Newspaper Week

American Newspaper Week will close tomorrow after a seemingly sincere attempt by many press executives to educate the American people in the mechanics, ethics and background of the newspaper as a mass medium.

The press has been scathed, scourged and scolded by critics for a "distortion and concealment of news in an attempt to balance the books."

In this era of crass commercialism, the American newspaper, like most other institutions, has become a big business—big in the sense that millions of dollars are exchanged in the course of the newspaper year, and big in the idea that the press is an institution—a public servant.

Joseph Pulitzer, some 40 years ago, said, "our republic and its press will rise or fall together." This has been one tenet of many American newspapers in their efforts to perform a public service to readers.

Unfortunately, this view is not shared by the American people as a whole. Many seem to feel that the press in many instances prints only what it wants to print—true or false.

Newspapers have been opened for public visits and to questions about the newspaper as an institution and a business.

"Your newspaper lights the way of freedom" is the slogan used to publicize American Newspaper Week. No other slogan ever brought home a point, came so close to the truth as this one.

The press has before and will continue to maintain an important place in national, international, state and local events. It is the right and duty of the press and the people to demand fair and objective treatment of news. It is the duty of the press to present a complete and objective picture of the news. It is the right of the people to get it.

Medic Gives Study Aids

The director of Boston University's health service, Kenneth Cristophere, has this to say about studying for exams:

"Don't try to stay awake by drinking coffee or smoking. You may keep physically awake but mentally you are just numb. When you take a 'quick break' don't light a cigarette. Get into the fresh air and clear your head."

"Don't study in a room that is too hot or cold. If the room is overheated, you will become sleepy. Those who believe brains work better in a cold temperature will probably miss the examinations because of colds or more serious ailments."

American Newspaper Week

A Viewpoint

I Like Witch Hunts

From the Minnesota Daily

I like witch hunts. I think they are exciting and gay and loads of fun, and I don't care who knows it. Of course there are a lot of people around who claim that they disapprove of witch hunts, but I guess they just haven't discovered how much fun they are. Either that or they're a bunch of frustrated liberals who hate to see anyone else having fun.

People sometimes ask me how you go about organizing a witch hunt. It's very simple really. All you have to do is to get into the habit of suspecting people. Me, I suspect everybody. It raises the percentage of the number of times that I'm right no end.

One of the basic ground rules of being a witch hunter is in being unreasonable about who you suspect. There is no point in being reasonable about who you suspect. Or why you suspect them. Take me. I've been suspecting my milkman for the last month or so. It all started when he began to deliver milk in bottles with red—get that, red—caps. My mother tried to cover for him by saying that was because she had ordered Gurnsey milk instead of the regular. Now I suspect my mother.

And then there was the case of my old uncle Julius. One of his favorite stories was how he had once met Karl Marx when he was a young man, and Marx was a waiter in New York. Although I never really thought Uncle was telling the truth, I denounced him to the F.B.I. We had G-men all over the place for days. Lots of fun, too.

So you see how it works. You pick someone and suspect them. If they are innocent, so much the better. Then there is no explanation they can make. The only time since I started my hobby that I've met with any reverses, was a time when I started suspecting a guy that turned out to be a former communist. Those people are about the only ones who don't persecute so good. It seems kind of unreasonable but that's the way the ball bounces.

There was just one episode in my career when I was really thrown for a loss. There was a friend of ours, who worked in the State Department. This made him a natural. I suspected him for weeks, and just when I was getting good at it, the Feds arrested him. Turned out he was really guilty. Sometimes you can't trust anyone.

Letter To The Editor:

Reader Finds Problems in Registering

TO THE EDITOR:

I have just lost my great American heritage, and I'd like to register a complaint. A complaint is all I can register, since registration for voting closed Monday and I had no way of getting to Homer Street, even if I knew where Homer Street was.

I live in the MSC trailers. For some reason, never adequately explained to me, the trailers are in Lansing township. This means (a) that the constituency of the trailers, though they are mostly temporary residents, control Lansing township, (b) that to register I have to trek down to Lansing, usually to some place I've never heard of.

The first point is all very fine for the trailer residents, though I don't know what the other constituents of Lansing township think about it, the second is a blasted nuisance.

When I wanted to register for the Michigan primaries, I went first to the East Lansing City Hall, then to the fire station near the trailers on Harrison, Bond and then to the East Lansing fire station. Nobody seemed to know exactly where I should go, though I imagine there were a lot of private opinions about my third trip to the East Lansing City Hall. I finally tried to follow a complicated series of directions which supposedly led to some place in the vicinity of South Cedar Street in Lansing. I never made it.

I was assured that it would be easier to register for the national elections, now still laughing I went to the fire station, which is north of the Michigan First Federal Bank. There, those can register who can get there. I can't. And I can't see why I should have to.

There is a fire station not two blocks from the trailer which I call home. Why can't I register there? Failing that, why can't some place in East Lansing be set up to take my name, age, address and give me a registration card? If Harrison Road is the dividing line between East Lansing and Lansing township, I'm in favor of a little gerrymandering.

Anyway, within a few months I'll be living in the barracks apartments. This move of a few blocks will put me within walking distance of registration for the next election—but don't ask me why.

Name Withheld

Too Young

A college fraternity in Alabama was shut down by the school authorities when it was learned that the house mother was 19 years old.

