# DO YOU INHALE?

Why is this vital question so much avoided by other cigarettes?

EVER since Lucky Strike created that special process for purifying fine tobacco and told the full facts about cigarette smoking—the industry has been in an uproar. For Lucky Strike has dared to mention things that were considered "taboo" in the cigarette trade.

You may have noticed a striking avoidance generally of the word "inhale" in cigarette advertising. Why? Goodness only knows! For everybody inhales—knowingly or unknowingly! Every smoker breathes in some part of the smoke he or she draws out of a cigarette.

That's why it's all-important to be certain that your cigarette smoke is pure and clean—to be sure you don't inhale certain impurities.

Do you inhale? Lucky Strike has dared to raise this vital question—for it gives you the protection you want... because certain impurities concealed in even the finest, mildest tobacco leaves are removed by Luckies' famous purifying process. Luckies created that process. Only Luckies have it!
