

NEWS EVENTS OF 1957 IN PICTURE REVIEW

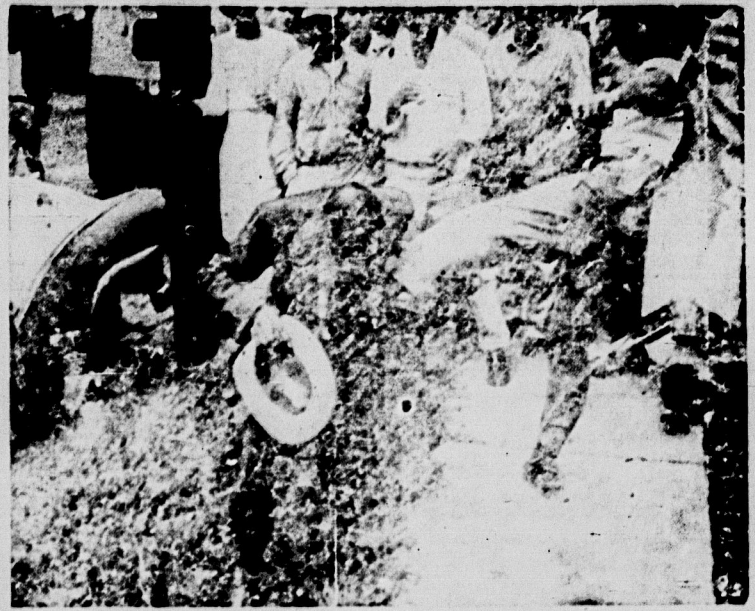

BY THE ASSOCIATED PRESS

A boat left high and dry on highway next to shattered homes is mute evidence of the fury with which Audrey, first hurricane of 1957, struck the small Louisiana coastal town of Cameron in June. Storm's death toll was more than 500.

Queen Elizabeth II, attending dinner that climaxed her New York visit in October, shows that she too experiences trouble with her gown's shoulder straps.

Alex Wilson, reporter for a Negro weekly, is kicked by white man in crowd outside Little Rock's Central High School Wilson was escorting Negro students to the integrated Arkansas school when racial violence erupted in September.

The Vanguard rocket, its nose cone toppling, bursts into flame during attempted takeoff at Cape Canaveral, Fla., in December as the U.S. rushed to get a satellite into outer space after successful Soviet launchings.

Billy Graham, using all the gestures and oratory of an old-fashioned evangelist, stirred New Yorkers in May during a crusade against sin. Giant rallies were held in Times Square and Madison Square Garden.

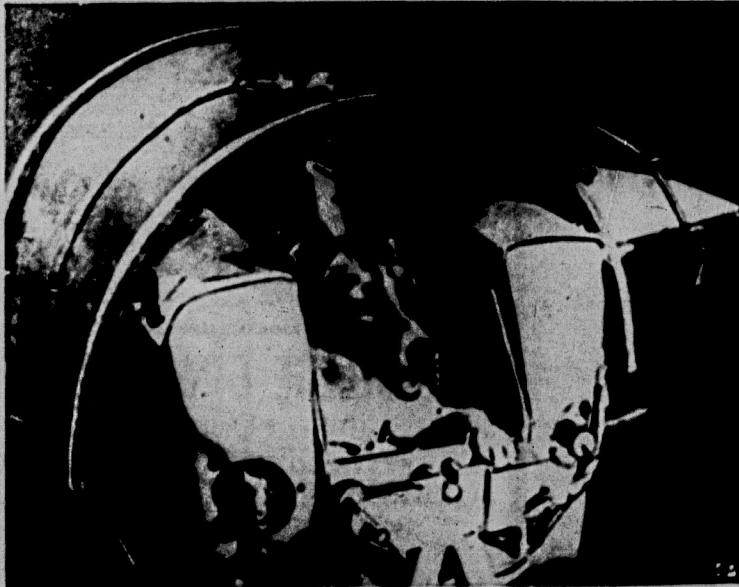

Nearly all eyes are on a stray dog passing the reviewing stand in front of the White House during the January inaugural parade. Like President Nixon couldn't refrain from smiling as he stands with the President and Mrs. Eisenhower.

Dirk Shaw carries body of five-year-old Jeanette Munson, one of five children in one family killed by the tornado that hit Fargo, N.D., in June. Storm was among the many that plagued middle part of country this year.

Nikita Khrushchev, making July tour of earth satellites, disarms atmosphere for workers in Pilsen, Czechoslovakia. During 1957 he tightened his grip on power in the Soviet Union by removal of Lavrenty Beria.

