

Look Out Tonight For 'Tis Halloween

Tonight is the night when those who've been looking all year for an excuse to wash their windows will get it; soap suds, for 'tis Halloween, the one day a year when raising your voice with the neighbor's fence, water hoses and garbage cans is not only considered legal, but good clean fun.

TODAY'S CAMPUS

Smoke Signals

When Kappa told a rank party last night that turned into a "smoke" when a student carried the real smoke pouring from the pipes.

Nice Going

John Moore, his old job instructor, was quick on grabbing his "smoke and stink" coats to enter a blouse during his lab class. While trying to enter the blouse, he fell from the back of the chair into the flames. The next thing he knew the hair on his wrist was on fire. Before any damage was done the blue flames were out and anyone had collected his nerves.

Real Nasty

A nasty rumor was making its way around campus yesterday to effect that Halloween took on last night. Bill McCarty, of Lansing Junior, explained it, however, by saying, "Everybody says that it was 'their' night."

Men's Dorms Plan Auditorium Dance for Homecoming

Men's dorms are making big plans for the homecoming dance. The College Auditorium, Social Union, and the Men's Dorms, St. Clair, are planning a dance.

Men's Dorms Plan Auditorium Dance for Homecoming

From Nov. 4 to 8, tickets will be sold to former male residents, now living in fraternity houses or campus. From Nov. 11 to 12, former women residents of either dorm or Abbot will have their opportunity to buy tickets, and on Nov. 13 to 15, guests of the men-Abbot men may buy tickets.

Men's Forestry Club

Forestry club members were gathered by color signals at the week's meeting. Bill Barth, the forester, showed the pictures which included highlights of the past and '66 members of the forestry summer camp near South Lake.

Police Feel Re-Zone Plan Woman Led O. K. Should Bomb Plot Come Soon

Jerusalem in Turmoil As Police Hunt Girl; 15 Suspects Arrested

JERUSALEM, Oct. 30 (AP)—At least 15 suspects, three of them wounded, were arrested tonight as police combed Jerusalem for a girl carrying a pistol and a gang of quick-shooting youths who machine-gunned the Central railway station and blew up its main waiting room.

Two persons were known to have been killed and at least one other was missing in three explosions occurring at 15 second intervals, at 3:30 p. m. this afternoon. The bombs were believed to have been planted an hour before by the girl.

Approval Will Permit Apartment Building, Store Construction

By JERRY KERRY
Property re-zoning on Harrison road to permit the construction of a block of apartment stores is almost certain to be approved by the township board, now that the planning commission has approved the idea and recommended its acceptance by the board.

Chairman Charles Barr, assistant professor of land architecture, stated yesterday that the planning commission was forced to withdraw its original, noncommittal, opinion of the proposal by the return of two members who favored the re-zoning.

Maestro Who Plays Tonight

Xavier Cugat, whose band appears in College auditorium tonight, inspects film star Rita Hayworth while she inspects the model awarded the rumba king by the Cuban government for his efforts in promoting inter-American good will.

Latin Musical For Students Xavier Cugat Will Present

A bit of South America comes to College auditorium tonight when Xavier Cugat, the jovial maestro who put the rumba on a par with the foxtrot, brings his band and a company of singing and dancing stars to the campus.

Opera Star Sings Second Recital At Auditorium

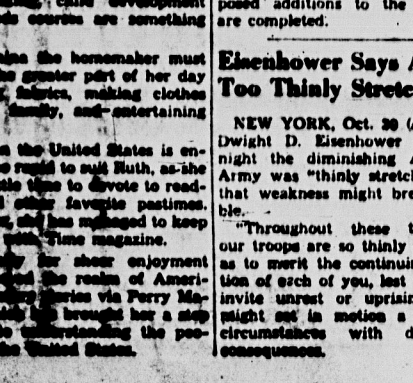

The hardy individuals who attended Blanche Thebom's second recital at the College auditorium last night in spite of unpleasant weather were rewarded with a top-notch performance.

Quonset Village Elects Jim Lake As Head Of Club

James Lake, Gaylord senior, was elected president of the Quonset Village club at the general meeting held last week. Lake is majoring in chemical engineering.

Freshman Student Nursed Chinese, American Armies

Ruth Cha, freshman from Hunan, China, may well exemplify a contemporary Florence Nightingale, as she has spent the past five years vigilantly nursing, in her war-torn homeland, Chinese and American soldiers.

