Cagers Defeat Iowa, 90-84

State, Indiana Tie for 1st; 3 Spartans Hit 78 Points

BY LARRY WRONKOWSKI
Out of first place for only 48 hours, Michigan State's cagers bounced back into a tie with Indiana for the Big 10 lead after the Spartans defeated Iowa Monday night, 90-84, and Indiana nudged by Wisconsin, 93-87.

The Hoosiers and Spartans, last year's co-champions, have identical 5-3 records.
But State's elevation from third place to the top was aided by those "breaks," which have made the league race a frenzied affair.

Michigan tumbled from first place when Minnesota blasted the Wolverines, 80-69. Last-place Illinois surprised second place Purdue by whipping the Boiler-makers, 99-81. Eight-place Northwestern edged out Ohio State, 78-76.

The Spartans unloaded their biggest offensive barrage of the year to turn back a pesky and youthful Iowa squad. The Spartan trio of forward Larry Hedden (27 points), center John Green (26) and Capt. Jack Quiggle (25) combined for 78 of State's total.

This spectacular scoring combination took some of the glitter from Iowa's one-man effort by Dave Gunther who was high man with 30 points.
Hedden hit over the 20-point mark for the fifth time this season. The lanky sharp-shooter rammed in 13 field goals and one free throw.

Green, who got 16 points against Indiana Saturday, dumped in nine baskets and eight of 10 free throws. Quiggle, who was instrumental in State's last rally, bagged eight two-pointers and nine of 11 from the foul stripe.

Sophomore Lance Olson, alternating between guard and forward, pumped in 10 markers on three field goals and four-for-four free tosses to complete the solid scoring.
State and Iowa exchanged opening baskets. Then the Spartans sparked by Hedden's jump shooting and Green's layups grabbed a 19-13 lead midway in the first half.

The Spartans amassed a 10-point margin with 4:22 left. It began to look as if State would pull away from the Hawkeyes.
But Iowa's Nolden Gentry, sophomore center, and sub guard Mike Heitman produced 10 points on a pair of

losses ball with State's Green and Iowa's Gentry scrambling for throws and four baskets to draw within four points of State at halftime, 44-40.

Statistics showed the Spartans hitting on 16 of 39 tries from the floor for 41 percent, and Iowa notching 15 of 35 attempts for 43 percent.
State's accuracy via the foul line, by netting 11 of 13, was the main factor in enabling it to lead at the intermission.

Returning for the final 20 minutes, Green, Quiggle and Hedden collected baskets to build the Spartan command to 56-42.
Gunther fired in five points and Iowa moved to a five-point deficit, 58-53.

With 9:30 remaining, Iowa slashed State's margin to one point, 66-65, as Gunther and Clarence Wordlaw scored six points.
To the roar of 7,048 fans, Olson tallied a breakaway and Quiggle's three-point play forged State ahead, 72-68.

In the final two minutes Iowa came within three points, 85-82, with Wordlaw, guard Earl Nau and Gunther getting field goals.
Green's free throw and layups by Olson and Hedden snuffed out the Hawkeye rally as the Spartans won their 12th game of the year.

State ended up potting 34 of 75 shots from the field, and Iowa scored 33 of 72 attempts. From the foul line the Spartans missed five (22-27) while the Hawkeyes hit 18 of 25.
Green again took rebound honors by pulling down 19. State had a 41-35 advantage in rebounds.

Next Spartan home game is Saturday afternoon at 4:30 against Illinois.

224 Pints Contributed To Drive

Farmhouse Sets Early Example

The blood drive got off to an excellent start yesterday, according to Phil Wahl and Dick Reimer, personnel chairman for Men's Council.

A total of 224 pints was collected, compared with 180 pints during the first day of the drive last winter term.

Approximately 277 persons volunteered to give blood, but 53 of these were rejected because of colds or other illness.

Farmhouse set example for all other campus units by having 100 percent representation on the first day.

Results of the first day of the drive are as follows:

Greek Drama Exemplified In 'Lysistrata'

Battle of Sexes Featured in Play

Michigan State gets an opportunity to live for a few hours the life of ancient Greece in Fairchild Theater Thursday, Friday and Saturday nights.