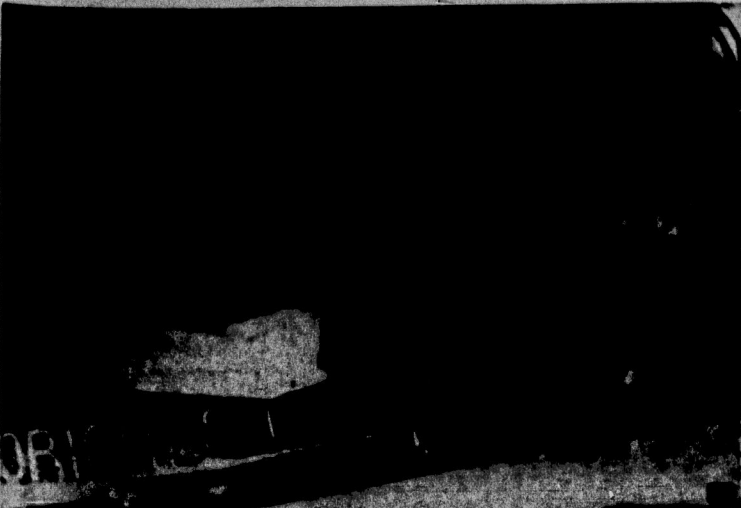

This dog and cabin, about to see the world according to Pravda, were sent aloft in November by Russia in the satellite Sputnik II. Dog, called Laika, became first animal to be orbited around earth. Laika reportedly died in its flying chamber.

Army Specialist William S. Girard of Chicago, Ill., was found guilty by a Federal court of the fatal shooting of a Japanese woman wrap collector on a firing range. He was given a three-year suspended sentence.

Milwaukee's Low Burdette holds up three fingers to symbolize the number of his wins against New York Yankees in 1957 World Series. He hurled two shutouts as the Yanks scored only two runs of his pitching in 27 innings.

Young Homer Huggan, with life-giving oxygen mask upon his face, lies in ambulance minutes after his rescue by his father from 96-hour engagement in well dug by his father near their Long Island home.

James E. Hoffa, left, and Dave Beck, Teamster union chiefs, come under the fire of the special Senate Subsets Committee in Washington as they were questioned about their activities as union officials.

Troops of the 101st Airborne Division, with fixed bayonets, bring smiles from students and other Little Rock Central High School students in September racial violence. Federal troops were used to enforce integration of Negro students in school.

Hillary Uses Tractor Train At South Pole

U.S. SOUTH POLE STATION. (AP) — Sir Edmund Hillary indicated Sunday his perilous trek to the bottom of the world proved tractor trains to the South Pole are practical.
 Hillary left his dog teams behind when he took off on a shoot-the-works march to the South Pole Dec. 27. He and four fellow new Zealanders pulled into this U.S. base on tractors Saturday.
 The one-time beekeeper told a news conference tractor convoys to the South Pole are feasible if economy is not considered. On his trek here Hillary's party had to jettison one and one half tons of supplies when it ran into soft snow.
 He said the snow tractors he used proved their superiority over dog teams except for crossing treacherous crevasses. Dogs can cross crevasses without breaking through. Heavy tractors can't.
 However, he said dog teams are not obsolete and are still useful in short trips, such as mapping.

The Kresge Art Center is shown in this model as it will appear when completed. A gift of \$1,500,000 for its construction was accepted by the university in May 1956 from the Kresge Foundation of Detroit. The center overlooks the Red Cedar on a site between the Aud and the Chapel, and will include studios, classrooms and an art gallery.

Red Paper Reports Latest Soviet Fashions
 MOSCOW (AP) — Russians got the world on spring fashions Sunday.
 The newspaper Soviet Russia reported the well-dressed Soviet man will be wearing suits with narrow trousers and jackets with sloping shoulder lines.

Schlademan Included Retirees Announced At Ag Board Meeting

Impending retirement of a number of faculty and staff members was announced at a recent meeting of the State Board of Agriculture.
 Slated to retire in the near future are:
 Track Coach Karl A. Schlademan; Robert J. Coleman, director of Radio Station WKAR; Prof. Albert A. Applegate, director of the Speakers Bureau; Henry C. Moore, associate professor of farm crops; Prof. Irma H. Gross, head of home management and child development; Samuel H. Dwight, assistant professor of physics and astronomy; John W. Hope, museum technician and Everett N. Huby, photographer in intercollegiate athletics.
 Coach Schlademan, who will retire July 1, 1958, has directed Spartan track and cross country teams since 1946 with outstanding success. His teams have won five Big 10 championships, four ICA titles and five NCAA team crowns.
 Robert J. Coleman, member of the WKAR staff since 1930 and its director since 1954, will begin a year-long retirement furlough July 1, 1958, retiring officially at the end of that period. He has been prominent in activities of the National Association of Educational Broadcasters.
 Prof. Applegate, slated for July 1 retirement, joined the MSU staff in 1936 as head of department of publications. He headed the journalism department from 1943 until 1954 when he retired originally.
 Prof. Applegate came out of retirement in 1956 to direct the newly-formed MSU Speakers Bureau, a function of the Continuing Education Service.
 Olen F. Brown, a foreman in the horticulture department, is to retire Jan. 1 after being employed by the university since 1929.

