should be published. Decisions concerning information of this kind must rest entirely upon the judgment and common sense of the staff. This is the second responsibility which must be carried and we consider it an important one.

During the course of the coming year there are a number of questions which will be brought into the editorial columns for discussion with the purpose of bringing about action which will be of benefit to the student body and the college as a whole.

Among those which will be taken up and which we desire to see carried through are included the abolishment of the present marking system; construction of a basketball floor in the gymnasium; a survey of the personnel of departments of the college with a view to strengthening through elimination and addition, those departments which are notably weak; elimination of rules governing coat smoking and the placing of coats in this respect on the same basis with the men; elimination of many so-called honorary societies, thereby increasing the prestige of membership in worthwhile ones; and student government expansion.

Undoubtedly numerous questions which will be brought into these columns will perturb and bring objections from some. We feel, however, that if a subject is sufficiently important to be considered a problem by the students, it is pertinent that it should be taken up here.

DIPLOMAS TO SHOW HIGH SCHOLASTIC STANDING

Continuous A and B Work for Four Years Will Receive Recognition on Diplomas.

Recognition of scholastic standing will be made at commencement by printing the words "with high honor" upon the diplomas of graduating students this year for the first time in the history of the college. For graduating students who have made a continuous record for four years of no less than B the words "with high honor" will be inscribed on the diploma, and for those students who have made a three year record of no less than B the diplomas will bear the words "with honor."

Besides this change the diplomas are to be much smaller and less elaborate so that they will fold more easily and may be carried along.

placed in a safety deposit box conveniently. The wording has also been greatly simplified in accordance with the general trend which has been taking place during the last few years in other colleges and universities of the country.

NEW COURSES ANNOUNCED IN NEXT YEAR'S CATALOG

Completed at one of the earliest dates in several years, the college catalog for the year 1928-29 was issued and advance copies mailed out last week.

The first 1,000 copies published were sent out the first day to prospective students and others. Several thousand more are being printed for distribution.

The catalog contains announcement of several new courses, notably in the philosophy and English departments and a complete outline of the subjects required and elective in each department of the college. Medical biology is a four year course leading to the de-

gree of bachelor of science in medical biology is listed under a separate heading. A division is also devoted to the outline of public school music.

In addition to the listing of courses, the catalog includes a list of faculty members in the instruction, administration, extension and research divisions, and a description of campus buildings, traditions, customs and rules regarding attendance at classes. A list of scholarships and prizes open to the students also is given.

So very many have been doing days' work and scattering it over days.

YOUNGER COLLEGE MEN ON RECENT WESTINGHOUSE JOBS

The San Francisco Ferries

Where do young college men get in a large industrial organization? Have they opportunity to exercise creative talent? Is industrial work recognized?

SAN FRANCISCO now has the finest ferry fleet in all the world. Recently there were added to it four Golden Gate Diesel-electric auto ferries; one Southern Pacific Diesel-electric auto ferry; one Northwestern Pacific Diesel-electric auto ferry; and the Key Sys-

tem's two electric-drive giants—the largest passenger ferries ever built. These modern steel boats—all Westinghouse equipped—give to the Bay cities a ferry service unsurpassed for speed and safety, cleanliness and comfort.

The big jobs go to big organizations. Westinghouse attracts young men of enterprise and genius because it daily provides opportunities for pioneering and

outstanding work which smaller companies can seldom offer.

The Key System ferries are each equipped with two 2,250-shp. Westinghouse main propulsion motors, one 1,900-kilowatt Westinghouse generator and one 3,010-hp. Westinghouse-Parsons turbine. The Southern Pacific, Northwestern Pacific, and Golden Gate boats likewise have Westinghouse propelling motors and generators. Auxiliary units, such as

motor-drive pumps and steering apparatus, are Westinghouse on all these ferries.

