... Missing Links

The two missing links in Prof. A. A. Applegate's journalism class yesterday morning reported late but in unison. When calling the roll, no reply came to the names of Eileen Fink and Marilyn Zink. A few seconds later the two missing class members entered. To Applegate's query, "What are your names?" the two replied, "Fink and Zink."

... Foxhole to Frolic

From a foxhole in the Solomons to the all-college dance at MSC last Saturday evening was the trip of Peter Genther, who graduated from State in 1940, made in two weeks. Lieutenant Genther stopped on campus en route to his home in Allentown, Pa., wearing the Purple Heart and Trip campaign ribbons for service in two fields of action and the Pearl Harbor emblem. He was wounded at Pearl Harbor and spent six months in hospitals before returning to action at Munda and in the Solomons.

Two Instructors Join Faculty of Foreign Studies

Two foreign instructors have been added to the faculty of foreign studies according to Pres John A. Hannah. They are Prof. Sun Chang Lee, of the University of Hawaii, and Prof. Luis Alberto Sanchez, Peruvian lawyer, author and professor at the University of Chile. These men will offer courses dealing with the region of their specialization.

The institute of foreign studies, of which Professors Lee and Sanchez are part, grew out of the work of a 17 member committee headed by Dean L. C. Johnson of the Liberal Arts division. It will not have the backing of a new division but will draw upon the resources of the six established divisions.

New staff members will be added as needed. It was announced by Dean Emmons. The institute's program of instruction will include material concerning the history, agriculture, language, culture and politics of the areas concerned.

The reason for the founding of the new curriculum is that Postwar America will have increasing contacts with South America and the Orient, according to President Hannah.

WAVES to Stay Home

WASHINGTON, Sept. 28 (AP)—The WAVES are not going overseas, at least not soon. The navy acceded to strong senate support of legislation which would have permitted such assignments for its women.

The WAVES, army counterpart of the WAVES, are bound by no stay-at-home rule.

British, Yanks Take Italian Air Base

CDC Chooses Coeds to Hold All Top Jobs

Defense Classes Show Fall Enrollment of 177 Women

New departmental heads for Coordinating Defense Council for the current year were announced by Vera Gardner, Albin senior, and CDC chairman, yesterday.

Sally Seifert, Grand Haven junior, will head the War Planning board, publicity will be handled by Margaret Peterson, Brooklyn junior, and Jean Swengel, Cassopolis junior, will direct SWAVE entertainment programs. Margaret Bullen, Jackson sophomore, will have charge of defense courses, and Ruth Peters, East Lansing junior, will be chairman of the activities board.

King Will Advise

Miss Peters and Ann Mandenberg, Okemos senior, will be co-representatives on the activities board, which will include representatives from the 310th CTD and civilian men students. Tom King, of the college social committee, will act as adviser for the board. ROTC men and the AST units, headed by Lt. Robert Smeltzer, will cooperate.

A meeting for all military men interested in writing for the military page will be held today at 5 p. m. in the State News office, Union annex.

with the activities board for social functions, Miss Gardner stated.

Department heads which were appointed last spring and will remain in their posts are Mary Greenfield, Lansing senior, CDC executive and secretary, Mary Ellen Haack, Royal Oak junior, who will have charge of the defense office, and Barbara Poag, Detroit junior, SWAVE head.

PanHellenic Has Booth

Sale of war bonds and stamps to civilian men and women during registration totaled 8466, according to Miss Gardner. PanHellenic will have charge of the defense booth again, Miss Gardner said, and will sponsor special sales campaigns during the year.

One hundred twenty-seven upperclass women signed up for defense classes for the term. Most popular courses were air plane spotting, Morse code, and languages. Women may still see CDC—Page 4

Model for 'The Spartan Athlete' Completed by Prof. Jungwirth

A model for the 10 and one-half foot figure of "The Spartan Athlete," has been completed by Prof. Leonard Jungwirth of the art department, according to an announcement made by Prof. Ralph Young, director of the physical education department. "The Spartan Athlete" will eventually be placed near Jensen Fieldhouse on campus, and is part of a long-range plan for campus decoration and beautification, Young said. Another portion of the program is the recently completed mural in College auditorium, by Charles Pollock, art instructor.