Parking Problem

A covey at the University of Nebraska is sorely taxed with parking problems. A new ruling states that all cars parked on campus must bear a sticker proving their right to be there. I seems that she is having difficulty obtaining three for her three cars, which drives alternately to class.

Union Board Announces Tourneys

Union Board Bowling Tournament will begin Wednesday at 4 p.m. in the Union Ballroom.

The top six individuals with the highest 20 game average will compete for MSC in the Big Ten Bowling Conference.

Last year 660 contestants entered the tourney and an equal enrollment is anticipated this year. Those preferring to bowl on Thursday afternoons instead should register Wednesday at 4 p.m.

The normal Union Board bridge tournament will begin Wednesday night from 7-9 p.m. in Room 42 of the Union. All increased enrollment over the 20 couples of last year is expected. The tourney will be played on the "duplicate" for comparative scoring. Each contestant must have a partner.

Individual awards will be presented to the winning East-West and North-South couples. The tourney will determine entrants to the Great Lakes section of the National Intercollegiate Bridge Tournament.

For all billiard fans the Union Board billiard tournament begins next Tuesday. Entrants will meet at 7 p.m. in the Union Billiard Room. Last year the MSC billiard team won the National Three-Cushion Championship.

Charles Peterson, the world's greatest trick-shot artist, will be on hand to demonstrate his talents. A prize will be presented to the six top winners in pocket, straight pool, and three-cushion.

All tournament entrants must be full-time undergraduates. A nominal entry fee will be charged for each event.

For further information, call the Union Board Activities Room, phone 8-1511, extension 212.

Home Ec Groups Begin Term with Open Meetings

The Textiles, Clothing and Related Arts groups and the Home Economics Clubs will be having their first get-acquainted meetings of the year tomorrow.

The major activity at these meetings will be to outline the future programs and welcome the new members.

The Retailing Club for the first time this year are inviting the sophomores of the school of home economics who are interested in retailing to attend. Also invited are business administration students, who have taken courses in the home economics department.

They will meet in Out College Hall at 7 p.m.

Other Home Ec clubs meeting are the Vocational Club in the Home Ec building at 7 p.m. in room 9. Also the Institutional Administration Club will meet in Room 1 at 7 p.m.

The Related Arts Club is cordially inviting all freshmen and sophomores to their first meeting of the year in Room 201 at 7 p.m. tomorrow.

Italy Shows Fall Fashions

Here are three typical styles from the recent Italian fall fashion showings at Florence, attended by many American buyers and editors. They are, left to right: Coat dress of light gray figured wool with six braid-bound pocket flaps, designed by Vanna; cocktail dress in black crepe with spatters of white sequins, designed by Fabiani; Carosa's blue wool suit with gold lame embroidered pockets.

Library Has Full House In 30th Year

Growing since 1922 with no signs of stopping, the MSC library celebrates its 30th anniversary this year.

When the building was completed the College had an enrollment of 2,500 students and the stacks would accommodate 250,000 volumes. Seating capacity was 600.

Expanding to keep up with rapid increases in enrollment, the library now has half a million volumes compared to the 83,000 it had in 1922. The problem was, and is, where to put them.

In 1949 the old Physics Building became the present Library Annex which houses reserved books, current periodicals and federal documents. Storage space in the main building was also increased with even the attic floor supporting wooden crate shelves.

Work on the proposed new building is waiting for an appropriation from the State Legislature. When completed it will stand where the Annex now does, facing Beaumont Tower.

Miss Linda Landon was the first head librarian, Jackson T. Towne succeeded her in 1942. Today 45 full time employees and 115 student assistants have replaced the first small staff.

Currently the library operates on an annual budget of \$308,000, much of which is obtained through gifts from the Alumni Fund, the Kedzie Fund and Friends of the Library.

One of the largest gifts was that of Mrs. J. W. Beaumont of Detroit, who donated the 1,800 volume Beaumont Memorial Library in 1944.

Citrus Fruits Hailed As Reducers by Experts

Would you like to have a pep-pier up feeling after that last orange juice? Or try out a new reducing aid that acts as an appetite suppressant? Then this information compiled by the Florida Citrus Commission who believe they've found a cure for many of our present day worries, is for you.

In an article entitled, "Nutrition of the Aged," it is pointed out that more attention is now being paid to the nutritional problems of older people. For, according to Dr. I. W. Winfield, writing in the Nursing Home Administrator, "older patients have a low vitamin reserve and lessened ability to manufacture hydrochloric acid." Continuing, he states that "unsweetened citrus juices have been found effective in supplementing the supply of hydrochloric acid in stomach secretions."

Leading the popularity list of the citrus juices is orange juice. And the recent trend found in 28.5 per cent of American families is frozen orange juice concentrate. Why the sudden demand? Because this new food item is not only convenient, and of year-round availability, but it also holds an excellent vitamin C content.

Does frozen orange juice contain the same nutritive value as fresh juice? Yes, says the Council on Foods and Nutrition of the American Medical Association. "In fact," says the Council, "it may be considered as the nutritive equal of fresh orange juice. Thus, it will meet the need for vitamin C intake in the diets of all persons, including infants."

If you're still interested in doing away with that "extra poundage" than the answer can be found in an article titled, "Reducing Aid." First of all, it points out, that the well-known cry of "sneaking off weight" should not be heeded. For Dr. Norman Joffe, nutrition chief of the New York City health department says, "to lose two pounds that way, the average person must walk 10 extra miles a day for a week without increasing the food intake." Therefore he prescribes patients to take a four-ounce glass of orange or grapefruit juice half an hour to an hour before the noon and evening meal. And it really worked, showing gratifying weight losses!

