Government Offers More Contracts

Auto City Jobless Number 107,000

WASHINGTON (A) - The abor Department Monday night ordered Detroit placed on its list of distressed areas having "substantial" unemployment and entitled to preference in obtaining government contracts. In mid-January, the Department's Bureau of Employment Security reported, there were 107,000 jobless in the Detroit area. This is 7.1 per cent of the civilian abor force.

The Department acted on in-formation supplied by the Mich-igan Employ ment Security Commission, which held a spe-cial survey of employment in the auto-making center after Walter Reuther, CIO and Unit-ed Auto Workers president, called for such a check-up,

Thiel Trials

-PAYMet-

I'm campaigning for a "We've Never Had It So Good" club here at MSC. This action was inaugurated at Thiel College in Greenville, Pa.

College in Greenville, Pa.

In this small Lutheran college there are over 600 students who are probably getting less sleep and more road work than those on any other campus in the nation.

The new policy requires students to attend all classes for which they have registered, the laboratory sessions, conferences that the instructor may demand, chapel exercises and convections.

But the one thing that would probably really hurt the average MSC senior is that all seniors must attend baccal-aureate and commencement exercises unless excused by faculty action. Some of the other happy sidelights of the ruling in-

clude: a student is considered absent if he is more than seven minutes late for a class; each six chapel cuts means the addition of one semester hour required for graduation

and if he misses a class more times than it meets each week, he shall be dropped from the course.

There's only one way out of this ruling. Excuses are accepted for activities approved by the faculty such as chorus, oratory, dramatics, athletics or academic meet-

Think of how many more students would stay in school here at MSC if we had this ruling. After all, the survey by the MSC's dean of students office has shown that the students that drop out of school are the ones who don't take part in extra curricular activities.

But, even with this tremendous benefit to be gained from the ruling I'm still not in favor. Maybe they don't have the winds in Pennsylvania that we do in Michigan or maybe they don't have a Grill to hide out in.

Brea if they do have these things I'm sure they don't have eight o'clocks on South Campus.

Yeh, This club definitely must be formed. Anyone for coffee?

Grad Student Writes

Music for Greek Play

From marches to mood music for a Greek tragedy runs the musical talent of Normain Rimmell, Blasmeburg, Pa. grad student.

Euripides to be presented in Pairchild Theater Peb. 18-20. "Medea" was first performed in Athens in 451 B.C.

Kimmell is the first and only doctorate candidate in composition at MSC. The music that he is writing for "Medea" will not be original Greek music, without harmony, but will be modern to serve as a link between the ancient play and the modern audince.

An eight-piece orchestra, including a harpist, will play Kimsel's scores, Kimmell will play he piano.