The finished figure, to be of

Reds Push Ahead on All Fronts in Dnieper Sector

LONDON, Sept. 28 (AP)—The Red army raged through 1,160 more villages today, tightening its assault grip on Kiev, Kremenchug, and other Dnieper river cities, and threatening early seizure of the Gomel-Vitebsk railway in White Russia, key to Poland and the Baltic states, Moscow announced tonight.

Sweeping up 1,000 villages on the Gomel-Mogilev-Vitebsk front in White Russia, the Soviet armies, the daily communique said, had gained from nine to 15 miles, putting them within 11 miles of Gomel and apparently only about 10 from Vitebsk.

Thus both ends of the important railway, the last north-south line available to the Germans east of the old Polish border, was in Red artillery range.

The fall soon of the east bank city of Kremenchug also was foreshadowed in the bulletin, reported by the Soviet monitor. One Soviet column attacking that bridgehead city, reportedly was ripping Nazi defenses within nine miles of the city; others had swept around it to the Dnieper on both sides.

Moscow dispatches said long lines of German reserves were being hurried from the rear in an effort to hold the Dnieper line. The Soviet air force was strafing and bombing troop trains west of the Dnieper, however, and the communique indicated no slackening in the Red army's westward plunges.

Major Peterson Leaves Campus

Major Gerald Peterson, acting commandant of the Michigan State ROTC units and the AST program, left campus Sept. 27 for service in the 46th Central Postal Directory, Camp McCoy, Wisconsin.

Replacing him as adjutant of the 46th service unit at MSC is Maj. James Speckman, who came to State from Fort Bragg, N. C., last October.

Major Peterson, graduate of MSC with the class of 1937, was active as manager of the annual East Lansing horse shows, assistant professor of military science and an instructor of the cavalry units on campus. Later he was the cavalry unit director. He directed the specialized training and reclassification program which preceded the present ASTP program.

United Nations Forces Open Balkans for Future Attack

ALLIED HDQ. IN NORTH AFRICA, Sept. 28 (AP)—The great Italian air base of Foggia and its 13 largely undamaged fields were captured Monday in a swift, 25-mile British armored lunge which increased the peril to German defenses of Naples, through which the American fifth army advanced two to five miles.

King Will Direct New Job Bureau

TOM H. KING to aid job seekers

Information on the establishment of a central placement bureau for State was released yesterday by Pres John A. Hannah. The new bureau, already approved by the State Board of Agriculture, will handle all the work of student and alumni job placement.

Temporary head of the placement bureau will be Prof. T. H. King, head of the department of police administration, Hannah said.

The office is being established at the present time because techniques and record systems can more easily be tried out, adapted, or discarded now, when the placement burden is comparatively light.

Tentative plans for the bureau call for a placement director and a suitable office staff, a vocational guidance organization for testing candidates' aptitudes for various positions, and alumni contacts.

Students and Faculty Served in Cafeteria on Regular Schedule

Union cafeteria will be open to students and faculty for all meals, but the general public will not be served, Emory G. Foster, manager of the Union, announced.

All meals will be served on army trays and there will be no a la carte, Foster said. Those wishing to may purchase meal tickets good for 21 meals, although this is not required, he added.

Breakfast will be served from 7:30 to 8 a. m., lunch from 11 a. m. to 12:30 p. m., and dinner from 5 to 6:45 p. m. The hours at noon will be changed to fit the demand, Foster stated.

Both the second floor dining room and cafeteria will be used at noon because of the shorter serving period, Foster said. Only soldiers will be served upstairs. Dinner will be served in the cafeteria.

Grill hours will be 8:30 a. m. to 4:30 p. m. daily and 8:30 a. m. to noon Saturday, the manager announced. He added that a Saturday evening schedule may be worked out.