Beware Men! Gals Invade Police Ad

By MARY ROUSE

Women are taking over everything these days — even the police force.

Up to three years ago State's Police Administration Department was strictly male, but currently there are 26 coeds enrolled.

Nancy Morton, Grimesby, Ont., senior, is one of the potential lady-cops. Her special interest is crime prevention, in connection with juvenile delinquency.

Miss Morton enrolled in Police Ad because she wanted to work with juveniles. She said that in her classes she finds out the "whys" of how children act. Knowing this, it is possible to stop them before they become real criminals.

Eventually Miss Morton plans to be a probation officer in her home town. This summer she will do her field work with a police court or probation officer in either Lansing or Detroit.

Barbara Nevin, Belleville junior, has just transferred to the Police Ad major. She will also work in crime prevention.

Miss Nevin, too, feels that crime prevention is the best opportunity to work with young people. One of the reasons that she enrolled in the course was because she believes there is more chance to help when offenders are young.

When she graduates Miss Nevin expects to work in a large city with a juvenile court.

Robert H. Scott, associate professor of Police Administration, heads the crime prevention course. The program was set up three years ago primarily for women, although nine men are enrolled.

"The goal of the program is to include psychology and social service work with police procedures, since police deal with the problems of environment and individuals."

Scott said that most of the girls who enroll do so because they want to help people. A few are attracted by the glamor of being a policeman, but the department tries to discourage these students.

According to Scott, the old police matron type is going, and

Sports COED CORNER

THE WAA meeting is changed from Monday to tonight at 6:30 in the Women's Lounge of the Union.

THE 11 new initiates of Green Splash who will be informally initiated tonight at Women's Gym and formally tomorrow night at the Union, include Nancy Beck, Birmingham junior; Betty Kreutz, Detroit senior; Corrie Morton, Pontiac junior; and Mickie Melville, Bay City sophomore.

Others are Lois Jaquays, East Lansing senior; Joan Board, Chicago, Ill., sophomore; Clara Allen, Flint senior; Mary Eldridge, Muskegon sophomore; Jo Hoffman, Lansing junior; Joan Lawler, Sturgis sophomore; and Barbara McGinnis, Royal Oak senior.

Green Splash is open to anyone wishing to try out for the team. Practices are held daily from 4 to 5:30 p.m. Members will swim for Fort Custer soldiers Nov. 7. Dual meets have also been scheduled.

COEDS intramural swimming will begin Oct. 22 and intramural volleyball Oct. 18. Information and entry blanks will be delivered to the dormitories and sorority houses next week. All living units should inform the Physical Education Department of the name of their sports manager.

FRIDAY MSC coeds will attend Ann Arbor Free School Play Day. This play is for the coeds interested in hockey and other sports.

ALSO this fall there will be competitive hockey. It will not be intramural.

Billy May Signs J-Hop Contract

Billy May has signed a contract to play for the 1953 J-Hop Feb. 6 and 7 in the Auditorium. May was the student's choice at the poll taken during registration, receiving 167 votes from the 2,674 students questioned.

Tonight, juniors will have an opportunity to sign up for the committee working on the dance at a smoker in the Union Parlors from 7:30 to 9:20. Former committee chairmen will be on hand to answer questions and to help in explaining the functions of the committees.

All interested juniors are urged to attend, according to Gene Gorman, junior class vice-president.

Supreme Court Rules Out Ancient Michigan Statute

LANSING (AP)—The State Supreme Court yesterday upset a 166-year-old Michigan law making justices of the Peace members of Township Boards.

The court said it was reluctant to knock down a law of such ancient vintage, but that it clearly violated the state constitutional separation of powers between the executive, legislative and judicial branches of government.

Justices of the Peace, being judicial officers, cannot legally perform administrative and legislative duties such as are required of township boards.

Church Unveils Women's Role In Violent Crime

By the Associated Press

A higher percentage of women are arrested for crimes of violence than men. This fact was revealed today by the Methodist church's Board of Temperance.

The board in its publication, The Claspnet, listed as crimes of violence, homicide, assault and disorderly conduct.

"Crimes are increasing among women," the article said. "While arrests of males increased by 4 per cent in 1950, arrests of women and girls increased 17.5 per cent."

The crimes for which more men than women were arrested, the report said, included such things as traffic laws, drunkenness, driving while intoxicated and offenses against family and children.

Wolverines Down

Big Ten Roundup

ANN ARBOR (A)—Coach Ben Osterbaan said Monday he is more worried about the psychological condition of his Michigan football team than about the Wolverines' physical condition. Michigan dropped a 14-7 decision to Stanford Saturday. This being the Wolverines' second straight setback, Osterbaan said he would try to bring the squad up mentally for this week's Big Ten opener with Indiana.

BLOOMINGTON, Ind. (A)—Indiana's football squad figured it was a little ahead of training schedule Monday, having practiced defenses against Iowa's single wing last week. It goes against Michigan's single wing at Ann Arbor this Saturday.

EVANSTON (A)—Northwestern

lost its first string defensive half-back Pat O'Brien Monday when doctors reported an old shoulder injury makes continuance in the game too risky for him. Johnny Hill, a second string offensive halfback, reported that he has enlisted in the Air Force.

