### ... He Who Laughs

The students in Prof. Charles R. Hoffer's sociology class were discussing material and immaterial culture. They laughed first when he said that the test he was going to give was material culture and that the answers they would give him would be just immaterial. That was until they took the test.

### ... Open Sesame

Things have gone a little too far. The latest excuse for not making an 8 o'clock is not that the early riser couldn't get out of his room, he couldn't get into it. Locked out by his roommate, the unfortunate man, clad in pajamas, searched through all the halls of Abbot to find someone with a key. By the time that the master key had been secured, it was just too late.

## Woman Explorer To Present Talk Tomorrow Night

Osa Johnson, famed explorer, will lecture on the "African Paradise" tomorrow night at 8:15 in the College auditorium. Mrs. Johnson and her husband, the late Martin Johnson, were recognized as one of the greatest contemporary exploring teams.

Students and faculty will be admitted to the lecture free of charge.

## Lee and Fee to Speak At Club Meet Tonight

The International club will hold a formal meeting tonight at 7:30 at the International house, according to Peter H. Gens, Canton, Ohio sophomore and publicity chairman.

Dr. Walter R. Fee, head of the department of history, and Dr. Snao C. Lee, head of the foreign studies department, will speak on "American-Chinese Relationship" from the American and Chinese viewpoint, respectively, followed by an informal discussion of the subject.

## College To Offer Stag-Drag Affair For All Tonight

### AWS Sponsors Combination Clothing, Goodwill Drive

Yesterday marked the beginning of State's seven day Victory Clothing Collection drive which is being sponsored by activities board of AWS, according to Shirley Hame-link, Lansing senior.

The national drive, which is being directed by the United Nations Relief and Rehabilitation association, set 100,000,000 garments and 100,000,000 good will letters as its goal. The drive has been running since Jan. 7 and will terminate Jan. 31 as will State's campaign.

#### Rapid Delivery

According to national reports, there will be very little time lag between the giving of clothing in the Victory Clothing Collection and receiving of it by the needy and destitute overseas.

Dan A. West, director of the division of contributed supplies of UNRRA, said "warehouse facilities which once baled one million pounds of clothing a month have been stepped up to bale two million pounds a day. Shipping of relief supplies is no longer a problem."

#### Clothing Needed

Among the articles needed are infants, children's, men's and women's garments of all kinds, shoes, gaiters, bedding, blankets, and remnants of material one yard or over.

Contributors are asked not to donate straw hats, toys, feather beds, pillows, mattresses, purses, novelties, or household furnishings.

All articles should contain a personal note or message.

Collection boxes have been placed in sorority houses, in the Home Economics building, the Union, in off-campus and co-operative house, as well as in meeting places of other women's organizations.

### Former Air Corps Man To Reassume Old Job As Piano Instructor

Joseph Evans, after serving two years in the army air forces, has been reinstated as instructor in piano at Michigan State college, according to Roy L. Underwood, head of the department of music.

At Langley Field, Va., Evans was assistant to the chaplain. Among his duties were the arrangement of twilight musicals presented in the chapel, and numerous recitals he played at the field.

Evans holds the bachelor of arts and master of music degrees from Michigan State college.

### Student Review Will Show Nine Acts At Custer

Spartan Spotlight review will travel to Fort Custer and Percy Jones hospital Sunday, its director, Don Buell, of the speech department, has announced.

This will be the fourth year the review has been presented to nearby centers for convalescing servicemen.

Student talent appearing on the program Saturday will consist of nine acts. Jean Zook, Hallard, N. Y., senior, will do "Songs With a Blue Mood." Nancy Hessler, Grand Rapids freshman, will tap dance and Marion Green, Lansing junior, will present saxophone selections.

Pauline Moehlman, Muskegon Heights junior, will read "Green Grow the Lilies."

Fifth on the program will be music from "Oklahoma" done by Merrill Walker, Niles sophomore. "Baby and Sush" by Renee Scott, Lansing senior, appears next.

Helen Voelker, Reed City sophomore, will do a piano number and Maxine Shelton, Pontiac freshman, will play the guitar.