Japs Lose Seven Ships at Wewak Shipping Base

ALLIED HDQ. IN THE SOUTHWEST PACIFIC, Wednesday, Sept. 29 (AP)—Allied bombers have sunk seven Japanese ships at Wewak, New Guinea, today's headquarters communique reported. The ships were three tankers and four merchantmen.

Wewak, 325 miles northwest of Lae, is both an enemy shipping and air base. The air raiders destroyed 50 planes on Wewak's airfield and downed 14 others in air battles, also sinking 29 barges.

The total plane bag raised to more than 450, the number of enemy aircraft destroyed in the Wewak sector since mid-August.

In the tense ground battle for Finschhafen on New Guinea's Huon peninsula, Australian veteran troops have indicated heavy casualties just north of the town between the base and the Bami river. In that area, where the Aussies are within less than a mile of their objective, progress has been slowed up by prepared enemy positions.

Twenty-five Japanese planes, raided northwestern Australia, the communique said, striking at Drysdale mission.

Linton Lists High Grades for Summer Students

Summer wartime students showed no falling-off in the quality of work done, according to figures picturing the distribution of student grades for that quarter. Registrar R. S. Linton has announced.

Fourteen per cent of the grades earned were A's, indicating very superior work. B's accounted for 37 per cent and another 37 per cent were C's. The D percentage reached 8, while only 3 percent were F's.

In Campus Quarters

By SCOTTIE McNEAL and RO HOWLAND

WARS may come and wars may go but LOVE goes on forever. With this in mind we were given fresh strength to getter out of bed at 7:30 and prowled about the campus in search of news about people.

It seems romance bloomed along with the Victory gardens this summer and there is a damper crop of both diamond and plain gold rings to prove it. Mary Jane Holmes has one of the diamond variety from Frank Nemetz, Phi Kappa Tau shipman school at Columbia.

Marian Roselle, Delta Zeta, tells us her diamond came from Harold Mitchell, AGR who graduated last year. Louise Roth and Jerry ter Horst, Psi U, both formerly shining lights on the State News staff, announced their engagement during the summer.

Louise is reporting on the Grand Rapids Herald now, while Jerry works at being a marine at Ann Arbor. Elsbeth Watt and Bob Deldersfeld have also made things pretty definite, as indicated by the pretty hunk of jewelry on Elsbeth's left hand.

That starry-eyed couple floating around is probably SAE Bob Canham and the former Jean Holzner, Kappa, who have been married for all of two weeks.

The same goes for Bunny Bucholz, Theta, and Alex

Dillingham, Delta Sig. These two celebrated their one-week anniversary last Sunday.

Jean Lumsden, Theta, returned with a shiny new engagement ring from Jim Valance, Sigma Nu, who is now "Apprentice Seaman James R. Valance." Two Kappas on the "unavailable-engaged" list are Madalene Wattle, to Harry Barnes, Phi Kappa Tau, and Joan Strohm, to Jack Chapman, Phi Delta.

Pat Rathbone, Alpha Phi, visited East Lansing over the week-end long enough to tell of her wedding which will be Oct. 2. Lt. Fred Dow is the other half of this proud couple. Pat was just in time to admire the pins two of her sister Pats have acquired.

Beth Holland wears the Phi U badge of Jack Jenle and Jean Harris received Harry Huber's ATO pin in the earliest pinning on record. Seven thirty in the morning was the hour as Harry had four hours in East Lansing on a hurried trip from Great Lakes Naval Training station.

The military men are buzzing right along, and doing all right, we must say. Cadet Millard Johnson of St. Louis and Neva Kirchhoefer, also from there, were married in Lansing during September. Pfc. Irving Jacobson, of the AST unit at State, went back to Chicago recently.

The same goes for the girl he left behind, Sara Starkman.

SPEAKING FOR MYSELF

By BARBARA DENNISON

EVERY time local areas in Michigan have staged a trial blackout in the past three years, everyone was well warned at least a week in advance just when it would be. Only once or twice has there been any doubt in the minds of local residents, and then only to the extent that the blackout would be either "tonight or tomorrow night."