CHAMPAIGN (A)—Attention centered on pass defense and line play Monday as Coach Ray Eliot prepared Illinois for the air-minded Washington Huskies led by Don Heinrich.

MINNEAPOLIS (A)—Left half-back Paul Giel, Minnesota's top scorer, Monday took on the job of calling signals for the Gophers. He will continue to run from the left half spot, Coach Wes Fesler indicated.

IM Grid Season Opens;
Newman Club Victors

By BUD GREGORY, JERRY

GOLL and LEN LOWE

Michigan State's intramural touch football program opened last night with nine teams in action, including the Newman Club, last year's independent champion team.

Led by John Christianson, the Newman Club flashed the form that carried it to the 1951 title by defeating the Mudhens, 13-7. Both of the winners' touchdowns were scored in the second quarter.

Newman's first TD came on a pass from Jerry Rafferty to Dan Jesmur, who in turn, passed to Wallace Marenger for the score. Christianson raced 40 yards for the second touchdown. The Mudhens tallied in the third period when Ed Morrison skirted right end from five yards out after setting up the score with a long pass. Packers, 7; Putangs, 7.

With each team taking advantage of an opponent's mistake, the Packers and Putangs battled to a tie in a sudden-death overtime contest that saw neither team able to get a scoring drive under-

Keglers Start
Tourney Play

The all-college bowling tournament sponsored by the MSC Union Board will get underway tomorrow at 4 p.m., with approximately 20 bowlers expected to start.

A second shift will begin on Thursday afternoon, in the tourney to determine Michigan State's representatives in the forthcoming Big Ten tournament to be held at Ann Arbor.

The tournament will run for eight weeks with the top five finishers making up the Spartans' Union-sponsored team.

way. The Putangs' Jack Hogan intercepted a pass in the third quarter and raced for a touchdown. The Packers' only TD was set-up by a rule infringement, with Dick Vreeland passing to Don Hill for the score. Uteves, 9; Beal, 9.

One complicated scoring play was all the defensive minded Uteves team needed to down the Beal House. In the third quarter Bob Heenan recovered a Beal fumble on the ten-yard line. On the first play Fran Toti lateraled to Bill Mannisto who pitched a touchdown strike to Bill Hyde. The extra point pass from Toti to Mannisto was knocked down by Barry Kock, who was a standout for Beal.

Motts Muffs, 20; Howland, 6
A tight defense and a wide open offense proved too much for Howland as Motts Muffs scored once in each of the first three periods. Roger Phend led the attack, throwing all three touchdown passes with his favorite target being Martin Dolen. Howland's offense showed signs of coming to life in the last half with Virgil Trent hitting George Hoffman for their lone score, but the Muffs defense tightened.

Elsworth, 2; Hedricks, 0

In a wild game that featured both long passes and runs but no touchdowns, Elsworth won on a second quarter safety by Ken Hauser, who tagged Ed Lord in the Hedricks' end zone after a poor pass from center had sailed over Lord's head. Each team had repeated scoring threats stopped by good defensive work when the pressure was on.

JFU, 20; 49'ers, 0

Charley Johnson was the big gun in JFU's attack, running for two touchdowns and passing for two extra points with passes. Both teams failed to score in the first period, but Johnson broke loose in the second period for the first TD. He passed to Al Yuhas for the second JFU touchdown in the third period and ran across the final TD in the last period.

Hillet, 7; Delta Sigma Pi, 0

A pass by Marty Hecht to

Bernie Levy in the final three minutes of play broke up a scoreless deadlock and gave the Hilllet squad a hard fought victory. The same combination was responsible for the extra point. Both teams showed a strong defense during the first three periods.

Asker, 20; Tappa Keg, 34
Bob McDonnald paced the Asker squad to its victory over Tappa Keg, passing for all three of the winner's touchdowns. McDonnald's last TD pass came in the second minute of the sudden death overtime period to cinch the game. He tossed, to Dick Venhul in the first quarter while Max Burr took one TD pass in the third period and the game winning pass in the overtime quarter. Tappa Keg scored its two touchdowns in the fourth period on passes from Bob Lyon to Jack Murphy.

Lushwell, 0; AC-El's, 0
Lushwell and the AC-El's played to the only scoreless tie of the evening. Both teams had repeated scoring possibilities, but each time the defense held. Lushwell held the ball deep in AC-El's territory during most of the overtime period but lacked the punch to drive the ball over.

Michigan State representatives in six Olympic games will be honored between the halves of the Spartan-Texas A. and football game at Macklin Field Stadium, Saturday.

Heading the contingent is Harry Moon (1946), Mott's Olympian who was a sprinter in the 1946 games held at M. L. Dred Q. Alderman was the 1952 representative, winning a gold medal as member of a winning relay team. The Spartan runner went to the 1952 Olympics along with Thomas C. Otter, who won the 10,000 meter run. Ernest Crosbie participated in the 1936 and 1948 Olympics as a marathon walker.

Bob Maldegan (A) and Leland Merrill (B) were on the Wrestling team in 1948, while Harold Patterson (C) and George Hoogerhyde (D) were swimming representatives. Charles (Chuck) Davey, presently a leading welterweight contender in the professional ranks, was a boxing team member in 1948. Spartan trainer Jack Heppinstall was a trainer for the 1948 group.

