MSC to Build Lab Station at Gull Lake

College to Convert Kellogg Estate

Gull Lake, about 40 miles from campus near the town of Kory, Mich., will be the site of MSC's first biological station.

Now in the process of being bought by the W. K. Kellogg Foundation, the station, located on Gull Lake, into biological station, said Dean of the Science and Arts Department, The Kellogg Estate was bequeathed to MSC after the war and previously been used by the navy and army.

A grant of \$45,000 was received from the Kellogg Foundation to cover the expense of building the home, garage, greenhouse of the estate, purchase lab equipment, and operation of the station. Estimated for the summer of 1954 and the station will be on a limited basis for classes this summer, according to Dean Mueller.

Using the station during the summer, lab facilities and accommodations will be available for the year for students during the 12 months research program of 12 trailers for students will be at the station, Dean Mueller said.

At least 100 people will be housed in the trailers.

The main building of the estate is a three-story former home. Some of the rooms in the home will be used as living quarters while the trailers are being built.

Judging Brings Awards

Block and Bridle Winners Honored

Winners of the annual Block and Bridle Spring Judging Contest, held Saturday at the Livestock Pavilion, were honored at a banquet Saturday night.

The following winners were presented awards at the banquet: Tom Wegner, Lakeview, O. junior won the combined meat and livestock Judging Award; was the high man on oral reasons, second in the Beef Cattle Contest, third in the Swine Contest, and second in the Meat Judging Contest; Dick Allen, Ithaca freshman, received high award in all classes, third in beef cattle and a high in the sheep classification.

Frank Benham, Homer freshman, tied with Wegner for a second high in all classes and was second in the sheep contest. Howard Pennington, Britton sophomore, was third high in all classes and also third in the horse division.

Charles Coussens, Granger, Ind. sophomore, was third in the sheep judging, and received the high award in the meat judging contest. High in the Beef Cattle Division was George Reed, Lansing senior. High in the swine judging was Julius Adlington, Eastland senior.

William McDowell, East Lansing junior, was high in the Horse Division and took a second in the swine judging division.

In the freshman contest, high award for all classes went to Bill Bortel, Britton freshman, who was also high in the freshman sheep contest. James Brink, Plymouth freshman, was high man in the freshman Beef Cattle Division and also high man for oral reasons.

Second high in the freshman all classes was Harold Carter, Battle Creek junior. Third high in the freshman division was Bill McQuillan, Howell sophomore, who also tied in the wool judging contest for second place.

High in the swine contest for freshmen was Dick Garn, Charlotte senior. Mary Van Selous, Three Rivers freshman, won a second in the senior horse judging division, a tie for first in the combined wool judging and grading contest and a high in grading fleeces.

Other winners included Dale Wapson, Berrien Springs sophomore, who was high in judging fleeces and also high in the combined judging and wool grading contest.

Ted Leppardt tied for a second place in the combined grading and judging wool contest; Frank Coussens, Granger, Ind. freshman, was third in the meat judging contest; Virginia Carson, Milford junior, took fourth place in the meat contest; Robert Hess, Cincinnati sophomore, won fifth place in the same contest; and Ken Champion, Grand Rapids sophomore, won sixth place in the meat judging contest.

In the Alumni Award Contest, high award honors went to Victor Cook, class of 1951.

Spring Fever Blue Skies, Sun Predicted for ROTC Parade

Spring fever is on its way again today with blue skies and sunshine predicted.

Today's regular ROTC parade will take place under an almost perfect clear sky with only a few clouds. A wet one high of 65 degrees is predicted with warm winds from the east.

Four Found Ineligible In Activities

Congress to Check Averages Each Term

Four students have been declared ineligible for their activities by the student government Department of Organization, Bob Boucher, secretary of organizations, Monday.

The department has completed an investigation of point averages of members of campus organizations. Only four persons did not have the required all-college two point and two point winter term.

Organizations checked this term are: the student government, Inter-Fraternity Council, Inter-Fraternity Council, Men's Co-ed Council, Women's Co-ed League, Men's and Women's Inter-Term Councils, Associated Women Students, United Board, and all publications.