"Lysistrata," winter term play, opens Thursday night at 8:15.

The play has received high acclaim from critics who have cited it a "delightful and unusual" production. And work done by the MSU Players staging crews promises no letdown in that department.

Costumes and sets are entirely the work of speech department personnel. Women will fit about the boards garbed in "authentic" Greek gowns and dresses of the day.

Premier Gaillard Calls Cabinet To Consider Tunisian Situation

Air Attack On Tunisia Big Error

Allies Disturbed By French Raid

PARIS (AP)—French Premier Felix Gaillard, under pressure from the United States and Britain, summoned his cabinet into special session Monday night to consider repercussions of the attack by French warplanes on a Tunisian border village.

Gaillard recalled his resident ministers in Algeria, Robert Lacoste, to report personally to the Cabinet on the raid Saturday on Sakiet Sidi Youssef, near the Algerian border.

The cabinet was reported ready to take steps to see that military commanders are no longer allowed to stage such attacks on their own authority. British sources said the Cabinet would also seek to trace the chain-of-command and place blame for the raid.

The French claim the attack was launched to wipe out Algerian rebels hiding in Tunisian sanctuaries and firing at French observation planes over Algerian territory.

But the venture was being viewed here as a military blunder that pushed France's back to the wall diplomatically.

The Tunisians claim 28 persons were killed and 84 wounded as twin-engine bombers unloaded bombs and fighter planes swooped down with machine guns blazing in the hour-long daylight raid.

Gaillard and Foreign Minister Christian Pineau kept officials close, but three of France's allies weren't.

The United States officially was profoundly disturbed. Britain said it hoped the situation wouldn't explode into something worse. West Germany voiced concern for the loss of lives.

In Washington, the State Department authorized the U.S. Ambassador to Tunisia, G. Lewis Jones, to go to Sakiet Sidi Youssef for a first-hand investigation and report. Tunisian President Habib Bourguiba has invited all foreign diplomats in Tunis to visit the bombed village of 2,000 persons.

Most of the 25 planes used by the French in the attack were made in the United States. But State Department Press Officer Lincoln White told reporters in Washington the government had insufficient information on whether the planes were given to France as military aid for defense in the NATO area. He noted France had bought some planes with its own money.

White Gaillard maintained official silence, he was kept busy all day by France's latest crisis. He met with his diplomatic experts, with U.S. Ambassador Amory Houghton and later paid an unusual call on French President Rene Coty.

The cheerful smile of Jane Csirje, R.N., as she carries out a blood check on prospective donor, Jerry Cooper, Flint junior, indicates that giving blood may be quite pleasant. The winter term Blood Drive opened Monday and will continue through the week. It is sponsored by AWS and Men's Council.

Faculty Enter Show Biz Spin Offers Unique Show

There are continuous rumors among students hinting at the theatrical tendency of instructors.

Debaters Win New Honors During Tour

MSU debaters toured to Indiana and Illinois last weekend. Four freshmen debaters went to Lafayette, Ind., where they were the only group to win a perfect record in the annual Purdue-Norwich Tournament.

Thirty colleges and universities took part in the tournament.
Four MSU debaters went to Evansville, Ind., where they defeated in the Owen Owen Tournament at Northwestern University with 96 teams.

Freshman debaters who went to Lafayette, Ind., Saturday were Barry Houghton and Charles Herbert, both from Lansing, affirmative Ralph Wilbur, Lansing, and John Miner, Grand Rapids, negative.

Jack M. Carter, MSU director of debate, drove the following debaters to Evansville: Bill Best, Shippard, Service, Ohio, senior, and Tom Case, Hazlet, Ill., junior, affirmative; Gretchen Brown, Fort Collins, Colo., sophomore, and Bill Thompson, Elm Springs, negative.

The team of Sheppard and Case will debate a team from Jackson Prison in an audience debate at the prison this afternoon.

At 1 p.m. today four debaters will put on an audience debate with a team from Albion College. Among the spectators will be 100 Okemos high school students interested in public speaking.