In 1952, the Michigan State group included (L to R) gold medal swimmer Clarke C. Scholes; walker Adolf Weinacker; 1948 wrestler Dale Thomas; Spartan Director of Athletics and Olympic treasurer, Ralph H. Young; boxer Charles Spieser; fencer Allen Kwartler, and 1,500 meters runner, L. A. Druetzel.

Circle inset in Virginia Baxter who finished fifth in skating in the 1952 winter Olympics at Oslo. Later, in the Championships, she finished third. She is holder of the varsity letter ever awarded a woman at Michigan State.

Half-Time Program to Honor
Spartan Olympic Athletes

Michigan State athletes who have represented the United States in six Olympic games will be honored guests at the Spartan-Texas A. and M. football game at Macklin Field Stadium on Saturday.

Invitations for the gathering have been sent to 16 persons who took part in the 1904, 1928, 1932, 1936, 1948 and 1952 world games.

These brilliant performers, many of whom have passed from the active sports scene, will be introduced to some 45,000 fans expected for the grid contest in a special half-time program with the Michigan State band participating in the tribute.

Heading the list are swimmer Clark Scholes, 1952 gold medal winner, and sprinter Fred P. Alderman, gold medal winner in

1928. Joining these from the 1952 team that competed at Helsinki are runner Warren Druetzel, fencer Allan Kwartler, wrestler Dale Thomas, skater Virginia Baxter, and two Olympic repeaters, walker Adolf Weinacker, along with sprinter Harry E. Moon, of the 1904 team.

Those from the 1948 team that competed in London, besides Spieser and Weinacker, are wrestlers Leland Merrill and Bob Maldegan, swimmers George Hoogerhyde and Howard Patterson, and boxer Chuck Davey. Michigan State trainer Jack Heppinstall was one of seven Olympic trainers selected for the trip to London.

From the 1936 Berlin games walker Ernest Crosbie, who also was on the team in 1932, and also

from that team which saw action at Los Angeles comes Thomas Otter, who competed in

10,000 meter run.

Michigan State athletic director Ralph H. Young was an official on two different occasions, in 1932 and 1936.

Probably the greatest performance turned in by any of the Spartans was Scholes' saving the 100-meter free style swim past summer. With his wiry, rangy Detroit, earned the of "Sprint" champion of the world. In winning a semi-heat, he posted a new Olympic mark for the event.

Alderman, one of the State's greatest track athletes, won his gold medal as member of the 1,500 meter relay team won the event and set a world's record in doing so.

His undergraduate mark stands as Spartan varsity record.

Kwartler contributed points to the United States, save the fencing competition last year while Druetzel, after gaining final heat of the 1,500 meter relay last in a field of 22.

Weinacker finished 22nd in the 50,000 meter walk, but he did try in games competition. He recorded the best time American has ever done in event.

After earning the light weight position on the Army team, Spieser was selected competition as a result of leg tendon. In 1948 he was a South African champion on to win the title.

Thomas was another 1952 member who had to wait in Helsinki. His entry into heavyweight division was by a technicality after he been moved up from the pound spot in which he had initially qualified.

Miss Baxter, Michigan's only Olympic representative, the fairer sex, took part in winter games held at Oslo, way, and came out with a place. Later, in the world championships, she finished third.

Reynolds, Raschi Star as Yanks Even Series

Yogi-talk Beeman's Back

By ALEX LAGGIS
State News Sports Editor

You haven't noticed, Michigan State's "Mr. Intramurals" at his old post. Frank Beeman, who is largely responsible for the State's intramural program into one of the best in the nation, recently discharged from active duty after serving a year and a half as a P.C.T. instructor. Besides guiding the IM program, Frank was head tennis coach. He formed the nucleus of State's first Big Ten championship in 1951. He was called into service just after the season that year and Tom Martin handled the squad the rest of the season and during the Big Ten championships. Last spring, Fredrick took over and coached the netters to a second place finish.

Wayne Tinkle, now head of the physical education department at Lansing High School, took over the IM department during Beeman's absence and continued its improvement.

Did you ever notice how much Alvie Smith of the information office looks like Chuck Davey? Because they look enough like each other to pass as twin brothers, they always get mistaken for each other. At a banquet recently, a man at the head table introduced Alvie to his wife as "Chuck Davey." Alvie let it go that time for he didn't want to embarrass the banquet group. The man introducing him sat next to Alvie at the preceding dinner.

Alvie wonders when someone will barge into him with some of a complex, say "get your 'Dukes' up and declare that I can whip you!"

Thursday at Saginaw, Jed Black and Chuck Spieser will both be their third straight wins since turning pro. Two weeks ago they were both booted out of the team for putting their hands on each other. Black, the highly talented West Coast Spieser goes against a tough opponent in six-round affairs.

Boxing coach George Spieser, who led State to the championship in 1951 and to a runner-up position last season, is in a state of trouble this year. A LaFarge, captain-elect of the team, who went all the way to the NCAA finals last winter, transferred to Olivet. Another member, Leon Hamilton dropped the sport after a nose operation.

With his wife, he earned the championship of the nation in a semi-final round of the world's relay team.

Ben Devine is busy rounding his fresh squad into shape. Usually 150 freshmen drew suits last week.

Former Michigan State athletes are nominees in a contest to choose the man and woman who have best "carried the torch" in Detroit during the past year.

Four summer Clark Scholes, boxer Chuck Davey, skater and boxer and walker Adolf Weinacker, are among 32 sports men in the contest to promote Detroit's United Foundation Torch.

