

The January issue of the Spartan Engineer hits the stand today. Sales desks will be set up in Olds, Physic-Math, and the Union.

An article by John Heckman, assistant prof. of mathematics of Topology, explains this little known branch of mathematics.

## Stagger Those Lunches

## Noon Halt Unnecessary

Business at MSC halts every day as its staff leaves offices from 11:45 a.m. until 1 p.m. for lunch.

For the staff this is fine, but for a busy student it often means that credits cannot be checked, courses cannot be changed or appointments cannot be made.

Official ruling says that staff members shall receive one hour and fifteen minutes for lunch, 11:45 a.m. until 1 p.m.

One lone cashier window stays open as a concession to the fact that for some students noon hour is the only time available to take care of dorm payments or other business.

Some offices make appointments for busy students. However, if lunch hour is the only time available, the student would find his call for an appointment unanswered.

Since business at lunch hour is neces-

sary, the logical thing to do would be stagger the lunch hours.

Most big businesses find it advisable to stagger the lunch hours of their staffs.

And MSC is big business. It involves over 15,000 people—people who often find that classes and outside work leave no time but lunch hours to take care of checking on credits or other business.

With the large staffs in the Registrar's Office, the Records Office and many departmental offices, it wouldn't be very difficult to follow the business practice here at MSC.

Each staff member could still have his hour and fifteen minutes for lunch. Yet the office would still function. And business could go on uninterrupted.

Then students with classes from 8 to 3, work from 3 to 6 every day and all day Saturday might be able to solve the riddle of when to get their business done.

## No Percentage Basis

## Budget Best for UMOG Funds

It takes money to promote the Ugliest Man On Campus, and the question arising between Alpha Phi Omega, sponsors of the contest, the UMOG committee and the administration is "whose money?"

In past years the UMOG contest, which is held to swell the funds of Campus Chest, was put on by Alpha Phi Omega from funds acquired through a grant from Dean King and from good works like decorating the Auditorium for Homecoming and running concession stands at campus events.

This year APO President Paul Hoffmann suggests the money be acquired from 10 per cent of the UMOG proceeds and be set aside in an administrative account called APO Service Projects.

His argument is that no grant is forthcoming from Dean King this year, and the decorating job and the concession idea proved to be too much time to ask of student organizations already burdened with other duties.

Last year the UMOG contest amounted to about \$3,000. APO said it needs about \$400 to put on the contest this year.

It seems logical that good money has to be used to attract more money, which is the case in the UMOG contest.

And it seems further logical that this money should be obtained by tapping the source itself—UMOG.

But the illogical part is the 10 per cent. Why is this arbitrary figure set up? If APO needs 10 per cent of the previous year's proceeds to sponsor the show, it would fall \$100 short this year.

Setting such a definite percentage is not the answer. APO and the UMOG committee should reach an agreement as to a budget needed to put on the contest. Appropriate funds to meet this budget might be taken from the UMOG proceeds and put in an APO Service Projects account.

In this way, the purse strings would be more correctly drawn and loose nickels which result from flat 10 per cent arrangements would be avoided.

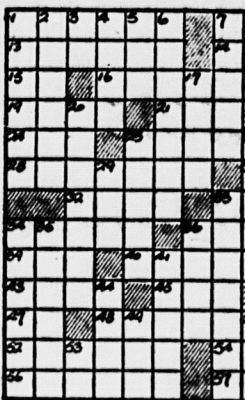

It is up to the committee to decide whether or not APO is given enough money to put on the contest this year and in the future. The committee is made up of representatives from the Association of Women Students, Women's Inter-Dorm Council, Women's Inter-Co-op League and a representative from the Dean of Student's Office.

This change, in letting a committee run the show, is to enable the coeds to have a greater hand in running the Ugliest Man contest.

The APO Service Projects account sounds like the best solution to the financial problem, but the operation should be regulated by a supervised budget.

## Mortar Board to Plan Coming Convocation

This year's national Mortar Board convention, to be held at Kellogg Center in July, will be discussed Saturday at a meeting of MSC Mortar Boards and their sectional director, Marie Hartwig.