Ruth's present plans center around her ambition to travel so she may meet and understand the people of other countries. Her chief objective, however, is to acquaint herself with the advanced methods being instituted in the more progressive hospitals.

America Endorses Disarmament Plan; Asks Inspections

NEW YORK, Oct. 30 (AP)—The United States endorsed Russia's disarmament proposals to the United Nations today, but went farther and asked that real disarmament be safeguarded by creation of a system of international inspection.

Cotton Plunge Closes Major Exchanges

NEW YORK, Oct. 30 (AP)—Plummeting cotton prices today forced a sudden and unexpected 24 hour closing of the nation's major cotton exchange and raised cries for quick federal action to stabilize the market in the south's biggest crop.

Cut of a hurried round of conferences in Washington came answering reports that officials were considering suggestions that ranged from decontrolling cotton textile prices to large government purchases of raw cotton.

The board of managers of the New York and New Orleans exchanges announced late today after consultations over the possible effect, that they would reopen for business tomorrow.

All of these developments trace back to the events of the last two turbulent weeks on the cotton exchange, during which the trading doors have been closed three times and prices have tumbled by as much as \$50 a bale.

Without advance warning the New York cotton exchange decided to shut down this morning, on a matter of minutes before trading was scheduled to begin. The New Orleans and Chicago exchanges promptly took similar action so that virtually all transactions in cotton for future delivery were suspended effectively.

Twenty-Six Union Men Hit By Court Order

MILWAUKEE, Oct. 30 (AP)—Twenty six officers and members of the striking CIO United Auto Workers union local at the main works of the Allis-Chalmers Manufacturing company were cited for contempt of court today in connection with picket line disorders this week.

Women May Now Smoke In Dorms, College Rules

Smoking in rooms in women's dormitories is now permitted by administrative ruling, Dean S. E. Crowe has revealed. The announcement was made in women's residences last night and was effective immediately.

The decision was made by an administrative committee appointed to study the problem which has become more acute with overcrowded conditions.

Mrs. Isabelle Gonon, counselor for women, said, "The present policy of no smoking in lounges, dining rooms, corridors, and laundry will continue to be enforced. The ruling permits smoking only in those rooms in which no more than four women are living."

Because of the increasing number of women who smoke, present smoking facilities are inadequate. Smoking curiously in rooms created a fire hazard since adequate facilities were not available for disposing of matches and cigarette stumps.

The committee hopes that the new policy will aid in improving study habits by eliminating frequent trips to the smelter which interrupt effective concentration.

MSC Passing Attack Polished For Saturday's Wildcat Tilt

By CHUCK STRATTARD
 Charley Bachman placed emphasis on a smooth passing attack as he sent the Spartan gridders through a lengthy drill yesterday in the final week of the week before the team entrains Thursday evening for Saturday's meeting with Kentucky in the heart of the blue grass country.

Return of center Pete Fusi after recovery from a back injury that had kept him on the sidelines three weeks, cheered the hopes of the coaching staff.

The ranks of the capable centers had been thinned in half after injuries to Fusi and Ray Wietecha, leaving only Bob McCurry and Dan Kelly to do yeoman duty at the pivot position the

last two games. Fusi's return will restore the snapper-back department to almost full strength with only Wietecha still on the shelf.

Quarterbacks Injured
 Joining Wietecha on the injured list are quarterbacks Bob Fischer and Pete Fornari still in tape and plaster with fractured bones. They have been lost to the team for Saturday's fray with the Wildcats.

The starting line-up for Kentucky will be the same as the team that took the field against Cincinnati with the possible exception of one of the tackle berths.

Line coach Al Kaval praised Jimmy Zito for his defensive play against the Ohioans, and declared Zito is coming along fast in practice sessions and may push John Pietz out of his tackle slot before the week is out.

Speaking of the Cincinnati game, after viewing movies of the 18-7 defeat, Bachman shook his head, sadly commenting, "That pass interception in the third quarter just shows how the

Poloncak Back For 'M' Tilt; Drills Continue

Neller, Jones Lead Spartan Scoring

Showing great form in last evening's practice, Johnny Poloncak, sensational half-back, was the first to score in the scrimmage for the first time since his shoulder injury. According to Coach Kobs his shoulder is definitely on the mend. Bobby Krestel, alternate left halfback, showed up for practice with a sore back, and the first string center, Frank Praker, appeared with a sore neck.

Yesterday the Jayvees divided their time in various assignments with one team working against the Varsity and using Kentucky plays. While this was taking place, part of the squad worked on offense and the rest on defense.