Faculty Enter Show Biz

The pleasure they derive from commenting wryly before students' classes on current events, their use of gaudy props, especially substitute around final time—and so on.

Well, students will have the chance to see a few of the ex-studented faculty members at home and complete with spiffy background music and curtains, actually entertain.

The strange occasion is the intermission show of the 1958 Spratler spin—My Fair Lady, a strange revision of the 1930's Mrs. Greenwell studied with the New York City New Opera Co. and has appeared at Evans Hall.

Greenwell attended the Juillard School of Music where he first met his wife, worked in many Broadway shows, and played the lead in Earl Carroll's "Furber's."

The Greenswells have been active in show business and the concert world since the 1930's. Mrs. Greenwell studied with the New York City New Opera Co. and has appeared at Evans Hall.

'They Came to Cordura' Gains Success

General Pershing to capture the exclusive Pancho Villa and disperse his forces.

The bulk of the book is concerned with six days in which five rather motley men, cited for the Medal of Honor, and an American avian prisoner are escorted to Cordura.

The story is much more than one of "what'll get it next?" It is a story of courage. What is the mystery which brings to a man "a moment of living beyond the limits of human conduct?"

This is the question which obsessed Major Thomas Thorn, officer charged with escorting the group to Cordura. Piling himself when the time demanded courage, he seeks the source of this human phenomenon.

Fire in Women's Gym Starts from Heater

A small fire broke out in the new addition to the Women's Gym at 5 p.m. Monday.

The fire caused damage to construction materials on the third floor of the building. But there was no damage to the building itself, according to fire officials.

The fire was started by a Salamander, a heater used to keep building materials warm during construction.

Indonesia Sees Crisis

Rebel Foes Broadcast Stipulations

Request Forming Of New Cabinet

JAKARTA, Indonesia (AP)—Indonesian foes of President Sukarno's "guided democracy" issued an ultimatum by radio Monday night for him to ditch his hand-picked cabinet and name a new government within five days.

The ultimatum had been foreseen by rebel leaders for a week, as broadcast by the "Voice of the Rebels" radio at Padang, central Sumatra.

The main demand was that Sukarno dismiss the cabinet named by Premier Djusenda and appoint a new one headed by former Vice President Mohammad Hatta and Sultan Hamengku Buwono.

The rebels also demanded that Sukarno resume his constitutional position—in other words give up his red-tinted, "guided democracy."

Col. Achmad Hussein, Military Commander in central Sumatra and head of the rebel High Council there issued the ultimatum.

If the terms are not met, he said, he will declare himself free from the obligation to obey President Sukarno.

Previously, Col. Aludin Sembel, coordinator of Outer Island protest groups, declared himself as "dragging Indonesia gradually into the Communist bloc."

He charged the President, who now in Japan on a four-hour, had gone to buy arms in order to enable the Djusenda government to bring more military pressure on defiant outer islands.

Rebel leaders at Padang said the possibility of bloodshed was long way off unless the central government orders its force attack.

"Our best weapon still is barbed wire," said a rebel leader at Padang.

He predicted that direct trade between Singapore and the Outer Islands, freighting thickly populated Java out of tax revenues and foreign exchange, would end the Jakarta government to one or two weeks within three months if Sukarno refuses to agree to their demands.

Military and civilian leaders of the rebellion in Sumatra, Flores, Borneo and practically all the other 1,000 islands of Indonesia outside Java have been being for more than a year by Sukarno's policy of giving Communists a share in the central government, and the bulk of what they consider a fair share in the division of foreign aid profits.

Last April he picked the 22-year-old Djusenda "emergency" cabinet which contains no Communists but does include a Stalin Peace Prize winner and three other pro-Communists. Sukarno said the government would not be responsible to the elected parliament.

He followed that up in June by dissolving a national council of 40, including two Communists and four fellow travelers, with power to veto actions of the cabinet and parliament.

Although this flirtation with Communists gave his enemies a rallying point, President Sukarno still is the most powerful and popular figure in the island, a dynamic orator on the radio and a clever manipulator in dealing his opponents.