Student representatives from all eight chapters in the section have been invited to attend the meeting.

Mortar Boards and Miss Hartwig, will confer in the morning and be joined by members of the Lansing and East Lansing alumnae chapters for lunch in the Union.

## Put Out That Cigarette

## Fuel for the Fire in Berkeley

Students are adding fuel to the fire in the Berkeley Hall problem.

As the traffic jam becomes more congested, cigarette smokers increase the already hazardous bedlam between classes. Any unsupervised visitor on the first floor of Berkeley might imagine himself entrapped in the middle of a political convention.

Two weeks ago the fire department was called to extinguish flames on the third floor

of Berkeley. The fire started from a lit cigarette.

And Fire Inspector Richard Burnett has already delivered the names of 20 violators of MSC's smoking regulation to Dean of Students Tom King.

The smoking problem is more serious now than ever before, Inspector Burnett contends. Now Spartans are smoking in all the halls, not just the stairways.

For the last few days the

State News has been asking that the students find space for classrooms. The problem persists.

The next time a fire rages to Berkeley, students find the building burning ground. Anti-Berkeley is happy.

But what student would attend a psychology or class in an open air classroom with the temperature at degrees above zero?

# Boxers to Battle Terrapins In Home Opener

ryland  
anked 2nd  
Nation

der to Meet  
AA Champ

By JIM EVANS  
The 1955 edition of the  
State College box-  
ing team will oppose the  
Terrapins from the Univer-  
sity of Maryland in a season  
Saturday at 8 p.m. in  
the Fieldhouse.

Collegiate 132-pound  
Vince Palumbo will  
Terrapin attack which  
the University of Vir-  
ginia, a week ago.

and, ranked second in the  
promises to be a powerful  
team with a squad com-  
posed of four newcomers and five  
returning lettermen.

boxer's bout will feature  
one of national champions  
the southpaw slugger  
into the ring with Spar-  
hamore John Butler.

won the National Golden  
featherweight champion-  
ship in 1953 and looked impres-  
sive in his exhibition bouts as a  
professional.

is one of the best college  
boxers in the country—I have  
seen him fight—and says Spartan Coach  
Makris.

Odum, senior NCAA  
champion, will face Eric  
in the 147-pound class.  
went undefeated in dual  
competition last year and  
out to extend his win  
Saturday night.

155-pound bout will pit  
Hawaiian sensation, Mike  
against Terrapin Dave  
Mackawa compiled an  
11-1 record last year  
at home.

## BULLETIN

was drafted in the first  
Thursday's National  
League draft were:  
Bullough (15th round by  
Bav), LeRoy Bolden  
round by Cleveland), Bert  
(seventh round by De-  
and Ellis Duckett (15th  
by Pittsburgh).

Trabant, a rangy soph-  
omore, will make his varsity de-  
but Maryland's Joe Mad-  
ison 139-pound division.

the 156-pound division,  
Collins will battle veteran  
Faber. Mullins boxed at  
139 and 147-pounds last  
year and went undefeated in  
dual competition.

punching George Sisinni  
Terrapin Pat Duffy will  
146 pounds in one of the  
bouts of the evening.

won his first bout of the  
year but will be facing a stand-  
ing with plenty of punch  
runs into Sisinni.

Bill Greenway will  
Maryland's Eastern  
Leo Coyne at 175  
Coyne will be testing  
his skill against Green-  
way's punching style.

## Cagers Face DePaul

## 4 Teams on Road for Weekend

With three teams at home, four  
more Spartan squads will take to  
the road and one will be inactive  
this weekend.

The basketball team will travel  
to Chicago to face DePaul in a  
non-conference tilt.

Both the wrestling and swim-  
ming teams will journey to Col-  
umbus to meet Ohio State's  
Buckeyes.

## Fencing Team To Make Home Debut

Fencing fans will get their  
first look at the Spartan fencers  
as they meet Detroit and Chicago  
in a triangular meet Saturday  
morning.