- PAROLE AND PROBATION (Male only)
- PRISON COUNSELING (Male only)

The Michigan Civil Service Commission is now recruiting applicants for its spring examination program. A large number of training positions involving intensive on-the-job development programs will be filled starting next June and July. These positions lead to full professional status in a given field.

Applicants must be college graduates by June 1958. Various majors required according to class. Stated classes require submission of transcript.

Write for application for examination before February 19, 1958 to Michigan Civil Service, Lansing 18.

Federal Aid 'Inadequate'

Congressman Predicts Education Action Tuesday

WASHINGTON (AP)—Rep. Bailey (D-WVa) said Sunday there is "a good chance" congress will pass some sort of program for federal aid to education in the session beginning Tuesday.
 Bailey said he agrees with the general intent of President Eisenhower's proposal for a one-year, billion-dollar aid program to help meet the scientific challenge posed by Russia.
 However, Bailey told the reporter he believes that in general the administration program is "inadequate."
 "I think they'll agree it solves it's inadequate but it's starting point," said the schoolteacher who heads the subcommittee on general education.
 He said one problem is the financial one of providing aid for education while at the same time spending more for missiles.
 Rep. Thompson (D-Mo), another member of the House Education Committee, said he thought the Eisenhower proposal was "fully inadequate and short-sighted." He said they were in the "whole" map by emphasizing science and mathematics.
 "I see for the first time some danger of federal control of a program which emphasizes specific subjects," he said in a statement.
 Bailey led last year's fight for a school construction bill. The measure was defeated by five votes on the house floor.
 He said he is not interested in presenting a bill on school construction at the coming session.
 The new administration proposal calls for federal education scholarships to meet high school graduates, some fellowships to advance study, and 50,000 matching grants to states to promote more and better teaching of science and mathematics at high school level.
 "I've always favored the idea of federal fellowships and scholarships in colleges and universities," Bailey said, "but I have an open mind on the proposal to make grants to states for elementary and secondary schools until more of the details are made available."

Study Gifts Available For 165 Awards Allow Study Throughout World

Competition for 165 scholarships for young Americans to study in thirteen foreign countries will close January 15, 1958, it was announced by the Institute of International Education.
 These awards are primarily for one year beginning in the fall of 1958, and are for study in Austria, Brazil, Cuba, Denmark, France, Germany, Iran, Israel, Italy, the Netherlands, Sweden, Switzerland, and the United Kingdom.
 Administered by IIE, they are financed by foreign governments, universities and private organizations.
 Most of the scholarships do not cover travel expenses but persons applying for Austrian, Danish, French, German, Italian and Netherlands awards may apply for a Fulbright travel grant to supplement the scholarship.
 Applications for travel grants must also be submitted by January 15, 1958.
 Most of these scholarships are open to candidates in languages and culture, fine and applied arts, sciences, social sciences, philosophy, history and theology.
 The French program includes forty assistantships for young Americans to teach in French secondary schools and teacher training institutions. Many of the assistantships can also take courses in nearby universities.
 General eligibility requirements are U.S. citizenship, a bachelor's degree by the time of departure (applicants in the field of medicine must have an M.D. degree), knowledge of the language of the country unless waived, a good academic record and good health. Generally the age limit is 35 years.
 The Cuban award and certain French awards specify that candidates must be under 30 while the Netherlands awards are for persons under 28.
 For application blanks and further information about these scholarships students should see Fulbright advisor, Dean Thomas Osgood.

AUSG Slates Winter Rush

Student Government announced Sunday that their winter term personnel rush will be held Tuesday through Sunday, AUSG Personnel Director, Roger Schuster, said that all interested students should report to the Student Government office in the Union Building.
 Times for the interviews are 3-5 p.m.
 According to Schuster there is still a need for competent people in the Executive Branch and he would be interested in interviewing any students desiring to work in Student Government.
 The AUSG Executive Branch is made up of 10 departments: Campus Chest, Elections, Organizations, Treasury, Public Relations, High School Cooperation, Academic Benefits, Orientation, Personnel and Spartan Spirit.

Ice Show Slated For Civic Center

The producers of "Holiday on Ice," the 125-member ice show which will appear in the Lansing Civic Center Thursday through Sunday fashioned part of an "in person" travelogue. In a music carpet trip via the ice stage, the audience will be carried to old Vienna, Spain, Arabia and the Caribbean.
 Performances will be given each night at 8:15, except on Sunday when there will be an early evening show at 5:30. Matinees are scheduled on Saturday at 2:30 and on Sunday at 1:30. Tickets are on sale at the door or via mail.

