

Rain Floods Town

An 11-inch downpour last Friday left the town of Alamo, Texas, flooded. Situated in a shallow basin some eight miles north of the Rio Grande River, the town of 7,000 population must solve the problem of how to drain off the water which has created a serious health problem. Typhoid fever vaccine has been used as a precaution against polluted drinking water.

Windy, but Warm Bureau Reports Warm Weather For Sunbathers

Golfers and sunbathers will continue their activities today with an expected temperature high of 68 degrees. Although today's high tops Tuesday's by one degree, a southwest wind will reach the speed of 18 to 25 miles per hour. Skies will be mostly fair, weathermen report.

IFC Convo To Discuss Management

This year's IFC local Leadership Conference opens tonight at 7:30 with a general session in the Union Ballroom. The purpose of this third annual meet is to share common problems and to arrive at a better system for general fraternity management, said Bob Gardner, assistant to the dean of students. Representatives from all MSC fraternities will attend the two-day meet.

Opening the general session will be Courtney Lechides, chairman and IFC president. He will be followed by Gardner who will introduce William S. Zerman, counselor to fraternities at University of Michigan.

After the convo opening, representatives and officers of the various fraternities will attend four divisional meetings in various Union Building rooms. Chairmen and faculty consultants will preside over the discussions which will cover the four topics of rushing, pledging, public relations, and social functions.

Five-Year-Old Plan

John P. McGoff, Michigan State College's assistant alumni director, might be forgiven if he indulged in a little reminiscing during the MSC Glee Club's spring vacation tour of Michigan communities. Five years ago, when McGoff was student president of the Glee Club, he had the idea of taking the group on a tour through Michigan and letting the people in various sections of the state enjoy the music as well as the college.

Student Traffic Court May Influence Rules

Final Decision for Committee Up to President Hannah

Tentative plans for establishing a student traffic committee and for selecting a student representative to confer with campus officials on possible changes in present driving rules were announced Tuesday night by Christian Student Foundation.

The proposals came at the conclusion of a student meeting which was sponsored by CSF to bring together students and campus and East Lansing officials to discuss student driving regulations and problems. Approximately 40 students attended the meeting in the Union.

Explaining the problems confronting their respective fraternities were Chief Arthur F. Brandstatter of the campus police and Chief Charles F. Pegg of the East Lansing Police.

Alice Severance, CSF member and chairman of the meeting, presented the organization's suggestion after short speeches by Brandstatter and Pegg and an extensive question-and-answer period for the students.

Brandstatter said that President Hannah would have to give the final decision on placing a student representative on the college's driving committee that makes suggestions for regulations to the State Board of Agriculture, governing body of MSC.

Pegg said that he had long dreamed a student traffic committee but that the plan had "hit a snag." Although he didn't explain the "snag," he said that it could probably be overcome in the future.

Education Professor Edits New Publication

Julian W. Smith, associate professor of outdoor education, is editing a new MSC publication, "Outdoor Education," a newsletter for the exchange of ideas on school camping and outdoor education. The monthly publication features programs in outdoor education from different parts of the country, camping activities, campsite information, and personalities who are active in these fields.

Atomic Expert Charged With Delaying H-Bomb

McCarthy Says Firing 'Overdue'

Senator Praises AEC Chairman

PHOENIX, Ariz. (AP)—Suspension of Dr. J. Robert Oppenheimer "was long overdue—it should have been taken years ago," Sen. McCarthy (R-Wis.) said Tuesday. "I think it took considerable courage to suspend the so-called untouchable scientist—Oppenheimer," McCarthy said in an interview with reporter Wayne Center of radio station KPHO of Phoenix.

"I gave Atomic Energy Commission Chairman Strauss credit for that."

McCarthy said his own investigation of delay in development of the hydrogen bomb was started last spring. He said he had taken it up with his Senate investigations subcommittee and found the members "greatly disturbed" about such an inquiry.

The senator said he then agreed to go further into the background for a preliminary report.