A trial blackout is supposed to teach many things to persons unaccustomed to such practices. However, when one is fully warned hours or days in advance, the value of such an experiment is lost.

Last week in a small village in upstate New York, with no previous hint of the action, sirens blew at 10 p. m. and every person in that town knew exactly what to do.

They had not prepared for the blackout, they were not just sitting and waiting knowing that it would be sometime that evening. Perhaps some of them were just leaving to catch a bus or train, perhaps a doctor was hurrying on a call, some may have been in even more desperate circumstances, but the blackout went on successfully.

With proper planning and previous announcement that surprise trials would be held at any time in the future, local civilian defense authorities could arrange a similar scheme.

Instead of telling the public every time there is to be a test blackout, they should always be on the alert for an unexpected one and carry it out as if it were more than a test.

Optimists will say this country will never be bombed and what is the use of all the silliness, but the first person who said "be prepared" knew what he was talking about. If the people of New York can do it, so can these in Michigan.

And speaking of surprise blackouts, Purdue university got good practice entirely unexpected this summer in just such a situation. When about to test the campus' first air raid siren, the local power plant failed and the campus had a real blackout instead of a test for the siren.

'Claudia' Cast Needs Additional Talent

Casting is still being held for the "Claudia" production, and a student actress for the role of a temperamental Russian opera star is needed, along with a "twisted" husband, a tall, good-looking British novelist, and an Hungarian farmer, play director Don Buell said.

Several other characters required, with a wide variety of types and age groups, are needed in the play.

Rehearsals start soon and students are urged to turn in tryouts or for work in Studio theatre productions.

PROOF of the old saying that there is nothing new under the sun is given with the fact that the WAC is not a product of World War II. Although they were not called WACs in 1813, a group known as the Women's Auxiliary Corps was organized at Jefferson Barracks, Mo., 130 years ago.

The duties of the women were a little different from those of today's WACs, but they served the same purpose of relieving a man for fighting at the front. In those days work included preparation of wadding for ammunition, filling powder horns, oiling muskets and scrubbing cannon.

The real rub comes in on the matter of their pay. . . they received standard army pay of 15 cents a day, a far cry from the pay of even the lowest buck private in the army today.

AT OHIO State university the housing situation on campus was a little reversed this fall when an ASTP unit moved into Mack and Canfield halls, formerly two dormitories for women students, while coeds at the same time took over the college fraternity houses.

The situation isn't an entirely new one to State students, since the AST men took over North hall, women's residence during the summer, and at present two fraternity houses in East Lansing are now being used for residence halls for woman students.

Emory university is believed to be the only university in the world whose main buildings are constructed entirely of marble.

Dormitories Top Capacity Under 'Double Up' Program

Women Will Elect Residence Officers Tonight

Last year's capacity registration in the three women's dormitories on campus has been topped this year with a total of 250 more woman students in the three residences, according to Mabel Petersen, women's housing supervisor.

To meet the increased demand for student residences, Kappa Sigma and Theta Chi fraternity houses and Alice Cowles house are being used as annexes to the dormitories, while the list of approved private homes for college women has jumped from approximately 30 last spring term to 75 at the present time.

The rumor that women students have been temporarily living in the Union was denied by Mrs. Petersen. All women are now adequately housed, she said.

Although the enrollment of freshman women this year is the highest in Michigan State history, no women were refused admission. Waiting lists for rooms at times totaled 250, but last minute cancellations in favor of defense jobs and cooperation of non-campus East Lansing residents simplified the problems of the increased enrollment.

Visiting day will be observed Friday, Saturday and Sunday of this week in the dormitories for adjustment in room situations. Women living in recreation rooms in the dorms will be moved into regular rooms within the next few days.

Dormitory elections will be held at 10 p. m. house meetings in all dorms, annexes, co-ops and off-campus houses tonight to elect the state of house officers which will serve during the term according to Pat Stone, AWS president.