Production Increase Demanded

Jackson Warns Of Russian Might

WASHINGTON (AP)—Sen. Henry Jackson (D-Wash.) said Sunday "the American people would be dismayed and bewildered" if they knew how few missile-equipped, nuclear-powered submarines the Defense Department's present plans call for.

He said that while the exact number is classified as secret, he would state that "it is shockingly small."

Jackson, a member of the Senate Armed Services Committee and chairman of the military operations subcommittee of the Senate House Atomic Energy Committee, described the situation as "one more case of too late."

"I am confident that the Soviet goal is to produce hundreds of these undersea satellites," he said in a statement urging that the country build "at least 100 missile-launching submarines at the earliest possible date." He called this "a minimum number—starting point."

Jackson also said "we are not doing nearly enough to develop our defense against Soviet ballistic missiles" and he urged a "drastic revision of present programs for producing nuclear-powered submarines."

"The day is inevitably coming when it will be sooner than most of us think—when Moscow will possess large numbers of nuclear, submarine armed with 1,500-mile missiles," he said. Jackson said the surest way to destroy these submarines is to use other nuclear submarines, adding the Navy now is developing a hunter-killer submarine specifically designed to locate, track and destroy hostile submarines.

"Yet our present plans call for exactly one hunter-killer submarine to be operational by 1968," he said.

Jackson said he had been "deeply disturbed" by recent official statements suggesting that the Navy's sea-launched ballistic missile program is at "letting full speed ahead."

"This is simply not so," he declared despite what he called "misleading scientific breakthrough" on the Navy's Polaris, an intermediate range (1,500-mile) missile designed to be fired from a submarine.

He said the Polaris "will not be a real weapon until it is carried to its launching platform, a nuclear submarine," and he said combined with "real" missiles "our defensive strength" will be produced in large numbers.

Jackson urged an acceleration of planning both "for mass production and military use of the undersea satellite." He recommended that one person be made for the "launching platform" just as Rear Adm. W. F. Bacon is in charge of the Polaris missile.

He also said the President and the Secretary of Defense should give "personal and continuing attention" to the role of ballistic seapower in overall defense policy.

Dr. Rokeach to Speak On Dis-Belief Systems

Dr. Milton Rokeach, professor of psychology, will discuss "The Organization of Dis-Belief Systems" on Friday, in the 4th Floor Library lounge. This will be the first of the Winter series of bi-weekly colloquia sponsored by Alpha Kappa Delta, the national psychology fraternity and honor society. Specially invited guests include all members of the Alpha Kappa Delta national psychology fraternity.

Dr. A. Nicholas Vardac, veteran of motion picture production and education, is directing a new motion picture curriculum on campus which emphasizes the philosophy and meaning of film making more than the usual "skills" type of program. Here he works on camera technique with students. Shooting the scene are (left to right): Sound engineer Wayne Rice of WKAR-TV; Harvey Glick, Monticello, N. Y. senior; Dr. Vardac; and Monroe E. Carol, Newark, N. J. graduate student.

New Philosophy Emphasized

Movie Curriculum Developed

The philosophy and meaning of film making are emphasized in a new motion picture curriculum being developed on campus.

"Our goal is not the typical 'skills' type of motion picture curriculum," declared Dr. A. Nicholas Vardac, veteran of motion picture production and education who joined the MSU staff in 1957. At Michigan State we want to develop leadership in film criticism and in production.

"Of course we hope to offer camera work, editing and other skills training," he continued, "but they will be incidental to the main goal. Our horizon is not to be limited by the highly technical nature of the film medium."

"Our goal is the training of film writers, directors and producers, as well as audiences, who will become increasingly aware of the nature of the social and artistic responsibilities of the film maker," Dr. Vardac explained.

Cut in Taxes Suggested For Scientists

WASHINGTON (AP)—Rep. Hoffman (R-Mich.) proposed Sunday that a certain amount of scientists' income be exempted from taxation for a set period following their graduation.

An aide to Hoffman said the congressman has not decided how much would be exempted or for how long a period.

The proposal was one of three listed by Hoffman as part of a proposed legislative program to accelerate U.S. scientific activity without raising taxes.

He also urged establishment of a separate scientific research agency and income tax deductions for parents sending their children to college for a scientific education. Both suggestions were made previously by other members of Congress.

Income tax exemptions for scientists, Hoffman said, "would with a crude justice, reward the scientist for having deferred his earnings in the national interest."

He proposed a separate agency, free of military control, to perform scientific research and development not being conducted in the Department of Defense and other federal agencies.

Sir Edmund Hillary, conqueror of Mt. Everest, was reported Friday to have reached the South Pole. Hillary and three other New Zealanders, the third group of explorers to reach the pole by overland route in 15 years, joined a U.S. party stationed at the pole.

Comedies, Dramas Highlight Winter Foreign Film Series

Six films ranging from light comedy to drama and history, will be shown this term in the Foreign Film Series.