Must Win Primary

Hart Enters Senatorial Contest Against Potter

BY THE ASSOCIATED PRESS
U. S. Gov. Philip A. Hart Monday waded into the race for the U. S. Senate, with prospects that he will face Sen. Charles E. Potter, Republican incumbent, in a showdown this fall.

Hart first must win in the Aug. 5 Democratic primary. Potter has not yet announced for re-election, but this is widely regarded as a certainty.

At a news conference, the 43-year-old deputy to Gov. Williams said the Republican National Administration, second has been marked by failure at home and abroad.

Potter said he was not surprised at Hart's action, and chided him for dovetailing his political plans with those of Williams, who now is expected shortly to formally bid for a sixth term as Governor.

"Mr. Hart has been waiting a long time to have his mind made up for him," said Potter. "He must be relieved that the decision finally has been handed down and I welcome him into the swim."

Hart has been close to Williams since the two studied law together at the University of Michigan where Hart took his degree in 1937.

He has been in and out of appellate and elective public life since 1949. His first appointment was as State Corporation and Securities Commissioner. He was elected Lieutenant Governor.

Two Air Force officers from the Pentagon toured the Air Force ROTC Detachment Monday, bringing with them an \$80,000 film for the advanced pilots to preview.

The officers, Lt. Col. Vernon W. Froehlich, assistant chief of Personnel Retention, and Major Dexter K. Baker, both from Directorate of Personnel, Headquarters USAF, received the opinions concerning the film which presented the problems many young officers face in deciding whether to return to civilian life after years serving in the Air Force.

Kobsmen Practice in 'Cow Palace'

"Spring is just around the corner," says varsity baseball coach John Kobs. Since the beginning of winter term, Coach Kobs has had his team practicing indoors for the coming season.

Seeing the possibilities for an excellent team this year, Kobs wants his players to have every advantage of practicing as much as possible, so they're in top shape when the first game rolls around.

First it was the pitchers and catchers who reported for workouts, which are held in the Livestock Judging Pavilion. The batters were forced to take their gear to Jensen Fieldhouse and practice at night for two weeks, due to the activities at the Pavilion during Farmers Week.

That may be back in the "Cow Palace," and the entire team has reported for drills.

Coach Kobs remarks continually that "the weeks fly by fast during winter term, and there're only a few weeks to practice before the first official pitch is thrown."

Kobs' philosophy on starting practice early is a sound one. The Spartans are generally the first Big 10 team to hit the practice field, and as Kobs points out, "it's always in better shape than the other teams when those first few games are played."

The conditions surrounding U. S. Ski Team Leaves For Nordic Tourney

NEW YORK, Feb. 10.—The United States ski team left by plane Monday for Scandinavia to compete in the World Nordic Ski Championships at Lahai, Finland, March 2-7.

Manager Gustaf Thunberg said this is the best Nordic team the United States ever has entered in this competition.

the Kobsmen's practice sessions aren't exactly ideal now, but the coach remarks that the new Intramural Building will be finished next year, and there will be facilities for baseball practice in that building.

This year and in past years, practicing in the pavilion has been rough on the players. They must dress at the Spartan Stadium, outdoors, and walk to the pavilion, about one-quarter mile away.

"And because the pavilion wasn't built for baseball, it isn't large enough to hold a team practice. But the new Intramural building will be large enough," added Coach Kobs.

The pitchers get plenty of work, and the hitters get plenty of practice, however, as there are no batting cages available.

At every practice session, the hitters are tabulated on the effectiveness and control of all their pitches, and the hitters are checked on every ball they hit.

Besides this, throwing drills for the pitchers, and catchers are held around balls are fielded, and many sprints are taken to get in condition.

The outfielders are the ones who are really benefited by this indoor practice. There is not enough room to field fly balls or to have throwing practice for them.

But, all in all, the Spartan baseball team is sure to be in good shape for the start of the season.

Special articles: An overall look at the team's progress.

FANS OF VIRTUALLY every phase of the automobile sport will be in for a treat Friday when Lansing's second annual Autorama begins a three-day run at the Civic Center. A lineup of more than 150 customs, rods, classics, antiques, sports cars, and new models is billed as the highlight of the show, but the lasting effects its promoters are seeking are more important by far.

