Quiet Week-end in Sight as Last Minute Studying Takes Place; Only Three Houses Hold Parties

Hermians, A. G. R.'s, and Delphics Entertain at Dances; Numerous Sororities Give Christmas Parties or Pledges and Alumni This Week.

Again, and for the fourth consecutive week-end, there has been a dearth so unusual and so exceptional in the social functions on the campus that students, for lack of anything more exciting to do, must study for exams to fill time. In other words, the campus is dead. The successful peace and quiet of the week-end is to be broken by the melodious strains from orchestras at only two fraternity houses, and the radio at a third. The Alpha Gamma Rho's and the Hermians are sponsoring open house parties, while the Delphics are entertaining with a dance party. And so the old year ends on bright prospects for a new and better term are looming close in the horizon.

Mary Mayo Hall Has Many Books in Model Library

College Librarian Furnishes Co-ed Dorm with Tones Modern and Classical.

At the beginning of the fall term Jackson E. Towne, college librarian, installed small collections of modern literature and a few classics in the libraries of East and West Mary Mayo Hall. People were at first doubtful that the libraries would be popular enough to keep up, but both libraries report the frequency of the use of the books. The modern literature seems to hold first place, but biographies and the classics are not far behind in demand. The request for poetry is great, but there is little of it in the libraries at present. Periodicals are also quite popular and the girls all cooperate in keeping the records up-to-date and the books in proper place.

APPEARING AT STATE FRIDAY, SATURDAY, SUNDAY

Contemporary Campus Comment

It is not often that a harmonious relationship exists between a state university and its parent community. The University of Kentucky is one of the few institutions where such a relationship exists. A survey would show that in practically every other state they do not get into such a harmonious relationship.

WHAT BENEFIT COLLEGE?

len has been given more serious consideration than at any time within the memory of the present generation. Certain it is that colleges will be forced to change in times of economic or business depression such as now confronts us.

On every hand the cry is raised that colleges do not fit young men and women for six-sigma occupations nor for a definite place in the economic or commercial scheme of things. The accusation is also made that colleges turn out a particularly choice and business brand of young men, well centered and imbued with the American ideal.

In our educational system other institutions designed to serve these purposes. Among the branches which endeavor to fit men for vocations may be mentioned polytechnic institutes, industrial schools and large universities where the leading professions are taught. However, many of the trades, particularly handicraft work, are still being taught by the old guild system.

At the same time the professor and himself making access in class books, discussing unprepared students and setting desks in the dormitories during class hours. Another aspect of cooperation between faculty and student body is seen in the administration of the college. The administration will have general professors from leaving quarters during rushing, if the faculty will further cooperate in making the assignments under their own hand.

WEEK OF IDLENESS OVERTAKES BASKETBALL TEAM AS END OF THE FALL TERM APPROACHES

Quintet Will Return to Practices After Christmas in Preparation for Wisconsin Contest on December 30 and Game With Syracuse January 3.

By DOUG GRAHAM

Nothing more serious than a couple of chemistry books and an anatomy chart is on the schedule for Coach Ben VanAlstyne's Spartan basketballers, who this week become just plain students and make ready for their examinations. The battle to stay eligible takes the center of the stage now.

After a brief appearance in a downtown charity game last night with a Lansing amateur five, the State varsity will hold only the lightest of drills until they return after Christmas. As soon as the holiday is past, VanAlstyne will again round up his men to make a hasty preparation for the game with the University of Wisconsin at Madison on Dec. 30.

POLO TEAM HAS BUSY SCHEDULE

Split Double Bill; Meet Lansing and Gull Lake Teams Soon.

The Michigan State-S.L.O.T.C. polo team will renew its rivalry with the 1931 Field Artillery organization Saturday afternoon at three o'clock in Demonstration Hall. Only a military costume drives enabled the Spartans to defeat the Artillery two earlier in the season 13-11, consequently a bitter battle is anticipated.

The Spartan mallet welders divided a double header program with the Detroit Riding and Hunt club last weekend dropping Friday night's encounter but coming through victorious Saturday afternoon. The Detroit club brought two complete teams, one playing under the name of the Cavaliers and the other the Trojans. It was against the former that the Spartan riders showed to best advantage with Howard Caron leading the scoring and standing out for individual work and team play. He also formed his teammates in the scoring column in Friday night's fray. Other Spartans showing were McDonald and Gaselman.

The Trojan team consisted of F. E. Johnson, E. Spahn, and C. Pierce and men playing for the Cavaliers were T. Hubbard, J. Danks, and H. Connelly. Those who have been eagerly awaiting a chance to see Miss Catherine McChuteen, State's woman polo player, perform will get this opportunity next Wednesday night when a private team from Long Beach farm on Gull Lake invades the Spartan stronghold. Miss McChuteen will sponsor another woman player who holds a position on the Gull Lake team.

Holders of student athletic books will be admitted to the games free of charge but to non-holders of books a fee of 20 cents will be made.