He said he did so and returned with information, including affidavits that Oppenheimer had been active in the Communist movement, had Communist meetings in his home, had failed to notify proper authorities when individuals who were possible espionage agents tried to get atomic information from him.

McCarthy said further that Oppenheimer was instrumental in getting individuals with Communist records into atomic installations where they had access to classified material that could do great damage.

Coeds Warned On Congress Election Rules

A warning was issued Tuesday by Bill Hurst, student government secretary of state, to Student Congress candidates who have violated election rules.

Hurst said that several coed candidates have started campaigns for Congress seats before petitioning or campaigning legally opened.

Michigan Changes Civil Defense

By the Associated Press
Michigan officials will consider revising their Civil Defense plans in the light of the H-bomb. Val Peterson, Federal Civil Defense director, will attend a meeting of the State Civil Defense Advisory Council, April 21, Gov. Williams reported.

Cadets chosen as AFROTC honoraries first parade in the Tuesday practice more than the new recruits in basic AFROTC.

Changes Plans AFROTC Excuses Cadet Winners

By DONN SHELTON
"Yes, they will be excused." With those words Capt. Benjamin Davis, AFROTC Public Information Officer, released 300 AFRO cadets from the next parade that they thought they would have to attend.

The 300 cadets, all members of AFROTC Group 382, were previously told their winning effort in Tuesday's practice parade was just that, practice.

The parade was just a practice and the winner will not be excused from a coming parade," they were told at the conclusion of the parade.

Now, however, they have been excused from the first joint Army-Air Force parade, scheduled for April 27.

The winning group was just the best of a good showing," said Col. Greame S. Bond, professor of air science and tactics. He said he was "extremely pleased with the showing of the cadets, particularly with the basics." They really came through.

The practice parade, viewed by more than 250 people, marked another first. Two AFROTC units made their initial appearance.

Director Seeks 'Loveable Rogue' For Spring Play

Wanted: A loveable old rogue with a good singing voice. "A Winter's Tale," the spring term play, went into a second reading Tuesday night with one of the most important roles in the play uncast. The role of Autolycus described as one of Shakespeare's best comedy parts by Stuart Chenoweth, assistant professor of speech, dramatics, and radio education, is still vacant.

Eisenhower Suspends Top Adviser

Oppenheimer Denies Communist Link

WASHINGTON (AP)—The most sensational security case since the dawn of the atomic energy age broke Tuesday around the lean, nervous figure of Dr. J. Robert Oppenheimer, the man who directed the building of the first A-bomb and one of the first to conceive the hydrogen bomb.

By personal order of President Eisenhower, Oppenheimer has been barred from all access to secret data—and suspended as one of the nation's foremost atomic defense advisers pending a check of 16 FBI-gathered charges against him.

One major charge: that he fought, and delayed, development of the H-bomb. Other allegations linked the world-famous scientist with known Communists and Communist activities even after he took charge in 1942 of the A-bomb development program at Los Alamos, N. M.

The Atomic Energy Commission announced that a special three-man panel headed by Gordon Gray, president of the University of North Carolina and former secretary of the Army, has been named to weigh the charges—most of which have been aired before—and decide whether Oppenheimer's banishment should be permanent.

Men's Council Elects Officers

New officers for Men's Council were elected at Tuesday night's meeting. Rudy Petzold, president; Ken Hagadorn, vice president; Ed Murray, treasurer; and Bill Warden, secretary, will hold office until next spring term.

NEWS IN BRIEF

Jobless Seek Aid
DETROIT (AP)—An estimated 250 jobless men asked Detroit's City Council Tuesday to provide city jobs for them and an estimated 17,500 others idled by layoffs in Chrysler Corp's Dodge Division. Council took no immediate action.

Vaccine Favored
ANN ARBOR (AP)—The University of Michigan medical school went on record Tuesday favoring use of the Salk polio vaccine and chided Washtenaw County for withdrawing from the test program, a nationwide inoculation of school children with the polio preventing serum.