Petitions distributed at house meetings Sunday following nominations were to be handed in to Mrs. Don Robinson, adviser to the eligibility committee in the dean of women's office yesterday. Lists of eligible candidates will be returned to the houses today.

Officers must be upperclassmen and have a one-point average. In houses where these requirements cannot be met, qualifications have been lowered.

Bond Premiere Scheduled

A war bond premiere of the movie "Let's Face It" with Bob Hope and Betty Hutton is scheduled for 9 p. m. Friday at the Gladstone Theatre, Lansing.

Admission to the film will be by purchase of war bonds of any denomination. Bonds are on sale at the State theatre and at all Lansing Butterfield theatres.

Since the Middle Ages a wooden mallet, pounded on each stamess, has been the signal for rising at Worcester college, Oxford.

Germans Occupy Corfu Island and Harbor of Split

LONDON, Sept. 28 (AP).—The Germans announced today that their southern European forces, already spread thin, had occupied the Greek island of Corfu in the Ionian sea opposite the heel of Italy and the Yugoslav Adriatic harbor town of Split 300 miles to the north.

Both moves, perhaps held in view of the weakening Axis position in the part of Europe, apparently were made in an effort to strengthen the German Balkan flank against the new and grave menace arising from the Allied capture of the big Italian air base of Poggio, only 150 miles from the already hotly-contested Yugoslav coast.

A Yugoslav authority in London declared that Split was still in patriot hands. Tonight's communique from the Yugoslav army of liberation, recorded by the Associated Press, told of heavy fighting in the mountains 15 miles northeast of Split and said German pressure had increased in the last 48 hours.

Further north the battle for Susak, near Fiume, appeared in doubt. The communique said street fighting was still in progress at the Croatian port.

Wheeler Urges Delay in Draft of Fathers

WASHINGTON, Sept. 28 (AP).—Senator Wheeler (D-Mont.) challenged the senate today to drive "draft dodgers and slackers" from their hiding places in government and industry by blocking the induction of pre-war Harbor fathers, scheduled to start Friday.

As the senate went through the first day of debate on Wheeler's bill, expected to continue at least through tomorrow, Senator Wheeler (D-Mont.) announced that the joint committee on reduction of nonessential federal expenditures would launch an investigation within the next few days looking to reduction of the government payroll by 300,000 employees.

Faculty Club to Meet

The State College club will hold its first business meeting of the year at noon today in the club rooms in the Union, with Pres. John Hannah as guest speaker. The meeting is open to all faculty members.

First dean of men in America was Thomas Arble Clark of the University of Illinois.

Spartans at War

By ANNE COWAN

CPL. Sheldon Moyer, former managing editor of the State News, visited East Lansing a short time ago before reporting to Camp Davis, N. C., for Officer Candidate school. Before beginning his training, corporal Moyer was stationed at Camp Wallace, Texas.

Another Spartan who has successfully completed his training is Alfred Ruhlly, recently selected "Soldier of the Week" at Camp Grant, Ill. Aviation Cadet Harmon Robertson, former student at MSC, has completed his basic flying training at the Peoria army air field in Texas and has just left for advanced training.

Prof. Roy Brill, locally known for his talent as an organist, has just reported to Virginia Polytechnic institute to complete a course in chemical engineering in the ASEP.

Lansing has contributed an other commissioned officer to the army in the person of Lt. Stuart Bowman of the quartermaster corps. A former student at State, Lieutenant Bowman recently returned to Lansing on leave.

Two former State students have completed their training for naval flying commissions and were recently made ensigns in the naval reserve. They are Francis Stark of Geneva, Ill., and Vernon Montague of Mason. Stark is a member of Sigma Chi fraternity and the class of '44, while Montague belonged to the class of '43.

Engineering Cadet John Bordeaux has been transferred from Ohio State university to the University of Kentucky. Bordeaux was a student at Michigan State college at the time of his enlistment.

Lt. James Potvin, of Alpena, has just completed an especially tough course at the air force's central instructors' school for bombardiers. Potvin, who has just been awarded the air medal with four oak leaf clusters, and the Purple Heart, is a former student of MSC.