The meet will begin at 10:30  
a.m. in Jenison Gym.

Being an alumnus of Detroit,  
Coach Charles Schmitter is espe-  
cially anxious to whip the Titans.  
However, he warns that Detroit  
is a veteran team and will be  
very tough.

As for Chicago, Schmitter isn't  
too sure just what it has in the  
way of talent.

The Spartans currently possess  
a 1-2 record having defeated  
Iowa and lost to Notre Dame and  
Ohio State.

This triangular meet is the first  
of three home meets for State.  
Their others are a dual meet with  
Wayne and a triangular meet  
with Ohio State and Buffalo.

The Spartan trackmen, both  
the varsity and freshmen, will  
go to Ann Arbor to compete in  
the Michigan AAU meet.

DePaul has a 12-2 record, with  
the losses coming against Kentu-  
cky and Minnesota. They have  
also beaten the Gophers once.

Fordy Anderson will start Al  
Ferrari and Julius McCoy as the  
forwards, Duane Peterson at cen-  
ter and Bob Devenny and Pat  
Wilson as guards.

At OSU, the wrestling team  
will again have to enter the  
match without a heavyweight.

With Bill Tambo lost for most  
of the season, Coach Fendley  
Collins has decided to enter the  
rest of the team at its normal  
weights, instead of juggling them  
to cover for Tambo's absence.

## Skiing Excellent

Skiing is reportedly excellent at  
Caberfae, with a 9" powder over  
a 14" packed base.

Fishing for perch and walleye  
is fair in lakes Cadillac and Mit-  
chell.

Caberfae is holding its annual  
Junior Ski tourney this weekend.

The NCAA recognizes former  
Spartan Jack Danetti's marks of  
1:50.8 for the half-mile and 4:12  
for the mile as national freshman  
records; yet they are not listed as  
freshman records by MSC.

## SALES OPPORTUNITIES with The Dow Chemical Company

The Dow Chemical Company is presently looking for sales  
trainees, men to represent Dow in the fast-growing chemical  
industry. These men may be graduates in any field of study who  
have one year or more of college chemistry.

All those employed would be given six to nine months thorough  
training in Midland, Michigan, prior to placement in one of our  
many sales offices located in principal cities. The positions are  
most suited to those not subject to Selective Service, since they  
are in no way provide exemption from military call.

If interested, write Technical Employment Office,  
The Dow Chemical Company,  
Midland, Michigan.

1,000 Auto Parking

## Sveden in Nets

## Bessone Shifts Icers' Line-Up

By ART UNDERWOOD

Minor shifts in the lineup are  
in order for the Spartans hockey  
team in their two game series  
with Western Ontario this week-  
end, according to coach Amo Bessone.

Derio Nicoli, senior defense-  
man will see action at the center  
slot on an all-senior line with  
Weldie Olson at right wing and  
John Mayes at left.

Senior Jim Ward, high point  
man for the squad this season,  
will center a line with senior  
Gordie King and sophomore  
Gene Grada at the wings.

Bert Pomerleau will skate at  
center for the third line with  
John Gipp and Dave Hendrick-  
son at the wings.  
On defense Joe Sauve and  
John Polomsky will trade off  
with Henry Campanini and Ed  
Werner.

Reserve net-minder Ron Sveden  
is slated to get the call for  
action against the Ontario team.  
The shifts are being tried out  
in the non-league tilt at an ut-

tempt to get the sagging puckst-  
ers back on a winning streak af-  
ter four straight losses to Michi-  
gan and Michigan Tech.

Biggest surprise is the shift of  
Sveden to goal.

The 20-year-old Needham,  
Mass., junior had a respectable  
three-goals-per-game average  
scored against him last season in  
his eight trips out, playing be-  
hind last year's Most Valuable  
Player, Ed Schiller.

So far this season Sveden  
has been beaten 12 times in  
two matches for a six goal per

game average.

Schiller has had a rough time  
in the 14 games he has credit for  
this year with 62 markers against  
him for a 4.4 goals per game av-  
erage which finds him in last  
place in the league among goalies  
working more than four games.