Plan Rejected
WASHINGTON (AP)—Rep. Wolcott (R-Mich) said Tuesday a proposal to finance the St. Lawrence Seaway project through sale of revenue bonds to the public would "scuttle" the project.

Red Asks Asylum
CANTERRA, Australia (AP)—Prime Minister Robert G. Menzies announced Tuesday an official in the Soviet Embassy here had asked for asylum and brought with him documents naming Australian agents in a Soviet espionage network.

Reorganization Plan Explained

More student government executives will be chasing around the Union at all hours of the day and night if President Dave Hyman's new organization plan is approved by Congress tonight.

The plan would create at least eight new executive departments and probably twice as many new subdivisions.

Passed out of the Congress Business and State Affairs committee favorably last week, the new program would set up a cabinet of 13 executives, each responsible to Hyman or the new president.

Major change in the organizational shake-up is the split of government business into two separate fields, government affairs and state affairs. Secretaries of these divisions would shoulder much responsibility since department heads would work through them.

The state affairs man will have charge of seven departments including four entirely new ones. The departments, to be headed by cabinet members, are:

ACADEMIC BENEFITS—The government steps into the lecture-room field bringing well-qualified speakers to campus for audience-participation discussions. A World Forum series will begin May 10 with Stanley Andrews, former Point Four program director, on a Point Four panel. Campus Forum, planned for later, would discuss student questions with a student-administration panel.

INTERNATIONAL PROGRAM—Joyce Blasko is the exec to see on plans for International Week, May 9 to 16, and other foreign programs throughout the year.

ORIENTATION—For the first time students will directly plan test ways to help bewildered freshman in campus.

LEGISLATIVE LIAISON—This new lobbying group will take student opinion to the State Legislature. Promotion of such matters as the Library Plan in 1953 and the MSU name change bill of last term fall into here.

SPARTAN SPIRIT—Remember the Spartan Review of 1953 with the Four Lads and Johnny Standley? More and better pep, especially for football season, is the goal of this carry-over department.

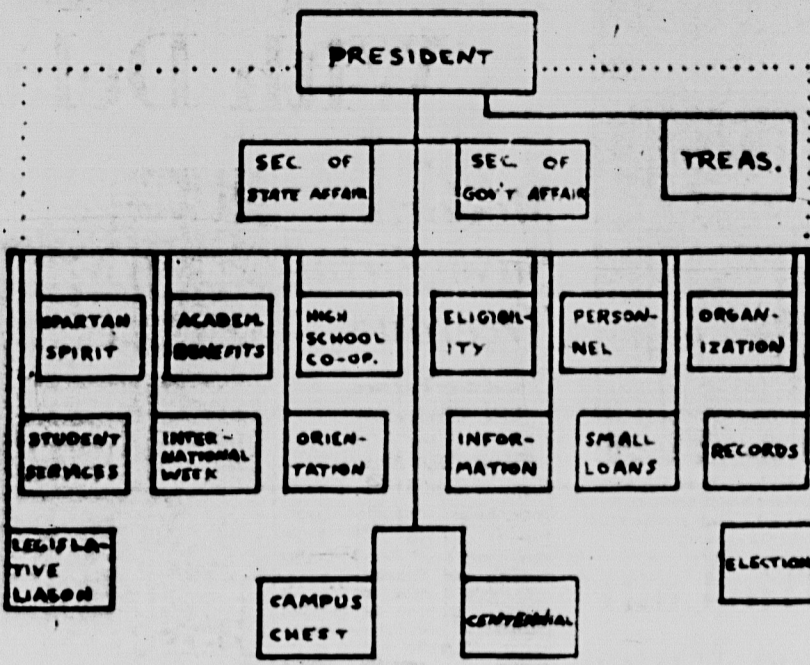

HIGH SCHOOL COOPERATION—Teams of campus continue under an old department with a new status.

STUDENT SERVICES—This group mimeographs all types of organizational material. The public address system is loaned from this department.

The second and complete new organizational structure plan, would include seven departments:

(See REORGANIZATION, page 6)

PROPOSED RE-ORGANIZATION OF STUDENT GOVERNMENT BRANCH—FORMATION OF CABINET

Editorially

Hey You There-- Stay Off the Grass!