Another Spartan, Dick Charlton, has been added to the list of Ellington Hall of heroes. He served with the North African air force troop carrier command during the Sicilian campaign.

Two former State students recently received wings and commissions in the air arm of the marine corps. They are Lt. John Fabian and Lt. Louis Jennings. Fabian is the son of Dr. F. W. Fabian, professor of bacteriology at State.

Word has been received of the award of the army silver star to Lt. Eugene Keyes, a graduate of Michigan State. Keyes, who has been in the service two years, and overseas for a year and a half, has received the award for gallantry in action in Tunisia.

A member of State's varsity basketball team, Lt. Victor Rusing, has just won his navy wings of gold as well as his commission.

Elmer Dietrichler, class of '42, has just reached the halfway point in his final flying training, while John Reed, also of MSC, has finished his basic flight training at Perrin field, Texas.

Ted Cahoon, member of the naval air force, and the only navy man mentioned in today's column, was on campus for a brief visit during the last few days of August.

Michigan Bond Sales Lag in Loan Drive

WASHINGTON, Sept. 28 (AP).—The \$15,000,000,000 third war loan edged nearer success tonight as the treasury reported an additional \$420,000,000 in bond sales and a new total of \$14,225,000,000. Four days remain to raise the \$775,000,000 still needed.

Individual sales still 41 per cent short of the \$5,000,000,000 quota for small bond purchasers, gained four points or \$186,000,000 in the latest tabulation.

Michigan rated 25th among the states with 77 per cent of its quota subscribed, according to the nightly tabulation. To date sales of 346 million have been reported of its quota of 431 million.

Iowa Wesleyan, founded in 1842, is the oldest college west of the Mississippi.

British Bombers Smash German Industrial City

LONDON, Sept. 28 (AP)—Mixing its punches with the skill and power of a champion boxer, the RAF's great bomber fleet smashed the big German industrial center of Hannover last night for the second time within a week, quickly followed up yesterday's Flying Fortress raid on the North sea port of Emden, and pounded the metal and machinery center of Brunswick.

The air ministry said that the three attacks were made in "very great strength," and that 38 of the big bombers were lost. Returning crewmen reported tremendous flames were eating through Hannover, which bore the brunt of the assault.

Last night's was the RAF's second three-ply blow within five days. Last Thursday night it bombed the twin cities of Mannheim-Ludwigshafen and Darmstadt and Aachen. Such a diversion of attack, with the emphasis on one target, keeps the Germans alert.

Hannover, site of the Nazis' biggest rubber factory, as well as numerous oil refineries and motor factories, apparently has been marked for death, as was Hamburg. A week ago the RAF rained an estimated 2,000 long tons of explosives on the city, and last night's attack was thought possibly to have been equally devastating.

Lawrence college is the only member of the midwest conference with a football team this year. Reason Lawrence is the only school in the conference with a naval training unit eligible to play.

Fraternities Resume Active Status Make Plans for Rushing

Despite the fact that only a fraction of the former masculine enrollment is still on campus, all of the fraternities are on an active status and are planning fall rushing activities.

Pledging will be carried on gradually, a man or two each term to keep a nucleus on campus, said Dean Fred Mitchell, interfraternity advisor.

IFC council members will hold a meeting late this week to elect a new president Tom Baird, former president, is now in the army, while all other members have returned with the ROTC units.

The fraternities are now operating as non-housed groups and meeting at convenient hours for the military members on campus.

RUSHING INVITATIONS

All town girls and women living off campus who are participating in formal rushing are asked to pick up their invitations at the PanHellenic office in the Union annex. The office will be open afternoons this week and next from 1 until 5 on Mondays, Wednesdays and Fridays, according to Detroit senior Deas Johnson, PanHellenic head.

Invest in Victors—Buy War Bonds and Stamps.

All-College Dance Listed Saturday

Heading social activities for the weekend is an all-college dance scheduled for Saturday from 9 to 12 p. m. in College auditorium, Ruth Peters, East Lansing junior, announced.