Those in the contest is asked to write 25 words or less stating why they should be selected by the judges.

All of the ex-Michigan Staters on the list were one-time Michigan State Olympic representatives. Davey represented this city in the 1948 games. Now a pro in the welterweight class, he is undefeated in 38 bouts and recently won a try-out for the title by his decisive win over Rocky Graziano.

Mr. Baxter and Weinacker were U.S. team members in the 1948 Olympic games. Best record of the three was made by Weinacker, who won a first place gold medal in the 100-meter free.

Black made his second appearance as an Olympic participant in the 1948 games, in the 50,000 meter walk (about 31 miles). His was the best recorded by an American in an event usually dominated by England.

Michigan State representative took part in the 1948 games at Chicago, out with a broken leg.

Spartan right halfback Leno Bolden (39) starts around his own left end for a 16-yard gain in the first quarter of Saturday's 17-14 game with Oregon State. Right tackle Gordie Serr (56) leads the play while Joe Klein (61) is on his knees. Beaver guard LaVerne Ferguson (65) finally brought Bolden down on the OSG 21.

Munn Drives Football Team Through Tough Scrimmage

By JACK KOLE

Piggy Munn, football team, fought to second place by the nation's sportswriters, may long be haunted by "Remember the Oregon State Beavers" at Monday's practice is any indication.

Scattered by verbal attacks from Munn's lips, the Spartans were subjected to one of the roughest and toughest Monday practices seen here in quite some time.

Usually the first day of the week is a comparatively light one for the grid squad, but a full-scale scrimmage was the order of the day as Munn cracked the whip over his charges.

Obviously, displeased with the manner in which the Spartans blew a 14-point lead against the Beavers Saturday, Munn shouted, "You're getting too fancy. Let's play football. Remember, you'll be playing in front of your home crowd this weekend."

Biggest change in Monday's offensive lineup was the position of Willie Thawer. Now Kennington, Ph. senior, who Tom Yewer's quarterback, slot for most of the scrimmage. Munn, however, said that the change wasn't necessarily permanent, but that he just wanted a chance to observe Thawer's signal calling.

Opponents of the varsity offense were a group of eager freshmen under the direction of coach Dan Devine. The freshmen, with only a good week of practice under their belts, showed well in their initial test against the first string.

Another possible change in the Spartan lineup may be the shifting of Frank Kuch to the defensive platoon, but he will probably see offensive duty as well.

home crowd this weekend."

Snider Hits Two Homers But Dodgers Lose, 3-2

BROOKLYN (AP)—Vic Raschi and Albie Reynolds double-teamed Brooklyn with an 11-strikeout job yesterday to send this home-happy World Series into a seventh game with a 3-2 New York Yankee victory.

Two tremendous home runs by Duke Snider weren't enough to match the desperate Yankees who fought back to tie the series for the third time.

The seventh and final game will be played at Ebbets Field today with the possibility that Reynolds and Joe Black of the Dodgers may meet for a third time. Black was the victor in the first game but Reynolds triumphed in the fourth. Both are right handed throwers.

Yogi Berra and Mickey Mantle slipped into 22-year-old Billy Loos for homers and Raschi produced the other run with a single that bounced off Loos' left knee and rolled into short right field, scoring Gene Wooding in the two-run seventh.

But Manager Casey Stengel, struggling to keep alive his dream of a fourth straight world championship, had to call in Reynolds to save the fast-tiring Raschi in the eighth inning.

Snider's second homer of the day and fourth of the Series—tying records held by Lou Gehrig and Babe Ruth—slashed the Yank lead to 3-2 in the eighth.

The homers by Snider, Berra and Mantle brought the Series total to 14, high for any kind of World Series.

Raschi pitched a brilliant game, striking out nine men and walking only one before he weakened in the eighth.

For a kid pitcher working in his home town, Loos did a remarkable job.

Blazing fast in the early innings, young Billy started to go wild in the sixth. He got behind McDougald but made him pop up and threw four straight balls to Rizzuto. With the heat on, however, he took care of Mantle and the Johnny Alzie, who went hitless.

The home run total of 14, eight by the Yankees and six by the Dodgers—topped the old high of 12 set in a seven-game Series by Washington and Pittsburgh in 1925. The previous high for six games was the 14 of 1936 by the Yanks and Giants.

Snider's second homer of the day and fourth of the Series—tying records held by Lou Gehrig and Babe Ruth—slashed the Yank lead to 3-2 in the eighth.

The home run total of 14, eight by the Yankees and six by the Dodgers—topped the old high of 12 set in a seven-game Series by Washington and Pittsburgh in 1925. The previous high for six games was the 14 of 1936 by the Yanks and Giants.

Snider's second homer of the day and fourth of the Series—tying records held by Lou Gehrig and Babe Ruth—slashed the Yank lead to 3-2 in the eighth.

The homers by Snider, Berra and Mantle brought the Series total to 14, high for any kind of World Series.

Raschi pitched a brilliant game, striking out nine men and walking only one before he weakened in the eighth.

For a kid pitcher working in his home town, Loos did a remarkable job.

Blazing fast in the early innings, young Billy started to go wild in the sixth. He got behind McDougald but made him pop up and threw four straight balls to Rizzuto. With the heat on, however, he took care of Mantle and the Johnny Alzie, who went hitless.

Late Sports Wire

DETROIT (AP)—Left wing Ted Lindsay yesterday was named captain of the Detroit Red Wings.