Neller Local Star
 Leading the scoring for the team so far this fall are freshman halfback Robert Neller, and sophomore fullback Milford Jones. Neller, a product of Lansing Sexton high school, where he was coached by Alan Howard, was picked second string quarterback on the All-State team last year and number one quarter on the All 5-A League team. He completed 11 touchdown passes while captain of his squad during his senior year.

Neller, who will be 18 this month, ran the hurdles in high school, and is also an excellent golfer. Tipping the scales at 176 pounds, he is five feet 10½ inches tall.

All Around Athlete
 Jones, who played his prep ball at Eaton Rapids under John Simpson, won a varsity letter here last season as second string fullback and understudy to Jack Breslin. In his high school days he was an all-around athlete.

He participated in football for four years; basketball, four years; baseball, three years; track, three years and boxing, three years.

As a football player, he was selected all-conference fullback in 1944. Twenty-one years old, he weighs 178 pounds and is six feet tall.

SPORTS NEWS IN BRIEF

Wiese Ready for Gophers
 ANN ARBOR, Mich., Oct. 20 (AP)—Bob Wiese, Michigan's pre-driving fullback who sat out most of the last half of last week's Illinois game with a side injury, headed a list of 36 players for Wolverines who take to Minneapolis for Saturday's Little Brown Jug football clash with Minnesota.

Wiese, who apparently is recovering rapidly from a blow in the side, is expected to be ready to play against Minnesota. Two years ago he scored three touchdowns for Michigan against the Gophers in their last Minneapolis encounter.

SPORTSITORIAL

Next week's game at Ann Arbor may mark, at least temporarily, the termination of football relations between Michigan State and the U. of M.

A college rule at MSC prohibits a football game on Sept. 27, the only date remaining on the Wolverine's schedule for next year, because it would interfere with next fall's registration procedure.

This is nothing new to pre-war students at MSC... in fact it is merely a continuation of the Ann Arbor school's policy of forcing State to accept "one date or none" for their football game, which has continued off and on since 1894.

President Hannah explained last night that a recommendation of the athletic council to the faculty committee, and action of the faculty committee would be necessary to amend the early game rule. The next meeting of the athletic council is scheduled for Nov. 7.

The rule which prohibits the early road game was made a number of years ago because (1) an early road game would prevent the orderly registration of students, and (2) the students would not have their activity books at that time, Hannah said.

This time, we believe, Michigan has outdone itself. They have added Pittsburgh to their schedule in a place (Oct. 11) which in all fairness should have been reserved for State. In the past, this might have been reasonable, but with Pitt's present lack of power, it can hardly be denied that this is a slam at MSC.

Top Pass Catcher In U.S. Plays For Winless '11'

Florida End Leads Ballhawks; Reader Places In Kick Returns

NEW YORK, Oct. 20 (AP)—Although he plays on a team that hasn't won a game all season, Broughton (Brute) Williams of the University of Florida is the No. 1 pass catcher among all the college football players in the nation.

The six-foot three-inch 195-pound end has been on the receiving end of 23 successful forward passes which gained a total of 433 yards in losses to Mississippi, Tulane, Vanderbilt, Miami and North Carolina, statistics released by the National Collegiate Athletic bureau showed today.

Not only has Williams covered nearly twice as much ground on his catches as his closest pursuer, but if he maintains the pace he set for himself in the North Carolina game last Saturday he would establish a new collegiate record.

Record Made in '41
 The present record was set in 1941 by Harry Stanton of Arizona, who caught 50 passes covering a total of 828 yards. That wiped out the previous high mark set by Jim Benton of Arkansas in 1937, when he caught 47 for 754 yards, still the second best performance in the bureau's history. Reid Mosdask of Georgia had the third best achievement of its kind last year when he caught 31 for 662 yards.

Louise Mihajlovich of Indiana, who caught six passes against Nebraska, jumped from eighth to second place among the nation's leaders with 19 catches for a total of 226 yards. Armstrong slipped into a third-place tie with Dean Laun of Iowa State, each with 16 catches for 255 yards.

First Wendt of Texas Mines succeeded Art Pollard of Arizona as the leading punter with an average of 43.7 yards on 29 kicks, moving up from sixth place as Pollard skidded out of the picture based on a minimum of 15 punts.