Conquerors, Inc., sponsors of the show, have been working for a year to bring a modern drag strip to the Lansing area. All profits from the 90-cent a head admission charge will go toward that objective.

"We'll need at least \$40,000 to buy the land and build an adequate strip," Sol Seandman Jr., president of the group, said. "If we get a good turnout at Autorama we might be able to get one operating by this summer."

IF ANY AREA in the state needs a drag strip it's the Lansing region. At present the closest facilities are some 25 miles away at Alcedo. Lansing entries abound at the weekend drags there during the summer months, giving the best possible proof that a strip in Ingham county would be a success.

Strangely enough, the people who condemn the idea of good, safe drag facilities are the same ones who wring their hands over the impromptu races on Washington Ave. If the truly interested parties can dig up the required funds in spite of this handicap and get their Lansing strip in operation it's quite possible that the disillusioned "hot rod haters" will become some of the sport's foremost advocates. Anyone who's seen a drag strip in operation can see its value.

Drag racing in the streets is dangerous, by all means, but so is baseball. Baseball in stadiums is a highly respected American sport. Dragging under the proper conditions can be too.

CARS FROM as far away as Florida and New Jersey will be on display at Autorama, exhibiting virtually all the latest customizing innovations. Forty trophies will be awarded at 2 p.m. Saturday, with judging based on originality and, yes, safety.

Hours for the show will be 6-11 p.m. Friday, 11 a.m.-11 p.m. Saturday and 1-11 p.m. Sunday. Tickets are on sale at the Paramount Newsstand or can be obtained at the door.

It promises to be an eye appealing exhibition, and with the ticket money going for such a long-needed cause it should be a "natural."

U. S., Italy Discuss Winter Olympics

ROME, Feb. 10.—Alan E. Bartholomew, director of the U.S. Olympic Committee in what he called "a friendly contact" to discuss common problems.

Bartholomew, who is on a tour of 18 nations to get acquainted with European National Olympic Committees, had a two-hour talk with Gianfranco Bruni Fasola, vice secretary general of INOC.

Richard L. Drabin was high scorer for the Eastern Michigan team scoring 372 points out of a possible 400. Gerald Boynton scored high in the Wayne State match, hitting 378 of the 400.

Horne Beats Champ In Boxing Tourney

McNeeley Is Knockout Victor, But Loses Second Match

By LARRY GUSTIN
State News Sports Editor

Michigan State's boxing team may be completing its last varsity season, but if Saturday's Inter-Mountain Tournament is any indication, the Spartans are going to do well in NCAA competition this year.

The tournament, which took place at Pasadilla, Idaho, consisted of collegiate boxing, featuring squads from defending champion Idaho State, College of Idaho, Washington State, Sacramento State and Michigan State.

Four Spartan boxers made the finals and only one, 174-pounder John Horne, managed to win his first bout. But this was a fairly tough one for him over the 1957 champion, Harold Espy, and it cost Horne his two consecutive 194-174 pound title.

The three Spartans who lost in the finals, Harry Lancoor, John Gehan and Tom McNeeley, came within an eyelash of beating three other NCAA champs, two of them from Idaho State.

Lancoor, who defeated Sacramento State's Frank Reynolds in his first bout, lost by a close margin to ISC's defending 132-pound champion Dick Hall in the final. Lancoor was a 125-pounder last year, and this was his first appearance in the heavyweight division.

Gehan, MSU's 160-pounder, lost a one-point struggle to Jim Frowd, a champion from Sacramento State. The decision was tossed by the partisan crowd of 6,000 which witnessed the tournament.

Gehan had won his opening bout over Idaho State's Don Bouse.

McNeeley, a hard-punching sophomore heavyweight, was beaten by another headline verdict in his match with ISC's national champion Harold Espy. It was the toughest and closest match Espy has ever fought, according to Spartan Coach John Brozman.

The most spectacular bout of the tournament, from a Michigan State standpoint, was McNeeley's second round knockout of Sacramento's George Kostyko in his opening match.

"I had him down at the end of the first round," McNeeley said. "But the bell saved him. But I clubbed him again after about 30 seconds of the second."