Other activities include: Engineering Exposition, the term play, Senior Ball committee, ROTC corp sponsors, Junior 500 and class officers.

Boucher said that the government expects to check eligibility every term from now on. This is the first time the investigation has been made.

The eligibility bill, which congress passed winter term, states that officers and members in certain campus activities must have an all-college two point, a two point during participation and, in the case of officers, a two point the term preceding election.

Information sheets will be sent to presidents of all campus organizations this week, Boucher said. They should be returned to the government office before the end of the term.

MSC Congress To Consider Special Bills

A special meeting of the student congress will be held Tuesday at 8:30 in 32 Union.

A special appropriations bill, a special election bill and two other resolutions will be considered.

Bob Bolo, president of student government, will make the spring term appointment for the All-College Judiciary.

Horatio Lewis, speaker of the Congress, will present his report from the Big Ten Presidents' Council meeting which he attended last weekend. Lewis was sent as a delegate to the meeting in Bolo's place.

Committee chairman reports and recommendations from the Congress will also be presented.

Air Force Cadets To Parade Today

Air Force cadets rested last Tuesday afternoon but the army can take life easy today. ROTC parade at 4:30 this afternoon is for AFROTC cadets only.

The army cadets earned the excuse because of last Thursday's Armed Forces Week parade. Air cadets were excused on May 12.

Following parade today, the first annual Air Power Day dinner will be held to honor graduating and award-winning air force cadets. Citations for the awards will be read at the parade.

Business Receipts Tax Survives Senate Attack

Pierre Monteux, conductor of the Boston Symphony, autographs pictures for Dean Manley. Crows after Monday night's performance.

Conductor's Performance Praised Audience Shows Enthusiasm At Boston Symphony Concert

By BOB JOHNSTON

The audience that gathered in the Auditorium Monday night to hear the Boston Symphony Orchestra under the baton of Pierre Monteux received with enthusiasm a conductor who is the epitome of dignity, humility and pride.

It was evident from the moment the baton was first raised for Berlioz' "Roman Carnival Overture" that the audience anticipated a special evening of concert music.

Maestro Monteux displayed an unusual talent for leading the 100-piece orchestra through a very precise interpretation of this intriguing work and had some listeners sitting on the edge of their seats before its conclusion.

A vibrant rendition of Wagner's "Siegfried's Rhine Journey" from "Gotterdammerung" proved to be a showpiece for the soloists. The orchestra displayed a richness of quality and a definite flair for the feeling of the music.

The musicians as a whole seemed to be vitally alive and this was reflected in their playing. The audience caught this feeling also as evidenced in their response at the completion of the work.

Completing the first half of the program was the Tone Poem "Don Juan" by Richard Strauss. Once more Monteux led the excellent group of musicians through a work that demanded the full resources of the entire orchestra.

This composition was marred only by the inadequate acoustics that seem to plague nearly every concert presented in the Auditorium.

At the conclusion of the work, the audience just sat as if in a trance. They seemed not quite aware that the music had ended.

After the intermission the orchestra returned to the stage to perform Sibelius' "Symphony No. 2 in D Major." Here, Monteux's interpretation of the phrasing was matched only by the orchestra's response to his baton.

The composer seems to display a tendency in this work for a kind of diminishing obscurity that moved the audience to restlessness.

There was, nevertheless, a sweetness of serene beauty that was soon caught in the impetuosity of the string section.

The entire orchestra soon picked up the imperative melody that reflected the composer's creative genius. A melodious beauty filled

the Auditorium as a revelation of some new thought overcame the somewhat sullen mood created previously.

At the conclusion of the concert the audience showed a most unusual appreciation and recalled Monteux four times to take a well-deserved bow.

Legislators OK New Committee For Centennial

The state Legislature has approved the formation of a special committee to co-operate with the centennial observance of MSC in 1955.

The resolution, introduced by state Sen. Harry Hittle (R-East Lansing), lauded MSC "as a landmark college which has helped improve the American standard of living, has helped speed the wheels of American industrial production, and has helped bring real economic equality to the American people."

The special committee is to consist of three members of the Senate and three from the House of Representatives. It will function between the legislative sessions pending the year of the centennial and during the observance.

the Auditorium as a revelation of some new thought overcame the somewhat sullen mood created previously.