From the looks of things, the day when MSU will have a solid cement campus may not be far off.

The grass will soon be completely worn away, if the students and others who have occasion to walk on campus continue to cut across the lawn.

SOG is not a new organization on campus, or the initials of a government agency. It's a slogan—Save Our Grass—which should be in the minds of all campus personnel now that spring is here.

The problem is one of either thoughtlessness or laziness. The seconds saved by shortcutting across the grass won't make much difference to either the individual trying to get somewhere or the people who are waiting for him to arrive.

We are proud that the campus has a reputation for being one of the most beautiful in the country. No one wants to see its picturesqueness destroyed by big brown patches of dirt or great white blobs of cement where grass should be.

We already have over 30 miles of sidewalks here. The sidewalks are adequate, even for MSU's large campus population.

Dorm Elections Scheduled by Living Units

Many dormitory elections will get underway this week as residents go to the polls on Thursday and Friday.

North and South Campbell, East and West Landon, Gilchrist, East Mayo, South Williams, Mason and Abbot will hold elections Thursday and installation services next week.

Elections in West Mayo will be Friday. East and West Yakeley voting will be held within the next two weeks.

North Williams elects officers twice a year. The present officers were elected during winter term and will serve through spring term. All other coed dorms elect officers in the spring.

Phillips and Butterfield elect officers every term and held their elections recently. Shaw will elect officers at the end of this term to serve for the entire next year.

Because of Snyder's conversion to a women's dorm next fall, it will not hold elections.

Business Education Club Features Panel

The Business Education Club will hear a panel discussion tonight at 7 in Old College Hall presented by first-year and student teachers, and club advisers Miss A. M. Harrison, instructor in business education and secretarial studies.

In 1942 a Chinese junk sailed from China to the United States 86 days with a crew of four.

This Is Living

By JEAN GREGORY

For the benefit of those who are interested in leading a friendless college existence, I have compiled this fool-proof list of suggestions for accomplishing the task. With it goes a guarantee for your immediate success. If not satisfied, return the unused portion and get your money back.

The first rule of college-living courtesy that you should never follow is in regard to waiting your turn. Habitual meal and ticket line crowdiers are generally despised by everyone.

A second sure way to lose friends is to play your radio at full blast about 7 or 8 o'clock in the morning. This method of getting blacklisted is especially good because it affects other students at their grumpiest hour. Talking loudly in the halls at that hour is guaranteed to bring the same results.

Telephone monopolizers are high on the list of most hated people in the various living units. Such long-winded phone users tempt other people to blurt, "Write 'em a letter." Bounding in and out of others' rooms during study hours is another way to get a "Public Enemy Number One" rating from your neighbors.

If you are able to lower your personality to one of the above levels, you'll attain 100 per cent success in losing (or never acquiring) lasting companionships.

Another thing, don't ever get quarrel about the people whose rights you walk all over. If they're people you know, then you have an open season on their feelings. People you don't even know are even less important. Who cares about impressing strangers—or anybody else? However, just give everyone you meet the same treatment and your friendless position will never be endangered.

Inter-Dorm Sing Planned for June

The first inter-dorm sing in which men's and women's dorms will participate is scheduled for June 1.

Before the song festival, each of the women's dorms will sponsor a picnic for all the participating groups.

Last year Abbot Hall and East Landon won the men's and women's trophies. The Abbot trophy has been moved to Butterfield Hall, where most of the former Abbot occupants now reside.

On a large Greenland whale the blubber may be as much as 20 inches thick.

Score 5 Runs in Sixth Inning

'Seconds' Win in Practice, 7-3

Rapping out five hits for five runs in the sixth inning, Coach John Kobs "seconds" rode to a 7-3 victory over the "regulars" in an intra-squad baseball game Tuesday afternoon.