Schiller has 379 saves this sea-  
son while Sveden has kicked out  
57 in his two contests.

# Air Force Tells U. S. Advancing In Missile Race

WASHINGTON (AP) — Air Force leaders said Thursday the United States has made "a marked advance" in its race with Russia to develop intercontinental missiles and will eventually have atomic-powered airplanes capable of indefinite flight.

## GOP Mixed On Williams' Profits Tax

LANSING (AP) — Gov. Williams' renewed request for a corporation profits tax as a major solution to a proposed state deficit drew mixed but restrained comment Thursday from Republican legislators.

Sen. Carlton H. Morris (R-Kalamazoo), the chairman of the senate taxation committee which would have to pass on the measure, seemed to strike one Republican theme by saying the corporation profits tax is not a profits tax but an income tax and will inevitably lead to a personal income tax in Michigan.

Williams asked for a five percent levy on corporation profits, coupled with repeal of the 30-year-old corporations franchise tax and the exemption of corporate business from the 1932 business receipts tax.

Figuring the profits tax would produce 119 million dollars a year, Williams said the state would have an additional 44 million dollars a year.

House thinking seemed to be summed up, at least at top levels, by Rep. Allison Green (R-Kingsford), the Republican floor leader. He argued that the corporation profits tax would slump badly during a depression and that retention of the present franchise and receipts taxes would provide the state with a more stable tax base.

Both house and senate, however, seemed less outspoken than usual in their opposition to the tax which Williams has advocated unsuccessfully in previous years and which he now looks to wipe out a 46 million dollar deficit in the budget he has recommended for next year.

## Students Plan Indian Program

Films from the Indian Embassy in Washington, D.C., will be featured tonight at 8 in 31 Union to commemorate the founding of the Indian Republic eight years ago Wednesday.

The Republic Day program will include a panel discussion of Indian history, traditions and customs. The discussion and films will be followed by a dance.

6 LESSONS FOR \$9.00

Gen. Nathan F. Twining, Air Force chief of staff, told the House Armed Services Committee that, although many difficult engineering problems still have to be solved, American scientists have reached a point where they can predict a practical, nuclear-powered aircraft.

"We have hopes that this will be a truly intercontinental weapon freeing us from the dependencies on overseas bases and supply systems," Twining said. He added the development program has been given a high priority.

Secretary of the Air Force Talbott reported on the progress being made on the missiles, which probably would carry hydrogen warheads.

The missiles, potentially decisive weapons in any future war, are designed to be fired thousands of miles at supersonic speeds and with a high degree of accuracy.

He said Soviet capture of German V2 rocket installations and Soviet ability to produce hydrogen weapons "makes it imperative that our country be the first to possess operational, long-range ballistic missiles." The V2, a weapon of limited range and accuracy, was used by the Nazis in the last stages of World War II.

Talbott did not make public any details of the developing American weapon. With Twining, he appeared before the committee to report on U.S. air power.

At the present time, the secretary said, the Air Force is four wings ahead of schedule in its expansion program, so that it will have 131 wings in active service by June 30, 1956, instead of 127. A wing ranges from 35 to 75 aircraft, depending on the size of the planes.

The goal is 137 wings, although some members of Congress consider such a force too small. Talbott testified the Air Force is constantly re-evaluating its goal in the light of "increasing Communist capabilities," but that it has not yet changed its plans.

He reported the Strategic Air Command, the force which will strike back first in the event of any aggression against this country, is being strengthened by the addition of Boeing eight-jet B52 bombers, which he described as "the best in the world today."

## Carnival Smoker

An open smoker for students interested in working on Water Carnival committees will be held from 7 to 9 p.m. Tuesday in 22 Union.

Nine chairmen and secretaries have been chosen to head the committees.

# Senate OKs Korean Vet Bonus Bill

LANSING (AP) — The Senate Thursday passed legislation to implement the Korean War Veterans Bonus authorized by the voters last November.

The measure now goes to the house, where prompt action was indicated.