All films will be shown at 7 and 9 p.m. in Fairchild Theatre, according to Dr. Wilson B. Paul, series director. Non-English films include subtitles, or narration in English.

The winter series includes:

"Wee Geordie" (British), today and Tuesday. This is the story of a Scots lad who, ashamed of his frail physique, builds himself into a young giant through a correspondence course. Alastair Sim and Bill Travers star.

"Twelve Generals" (German), Jan. 23-24. Hans Curt Jurgens in Carl Zuckmayer's play dedicated to friends in the German resistance movement.

"La Sonnerie" (French), Feb. 3-4, concerns a forest warden who captures the love of a

young French engineer. Filmed in beautiful Swedish woodlands and lake country.

"Anthony Adverse" (American), Feb. 20-21. Frederic March in top 1936 film, from novel of the same name.

"The Forty-First" (Russian), March 5-6. Poetic story of love and eternal beauty of the human soul. In sultry heat of Black Sea's summer, a young man in a Red Guard detachment falls in love with White Guard officer who has been taken prisoner.

"Private's Progress" (British), March 10-11. Hilarious story of gold-bricker who almost wrecks an army.

Green Bay Packers to Replace Blackburn

GREEN BAY, Wis. (AP) — The Milwaukee Sentinel said Sunday night it has learned the Green Bay Packers may replace Lisle Blackburn as head football coach today.

The Packers won only three of 12 National Football League games last season.

The newspaper reported that a contract committee of the Packers' executive committee already has contacted possible successors and a surprise choice may be Ray McLean, the National Football League club's backfield coach the past seven years.

Five Gymnasts Display Power in Holiday Meets

Four Spartan gymnasts and one coach turned in some fine performances over the holidays, as Coach George Szygula's crew prepared for its Big 10 opener Friday against Minnesota.

Szygula, Ernestine Russell, Stan Tarshis, Tad Muzyczko, Chuck Thompson and Angie Frick took part in the Provincial Gymnastic Clinic held Dec. 26-31 which featured the Junior National AAU, Moore Memorial and North-South meets.

Ernestine Russell, petite performer from Windsor, Ont., established herself as the top national woman gymnast by ousting arch-rival Muriel Davis, National AAU champ, in the Memorial test.

Miss Russell finished first in the horse vault, free exercise, all-around events and copped a tie for first on the uneven bars.

The male participants helped Szygula pilot the North team to a 51-45 win over the South.

Tarshis gave a fine showing by winning the first berth in

the horizontal bars at the Junior National AAU. He landed a third place in the Memorial bar event and was edged by a point and a half in the North meet, losing to Illinois' Olympic member, Abbie Roosevelt.

Muzyczko placed second, third and second in the Junior AAU all-around, horizontal bar and parallel bar events respectively.

Thompson, although only a freshman, picked up a fifth placement in the AAU and a sixth in the Memorial for his trampoline efforts.

Frick, a top prospect a year ago before he suffered a broken leg, wasn't up to par but his work is an indication he will be fit for the coming season.

During the next few days the team will be preparing for the Golden Gophers' invasion at 8 p.m. Friday in Jenison Field-house.

**WALT KOWALEZYK
Kowalezyk Inks Pact With Eagles**

Walt Kowalezyk, Michigan State's All-American halfback, inked a 1958 pro contract with the Philadelphia Eagles Saturday.

Kowalezyk was Philadelphia's first choice in the preliminary draft meeting last Dec. 2. Vince McNally, Eagles' general manager, signed the hard running back on a trip to East Lansing.

Tabbed the "sprinting blacksmith" for his fast, hard hitting style, Kowalezyk in three years in a Spartan uniform totaled 1,257 yards in 225 tries for an 5.6 yard average. He scored 17 touchdowns, caught 10 passes for 128 yards, returned four punts for 30 and seven kickoffs for 120 yards.

When he works out with the Eagles he'll find former Spartans Clarence Peaks, Tom Sandock and Al Dorow on the squad.

Swimmers Meet Iowa State

Coach Chuck McCaffree's swimmers clash with Iowa State in a non-conference dual meet, their first of the season, this afternoon in Ames, Iowa.

The defending Big 10 champions are carrying a 17-man squad to the western school. Their previous competition this season was last month's Michigan AAU meet in Ann Arbor. Because of finals many of the varsity tankers did not com-

pete in the AAU, and will be facing their first real competition.

A varsity-freshman meet capped the Spartans holiday workouts with the varsity coming out ahead 133-80.

The meet may have given

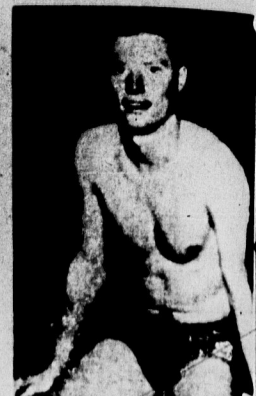

some indication of the top swimmers in each event.