Westinghouse

Inter-Frat Party and Engineers' Ball Features of First Week-end

The spring term will be under way tonight with the first social gathering sponsored by Phi Lambda Theta honorary engineering fraternity in the Union ballroom. Leonard Gilroy's orchestra will provide the music. Paul Blake heads the committee in charge, and he is assisted by Ralph F. W. L. C. Cook, E. L. Kirk and E. T. Hedrick. Past and honor guests for the affair are Dean and Mrs. G. W. Bissell, Prof. and Mrs. H. S. Reed, Prof. and Mrs. M. M. Cory and Prof. and Mrs. G. W. Bissell.

The ballroom will be the scene of the Inter-Fraternity party, following this affair being to some extent one of the outstanding parties of the spring term. Attendance at the affair will be limited, each fraternity being allotted but eight tickets. In all, about 2000 tickets will be sold, and the identity of the orchestra will be withheld. Favors and prizes will be given to those at the party.

The patrons are Dean and Mrs. R. S. Shaw, Dean and Mrs. G. W. Bissell, and Mrs. H. H. Hedrick. The committee is headed by Mrs. J. T. Casswell, Mr. and Mrs. H. H. Kipke, Mr. and Mrs. H. H. Hedrick, Pat Grimes, Phyllis and Clyde Gilroy.

Dr. J. O. Hedrick, head of the department was delightfully surprised to find a number of his former students at a dinner most enjoyable. The long table was decorated in rose and silver. There were silver holders, and silver plates. Large round tables, with white cloths and white napkins, were set up. The tables were set in various poses and the following dinner the evening was spent playing bridge.

DIRECTOR OF 'BIG PARADE' WIELDS MEGAPHONE OVER MARION DAVIS

Marion Davis always gets the drum major's attention while her mother looks on with all the white noise of the parade. The scene played by Marion Davis in the opening scenes of "The Sign of the Cross" through the aid of her mother, who turns the innumerable relatives and acquaintances of life for several months of the most interesting picture of the season. It's a Metro picture.

Re-discovers His Favorite Tobacco

Charleston, W. Va., March 4, 1927
 Large Cigarette Co.
 Baltimore, Md.
 I stopped in a little village that consisted of about nine houses and a small hotel, which I entered. A man wearing a skull cap was seated in a rocking-chair smoking a pipe. I had come to buy a pipe, but when I caught sight of the tobacco he was smoking I was struck by the aroma of it. The aroma of that tobacco was so delightful that I was in my mind right then and there that I would buy some of the same brand, regardless of the cost.
 I approached him and said, "I beg your pardon, but I came in to buy a can of tobacco. I would like the same brand you are smoking if you don't mind selling it." He looked at me for a moment and then said, "I'm smoking Edgeworth with you like some."
 "If you like it, and I secured a couple of cans for you. The price, if you want, is on me, but I went on my way."
 Yours very truly,
 Dr. John R. Koch

"HONEYMOON HATE" HAPPY SNAPPY FARCE FILM FAKE REVEAL SECRET MARRIAGE OF LAST YEAR IN TOLEDO

Paramount has another winner. A snappy, gingersnap comedy, comedy, to music of love, beneath the moonlight, to the luring tones of strumming guitars and the gentle swishing of water, was put on the screen at the State theater today.

It is called "Honey-moon Hate" and it is Paramount's adaptation of Alice M. Williamson's story of the same name. Florence Vidor is the star. That in itself is enough to attract considerable interest.

But "Honey-moon Hate" is different from anything Miss Vidor has ever done. She has been in comedies— that's true—but never such a happy and snappy comedy as this. It is a comedy of the heart, a comedy of the soul, a comedy of the spirit. It is a comedy that will be remembered for years to come. It is a comedy that will be remembered for years to come.

Another collegiate marriage was revealed a short time ago when Mr. and Mrs. R. E. Lense announced the marriage of their daughter, Emily, to H. Lyle Lyon, prominent senior on the campus, which took place at Toledo, Ohio, July 16, 1927.

Lyon is a member of Phi Kappa Psi, Scabbard and Blade, Theta Alpha Phi and Alpha Epsilon Mu. The bride is a member of Alpha Phi and Phi Sigma.