Purdue Dean Made Advisor In Engineering

A. A. Potter, retiring dean of engineering at Purdue University, will become consultant to the president of Michigan State College, in charge of the School of Engineering on July 1. Lorin G. Miller, dean of engineering at MSC, will retire on that date, and Dean Potter will serve as a consultant on a part-time basis pending the appointment of Dean Miller's successor.

Dean Potter is a graduate of the Massachusetts Institute of Technology, and many universities and technical institutions have conferred honorary degrees upon him in the course of his career. He was employed for a time in private industry prior to his appointment as dean of engineering at Kansas State College in 1913.

Since 1920 he has been dean of engineering and director of the engineering experimental station at Purdue and throughout the period has served as a consulting power engineer. During 1940-41, he served as acting president of Purdue.

Legislature To Consider MSC Budget

House Opposition Expected on Tax

By the Associated Press
The business receipts tax, the Senate tax committee's answer to the state's mounting deficit, survived an attack on the floor Monday night and is ready for a vote in the upper chamber today. Also on the docket today is the appropriation bill including the MSC appropriation.

Sen. Joseph P. Cloon (R-Wakefield) fought the bill from all angles, but apparently did not muster enough support to defeat the measure.

The betting was that it would squeak through the Senate but House leaders said there was almost overwhelming opposition to it in the House.

Cloon attacked the bill as one designed to "hail out" General Motors, the Ford Motor Co., the Great Atlantic & Pacific Tea Co., and two or three other big corporations. He said the bill would shift their tax burden "to the poor man and the little businessman."

As amended on the Senate floor in debate Monday night the bill would levy four-tenths of one percent on business receipts over \$10,000 a year with a standard deduction of actual operating costs, except 50 percent of operating costs for labor and depreciation.

Sen. Carlton H. Morris (R-Kalamazoo) defended the bill as one which is "not going to hurt anyone" and which business can easily pay. He said a business grossing \$20,000 would pay not tax, one grossing \$30,000 would pay \$20, one grossing \$40,000 would pay \$40, one grossing \$50,000 would pay \$60, one grossing \$60,000 would pay \$80 and one grossing \$200,000 would not pay.

"Just to show you how rotten this bill is," Cloon said, "an auto dealer grossing \$200,000 on \$1,000,000 in sales would pay \$5 a thousand while Chrysler Corp. would pay 70 cents a thousand, Packard Motor Car Co. \$1.23 a thousand, Hudson Motor Car Co. and Kaiser-Frazer \$1.85 and General Motors 41 cents a thousand."

In the only test vote, Cloon was beaten by 18 votes in an attempt to include the tax on parts manufactured by a Michigan taxpayer and shipped to some other part of the country.

NEWS IN BRIEF

The Delays Signing

WASHINGTON (AP)—President Eisenhower Monday postponed signing the controversial "tidelands" bill in order to arrange a ceremony for the occasion later in the week.

Talks to Resume

MUNSAN, Korea (AP)—Truce negotiations were due to resume at Panmunjon Wednesday following a three-day recess called by the U.N. Command, presumably to strengthen the Allied bargaining hand on the deadlock-prisoner exchange talks—last barrier to an armistice.

Godfrey Improves

BOSTON (AP)—TV-radio entertainer Arthur Godfrey joined and laughed as he exercised for the first time Monday since undergoing surgery Friday at Massachusetts General Hospital.

Adams to Address Economics Seminar

Walter Adams, associate professor of economics, will present a speech titled "Competition, Monopoly and Freedom" this afternoon at 8:00 in 200 Barker in all staff members and guests.

This is one of a series of evening lectures which have been presented by the Economics Department.

Levers and Jack Conrad, both Grand Rapids freshmen, and their mother, "Grand," the subject of a death contest sponsored by the Water Carnival committee.

Editorially: Tops in Tennis

If performances to date are any indication, Michigan State may be the proud possessor of another Big 10 championship when Memorial Day rolls around.

Never has a Michigan State team compiled such an enviable record as the netters. They have had only one dual match in three years of competition...