Bill Hopping, Michigan State's veteran second sacker, led off in the big inning by blasting a triple to left field. Jim Sack then drew a base on balls after pinch-hitter Gordon Clump panned out to first-baseman Chuck Mathews.

center scoring sack. A home run, unleashed by Bob Williams, with Brown on second, added two more runs for the "seconds."

Included in the bombardment against pitcher Ed Hobaugh were three singles, a triple and a homer.

Hopping scored and Sack advanced to second on a double steal play. Earl Morrall made it two down as he struck out before Dan Brown doubled to

Spartans to Scrimmage Saturdays

Smith, Grandelius Give 'Battle' Call

By DONN SHELTON Football practice Tuesday was a different story from Monday's "mass manning."

Only 140 players, 20 less than the first practice, were on hand for the second day of drills.

Part of the decrease was attributed to classes and other drills.

The remaining men were split into position groups for the day's work.

At a meeting Monday, Head Coach Duffy Daugherty announced that the players will have a scrimmage every Saturday during practice, ending with Green and White game drills.

Because of a Big 10 rule, only 20 practices can be held, the players will get Friday drills to compensate for the Saturday drills.

Two of the loudest voices on the field in the first practice have been a pair of new recruits, the Spartan coaching staff.

Smith, an assistant coach, has been working with the drills in the first practice.

While at Northern, the Spartan assistant guided his red-letters to one Saginaw Varsity crown in two years as head coach and six baseball crowns while a diamond coach.

As line coach at Northern, Smith's Vikings won 50 games while losing only 12.

"Dig, dig, dig" is Grandelius' battle cry. It is usually during a ball carrier sprinting down a play pattern.

Grandelius, one of the field stars of the "Mud" game, came back to MSC after two years in the Army and a year in the ball, with the New York Giants.

He was an all-state star while at Muskegon Heights and an All-American while at USC. In his All-American year he gained 1,023 yards during six games, the 17th major color back in history to accomplish the feat.

At MSC Grandelius assigned the freshmen duties. At present he is working with the offensive back.

With two of the 20 drills gone the players are out well, except for sore arms. The soreness came from football, but from the tired of the juniors for camp.

Practice sessions will be held every day under somewhat conditions at the secret practice field south of Macklin Field.

The sessions will end Tuesday and a three-day coaching camp. Appearing at the clinic will be Oklahoma head coach Elmer Kinson, UCLA head coach Saunders and high school coaches from Michigan.

Thirty Spartans to Compete In Ohio Relays Saturday

Ed Brabham, sprinter, Kevin Gosper, 440, and John Corbelli, hurdler, will lead a Michigan State entree of 30 athletes in the annual renewal of the Ohio Relays at Columbus Saturday.

Nearly 350 track athletes from 17 colleges and universities, embracing an area of eight states, will take over Ohio stadium. Twenty-four events are listed on

the three hour and 10 minute program, which will see many nationally-known stars in action.

The University of Michigan, with 36 varsity men and six unattached, heads the entry list.

The Wolverines will have many proven performers in Milton Mead, and Mark Booth, high jump stars; John Ross,

mile; Ronald Nilsson, shot and discus ace; Grant Scruggs and Jack Carroll, star quarter-milers; John Vallortigara, dash luminary; Peter Gray, Roy Christensen and John Moulie, half milers, and George Lynch and Roy Wallingford two-milers.

The University of Illinois, Big 10 outdoor and indoor champion, has entered several of its top performers in Cirilo McSweeney, Willard Thomson, Ron Mitchell, Willie Williams, John Bauer, Ralph Essenden, Joe Corley, Eugene Maynard, Dale Foster and Jim Wright. They represent most of the Big 10 test crop in the dash, hurdle, pole vault, high jump and quarter-mile departments.

Tigers Off to Good Start With Win Over Orioles

Yanks Victims Of Homer By Vernon

DETROIT (AP)—The Baltimore Orioles returned to the American League Tuesday night in an absence of 52 years when they were beaten 3-0, by the Detroit Tigers who smashed three home runs in the 16,994 opening-day game at Briggs Stadium.