Coping the 400-yard medley relay event was the varsity squad of Don Nichols, Frank Modine, Tom Kwassny and Gordy Fornell, their time was 4:06.7.

Billy Stewart, an outstanding

TOM KWASSNY

GORDY FORNELL

... mainstays of defending swimming champs ...

freshman swimmer, took the 200-yard freestyle with a time of 2:05.6 which bettered the old record of 2:10.5 set in 1947 by George Hoeserbyde.

Stewart also set a new varsity and freshman record in the 440-yard freestyle when he came home in 4:35.5 topping the old Varsity mark of 4:38.6 established in 1951 by Bert McLachlan.

Don Patterson was the winner in the 50-yard freestyle in

53.8 and Rog Harmon won the 200-yard individual medley with a 2:13.

Diver Jerry Chadwick topped the springboard artists with 100.05 points. Harmon also set a 100-yard butterfly in 55.4 and Lon Patterson of the varsity took down the 100-yard freestyle in 52.2.

The 100-yard backstroke was taken by Don Nichols of the varsity in 1:02.2, and Modine set a new varsity record of 1:43.6 in the 150-yard breaststroke, besting the previous mark of 1:46 set in 1947 by Dave Seibold.

The tankers will return Monday night at 9:30.

Wings Edge Leafs

DETROIT (AP) — Gordie Howe's 20th goal of the season, coming late in the second period, broke a 2-2 tie and sent the Detroit Red Wings to a 3-2 National Hockey League triumph over the Toronto Maple Leafs Sunday night.

Howe scored on a 15-foot backhand blast after Norm Ullman kicked the puck out of a scramble near the Toronto net. The victory was an uphill effort all the way for Detroit, playing its first home game under new coach Sid Abel who directed the team Saturday night in Montreal. This officially was Abel's debut at the helm of the club on which he starred for so many years.

Cagers Lose Big 10 Opener, 70-56

Buckeyes Maintain Comfortable Margin

By LARRY WROBLEWSKI

Ohio State raced to a 19-point halftime margin over Michigan State's cagers Saturday night at Columbus, Ohio, and protected its lead to win easily, 70-56, as Big 10 teams swung into conference action.

The Buckeyes, winner of only one conference game in eight last season, were in good luck from the outset. It appeared that the Spartans' night of bad luck would last the entire evening. The Spartans' first foul, a foul by Bob Anderson, who had a respectable 7-1 non-conference record, their second foul, a foul by Jack Quiggle, put them in a hole from which they could not escape.

The Spartans were unable to get any scoring opportunities, and after four minutes elapsed forward, Bob Anderson put in his only field goal, but the Buckeyes already enjoyed a 12-point lead.

"I just don't know what happened to us," Anderson said after the game. "I just didn't seem to be able to get anything going. I just didn't seem to be able to get anything going."

The Spartans were unable to get any scoring opportunities, and after four minutes elapsed forward, Bob Anderson put in his only field goal, but the Buckeyes already enjoyed a 12-point lead.

Spartan '5' Posts Fine 7-1 Record

During the Christmas holidays Fordy Anderson's cagers completed one of the most difficult non-conference schedules in Spartan annals on a successful note, posting a 7-1 mark.

Having already downed Butler and Detroit in tight games, the Spartans whalloped Colorado, 84-44. Larry Hedden hit his personal high, pumping in 29 points, hitting on 13 of 17 field goal attempts.

Playing before a near-capacity crowd in Jenison Fieldhouse, the Spartans overcame a Notre Dame night guard lead to win, 79-72, again. Hedden paced the scoring with 25.

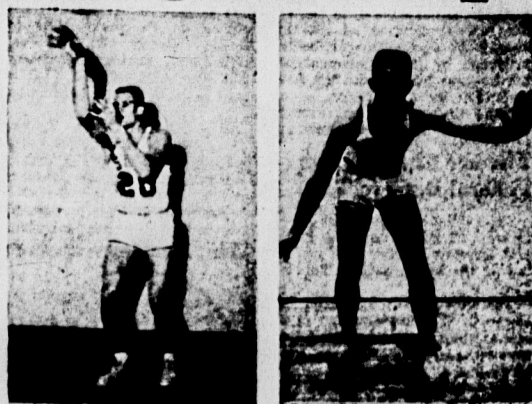

The quintet headed by Ames, Ia., to tangle with Iowa State, early conqueror of undefeated Illinois. It took Anderson's squad an overtime session to turn back a stubborn Cyclone five, 57-51. Hedden's layup and two baskets by Jack Quiggle, who put in 19 points, broke a 50-50 deadlock.

The Spartans departed for three games with UCLA, Southern Cal and Washington, three West Coast powers, after Christmas Day.