"That time he stayed down," Horne, a sophomore, defeated Washington State's Don Bouse in his first fight, before whipping Leathan.

The tournament set the stage for a promising start with Idaho State here March 10, a meet which will end MSU's last varsity season.

McNeeley says he is looking forward to his return with Espy, and Lancoor and Horne will be fighting return matches with Bill and Leathan, all defending champs.

There was no team winner in the tournament, but ISC had the most winners in the finals, three.

Michigan State's 160-pounder, Fred Pettysohn, lost his opening round fight to Sacramento's Terry Smith, and ISC's Bill Hayes lost Sherold Hayes of MSU in the 147-pound match.

A mixup in plane connections resulted in the team traveling to Salt Lake City, to Minneapolis and to Chicago, before finally reaching Lansing at 8:40 a.m. Monday.

The Air Force ROTC rifle team won two league matches this weekend, defeating Eastern Michigan College Army ROTC 1832 to 1804 and Wayne State University 1851 to 1790.

Richard L. Drabin was high scorer for the Eastern Michigan team scoring 372 points out of a possible 400. Gerald Boynton scored high in the Wayne State match, hitting 378 of the 400.

Big 10 Standings

Team	W	L	Pct.
Michigan State	3	1	.625
Idaho	3	1	.571
Michigan	3	1	.500
Purdue	3	1	.500
Iowa	1	4	.200
Ohio State	1	3	.300

Geoffrion Is Finished For Season

MONTREAL (AP)—Bernie Geoffrion, sharp-shooting right winger of the Montreal Canadiens, was discharged from the hospital Monday but said he was "through for this season" as far as hockey was concerned.

Geoffrion suffered a ruptured bowel in a freak accident last week and underwent a major operation that night.

He will stay at home two or three weeks so that doctors can keep a close check on his progress toward recovery. There is no consideration of a trip to Florida to continue his convalescence.

"I have no desire at all to play hockey this season," he said. "I am going to follow the advice of the doctors. They have told me to rest completely for a month and a half, and that would be up to about the time of the Stanley Cup final."

Geoffrion was injured during a practice scrimmage last week. He lost the puck to teammate Andre Pihovoin, they collided with Pihovoin while Geoffrion was at full speed. He was about 1000 feet more than he should have been.

Pihovoin said later he could recall even touching Geoffrion, but Coach Toe Blake said the injury could not have been caused by a minor bump.

In 42 games this season before he was put out of action, Geoffrion had scored 27 goals and 27 assists. He made his 200th goal in regular season play about two weeks before the accident.

Geoffrion said he had lost 15 pounds while in the hospital. He was weak and "walked like an old man" when his 4-year-old daughter, Linda, begged "Daddy" to play hockey, anymore. He replied:

"Don't worry, I'm through for this season."

Then he added, "I was pretty close to death, but let's forget about that now. I'm getting better and there are a lot of people worse off than I am."

Illinois Stuns Purdue, 99-84; Gophers Blast Wolves, 80-69

Wildcats Nip OSU, 78-76

Hoosiers Dump Badgers, 93-87

CHAMPAIGN, Ill. (AP) — A late flurry led by Roger Taylor and Don Ohl helped Illinois snap a 76-all tie and win a 99-84 Big 10 basketball victory over Purdue Monday night.

With the score tied 76-76, Ohl scored three straight baskets after another Purdue three-point basket by Harry Austin, Taylor finished in three baskets to pull Illinois safely in front.

Purdue held an early 15-7 lead but Illinois wound up its half, 45-43, at halftime after its score had been tied 11 times. It's basket gave Illinois its lead at intermission.

Another series of ties found Illinois stepped to leads of 69-61 at 76-68. Purdue then started to tie the final tie on baskets by Tom Finner, Bob Fahrman and by Austin.

All five Illinois starters scored a double figure with Taylor leading for 29 points and Ohl 27. Purdue's Minkerson, blasted Illinois out of first place in the chaotic Big 10 basketball season with an 80-69 victory against Wisconsin.

Kline, 6-4 Gopher captain, asked the Wolverines with a point salvo in the first half of then helped another a 63-49 rally in the second.