Concluding the current program of the Spartan Spotlight review will be "Songs With a Difference" done by Joyce Rockwell, Three Rivers freshman.

Musical director, Lenore Hudson, East Lansing senior, will be with the troop as accompanist.

### Alpha Omicron Pi Pledges Coeds

Alpha Omicron Pi, women's national sorority, announced yesterday that they added three new pledges to their membership as deferred rushing came to a close.

The three new women wearing the AOPi pledge pin are Dorothy Bower, Tecumseh; Wilma Radcliffe, Grand Marais, and Gloria Starr, Lansing.

### Informal All-College Dance to Take Place In Auditorium; Dancing 9 P.M. - Midnight

All students will now have that long awaited chance to meet some of their fellow Spartans. Included in this weekend's list of parties are two all-college mixers.

An all-college stag-drag dance will take place in the

### Staff Member Will Present Concert

Paul Nordoff, assistant professor of literature and fine arts, and concert pianist, will present a program of twentieth century music in the

PAUL NORDOFF  
... pianist ...

Music auditorium tonight at 8. Sponsored by the departments of music and literature and fine arts, the concert will include works by Russian, Spanish, and French composers.

See CONCERT, Page 4

### Quartet Will Make Third Appearance At MSC Monday

The Budapest String Quartet will make its third appearance on the Michigan State campus Monday night at 8:15 in the Music auditorium.

The quartet, composed of Josef Roismann, first violin; Edgar Ortenberg, second violin; Boris Kroyt, viola; and Mischa Schneider, violoncello, will present compositions of Haydn, Hindemith and Beethoven.

It was previously announced that this concert would appear in the College auditorium.

### J-Hop's History Reflects Style Changes At State

The car ban which had been worked any hardship on the early patronizers of the State J-Hop because way back then, there wasn't such things as cars. Men and their dates would gather at the street car waiting station, where Campbell hall is now, and then pile into the cars for the trip down to Lansing.

Additional handicaps along the transportation line were felt by the class of 1913 when a record snow storm halted all the street cars on the night of their dance. Undaunted by the unexpected difficulty, everybody piled into sleighs for the trip.

#### Rough Ride

The worse was yet to come, for one of the sleighs broke down. The earliest arrivals dragged into what is now the old Masonic temple at midnight, and hungrily

at a banquet which had been planned for four hours earlier.

Hidden in the past is the origin of the J-Hop, but MSC records show that it was enjoyed by students as long ago as 1905. Since then it has been an annual affair, except for the last two years when wartime enrollment made it inadvisable to continue it. This term will see its revival, when the class of 1946 sponsors the dance on Feb. 15 in the college auditorium.

#### Styles Change

Thirty years ago the dance was quite different in many ways than it is now, and not only in dress and hair styles. Money paid out for the orchestra equaled only about 1/3 of the money that came out of the budget for the decorations. A glass of fruit punch gave the lift between

dances instead of the now traditional coke. One-fifth of the expense was for the banquet that always preceded the dance. This banquet would be complete with toastmaster speeches and a program.

#### Typical Budget

A typical budget for a J-Hop of the early 1900s ran as follows:	
Decorations	\$ 310.35
Banquet	204.00
Music	137.40
Favors	298.00
Masonic Temple rent	68.00
Printing	32.16
Transportation	30.00
Punch	9.75
Stamps	4.00
Drayage	3.00
Flowers and baskets	4.00
Miscellaneous	35.60

Total Expenditures \$1,136.26

College auditorium tonight from 9 to 12. Rosemary Howland and her orchestra will furnish the music for this informal affair. Students will be admitted by their activity coupons as this dance is being presented as a part of the lecture-concert series.

Mrs. Isabelle Gonon, counselor for women, has announced that the success of this mixer will determine whether any similar affairs will be given in the future.

#### Patrons

Patrons for the affair will be Prof. and Mrs. C. A. Lawson, Prof. and Mrs. L. A. Haak, Prof. and Mrs. H. H. Kimber, Prof. and Mrs. B. Euwema, Prof. and Mrs. S. G. Bergquist, Prof. and Mrs. W. R. Fee, and Prof. and Mrs. P. D. Bagwell.