Contrary to previous announcements that it would be a mixer, the dance is to be a date affair, Miss Peters said. Music will be furnished by the Hep Fliers aircrew band.

Students will be admitted upon presentation of their identification cards and men in uniform need no other identification. Patrons for the dance, which is being sponsored by the college, will be announced later, according to Miss Peters.

Churchill Tells Britain Nation's War Effort Must Be Maintained

LONDON, Sept. 28 (AP)—Prime Minister Churchill told Britain today that the nation's present full war effort must be maintained without letup, through two more years if necessary, and he warned that apathy or a slackening of the pace of the British war machine would bring new dangers, "deadly in their character."

Churchill said that larger armies would be fighting and more powerful air forces would be striking at the heart of the enemy during the forthcoming year, and to this prophecy Labor Minister Ernest Bevin added that "it will be a tough go during this winter and early spring."

The prime minister and the labor minister and four other British war leaders addressed the nation through 6,000 representative British women assembled secretly in London's giant Albert hall.

CDC

(Continued from Page 1)
sign for classes in the CDC office.

Freshmen Register Later

Because of the point limitation system, freshmen were not allowed to register for the defense classes, but there will be an opportunity for them to do so in the future, Miss Gardner stated.

W. A. Davenport, supervisor of buildings and grounds, requests that women who are interested in doing work under the SWAVes program sign up at the CDC office. Barbara Poag, SWAVE head, said women are needed to help with work in campus buildings and on campus grounds. They will be paid regular college wages, according to Miss Poag. All college women are eligible, irrespective of class.

THE WOMAN'S WORLD

By LEONE SEASTROM

AWS COUNCIL

AWS council will meet tonight at 6:45 in organization room 1 of the Union, according to Pres. Pat Stone, Chicago, Ill., senior.

MORTAR BOARD

Following AWS council meeting scheduled for 6:45 tonight, Mortar Board will hold a meeting in the faculty dining room of the Union, Marjorie Jehle, president, Detroit senior, announced. Activity plans for the coming year will be discussed.

YWCA CABINET

All YWCA cabinet members must attend the meeting to be held tonight from 8 until 9 in the student parlors of Peoples church, according to Pres. Jean Barnum, Williamsville, N. Y., senior. Definite plans will be made for the organization's activities.

RATION BOOKS

Women students who have not received their time ration books for this term, or their AWS handbooks, may secure them at the dean of women's office.

RIDING PERMITS

Women desiring to ride college horses must have written permits from home. The permits must be checked at the dean of women's office, after which they will be given to the military department.

Century Players Plan WKAR Drama Series

Returning to the air Saturday evening at 6:30, the Century Players of Peoples church will present a weekly series of dramatizations over WKAR, college radio station.

The first play will be "No Time for Tears", an original script by Ann Osgood. Combining comedy and pathos, the story concerns the efforts of a young doctor to restore the happiness of a mother distraught by the departure of her son for the armed forces.

The cast includes Fred Tachbach, Eva Jo Wood, William Kennedy, Dick Murray, and Mrs. Osgood Silvio Fortino, chairman of the Century Players, will direct.

...in peace and war

This emblem is familiar throughout the nation as the symbol of a well-trained team, integrated for service in peace or war—The Bell Telephone System.

1. American Telephone & Telegraph Co. coordinates all Bell System activities.
2. Twenty-one Associated Companies provide telephone service in their own territories.
3. The Long Lines Department of A. T. & T. handles long distance and overseas calls.
4. Bell Telephone Laboratories carries on scientific research and development.
5. Western Electric Co. is the manufacturing, purchasing and distributing unit.

The benefits of the nation-wide service provided by these companies are never so clear as in time of war.

new!

To face the strenuous days ahead, use Mary Dunhill's new, two-way opaque mist-make-up. It clings to your face through thick and thin. Worn without powder, you'll find it gives you a look of energetic good health. Lightly filmed with Mary Dunhill's powder "FACE IT" takes on a muted, velvet finish.