Manager Steve Gromek, who started the first opening day start since 1902, when he hurled for the Orioles to win the first game of the season, was in command all night.

Don Larsen was given the job of starting Baltimore's first game since the leagues since 1902. He pitched well except for three home runs by Ray Boone, Walt Bolling and his home run.

Boone, the top man as Detroit's first home run in last year's loss in St. Louis, was the main threat came when, with two men on base, Clint Humber and Clint Humber back-to-back singed Larsen.

Waiting for Return

As major league baseball opened Tuesday, Ted Williams of the Boston Red Sox was on the bench. But doctors say he'll be ready to go before too long. Monday, he took his first workout since fracturing his shoulder in Florida March 1.

May Return in May

X-Rays Show Ted's Shoulder Improved

BOSTON (AP)—Ted Williams, Boston Red Sox slugger, had more X-rays taken of his broken collarbone Monday and then took a Fenway Park workout with the doctor's estimate he may play ball by the latter part of May.

Advised that his injury was healing ahead of schedule, Williams engaged in some ball tossing and a pepper game.

"We are delighted with his progress," said Dr. Russell Sullivan who operated on Ted's collarbone after he broke it in a March 1 fall in Florida training. "I plan to remove the pin from his bone between May 3 and May 5."

"After the pin is removed he can begin practice in earnest, taking his full swing with a bat."

After the pepper game, Ted told newsmen:

"I really feel loose. I'm ready to hit now if the bone wasn't broken."

He plans daily workouts from now on, increasing the length of them daily.

Wolves Upset By Western

ANN ARBOR (AP)—Western Michigan's Gary Graham held Michigan's defending NCAA baseball champions to two hits in nine innings Tuesday to give the Broncos a 4-1 win.

Stanley Cup Series Tied Red Wings Beaten By Canadiens, 4-1

MONTREAL (AP)—Three goals in less than three minutes in the second period carried the Montreal Canadiens to a 4-1 victory over the Detroit Red Wings Tuesday night and tied the National Hockey League's final Stanley Cup series at three games each.

The deciding game will be played in Detroit Friday night.

The crowd of 14,622 saw the teams battle through a scoreless first period and for more than 12 minutes of the second period before the defending champions from Montreal turned the game into a rout.

Bernie Geoffrion broke the deadlock at 12:07 as he carried the puck from his own end of the ice and drove a 25-foot shot past Terry Sawchuk.

One minute later, Floyd Curry came through with the first of his two goals. It was a low shot that traveled 30 feet past Sawchuk into the Detroit net. At 14:25 Curry scored after taking a short pass from Elmer Lach.

The Wings, who finished on top of the regular season standings, cut the Canadiens' margin to two goals at 5:11 of the final period. The tally was by Metro Prystai, who scored unassisted.

Two New Jobs Planned

Increase Proposed In New City Budget

By DEBRA MALL

Proposed budget for East Lansing during the fiscal year of 1954-55 was presented to the City Council Monday night by John Patriarche, city manager.

The proposed budget calls for a total of \$663,173 for the new fiscal year. This is an increase of \$85,453 from last year's budget.

The plan calls for a sufficient amount to operate and maintain the various city departments as well as provide for several capital improvements.

Two new jobs for the city were also suggested, that of assistant assessor and administrative assistant to the city manager.

According to Patriarche the hearing date for the budget was set for May 17.

The Council accepted 27 bids for the new Shaw Lane fire station. They were then referred to the city manager who will announce the city's choice for the fire station contractor in about two weeks.

After discussion on whether to sign the Whitehills petition for a \$10,000 drainage system, the Council decided to place the letter on file without a signature of approval.

A review for the assessment hearing of the boulevard-lighting project in Strathmore subdivision was set for May 3 by the City Council.

The Council also asked the city attorney Charles Chamberlain to draw up a resolution in regard to Miss Alma Huggins, former East Lansing librarian who died April 7.

Improvements Suggested for East Lansing

Several capital improvements for East Lansing were proposed in the new city budget for 1954-1955.

A proposed amount of \$157,100 was suggested for the following improvements by Manager John Patriarche.