In 1951, State's first year of Big 10 competition, the Spartans surprised everyone by going undefeated and capturing the title as rookies.

Through Monday's Michigan meet, the netters had compiled a victory string of 11 straight, which extends back into last year's matches.

Few people realize the amount of hard work connected with producing a championship squad of this caliber.

For instance, earlier this spring, the Spartans returned from a Southern tour with a losing record of 2-4. They had played some of the best tennis schools in the country...

The discouraging Southern setbacks didn't daunt Coach Frank Beeman and his players, however. They simply worked twice as hard to bring the squad up to a par where it is now rated as the favorite for the conference crown.

All the successes this season have been only preliminaries. The showdown comes next week Thursday, Friday and Saturday in Evanston, Ill. when the team competes in the Big 10 championships.

Michigan State will have all the advantages because of the dual-match wins compiled during the season. But despite the preference in drawings the Spartans will get, they will still have to produce at the crucial time.

Looking at the all-over record, it's hard to see how State can miss. Win or lose, however, the Spartan tennis squad deserves some well-earned praise.

Of Cabbages and Kings

Male Superiority?

Fellow women (that does sound rather awkward doesn't it?), arise! We have a champion—a man at that.

John F. Gibson, of McCall's magazine, recently told how experts have proved that women are superior to men in humor, balance, judgment, self-sufficiency and intuition.

Not only that, but Gibson says: "Studies at the leading universities indicate that a person's sense of humor is remarkably accurate index to his intelligence..."

I'm grateful to Mr. Gibson for sticking up for us of course, but I wish he hadn't mentioned one thing—that women are self-sufficient. We've known it all along but now it's been printed for everyone to see...

And, just to cheer you up a little more, boys—Mr. Gibson says that a woman is generally quite discriminating in member that when a coed accepts a date with you...

Editorially: Festival Plans Die

Apathy has killed plans for a Fine Arts Festival on campus this year. During previous springs, members of the Music Department faculty as well as student musicians have had the opportunity to exhibit their talents in a fine series of concerts.

For as many as five days, people from the central Michigan area were attracted to the campus to hear what the faculty and students had to offer. Two years ago, more than 10,000 visitors attended the festival.

With such an encouraging response, those who had worked to make it successful must have been reassured as to the demand for this type of event which featured a chamber music concert, piano and carillon recitals, and programs by the A Cappella choir, MSC symphony orchestra and chorus.

This year, there will be no festival. "A lack of interest and general apathy" is responsible, claims Dr. Roy Underwood, director of the Division of Fine Arts and head of the Music Department.

It is unfortunate when talent not only in the field of music but in any of the fine arts is not given expression through programs like the previous festivals at MSC, when the opportunity to do so is available.

We hope that in future years, interest will be revived in the event so that both students and faculty will be able to improve their skills in addition to providing excellent entertainment for people in the central Michigan area.

Up in the Clouds?
A letter from TV's "Captain Video" has Maryland's student government wondering. The captain praised them for being "loyal space rangers."

Pi Beta Phi Sorority To Hold Open House
Pi Beta Phi sorority will hold an open house from 7 to 9 p.m. tonight, at their house at 343 Albert street for MSC students from other countries.

Netmen Continue Streak With Win Over Wolves

Netmen Take Straight Victory

By BILL TWAY
The Michigan State netmen continued their streak Monday, defeating the University of Wisconsin, 151-112, in the afternoon singles at the University of Wisconsin, 151-112, Monday at Walnut Hills. Falling behind 61-21 in the morning doubles, the netmen piled up 13 points to Wisconsin's five in the singles competition to win going away.

End Losing Streak Linksmen Rebound To Whip Badgers

Bouncing back from a morning deficit, Michigan State's golfers came through in the afternoon singles to drop the University of Wisconsin, 151-112, Monday at Walnut Hills. Falling behind 61-21 in the morning doubles, the linksmen piled up 13 points to Wisconsin's five in the singles competition to win going away.

Penmen in Second in Final Bloc

Wolverines Jump 17-Pin Spartan Lead

The University of Michigan's bowling team rolled to first place in the fourth and final bloc of the Michigan Inter-Union bowling tournament Saturday to beat out the Spartan keylers in the MSC Union alley. Michigan State's team went into the final bloc with a 17-pin lead over the Wolverines, but lost the final bloc by 55 pins.

