Students To Vote On Class Officers Wednesday

Here is Plan of Proposed New Government

The chart shows a diagram showing how students would be represented in their government under the proposed new government which comes up for election Wednesday. Starting with the Student Council at the top, representation for men can be traced down through the chart at the left, and for women through the chart at the right. Maids in Distress?

Were they two damsels in distress? It was the question of several persons who were following a visit to the girls' dormitory yesterday afternoon. Looking slightly to the left, the girls looked out of the dormitory windows, and the girls blushed their way out of the office. The staff is still wondering.

Still Waiting

Students put up the class of 1939 memorial yesterday, but the class is not yet ready for the memorial. In the meantime, the figures of a boy and girl are the figures of a boy and girl, and at the top are the figures of a boy and girl.

Top Is Cracked

The top edge of the memorial was broken, cutting the words above almost in the middle. So the job has not yet been completed and the memorial will probably be done when the work is done.

Correction

An error was made in the State News Thursday in labulations of primary election results, and the paper erroneously stated that Barbara Booth, candidate for state vice-president, received 151 votes. The correct figure should have been 225.