Saturday afternoon the Union ballroom will be the scene of another Party-Party which the Union board is sponsoring. Music for dancing will be supplied from 3 to 5 p.m. by Gene Devine and his orchestra, and tables will be provided for those students wishing to play cards or games.

#### Stag-Drag

This will also be a stag-drag affair, and June McNutt, Detroit senior, has announced that tickets must be purchased at the Union desk.

Getting back to tonight's social functions, the Phi Deltas are giving a formal dinner-dance in the American room of the Hotel Olds. The dinner will be held from 7 to 8 p.m. and dancing to the music of Dick Snook and his orchestra will follow from 9 to 12 p.m. Tables will be arranged in a night club style after the dinner, and refreshments will be served throughout the dance.

#### Sleigh Ride

Also taking place tonight is the sleigh ride which Spartan Christian fellowship is giving. Every-

See SOCIAL, Page 2

### State Alum Made Landscape Chief

Harold Lautner, class of '25, has been named campus planner and landscape architect for the college, the administration has announced. He will carry on the work of T. Glenn Phillips, who died last November, in classifying and locating sites for new buildings and keeping the campus beautiful.

After graduation from State, Lautner was employed by the American Park builders in Huntington, W. Va., to supervise construction work. He held similar positions in Florida and Illinois.

Entering the school of city planning at Harvard university, he received his M.A. in '36, and stayed on in Cambridge to do research work and teach. In 1941 he was appointed chief planner of the Federal Works agency, Division of Defense Housing, Washington, D. C., and he served in that capacity until coming to State.

## TIME TABLE

- Swimming meet, 7:30 p.m. Jenison pool
- International club, 7:30 p.m. International center

## SOCIAL

(Continued from Page 1)

one is welcome to come and are asked to meet at Bethel Manor, 435 M.A.C., at 7 p.m. If the weather doesn't permit a sleigh ride, a hay ride will be given instead. Lillian Donaldson, Detroit sophomore, has announced.

Following the ride everyone will return to a Lansing home for refreshments and entertainment. Prof. and Mrs. Paul de Koning, and Mr. and Mrs. Waring Finch will act as patrons.

### Open Party

Another group taking advantage of the winter weather is the Student club. Tonight they are sponsoring an ice skating party to which all students are welcome to attend. Joyce Lamb, Rockford sophomore, has announced that everyone is to meet at Peoples church at 8 p.m. Patrons include Mr. and Mrs. Russell Kleis, L. M. Ferrell, and M. E. McCullough.

Four radio parties and a semi-formal term party will hold sway tomorrow night. The Alpha Xi Deltas will give tomorrow night's semi-formal dance in the Union ballroom.

The radio parties will be given by the Alpha Gamma Rhos, precincts 11 and 14 of Abbot hall, Sanford co-op, and the Phi Kappa Taus.

### Pi Beta Phis Announce Two More Pledges

In addition to the number of new pledges of Pi Beta Phi mentioned in yesterday's paper, has been announced by the sorority Betty Wilkinson, Jackson, and Doris Woodward, La Grange, Indiana, also pledged Wed. night. This makes the total number of pledges 18, instead of 16.

Never trust a man who speaks well of everybody.—Collins.

## Kappa Sigs Renew Frat Activities

Kappa Sigma, one of the few fraternities which completely stopped functioning during the war, is again active on campus, according to Pres. Gale Cooley, Howell junior.

The fraternity was de-activated after many of the actives left for the armed services. During the war and until next summer term, coeds will occupy the Kappa Sigma house.

Cooley announced that present membership of the fraternity consists of 27 pledges and six actives.

Kappa Sig officers are: president, Gale Cooley, Howell junior; secretary, Jack Halligan, East Lansing senior, and treasurer, Robert Arms, Vermont junior.

### Publishers to Attend Weekend Meetings

The 78th annual convention of the Michigan Press association will hold its meeting today and tomorrow in the Spartan room and ballroom of the Hotel Olds. The convention will be comprised of election of officers, roundtable discussions, and lunch and dinner programs.

