Reds Ask for Italian Ships

Yanks Hit Nazi Cavalry Outfits Supply Dumps Near Capital

Doughboys Repulse Third German Stab to Smash Anzio Beachhead
ALLIED HDQ., NAPLES, March 3 (AP)—American heavy bombers struck a new blow at the enemy's railway communications through Rome today as the Italian campaign followed the breakdown of a third German attempt to smash the Allies' Anzio beachhead.

Despite bad weather which blanketed much of the peninsula, Flying Fortresses struck weak spots through the Lattuada and Tiburtina rail yards in outlying sections of the capital, while bombers bombed Anzio, 20 miles north of the city, which has served as one of the Nazis' main military supply centers.

The first German stab at the beachhead was repulsed with heavy losses and several miles of beach were rolling back into the hands of the Allies.

The Allies' position at Anzio is now being strengthened by the arrival of the 3rd U.S. Army and the 1st Canadian Army.

Cavalry Outfits Tighten Squeeze Around Momate

ALLIED HDQ., SOUTHWEST PACIFIC, Saturday, March 4 (AP)—Fifth cavalry regiment reinforcements have expanded the invasion hold around Momate airbase on Los Negros island in the Admiralties, head quarters announced today.

Los Negros was invaded Tuesday. The new advances gave the Allies a larger foothold on a strategic position in the Bismarck Sea which has bypassed Rabaul and severed Japan's supply route between Truk and New Guinea.

From a beachhead some long ranging north and south, the cavalry moved ahead Friday in all directions against the few thousand Japanese holding the bulk of Los Negros after earlier stages in each Japanese counter-attack.

At the same time, the Allies are tightening their grip on the island.

Third of Captured Fleet Destined for Russian Use

WASHINGTON, March 3 (AP)—The Russians want part of the Italian navy, President Roosevelt disclosed today, and about one-third of the surrendered ships, or the equivalent, will be turned over to them.

The President, at his press-radio conference, spoke of the move as part of the general policy of running everything that leads for the benefit of the war. "We will do something about the war of a more permanent nature," he said.

"Will they be manned by Italians?" a reporter asked.

"Maybe," the president replied, "but that will depend on the ships and the circumstances."

The President announced that Italian merchant ships also are involved, but the conference broke up so that only a few details could be reported.

Weekly Letter to Men in the Service

This open letter to men in the service is a weekly feature of the Michigan State News, describing the outstanding events on campus. Clip it out and mail it to a friend in the service.

March 4, 1944

DEAREST Johnny:

It's been so long since I've heard from you I'm beginning to think you're a military secret. What's the deal, huh?

Not that I'm counting on anything, but the Home Ec department is planning to offer a few courses next time to brides or would-be brides of being same. One word from you and I'll sign up for all of them.

The winter term play, "Guest in the House," rang a bell with its theme of Thursday and topped it off with a repeat performance last night. Favorable comments are buzzing around the campus like greetings from the president.

La Cafreña, Spanish honors, sponsored a fiesta night for ASP men last night which included everything from rhumba instruction to conversational Spanish. The only thing lacking was Carmen Miranda.

John Fletcher Robinson will be here tonight for the Senior ball at which the new senior officers will be introduced. Guest lecturers will include Larry Frymore, Rae Annette Loeffler, George Morrison and Harold Rockwell are the lucky boys.

The latest idea to issue cash from the Liberal Arts division is a plan for a more liberal education during the first two years and that way we won't need enough. The program will allow students to take non-credit courses whenever they feel they are qualified. At that rate I'll be in college for four more years. That whole thing sounds interesting, though, and I'll keep my eyes peeled for any developments.

Liberalism yours,
PEG

Reds Approach Pskov In Push Toward Front

Soviet Troops Capture 17 Towns, Railroads on Way to Key Center

LONDON, March 3 (AP)—A Red army column closing in on Pskov from the east drove to a point only five miles from that key communications center today with the capture of Maloye Fomkin, Moscow announced.

This represented approximately a six-mile advance in the area and put Soviet troops in the city's outskirts in two directions.

Take Towns

Moving along two railroads, the Russians swept up 17 towns and four railway stations, bringing their lines to a point eight miles southeast of Pskov with the capture of Pokhvalshchima. Another locality reported captured, Svyazova, 17 miles southeast of Pskov, was only six miles from the Pskov-Ostrov railway, which the Russians seek to cut.

Three of the railway stations captured were on the Pskov-Polotsk railway and the nearest to the city was Dneprovodki, about 15 miles southeast. The fourth station was Kelo on the Pskov-Staraya Russa line about 12 miles east of Pskov.

A Moscow radio broadcast recorded by U. S. government monitors said the Russians south of Pskov were fighting in Pushkin state forest, named in honor of the 19th century poet, and were on the approaches to Pushkinskie Gory, a district center. This was about 30 miles southeast of Ostrov.

Yank Bombers Sweep Over Nazi Capital

British Pilots Report Use of 'Blockbuster' Bomb on Special Targets

LONDON, March 3 (AP)—Fleet twin-engined, twin-fuselage P-38 Lightning fighters of the U. S. eighth air force carried out an offensive sweep over Berlin today, marking the first time that formations of American aircraft had flown over the German capital.

The sweep was made as American Flying Fortresses and Liberators blasted industrial and shipping targets in northwest Germany and American medium Marauders smashed Nazi airfields in France. In all these operations six American fighters and 10 bombers were missing, and eight enemy fighters counted shot down.

No Opposition
U. S. air force headquarters announced simply that the Lightnings had "carried out an offensive sweep" over Berlin, but it was learned later that the fighters, after flying at least 575 miles to their target, raced back and forth across the city at high altitudes for several minutes without opposition.

The Lightnings were looking for trouble while the heavy bombers were hitting the northwest German targets, but they apparently failed to find it, for the returning pilots made no claims of damaging or destroying enemy aircraft.

Daylight Offensive
The Lightning dash over Berlin marked only the second time that daylight offensive operations over Berlin had been reported. On Jan. 30, 1943, RAF Mosquitos, also twin-engined, twice bombed the city by daylight to inaugurate the celebration of the tenth anniversary of Hitler's rise to power.

The exact targets hit by the heavy bombers in northwest Germany were not immediately identified.

As the Americans were rounding out 48 hours of almost continuous assault on Nazi targets in Europe, the British air ministry disclosed that its powerful Lancaster heavy bombers were now using a 12,000-pound bomb with enormous destructive effects, a new "super-super block-buster" designed by British scientists for destroying special targets.

Allies Requisition Merchant Ships to Free French

WASHINGTON, March 3 (AP)—A "substantial number" of French merchant ships requisitioned by the United States and Britain after the fall of France will be turned over to the French committee for national liberation for service under the French flag.

The British-American-French agreement to this effect was announced by the war shipping administration today.

Crews Supplied
Crews will be supplied and paid by the French committee in a step toward revitalizing the French merchant marine.

The WSA said the French group would put "all its ocean-going tonnage at the disposition of the United Nations until the defeat of the last Axis powers."

For United Nations Use
The passenger and cargo ships thus to be manned by French sailors include vessels which were chartered to Gen. Dwight D. Eisenhower without crews by the French North African authorities after the Anglo-American invasion of that continent.

Six vessels laid up at Martinique—four tankers and two cargo ships—also are placed at the disposal of the United Nations, under the agreement.