MSC fell 129 pins behind in the opening game when Michigan rolled 970 to the Spartans' 841. MSC came back in the second game to whittle the lead down by 106 pins, but lost the final game, 918-910.

Lee Smith, Big 10 Union's doubles champion, led the Spartans with a 648 series on games of 204, 201 and 243. Stan Wollman led the Wolverines with 583. Wayne University and Michigan State Normal College also entered the tournament.

Other Michigan State scores were: Stan Kurtzman, 542; Don Siegan, 518; Dave Siegrist, 503; Stu Small, 419.

Win Opener, 5-2 Tigers Split With Red Sox As Garver Spaces Five Hits

BOSTON (AP)—Veteran righthander Ned Garver hurled the Detroit Tigers to their third straight victory with a five-hit, 5-2 decision, but the Boston Red Sox bounced back for an 8-5 verdict in the nightcap of a doubleheader Monday before a 6,591 crowd.

Garver, hampered by a knee ailment since the start of the season, set the young Sox down with only one hit over the last five innings to gain his third victory against four losses.

In the second game, the Red Sox erupted for six runs on four hits, three walks and an error in the first inning off three Detroit pitchers. Mel Parnell was credited with his fifth victory against no setbacks although he needed help from reliever Ellis Kinder in the seventh.

Three Conference Tilts Left Kobsmen Look to First Division

With three conference games remaining on their schedule, the Spartans have a slim mathematical chance of finishing as high as third in the Big 10 standings.

There are several "ifs" that must be accomplished in order for this to be accomplished. First, the Spartans must win all three of the encounters—one with Northwestern on Friday and two with Wisconsin the next day.

Second, the Rodgers and Wildcats must co-operate by downing Michigan three times.

Third, Ohio State and Minnesota must lose their remaining three games.

Hershey Proposes Tightening of Draft

Change Due For Students In September

High School Seniors To Take Service Test

WASHINGTON (AP)—Maj. Gen. Lewis B. Hershey, selective service director, said Monday, Defense Mobilization officials are studying proposed changes to tighten up on draft deferments for college students.

The changes would become effective in September and would principally affect freshmen, sophomores, and graduate students, Hershey said.

One of the changes he has recommended in negotiations with the Manpower Commission of the Office of Defense Mobilization would provide that high school seniors be allowed to take the selective service college qualification test which is now confined to college students.

That change would involve allowing upcoming freshmen who make a passing grade of 70 on the test, or who have a standing in the upper one-third of the male members of the freshman class, to be considered for educational deferment by their local draft boards.

The freshmen could establish his class standing after one quarter or semester instead of having to go the full year, as now required.

The change for sophomores proposes a required passing grade of 72 instead of 70 on the test, or the maintenance of a class standing in the upper one-third, instead of two-thirds.

Regulations affecting juniors and seniors would remain about as they are.

Graduate students would be required to make a passing grade of 80 instead of 75 on the test or stand in the top third of their class.

Hershey emphasized to newsmen that local draft boards have the final say on deferments—subject to appeal—but that the test scores and class standing are approved criteria for deferment.

The general said his expectation by President Eisenhower now on other changes in the regulations to end deferments for men who get deferred as students or apprentices, became fathers and then obtained dependency deferments.

4-H Club Finalists To Compete for Dairy Queen Title

The "Queen of Dairy" will be chosen on campus Wednesday when eight outstanding 4-H club girls, complete for the title.

The club are finalists from counties and district contests held annually by the Cooperative Extension Service and Michigan's dairy industry. Selection of the queen precedes June, the dairy month.

Representing the dairy industry at various events throughout the year, the winner will be awarded by Gov. G. Mennen Williams and will receive gifts including a complete wardrobe. The other finalists also will receive gifts following a mass luncheon in Lansing.

Accountants to Hear C.P.A. Hold Election

Robert Reames, a local certified public accountant, will speak on "Building a Public Accounting Practice" at the last meeting of the term of the Accounting Club tonight at 8:30 in 22 Union.