Publishers of daily and weekly Michigan newspapers will attend the convention.

Prominent guests invited include Gov. Harry Kelly, Lt. Gov. Vernon J. Brown, Pres. and Mrs. John A. Hannah, Poet Eddie Guest, and Louis Bromfield.

Student directories, are still available at the Union desk and at the Registrar's office, it was announced. Students should report a change of address to the Registrar's office immediately upon making it.

## Mad As Hopps

By JANICE HOPPS

IT might as well be spring, according to the popular song and the activities board of AWS. The song attributes the feeling to something called "spring fever;" activities board to an early housecleaning.

The opening of the Victory Clothing Collection drive yesterday is everyone's cue to get some of that spring fever and start digging around in Fibber McGee's closets. Sponsored by the United Nations Relief and Rehabilitation association, this year's goal is to collect 100,000,000 serviceable garments, plus shoes and bedding, for the relief of war victims overseas.

State students have a goal of their own to live up to. Last year Spartans added 1,125 pounds of clothing to a total collection which clothed 25,000,000 persons in Europe, China and the Philippines. With clothing somewhat more plentiful in the States and with more students to make contributions, we should be able to add to an even more impressive total this year.

Needless to say those millions of war victims aren't looking for something special, just something to keep them warm. What we wouldn't be seen in at Louie's Lower Level looks as good to them as a Schiaparelli original. So almost anything goes.

Drag out what you consider to be worn out and outmoded, those clothes that were destined for the rag collection and the shoes that were destined for the back of a newly-married friend's car, and give. To us fashion is the last word; to those in other countries fashion is still spinach.

Anyone in a dorm, sorority or cooperative house will have a box for old clothing handy. Everyone else can find a place to deposit odd pieces either in the Union or the Home Ec building. When you walk into the Union loaded down like the Irish washerwoman, take a good look around. Everybody's going to be doing it if we answer the drive.

See HOPPS, Page 4

## Grin and Bear It . . . By Lie

"I don't see how we could have endured four years of without government control, Sedgwick! There wouldn't have been any black market!"

## Art Exhibition Beginning Sunday Features Paintings of Michigan State Professor

An art exhibition featuring oil paintings by Prof. Walter Quirt will open Sunday in the art gallery of the Music building. The exhibit will be open to the public free of charge from 3 to 5 p.m. daily until Feb. 12.

Quirt, of the literature and fine arts staff, came to Michigan State college last fall from New York city. It was there he earned an enviable reputation as a painter of non-objective art.

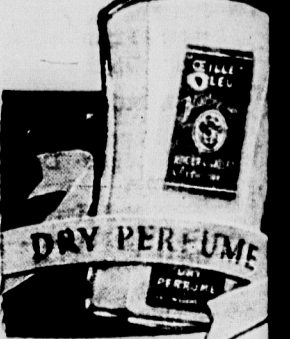

Besides exhibiting in St. Louis, Atlanta, and other cities, Quirt is represented in the Whitney museum.

## Incredible Captivate

Breathe yourself in a wholly captivating fragrance. Dry perfume is the face of fragrance—the perfume incredibly reaches its flower as it clings to glowing skin. Use this same powder the same liquid perfume. Pat its smoothness behind your ears, on arms, neck, shoulders will keep you delectable beyond reckoning!

Six exciting scents . . . Night of Delight . . . Fleurs d'Amour . . . Blue Carnation . . . Jade . . . Sandalwood . . . and Violette, priced at \$1.25.

## Spartan Poolmen Favored Over Boilermaker Squad

Trying to keep his Spartan swimmers from putting all their thought to the coming Michigan meet, Coach Charles McCaffree, will send his tankers into the Jenison field-house pool at 7:30 this evening against an underdog Purdue outfit.

A week from tomorrow the state natators will bang into the Wolverines in what will probably be their toughest meet all year as all good Spartan athletes think, so the swimmers want to thump Michigan very badly and it's constantly on their minds.