The weight of a woman's first look is usually equal to twice the weight of the ingredients.

AT THE STATE TODAY

Florence Vidor in Paramount Picture "Honey-moon Hate"

H. H. HALLADAY PRESIDENT OF STATE MUSIC INSTITUTE

H. H. Halladay, secretary of the institute, was elected president of the Michigan State Music Institute at the annual meeting of the institute at the State theater today.

The institute is a non-profit organization for the promotion of music in Michigan. It was organized in 1925 and has since that time held annual meetings.

A complete list of the members of the institute will be published in a book.

SKILL

THE twist of the wrist, the "throw" of the arm, the shifting of the weight—these are among the many little points which make the skill that you admire in the javelin thrower as he hurls the shaft two hundred feet or more.

As on the track or the football field, in the gymnasium or on the water, so in industry progress is the result of fine improvements—a thousandth of an inch here—a minute variation in a curve there—slight changes foreseen by engineers and carried out by skilled workmen.

It is this attention to detail that is constantly improving General Electric apparatus and contributing to the electrical industry, which, though still young, is already a dominant force, increasing profit and promoting success in every walk of life.

Whether you find this monogram on an electric refrigerator for the home or on a 200,000 horsepower turbine generator for a power station, you can be sure that it stands for skilled engineering and high manufacturing quality.

BASEBALL TEAM RETURNS FROM SOUTHERN TRIP WITH FEW VICTORIES

Squad Scores Two Victories and Loses Four Games in South.

TOLLES LEADS HITTING

Returning from the Southern Sunday night, Coach Koles and the Spartan baseball squad began to make plans for the opening game with Afler College which occurs on Wednesday of the coming week.

On Saturday afternoon the Michigan State nine met up with Cumberland University at Lebanon, Tennessee, which resulted in a victory for the State men.

Monday the Spartans met with the first reverse of the trip. At Fort Benning, Georgia, the Michigan State lost to the Fort Benning officers.

The second game of the three game series at Fort Benning resulted in a second crushing which was administered to the Spartans.

On Wednesday the Michigan State team participated in the Fort Benning nine and lost them 3-2.

The final game of the trip was and was a double play started by M. C. Stute shortstop, cut away the chance for two scores but the ninth inning was able to score another run a few minutes later when Tolles walked.

Coach Koles took ten men on the trip. They were: Capt. Tolles, R. S. Blythe, Steve Davis, Wagon, Carson, Dick, McConkey, Egerton, Billings, Byrnes, Lewis, Harrington, Craft, and these men, Tolles led the hitting on the trip.

The following subjects will be discussed: The Chemical Constitution of Dyes, Dr. R. C. Hudson, Colloidal Phenomena with Dyes, Dr. T. Ewing, Dr. G. H. H. Hooper, The Work of the Society of American Bacteriologists, with Special Reference to States, Prof. F. W. Faulkner, Dyeing in Bacteriology, F. E. INEXPERIENCE HANDICAPS LOTT WINS SOUTHERN SINGLES TENNIS CROWN

POLO TEAM AT CULVER

George Lott, who attended school here fall and winter terms, added the South Atlantic singles tennis crown to his titles last Sunday when he defeated Tamba Abe, Japanese champion, defaulted in the final of the tournament because of an injured leg.

In the morning Lott paired with Johnny Doeg, Stanford university star, was defeated for the doubles title by Abe and Frank X. Shields, New York junior champion.

Lott is the ranking No. 3 tennis player of the nation. Leatitt, the other of Gerald Peterson, Horace Ocker and A. A. Towner.

Here's some "inside stuff" on smoking
SOMEWHERE in the neighborhood of your center of gravity there's a spot devoted to smoke appreciation. We could describe it more fully, but this is no organ recital. The point is: Light a Camel, pull in a fragrant cloud of cool joy—and listen to your smoke-spot sing out—"Halelooya!" As the noble redskin puts it—we have said!
R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.