Members of officers for next year will be held. Plans for the annual club picnic will also be discussed.

Mortar Board Initiates

Seated around the table at Monday night's Mortar Board initiation are back to the camera, Mrs. Dorothy Ross, on her right in Mrs. John A. Hannah. Across the table is Miss Mabel Armeting and Mrs. Lyle E. Rossman.

Milk Machines Get Trial Mechanical 'Cows' Serve Campus Dorms

Gilchrist and Snyder-Phillips are two dormitories that get their milk directly from a cow... a mechanical cow, that is. This mechanical cow is a refrigerated unit which works by an electrical motor

The machine is refilled at each meal. At Gilchrist, three gallons of milk are consumed at breakfast, four at lunch, and four at dinner time. It holds five gallons at one time while the Snyder-Phillips machine holds 10 gallons.

The men's dormitories installed theirs at the beginning of winter term and the roads received theirs three weeks ago.

The use of these milk machines are on a purely experimental basis. If they prove successful, they will be installed in all the dormitories. So far they have met all the health requirements.

A similar machine was installed in Gilchrist three years ago, but did not meet the health requirements.

Two advantages of this wonderful cow are that the milk is always cold, as the machine maintains a 34 degree temperature, and it divides the milk in even portions.

State Coed Places In 'Rose' Contest

Nancy Barker, Wyandotte freshman, was recently chosen as the third place winner of the national "Rose of Delta Sigma Pi" contest.

The national contest included participants from each of the 62 chapters of the fraternity.

Miss Barker was chosen as Rose Queen by MSC's chapter of the professional business administration fraternity winter term and regies over the fraternity's annual dance in February.

In a recent issue of the fraternity magazine, "The Delta Six," Miss Barker's picture appeared along with a news article announcing her selection.

The Thing Crawling Noise Brings Deputies To Investigate

PONTIAC, Mich. (AP)—There was a weird, growling sound coming from behind the S. E. Waters' barn near Oxford Sunday.

Mrs. Waters called Oakland county sheriff's deputies. They gingerly investigated.

A shorted horn wire and a weakened battery of an old station wagon had made the noise.

Debaters Rate MSC Basics High

Delegates Discuss Curricula Change

The Basic College system MSC being the only Big 10 school using it, was rated as an improvement for curriculum, at the Big 10 Debate Conference at Purdue University Lafayette, Ind., May 14, 15 and 16. Six MSC students and three faculty members attended.

Those attending were Frederick G. Alexander and David Potter of the Speech Department; Chuck Zweimer, Marquette junior; Bill McClelland, Hinsdale, Ill., senior; Polly Klingensmith, Ft. Wayne, Ind., junior; Dell Dyer, Walkerton, Ind., junior; Glyn Dee Jackson, Union City senior and Jackie DeHaas, Marquette junior.

Dr. Wilson Paul, head of the MSC Speech Department, participated on the hearing committee that were questioned Thursday night by a student delegate panel.

The theme of the conference was "How the Undergraduate Curriculum of Big 10 Schools Could Be Improved."

Group discussions on the historical background of Big 10 curricula opened the meeting. This was followed on Friday by an analysis of the present system.

Six-minute speeches by students on suggested improvements were followed up by caucuses for bills wanted passed in the legislative assembly. Two groups then debated the proposals that came out of the caucuses.

At the general legislative assembly on Saturday, the Basic College system, proposed by MSC delegates, for an integrated curricula for all students, was passed. A four-year counseling center for all students and faculty was strongly recommended by all Big 10 delegates.

Greater student participation in classes and in deciding the goal of the course was proposed and passed. Instructors at the conference backed up this proposal.

Breaking up large classes into small working discussion groups was suggested as a remedy for the mechanical relationship of lecturers to large classes.

Joint Meeting of Clubs To See French Slides

The French Club will be host to William V. Sage and his Eastern High School French Club, Wednesday evening at 7:30 in the International Center.

The evening's speaker will be Dr. Georges Joyaux of the French Department who will show slides he took in France.

Election of next year's officers and plans for the spring picnic with the German Club are also on the agenda.