That's why McCaffree is having no little trouble getting his men to put a little thought to the Boilermaker affair. Although Purdue is expected to fall, the visitors have a lot of punch, and with men like Dick Hennigan, Boilermaker distance ace, around anything might happen.

Feature race of the evening will probably be when Hennigan and Spartan Abel Gilbert, Ecuadorian star, churn over the 440 course. Gilbert so far is the standout performer of the Spartan squad.

McCaffree will count heavily on his backstroke aces, Howard Patterson, back in action after a case of flu, the Cooley boys, Harold Willard, and Roger Brown.

Also looked for to produce Spartan points will be breast-stroke Paul Seibold, John McGrath, Bob Calhoun and Tom Bollenbaugh. Unbeaten diver, Don Dunbar, and Dud Harned should make tallies from their spring board contributions.

In the freestyle events State has numbers and strength. Besides Gilbert, McCaffree boasts Bob Allwardt, Harland Dodge, Chuck Howey, John DeMond, Ziggy Indyke, Jim Quigley and Captain James Thomas.

### Sigma Chi - Psi Upsilon Win in Bowling Tilt

In last night's fraternity bowling action, Sigma Chi took four points from Phi Delta Theta by virtue of Tom Ballard's 472 and Bill Pearson's 469.

Dave Schmidt was high point man for the losers with 462.

In the only other match, Psi Upsilon picked up three points from Phi Kappa Tau. The big pin tappers for the winners were Bucky Miller and Dick Kvitek, who came up with 445 and 444, respectively.

Pete Prince paced the Phi-Taus with 491, which took top honors for high series of the night.

Phi Chi forfeited four points to Delta Chi in the third scheduled match of the evening, and last week Psi Upsilon won four points from Alpha Epsilon Pi by virtue of a forfeit.

Starting with this week's action a new team will enter the league. Kappa Sigma will replace a team that has decided to with-

## WOMEN'S SPORTS

By MARGE McRAY

WITH the badminton block playoffs starting this Monday evening at 5, it will be interesting to know how the girls in each block stand.

In block 1 there is a tie for first place between Claire Neitz and Elizabeth Hammond, each having six victories, with Judy Williams making a close second with five victories.

Ruth Holm has done very well for herself in block 2, with seven victories, while Marilyn DeWitt and Ruth Hansen place second and third, respectively.

### Dancer Dances To Top

First place holder in block 3 is Marion Dancer, while the second place is shared by three girls, Marge McRay, Marion Severns, and Mary Lou Dowd.

Another three-way tie is held in block 4, with Jane Hite, Beverly Sowle and Mary K. Babcock all battling for first place.

Jean Long and Merv Phillips have the first and second places in block 5. Jeanne Sorga holds the top place in block 6.

### Five Victories Each

Doris Taubert and Nicki Allen are in first place in blocks 8 and 9, respectively, both with five victories.

Margaret Wells and Gloria Oster are fighting for the top spot in block 10. Miss Wells is on the top today with seven victories. Elaine Brant and Ruth Nilsson are tied for first place in block 11.

In recent games that were played Jeanne Sorge, Ruth Hom, Marion Duncan and Judy Williams all added victories to their records.

Dizzy Dean, former pitcher for the famous St. Louis "Gas House Gang," predicts that the New York Yankees will meet the St. Louis Cardinals in the 1946 World Series.

## State Trackmen Face Tough Test In OSU Affair

A powerful Ohio State track squad is expected to give the MSC cinder team a severe test in its opener at 8:00 Saturday night in Jenison fieldhouse.

Coached by Larry Snyder, the Ohio State team has as its captain, Bill Seibert, a high hurdler who was third in his specialty in the Big Ten outdoor meet last year.

With such outstanding stars as Steve Orfanedes of Canton, Ohio, who last year set a national high school record of 1:56.9 in the half mile, and John Murphy another high school champion who ran the high hurdles in 14.9, the OSU team is going to be a tough one to beat.

Feature event of the evening will include a mile relay and a shuttle hurdle relay. It is not at all improbable that these two events which will wind up the evening's fare, will be the deciding factors when the final score is tallied.