PITTSBURGH (AP)—The Pittsburgh Pirates signed a new working agreement Monday with the Brunswick Club of the Class D Georgia-Florida State League.

CINCINNATI (AP)—Sam Becker, local promoter, Monday offered heavyweight champion Rocky Marciano a guarantee of \$400,000 to meet either Ezzard Charles or Bernie Reynolds here next June.

IM Deadline Extended

The deadline for independent intramural teams has been extended a few more days. IM Director Frank Beeman announced yesterday. Beeman reminded students that they can live in dorms and fraternities and still form an independent team.

Shepard's...
The Heavy Side of the Line!
This season the big rush is to Freeman Heavyweights! And there's a reason! Storm-welted heavy soles GUARD against wet or wintry days; deep-tanned aniline calf uppers TACKLE the job of providing miles of wear; and king-size stitching and perforations; END the demand for "something different" in men's styles. Here at Shepard's we're proud of every Freeman in the LINE. Stop in today and you'll see why!

Freeman Shoe
It's the FREEMAN Shoe
THE FAVORITE OF SUCCESSFUL MEN
Other Freemans \$9.95 to \$19.95

Men's Argyle Sox \$1.00
Plain Nylon Sox \$1.00
Plain Rib Cotton 65c

Tan Calfskin \$9.95
Smart and sturdy! Storm welt.

Shepard's SHOES

Lansing Store: 226 S. Washington

Straight Up \$12.95
Available in smooth or grain leathers.

U. S. Marines Fight For Korean Hilltop

SEOUL (AP)—U.S. First Marine Division troops, supported by tanks and planes, fought from dawn to noon Monday for a Western Korean hill position but intense Chinese Red mortar and machine-gun fire pinned them down within 50 yards of the top.

"Nobody could have gotten to the top and lived," AP Correspondent Milo Farneti reported from the front.

The Marines withdrew from the hill, northwest of Korangpo near the 38th parallel, Monday afternoon while Allied fighter-bombers pounded it with bombs and jetted gasoline.

The planes struck again and again in an attempt to burn the Chinese out of their hill-top bunkers.

The position was lost last Friday when the Chinese launched a series of hill-grabbing attacks along the extreme western end of the front.

Besides hammering Red front-line positions, Allied fighter-bombers Monday attacked the Red transportation system in North Korea, knocking out rail tracks in more than 30 places.

Sabre jets spotted 75 MIGs and clashed in two brief dogfights involving 14 Sabres and 16 Red jets. The Fifth Air Force reported four MIGs were damaged.

The biggest naval air strike in months hit a sprawling Communist supply dump at Hoeyang, south of Wonsan on the northeast coast. Navy headquarters said 263

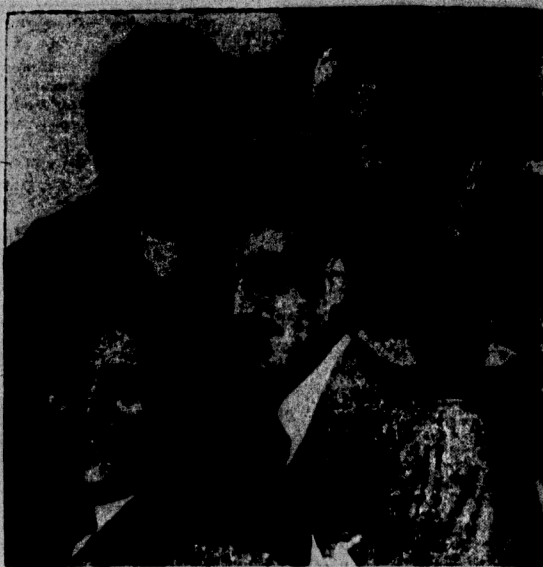

planes from the carriers Princeton, Kearsarge and Essex unloaded tons of bombs, rockets and jetted gasoline on the target.

In the bitter ground fighting, Farneti reported from the Western Front, the battle raged around a comparatively small position on the western half of a twin peak. However, the height "looks down the throat" of a Marine position on the eastern half.

The Marines of the U.S. Seventh Regiment, clawed to within hand grenade range of Reds occupying the crest after a 15-minute artillery barrage. Tanks supported the assault. The Leathernecks were pinned down by heavy Red artillery fire, the Eighth Army said. The battle continued at this close range for two hours. Then the Marines pulled back.

Letter Winners Meet Wednesday

All varsity letter winners are urged to attend a Varsity Club meeting in the Macklin Stadium press box tomorrow night at 7. Secretary Steve Little especially urges sophomore letter winners to attend.

Mills Brothers, the four boys and a guitar, who will appear with Jan Garber and his orchestra at the College Auditorium Friday night.

'Glow-Worm' to Glitter

Concert to Highlight Four Mills Brothers

One of the nation's top male quartets, the Mills Brothers, will be a highlight of Friday's Lecture-Concert program in the Auditorium.

Starring frequently on radio and TV, the quartet has also appeared in every major vaudeville theater in the country, including Paramount Theater in New York City. They recently returned from abroad, where they were highly successful among European audiences.

Bureau Schedules Job Interviews

Seniors and graduate students in the big push for employment in MSC this year and if students have not registered with the Placement Bureau they may miss an opportunity for a first-rate job with a first-rate company.

The material received at registration should be filled out and returned to the Bureau, 101 Morrill Hall, now so that they may contact students. The interviews will begin October 13.