First in Country State Boasts Unique Hospital Program

MSC boasts the only program in the country for hospital housekeepers. This unique short course is now in progress at Kellogg Center. Sponsored by the American Hospital Association, it began April 6 and continues until May 29.

The program attracts persons from as far west as California as far east as Virginia and Connecticut, and as far north as Canada and Alaska.

Forty prospective or in-service assistant and executive hospital housekeepers are here for this fifth annual course. The enrollment has increased each year since 1942.

Some of the "students" are being sent here on scholarships issued by the Pacific Mills Co., which has developed an interest in the program through its linen business with the American Hospital Association.

Large and small hospitals are represented, including Providence Hospital and Herman Kieffer in Detroit, and Sparrow Hospital in Lansing.

Courses include philosophy of hospital and institutional care, hospital supplies, equipment and procedure, institutional management, hospital linen and furnishings, bacteriology, hospital safety, effective communication and cleaning. Most of the classes are taught by Michigan State faculty members.

Flemish, Dutch Copies Displayed On South Campus

Copies of Flemish and Dutch drawings from a Vienna collection are on exhibit through May 27 in the corridor of the Art Building, A-7, South Campus.

Included in the display are works by Rembrandt, Rubens, Vermeer, Van Dyck, Brueghel, Steen and Ruisdael. Several of the sketches are done in pen, brush and silver-point.

The exhibit, "The City of E," continues in the Union until May 26. It features paintings by Chagall, de Chirico, Kokoschka, Klee, Mondrian, Davis, Ferninger, Sloan, Marin and others.

banish 'BOOK FATIGUE'

KEEP ALERT SAFELY!

Your doctor will tell you... a Hodes Anesther is harmless as an average cup of hot, black coffee. Take a Hodes Anesther when you cross for that exam... or when mid-afternoon brings on those "3-o'clock cobwebs."

You'll find Hodes gives you a lift without a let-down... helps you stay alert to normal and keep alert all day!

Book fatigue is a handicap. Take a Hodes Anesther. Good by all-day "3-o'clock cobwebs."

The Friendly Campus MSC 'Life' Praise By Austrian Student

Helga Ogertschnig, Austrian special student, Spartan who likes just about everything at MSC. "Dormitory life is like a little town where students together and meet each other," she said. Austrian cities have only study and classroom buildings. Miss Ogertschnig, who is 23, studied at the University of Innsbruck before coming to the U.S.

Because she is an English major, she feels that her year in America has been an especially wonderful opportunity.

"It was very easy for me to adjust to college life here, because everyone is so friendly," she said, adding a little wistfully, "I've made so many good friends that I know I'll be homesick for them when I return home this summer."

Enthusiastic about her hometown, Spittal-Drain, Austria, a tourist center with a lake in the middle of the mountains, Miss Ogertschnig said she wished she could go home to see her parents but return to Michigan State next fall.

Helga has seen more of America in her one year here than many Americans have. She spent last Christmas on the west coast, has been to Canada, and plans to visit Florida this summer before returning home. She would have gone to Mexico too except that, technically, Austria and Mexico are still enemies because all the necessary treaties from the last war have not been signed.

One of 80 Austrian students in the U.S. and one at MSC, Miss Ogertschnig arrived in this country last August. Her first month was in Kalamazoo under the program in International Living with a family in Kalamazoo and traveled throughout Michigan during that time.

The best part of that time, she said, was experiencing home life.

This summer she is expected to have the opportunity to visit the U.S. again. Experiments will be made between June 15 and July 15. She will spend two months in each country of their choice.

Countries which may be chosen this year are Austria, Denmark, England, France, Germany, Holland, Italy, Mexico, Peru, Scotland, Spain, and Yugoslavia.

One month will be spent with a native family and local points of interest and studying trips will be made.

development committee, looking for a Red subscription in a questionnaire at the University of Michigan. The questionnaire was returned either he was part of the Red cell at Harvard in 1937.

on the same grounds to confirm or deny a previously given statement with a Harvard cell for several years in 1937.

Party to recon him the committee with a view to "contempt" the witnesses who were refused to attend in the current investigation.

cautioning the witness that by refusing to attend he might be liable for considerable fines, perhaps your cooperation in willing to get into investigation." Velde is