## State Matmen Meet Purdue In Wrestling Event Tonight

By KEN CLARK

Due to arrive this noon by bus, the wrestling team of Purdue university will engage Coach Fendley Collins' undefeated MSC grapplers in Jenison fieldhouse at 8 tonight.

Purdue, defending Big Ten mat champion, will be risking an undefeated record as do the Spartans who have not been

beaten in a dual meet since 1943.

The Boilermakers boast one Big Ten champ, two men who hold runnerup slots and one man rating third in the Western Conference.

The feature attraction will be the 155 pound bout between State's national champ, Gale Mikles and Purdue's Warren Gregory, Big Ten runnerup in 1942, recently returned from war service.

# President Truman Considers Fact-Finding Bill Strike Hope

Says Congress Must Act

WASHINGTON, Jan. 24 (AP)—President Truman expressed the view today that there is too much power on both sides in current labor disputes and Congress now must exert the power of the people. He characterized some strikes as a test of strength between company and union, making the remark in specific discussion of the steel controversy at his news conference. He made it clear that he considers his fact-finding bill, still far from enactment by Congress, as the solution.

He told questioners that he does not think it would be practical at present to seize strike-bound steel plants, although he quickly added that he was not

saying this would not be done eventually.

He appeared to reject the proposal of Benjamin F. Fairless that he call a White House conference of management to consider "what kind of a wage increase the economy of this country can endure." Fairless, president of the U. S. Steel corporation, made his suggestion in a radio speech last night.

## American Legion Post Meets to Discuss Vets' Problems

At its meeting in the Union ballroom last night, American Legion Red Cedar Post 402 discussed the various problems facing the veteran student including the automobile regulations, government allotments and student equipment needs.

It was authoritatively stated at the meeting that although the college may feel certain equipment necessary for the veteran student, it cannot supply the same if the Veterans administration will not pay the bills.

## HOPPS

(Continued from Page 2) as it was answered last year.

One more thing: before you let go of your old clothes, clean out the pockets and give those forgotten coins, not the buttons, to the March of Dimes.

During the past few years we have learned to stand in line for cigarettes and to stand in line for meat. We've stood in line at the theaters, and we've stood in line to register, to get books and to eat. Lately, we've been glad to stand in line for nylons. But the latest queue appeared over on Grand River. We're now beginning to stand in line in order to cross the street.

Noticed the American Legion post had a tricky ad in yesterday's paper. These veterans must be a bunch of philanthropists. First thing I'd do if I had \$51,000,000 would be not to tell anyone about it, let alone ask for advice on how to use it.

## CONCERT

(Continued from Page 1)

The highlight of the program will be two of the pianist's own compositions, "Nightsong" and "Toccata". A concert pianist early in his career, Nordoff, later turned to the study of composition and has since been recognized as outstanding in this capacity.

He was awarded Guggenheim fellowships in 1933 and 1935, the Beams prize (from Columbia university) in 1933, and a Pulitzer prize in 1940.

From 1938 to 1943 he served as head of the composition department of the Philadelphia Conservatory of Music.

Sonata No. III by Prokofieff, Russia's foremost composer of today, and the Sonata No. III by Paul Hindemith, are two of the varied selections on the program.

Also several compositions by Mompou, a Spanish composer, "Fantasia Baetica" by de Falla, and "Undine" and "Serenade of the Court Jester" by Ravel also will be played by Nordoff's deft fingers. Several Hungarian peasant songs, arranged by Bela Bartok, will provide the conclusion to the program.

Join the March of Dimes today. Give to the infantile paralysis drive.

## Increased Enrollment May Foster More Dances In Auditorium

Often heard about the campus these days are uncomplimentary remarks about the crowded conditions at the dances held in the Union ballroom. It is rumored that one couple at the Cinderella Spin spent three dance sets trying to get off the floor.

The ballroom holds about 150 couples, but optimistic social chairmen, who no doubt formerly worked in sardine canneries, have crowded in as many as 300 couples at some of the dances.