With the help of stand-in center Chuck Benice the Spartans kept their unbeaten record intact by edging UCLA, 63-61. Hedden took scoring honors getting 18 points while Quiggle gunned in 16 and Bob Anderson, who displayed his offensive talents, hitting for 14.

The team extended its winning streak to seven when it knocked off Southern Cal, 77-67. Dave Scott got 13 points as Hedden once again led the quintet dropping in 16 followed by John Green's 15, Quiggle's 14 and Bob Anderson's 13.

Going into its final non-league schedule, the Spartans hoped to enter the Big 10 undefeated. But a determined Washington humbled the cagers from the unbeaten ranks, 71-69. The Spartans could not defense against a pair of hook specialists in Doug Smart and Al Murphy. Smart broke in 28 points and State's Green connected for 21.

Pucksters Finish Holiday Schedule

With 2-3 Record

By CLIFF VAN METER

During the semester break the Michigan State pucksters skated to a 2-3 record. The pucksters beat Colorado College and Harvard University while losing to Colorado College and Denver twice.

State opened its Western Intercollegiate Hockey schedule against Colorado College on Dec. 29 and again triumphed 1-0. Colorado College won easily as State could never get within three goals of the lead. Pete Pano was Parker pined up the Spartans goals.

The next night Michigan State bounced back and won 6-4. State's scoring was evenly divided as Bob Jason scored in the first period to give State a 1-0 edge at the end of the first period.

State collected five goals in the second period. Fred DeVuono, Dick Hamilton, Ros Parke, Keith Christofferson, and Terry Moroney doing the scoring.

On Dec. 21 Denver University moved into the Spartan arena and promptly gave out their welcome by edging State 4-1. Ed Pollock scored for State from being shut out with a goal late in the third period.

State outscored Denver for the first two periods, the next night but still lost 4-2. State led at the end of the first period 1-0 on a goal by Bill McKenzie. Dick Hamilton picked up a goal in the second period and the score read 2-2 going into the final period.

Denver scored at the 15 minute mark in the final stanza and then put a puck into the open net with less than a minute to play to seal their 1-2 victory.

Last Saturday night State hosted Harvard University in a non-league game and won 4-1. An amazingly large crowd of 2,157 saw State score two goals in each of the three periods. Fred DeVuono and Keith Christofferson scored for State.

Anderson Expresses Disgust Over Offense

"Our offense has reached its lowest ebb this year," remarked Coach Fordy Anderson after his cagers were downed by Ohio State in their Big 10 opener Saturday.

The perfectionist, who guided the Spartans to the co-conference championship a year ago, was very pleased with the non-conference record of 7-1.

He expressed, however, that the team had a tougher time with the non-league foes than he had anticipated. "We were unable to use the replacements for Dave Scott and Horace Walker, who were ruled solely ineligible for the remainder of the Big 10 race. As it looks now Lance Olson will fill in at Scott's spot with reserve guard Tom Hand spelling him off."

Anderson said that the Spartan comeback would be a more difficult assignment than last year because of the loss of both Scott and Walker who will have a psychological effect on the team.

It seems we just have hit the teams at their best," Anderson quipped.

The highly-esteemed mentor had praise for Bob Anderson, who has come into his own offensively. "On the non-conference circuit and Saturday Bob certainly provided us with some needed scoring. And game by game he is developing into a real mainstay."

Asked if he was concerned with Larry Hedden being able to score only two points both on charity tosses Anderson replied, "Hedden had been really hot during the preseason games and he just had an off night. Larry will hit his stride again."

This week the team will concentrate on offense entirely, as it gets ready for the Purdue clash Saturday night at 8 in Jenison Fieldhouse.

MSU Pistol Club Sets 1st Meeting

With eight varsity sports swinging into the midst of conference competition, the Spartan Pistol Club will vie with Wisconsin and Purdue on two occasions.

Besides the weekly matches among students, the Pistol team will host the Badgers and Boilermakers in a triangular meet February 11. Then the group is slated for individual road assignments with Purdue and Wisconsin.

In order to field a comparable team the club is staging its winter term meeting Tuesday at 7 p.m. at the modern range in the basement of Dem Hall for all interested students.

John Stroutman, president of the club, mentioned the club's main purpose is to afford any interested student an excellent opportunity to learn how to fire 22 caliber pistols.

Strikes 'n Spares

By RICK BECK

This year, New York City will play host to the Eastern Collegiate Individual Bowling Championships. The tourney has been in progress for the last seven years and has just recently been extended to cover the entire eastern portion of the nation.

Competition for the New York matches will be the greatest in the tourney's brief history. A great number of universities will be represented and it is hoped that Michigan State University will follow suit.

A captain of the MSU bowling team, I'm familiar with the many fine bowlers we have here on campus who are able to extend MSU's outstanding reputation to the bowling world, thereby demonstrating our progress once again in another sport.