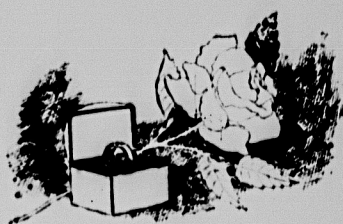

Department Leaders
 The leaders in each department:
 Pass receiving: Williams, Florida, 23 caught for 433 yards; Mihajlovich, Indiana, 19 to 226; Armstrong, Oklahoma A and M, 18 for 255; Laun, Iowa State, 16 for 255; Montgomery, Temple (A.T.U.), 17 for 227.
 Punt returns: Gilmer, Alabama, 22 for 277 yards; Clark, Duke, 12 for 260; Johnson, U.C.L.A., 15 for 260; Wedemeyer, St. Mary's, 15 for 215; Hutcheson, V.M.I., 19 for 215.
 Kickoff returns: Vian, Kings Point, 8 for 229 yards; Fenimore, Oklahoma A and M, 8 for 213; Turner, North Carolina State, 4 for 208; Hall, San Francisco, 6 for 203; Reader, Michigan State, 5 for 192.
 Punting: Minimum of 15 punts—Wendt, Texas Mines, 43.7 yards average; Quinn, Purdue, 43.5; Loucano, Lafayette, 42.9; Hagan, South Carolina, 42.8; Choul, Miami (Fla.), 42.1.
 Pass interceptions: Hatch, Washington, 6 for 110 yards in runbacks; Timberlake, Richmond, 5 for 120; O'Donnell, Harvard, 5 for 110; Hagan, South Carolina, 5 for 64; Tucker, Army, 5 for 21.

MESSAGE — LEATHER GOODS — TRUNKS — GIFTS

OPA Removes Shoe, Leather Controls Effective Today

WASHINGTON, Oct. 20 (AP) — Price ceilings came off shoes, hides, skins and leather tonight, and the order requiring production of certain minimum amounts of essential cotton textile goods was revoked.

The two actions, taken in swift succession late in the day, put the government back on the decontrol track which it had left temporarily earlier in the day with an order extending rent controls to additional areas with a population of 3,500. OPA explained that move by saying that the housing shortage is growing "more acute."

Unleashed by Steelman

Removal of ceilings from hides and their products was ordered by John H. Steelman, reconversion director, and OPA made it effective at 12:01 a.m. Oct. 21.

The removal of the requirement for production of specified textiles was done by the Civilian Production Administration, by revocation of its freeze order, effective Nov. 1.

CPA said that production of the goods regarded as essential in industry and agriculture, and for apparel, would be assured by a five per cent incentive price increase which OPA will grant on these goods.

"Real Interest"

Steelman, in announcing the leather decontrol order, said:

"After a careful study of all the facts, I am convinced that the decontrol of hides, leathers and footwear is in the best interest of production and supply to consumers."

Chicago Stock Yards May Cease Work If Union Strikes

CHICAGO, Oct. 20 (AP) — A strike which would halt operations at the Chicago stock yards, largest in the world, "may come any time after tomorrow night," unless negotiations tomorrow provide an agreement, a CIO spokesman said today.

Frank Monaghan, president of Local 44, CIO United Packinghouse workers said 450 stockhandlers employed at the yards might strike if wage demands are not met, and that such a strike would completely tie up the yard, affecting some 25,000 workers.

Union representatives will meet tomorrow with officials of the Union Stock Yard & Transit Co. and with U. S. Conciliation Commissioner Walter J. Munro. A general meeting of union members has been set for tomorrow night to decide what action will be taken.

"A strike may come any time after that," Monaghan said.

Pauley Hits Reported Russian-Reich Reparations Plans

WASHINGTON, Oct. 20 (AP) — Edwin W. Pauley, President Truman's reparations commissioner, warned tonight that the allies will be "successfully courting World War III" if they agree to a reported Russian plan concerning reparations from Germany.

The reported plan calls for awarding Russian reparations out of current production in the western zone of Germany in order to secure Soviet cooperation in un-

ifying Germany economically.

Source of Report

Pauley issued a statement to comment on what he called "recent dispatches" which reported that Russian Marshall Sokolowski in Berlin had suggested such a plan to Lt. Gen. Lucius D. Clay.

"The reported Soviet proposal that they be given 25 percent of the current production from the Ruhr Rhineland area would call for maintaining in operation the

very plants which all agreed had to be removed," Pauley said. This, he said, would make Germany a "potential aggressor" once more.

The Californian, who has toured Germany and the Far East on the President's request to study the reparation question, said it was "upside down logic" to maintain that the allies should permit raising the level of German industry "as a prerequisite to unification."