The bills sets up the machinery for paying the bonuses to an estimated 250,000 veterans.

The adjutant general of Michigan, Brig. Gen. George C. Moran, has indicated the bonus operation may start by mid-February if the legislative schedule is maintained.

The senate also confirmed Gov. Williams' appointments of James C. Allen of Birmingham as state corporations and securities commissioner, Frank Blackford of Lansing as state liquor control commissioner, Chester W. Ellison of Lansing to the state historical commission, Gen. Lester J. Maitland and John H. Stark Jr. of Lansing to the civil defense advisory council and Mrs. Dorothy McAllister of Grand Rapids to the state board for libraries.

Rep. Emil A. Peltz (R-Regina City), submitted two bills as a counter proposal to Gov. Williams' plan for a 500 million dollar highway construction bond issue.

Peltz proposed a two-cent gas tax increase, to be voted on at the April election. If approved, the tax would be boosted from four and one-half cents to six and one-half cents per gallon.

Peltz also introduced a bill to allow local governmental units to issue highway and street improvement bonds, to be backed by revenue from gas tax diversions.

The glow will be shown Saturday in Karl Robinson's "Brazil," including scenes of Sao Paulo and Rio de Janeiro, Brazils two most modern cities.

In contrast, the film will include a visit to Belem, an Amazon jungle city located 1,000 miles from the sea.

Both films will be shown at 8 p.m. in the Auditorium.

## Lansing Students Turn in Petitions

Lansing students who wish to run for Student Congress from their district in next week's elections have until 5 p.m. today to turn in their petitions to the Student Government office.

So far, only two petitions have been turned in for the two vacant seats. Two more must be received before there can be an election in the Lansing district.

If no more petitions are received by tonight's deadline, the students who have already petitioned will get the Congress seats automatically.

Primary elections will be held Tuesday for vacancies from West Shaw, East Lansing, fraternities, and sororities. Final elections will be held Thursday in those four districts, and in Phillips, Rather, and Bryan dormitories.

# Policy Editor Claims Tragedy Gone From Freud

(Continued from Page 1) This observation was aimed, among other things, at contentions in the Senate that the issue of war or peace might be in the hands of Adm. Radford, or even of Chiang Kai-shek.

An administration official familiar with the President's views said the statement means without any question that Eisenhower is reserving to himself any decision on whether to strike at the China mainland with the aim of smashing any Communist military buildup for an attack on Formosa or the Pescadores.

Stanley E. Hyman told an audience in the Physics-Math Auditorium that since the ancient Greeks, the only philosophy that has given a tragic view of life is that of Freud's.

"But this is contrary to the American optimistic outlook that man is capable of moral goodness," he said.

The Neo-Freudians, he said, had rejected all of Freud's main concepts, and that because of this they had lost sight of what Freud has to offer.

## Dem Group Urges Cancel Of Power Bid

WASHINGTON (AP) — The 10 Democrats on the Senate House Atomic Energy Committee Thursday signed a resolution calling on the Atomic Energy Commission to cancel the Dixon-Yates power contract.

Since they form a majority of the committee, the resolution presumably will be adopted by the committee at a meeting called for 10 a.m. CST today. The committee lineup is 10 Democrats and 8 Republicans.

The resolution would put the joint committee on record as rescinding a waiver it adopted last November at the request of President Eisenhower to speed action on the contract.

The Republicans had control of the committee by a 10-8 margin in November when the waiver was adopted.

This waiver amounted to permission for the AEC to go ahead with the controversial contract despite a general provision of the atomic law requiring a contract of that sort to lie before Congress for 30 days.

# Faculty Tickets Ready for Convo

Faculty tickets for the Founders' Day processional and convocation are available at the Union Ticket Office, the Kellogg Center main desk and the Centennial Office in Wells Hall.

Meetings are being held with student government representatives to determine a plan for distribution of approximately 1,000 tickets set aside for students.

Announcement of the student ticket distribution plan will be made Monday according to Avie L. Smith, Centennial director.

Three tickets will be reserved for each member of the faculty appearing in the processional.