Unfortunately, there has been little support for this bowling team in the past. While other universities and colleges have developed great support for their teams, we too feel that the MSU bowling team deserves support from the entire student body.

MEMO TO MAESTROS: is your band dawdling instead of tootling? Is it full of feeble fifers and drooping drummers? Well, this musical slowdown may be traceable to lack of Luckies. Better give your band a break—and make it a Lucky one! A Lucky, you see, is a light smoke—the right smoke for everyone. It's all cigarette—all naturally light, wonderfully good-tasting tobacco. And Luckies' fine tobacco is toasted to taste even better. Now then, what's a marching band that never gets a Lucky break? Why, it's a *Sore Corp!* (Wanna't that cymbal?)

STUCK FOR DOUBT? START STICKLING! MAKE \$25

We'll pay \$25 for every Sticker we print—and for hundreds more that never get used! So start Stickling—they're so easy you can think of dozens in seconds! Stickers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send 'em all with your name, address, college and class to Happy-Joe-Lucky, Box 674, Mount Vernon, N. Y.

MSU International Study Gets \$135,000 Award From Ford

A \$135,000 grant from the Ford Foundation has been awarded to MSU for a unique project in which the university will appraise its present active role and define its long-range goals in the international field. The grant was requested Dec. 20 by the State Board of Agriculture.

Dr. Glen L. Taggart, dean of MSU's international programs, explained that emphasis will be on research, overseas activities and class offerings needed to "intelligently communicate ideas in the international community."

Dean Taggart also pointed out the "need to develop academic on-campus programs which will directly utilize the competence gained by university staff members in their experiences abroad."

As one phase of the project, made possible by the Ford Foundation grant, MSU will establish a series of faculty seminars in which staff members will deliberate the international aspects of MSU's academic program.

"We will call on consultants, of government, business and other universities to participate in the seminars and give their recommendations," Dean Taggart explained. "The broad approach which we intend to pursue is dictated by the nature of the international problems we face as a nation and as an educational institution."

Pi Tau Sigma Holds Initiation, Hears Talk

Tau Epsilon chapter of Pi Tau Sigma, national mechanical engineering honorary initiated 20 a five and three honorary members at its fall term initiation Friday, December 6 in the Union. The initiation was followed by a banquet at the Pagoda restaurant after which Dr. Moses of the Communication Skills Department gave a talk on "A Frontier Trip."

Speech Convo Lauds Hewgill

Murray A. Hewgill, assistant professor in the speech department has been named an "Outstanding Young Teacher" by the Central States Speech Association.

The award was announced at a recent convention of the association in Chicago.

Hewgill joined the faculty in September 1956 after six years as minister of the First Congregational church in Clinton.

He is from Clarkburg, Ontario, and was graduated from Eastern Nazarene College in 1950, receiving his M.A. degree from the University of Michigan in 1953.

Greenland has an area of 827,300 square miles.

President Marcos Perez Jimenez, strong man of Venezuela, is still in control of his oil-rich country according to radio broadcasts. The president told the nation that the country was calm following an attempt by a rebellious air force garrison to gain control. The army announced that the revolt had been crushed and that the leaders fled by air.

Film Shows Atom's Uses in Agriculture

A 15-minute color film showing one application of atomic energy in agriculture is being produced by the department of horticulture jointly with the Atomic Energy Commission. The film is one of several the AEC is making to show at the second International Conference on Peacetime Uses of Atomic Energy in Geneva, Switzerland, during September, 1958. The AEC made a \$25,000 grant to MSU for the production of the film.

Finance Club to Hear Federal Reserve Talk

Dr. Lindholm, economics professor will speak on "The Federal Reserve Today" at a meeting of the Finance Club Thursday.

The meeting, at 8:30 p.m. in Union, is the first of three in a series planned for winter term under the heading, "Federal Reserve and Bank Term."

Night Staff

Night Editor Neida Trout
Asst. Night Editor John Allison
Night Ad Staff Ray Schumaker
Night Staff Dick Straus, Lynn Shepard

According to H. B. Tukey, head of the department of horticulture, the film will illustrate how atomic energy by-products are used to trace the movement of nutrients through the plant. The tracing of nutrient loss through the plant's above-ground parts such as leaves, twigs and fruit is an important research technique made possible with these materials.

MSU was asked to make the film because the horticulture department has had several years' experience in using atomic energy by-products in research work.

Primarily technical in nature, the film's narration will be translated into five languages and distributed throughout the world.

University horticulture staff members who are currently engaged in research using the atomic energy materials are Sylvan H. Wittwer, Fred G. Teunier, Martin J. Bukovac, H. B. Tukey and H. B. Tukey, Jr. Robert P. Worrall, extension television editor, is technical production consultant for the film which is being made by a commercial firm.