The Bureau retains all records and alumni are referring back to them for job leads and references. Even men going in the service should register as they may have a good job waiting when discharged.

"The Four Boys and a Guitar" boast enviable recording and movie contracts. Their present film contract calls for two pictures a year and they have sold over five million Decca records in the last two years. All-time best seller for the group is "Paper Doll," which sold over 1,750,000 copies.

Originally, the quartet consisted of brothers John, Harry, Donald and Herbert. When John died of pneumonia, their father took his place rather than break up the group.

Appearing with the Mills Brothers Friday night will be Jan Garber and his orchestra. Featured vocalists with Garber will be Roy Cordell and Thelma Gracen.

Coeds Take Note Hypnotist Lives For Ten Weeks On Water, Smokes

BRIGHTON, Eng. (AP)—Jack Wafer, 30-year-old New York hypnotist, sat up in a glass cubicle Monday to acknowledge the acclaim of a crowd cheering him for breaking what authorities in such matters say was the world's fastest record.

Since July 26, which adds up to 72 days, three hours and three minutes, Jack said he subsisted solely on soda water and cigarettes. He had an advantage over other fasters because, when hunger became unendurable, he hypnotized himself into the feeling that he had just finished off a steak.

College Plans To Convert Men's Dorms

Most of the men's dorms will be turned into coed residence halls within a few years depending on enrollment and completion of the new dorm west of Kellogg Center.

Coeds are moving out of Wells into Mason and other women's residence halls as space becomes available, according to Lyle Thorburn of the Housing Office.

Abbott Hall will house coeds by fall, 1953, it is expected, with Snyder-Phillips following the gradual change-over.

Men have been living in Ward B of Wells Hall for more than a week. Wells eventually will be converted back to a men's dormitory if needed, according to Thorburn.

The first girl ever to win a varsity "S" award at Michigan State is Miss Virginia Baxter, ice skating star from Detroit, who as a Spartan freshman finished fifth for Uncle Sam in the 1952 Winter Olympics and third in the world championships.

Robert E. Peary reached the North Pole April 6, 1909.

Deadline for Campus Chest Petitions Set for October

Petitions for positions on the Campus Chest drive for 1953-54 are being accepted until October 10, according to Paul Botts, chairman of this year's program.

Interested students may pick up their petitions at the Union Desk and should deposit them when filled out in a box provided at the desk, Botts said.

The Chest drive usually plays over 100 people for college maintenance and coeds serve as fund solicitors in spring.

THE DU PONT DIGEST

Power Work for M.E.'s

Varied needs of 71 Du Pont plants pose a host of original power problems

Heart of Du Pont's manufacturing program is the power plant. To make some 1200 products and product lines the Company operates 71 plants.

Most require steam and electric generation, water supply and treatment, heat exchangers, piping systems and related services. The designing of these power plants, their erection and operation are all in the hands of engineers, the great majority being mechanical engineers.

But this is not the most interesting thing about power work here. What challenges the highest skills of the engineer at Du Pont is the wealth of original problems constantly arising. Power requirements vary enormously, not only from plant to plant but from time to time.

Process operating pressures may range from over 15,000 psi. to 2 mm. of mercury, electrical requirements

This powerhouse for a nylon plant at Marlinton, Va., was designed by Du Pont engineers. It houses two 135,000 lb. hr. boilers and two 7,000 KW extraction turbine generators.

from as low as 7,000 to higher than 1 million KWH day, and temperatures from -300° to over 3,000° F.

Here are examples of recent "off-the-beaten-path" power problems.

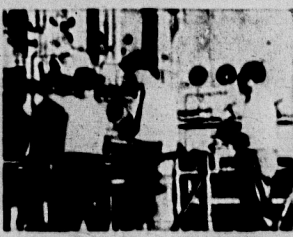

1. A plant using natural gas as its basic fuel produces a waste oil of variable hydrocarbon composition and a waste gas with only 110 Btu cu. ft. Du Pont M.E.'s designed burners, fans, boilers and combustion controls to permit use of all three fuels for generating steam.

2. At another plant 20,000 gpm of cooling water were to be drawn from a nearby river. Since the water level fluctuated 10 feet between normal and flood stages, it was necessary to construct several plans for pump house construction against cooling towers. The engineers installed a unique pump house, whose submerged vertical pumps operate even when the structure is entirely under water.

Aside from design and construction, Du Pont mechanical engineers concern themselves with such related subjects as economic evaluations, equipment selection, heat balances, load calculations, waste heat boilers.

For example, where various process temperatures from 300° to 600° F. were required, Dowtherm was selected as the supply medium at the rate of 45 million lbs. hr. The engineers installed a central system for primary supply because it calculated to be more economical than a separately located vaporizer.

On the operational side, M.E.'s supervise the supply of power and services. They establish performance standards and analyze equipment for results, cost and maintenance.

Edward W. Garrison, right, M.S. in M.E., Calumet Tech. 42, and Byron J. Brown, senior, B.S. in M.E., New Hampshire 29, supervise adjustment of furnace conditions in a new power plant efficiency.

Whether viewed from the design and construction side or the operational side, the diversity of Du Pont's manufacture offers a wealth of opportunities in power work for the mechanical engineer.

OPPORTUNITIES for men and women with many types of technical training are discussed fully in "The Du Pont Company and the College Graduate." For a copy, write 2021 Nemours, Wilmington, Del.