1. To remodel the city garage in order to provide for more office space and better facilities.
2. To use \$75,000 for the relief sewer program.
3. To pay \$16,500 for the city share of US-16 right-of-way cost for the project completed in 1953.
4. To widen Evergreen Ave. from Grand River to Albert St. for easier access to parking areas.
5. To widen Abbott Rd. from Elizabeth St. to Burcham Dr. for the relief of congestion and hazardous settling in that area.
6. To provide for a building at the city park in order to house proper sanitation facilities.

The improvements will be voted upon by the City Council on May 17 along with the city budget.

Reorganization

(Continued from Page 2)

PERSONNEL—New departments will keep track of all 200 government workers. Two subdivisions are suggested:

PROCUREMENT—Signing up students who want to get their thumbs in the governmental pie.

PERSONNEL RECORDS—Registering good and bad on worker's achievement, past and present.

RECORDS—No more lost bills (part of an elections ordinance disappeared last year) will plague Congress. This group will file all Congress bills and resolutions including defeated measures.

SMALL LOANS—Here's to see for extra money for that weekend date or new spring outfit. Set up informally in March, the department lends up to \$15 to applicants.

INFORMATION SERVICES—Reorganized department adds correspondence with other schools to its activities. Publicity, posters and displays originate in this department.

ELECTIONS—Class office seekers and Student Congress hopefuls look to Janice Dempsey for elections rules and regulations.

ORGANIZATIONS—An organization isn't an organization on this campus unless it files information (on officers, purpose, meetings) with the government.

ELIGIBILITY—These workers can take offices away from students without two-points.

Completely separated from the state and government affairs divisions are two final groups; **CAMPUS CHEST** and the **CENTENNIAL COMMISSIONS**. Both groups are responsible only to Hyman and work with comparative independence.

Hyman has three pet reasons for his cabinet set-up:

1. Coordinate entire government operations.
2. Set up lines of authority and responsibility.
3. Provide an incentive system for workers.

Hyman says each student would be able to see where he stands in the pyramid of offices and figure out how to reach the top.

Student

(Continued from Page 1)

"We are unrelenting in our enforcement program," Brauer said. He added that if problems continue to increase that stricter enforcement may be imposed.

"That, of course, is up to President Hannah and the State Board of Agriculture," he added.

Pegg explained that the area around Berkey Hall offers the most difficult problem for the East Lansing police because of the congested parking situation when classes are in session.

"Many students are inconsiderate," he said. "When they park their cars in front of driveways and crosswalks, it means enforcement problems for us."

He said, however, that East Lansing's extensive off-street

parking lots have eased the situation considerably and that there has been a reduction in merchant complaints since the lots were put into use.

"When constituted authority loses control—we're in trouble," Pegg commented in referring to MSC's responsibility for its students.

Several questions were asked by students with each chief giving his answer as applicable to his particular sphere of control.

Miss Severance said that future meetings and discussions are being planned and will be announced by CSF.

posed making an all-out effort to build an H-bomb.

But he said in a 43-page reply to the AEC allegations that 1. He never has been a Communist and long has been out of sympathy with the party, and 2. Once ex-President Truman ordered the H-bomb work started, he dropped all opposition and helped develop it.

Rep. W. Sterling Cole (R-NY), chairman of the Senate-House Atomic Energy Committee, and Sen. Michener (R-Iowa), vice chairman, said when AEC's "orderly review" is completed the committee "will be in a position to take whatever action, if any, that may be appropriate in the public interest."

The commission statement Tuesday said a review of Oppenheimer's case was ordered under the Eisenhower administration's loyalty-security program, immediately after Lewis Strauss took over as chairman last July. Strauss was a leader in the move to develop the H-bomb.

Dorm Elections Heads To Concrene Tonight

Swedish Military Age Lowered

STOCKHOLM, Sweden (AP) — Wednesday lowered its military conscription age from 19 to 18 years. Defense staff said this would not increase the number of men under arms, but would facilitate a more expanded of the call-up.