Yesterday, Karl H. McDonel, college secretary, revealed some facts about College auditorium. Everyone would like to see more dances held there, but the cost is prohibitive. The bare cost for the hall with the checking, tickets and doorman included, is \$350. The Union ballroom

costs about \$25 for the same things.

College auditorium holds about 1500 couples, but until now there has not been that large an attendance. The fact office announced that several dances are to be held there in the near future, and if the attendance is sufficient, no doubt the number of dances will increase.

## Teachers Wanted

ELEMENTARY: Scores of vacancies in highest salary schedule paying cities, where you will get a raise each year. N. Y., Mich., Calif. and other Supervisors of all kinds are in demand.

SECONDARY: All subjects. Nation wide coverage. Demand heavy.

COLLEGE: English, Social Sci., Phys. Ed., Science, Engineering, and all others. Colleges are booming. Vacancies are numerous for teachers with Masters and Doctors degrees. Placement placement give telephone and qualifications.

## CLINE TEACHERS AGENCY

East Lansing, Michigan

## Charles Miller Attends New York Convention

Prof. Charles W. Miller, of the physical science department, is attending a meeting of the American Physics Teachers' association at Columbia university, New York. Sessions started yesterday and will continue through tomorrow.

## "Easy Does It" with Explosive Rivets

Riveting becomes a simple matter of touch-and-go when the rivets used on a job are Du Pont Explosive Rivets. They're so easy to use, in fact, that a single operator can fire them at the rate of 15 to 20 a minute.

The secret of the explosive rivet is the small charge within the shank. Once the rivet is in place, an electrically heated riveting iron is applied to the head. This fires the charge. Instantly the entire rivet shank expands to fill the drilled hole, and the large, barrel-shaped head which is formed on the blind end of the rivet locks it there to stay.

Explosive rivets are ideal for high-speed blind riveting, and for riveting in hard-to-get-at places. Since in many instances they permit simplification of design and more economical production, they have many uses in the automotive, refrigeration, and other fields.

### Behind the rivet — research

In itself, the explosive rivet appears to be a small and insignificant object. Certainly its size does not reflect the effort and research needed to bring it to its present state of effectiveness.

Yet selection of the proper metals for the rivet required prolonged study by Du Pont metallurgists. Determining the types and mixtures of powder was an assignment for Du Pont explosives chemists. Design of the riveting iron called for the skill of Du Pont electrical engineers. In addition, electronic and mechanical engineers were consulted frequently before the problem was at last solved.

The manufacture and the continuous search for improvement of this rivet are representative of what men of Du Pont, working together, are doing to help American industry to better and faster construction methods.

### Nylon Paintbrush Bristles Synthesized by Du Pont Men

The razor-backed, long-legged swine of the Orient are breathing easier these days, for Du Pont engineers and chem-

ists have developed a paintbrush bristle of tapered nylon that lasts from three to five times longer than the best bristle a pig can offer.

Du Pont men have long known how to spin a level filament of rough, resilient nylon, but a tapered filament was something else. All kinds of ingenious spinning devices were tried and discarded before a taper was achieved by pulling a continuous nylon filament from a special spinneret at a controlled variable speed—thick diameters resulting at slow speeds and thin diameters at fast speeds.

The painter who uses a brush with tapered nylon bristles may never think of it in terms of research. But the problem of obtaining a highly oriented, accurately dimensioned bristle required years of painstaking investigation by mechanical and chemical engineers.

### Rain- and Stain-proof Clothes

Many modern laundries and dry cleaners are now prepared to make almost any garment shower- and stain-resistant by treating it with "Aridex" water repellent, a chemical developed by Du Pont. Practically any "spillage" except grease can be wiped off the protected fabric with a damp cloth.

## Questions College Men Ask About Working With Du Pont

### "WHERE WOULD MY JOB BE?"

Openings for college graduates may exist in any one of the 37 Du Pont research laboratory centers—chemical, biological, metallurgical, engineering, or physical. Men interested in production or sales may find their opportunity in one of the Du Pont plants or offices in 29 states. Every effort is made to place men in positions for which they are best suited, in the section of the country which they prefer.