It was the third straight victory for Minnesota, a pathbreaker in the Big 10 season when the Gophers won only one and in the straight Michigan suffered its third league setback.

Minnesota exploited Michigan's glacial cold shooting in the half and rode to a 45-39 lead at intermission, on the long jump and drive-ins of Kline, Tom Benson and Don Johnson work under the basket.

Through the first half Michigan shot only 20 percent from behind to Minnesota's 41 percent. Pete Tillotson hit only one in 13 cracks and M. C. Hinton three times in 16 for the Wolverines.

Illinois' basketball Hoosiers had a last-minute rally and scored a 93-87 victory over Wisconsin, which was led by its Litzow with 36 points.

The Badgers, who had a 47-45 game lead, held the Hoosiers check until the last 4 1/2 minutes when Indiana took the lead 80-79 on a layup shot by Dave Roseberry. The Hoosiers hit back after that, widening the lead to 9-83 with just a minute left.

Leading the final rally was Lemie Lee, who finished with 18 points, 17 in the second half. Northwestern squandered a 20-point halftime lead and then fell to stall out a 78-76 victory over Ohio State.

The Wildcats, scoring their sixth triumph in nine games, led a 47-34 halftime lead only to see the struggling Buckeyes slip into a 68-68 tie with 7:20 left.

After that the Cats held themselves out in front of five points but two baskets by Frank Howard pulled Ohio within one point—76-77.

Northwestern went into a stall and scored the final point on a layup shot by Phil Warren with 30 seconds to go.

Oops! Watch out! Iowa's guard Clarence Wordlaw makes a head-dive after a loose ball and it appears he's heading for the fans. State's Lance Olson (29) watches the play.

Pizarro Stands Out 3 Brave Pitchers Top Winter League

NEW YORK (AP)—Glowing reports from Puerto Rico about the work of Juan Pizarro, Gerry Nelson and Humberto Robinson are calculated to inspire added respect for Milwaukee's pitching staff.

With Don Bush already available to back up Warren Spahn, Leo Burnett and Bob Babi, the development of an additional pitcher from the Winter League could make the Braves heavy favorites to repeat in the National League.

Pizarro probably has the best chance of blossoming into a superstar. At the age of 19 he turned up in the South Atlantic League with Jacksonville in 1956.

"The fastest I've seen since Bobby Feller," observed Rollie Hemmley, veteran catcher who was managing in the League that year.

He could be as great as Warren Spahn, said Bill Terry, then the League president.

The majors proved too much for him from Class A in Puerto Rico, was sent back to the minors with Wichita in the American League, for a few weeks in July. Lack of experience was his major problem.

Pizarro turned in a 4-0 record at Wichita and finished the National League season with a 5-6 mark. Although this was several degrees below his flashy 23-6 season at Jacksonville where he struck out 118 batters, it was fair enough for a rookie attempting the big hop.

All that was last year. Pitching in Puerto Rico during the winter season, the 21-year-old lefty posted to a 14-3 record. He struck out 186 and turned in nine shutouts, including a no-hitter and a one-hitter with the Carra team that is representing Puerto Rico in the Caribbean series.

The six-game round robin series opened Saturday night at San Juan and Pizarro was right in the pitching another shutout. He held Panama to two hits and struck out 17 for a series record. Roberto Clemente of

Anderson Praises Hawkeyes

Coach Favors Scheduling Change

Coach Forddy Anderson had nothing but praises for the young Iowa team which his Spartans had defeated Monday night, 90-81.

"This Iowa team put up a real tough fight, and we really had to go in order to beat it. There for a while I thought we might open up a big lead, but Iowa kept hanging in there and gave a good account of itself," he said.

Anderson thought that his front-running eagles who are now double-dubbed with Indiana for first place in the hectic Big 10 chase made a lot of mistakes. This was probably a result of the current Saturday-Monday game setup.

He expressed a hope that the conference would adopt a scheduling policy doing away with the present weekend action.

"I am in favor of a Saturday-Webster type of schedule. Because of being a team would play only one day of classes, which saves some seconds, miss too many days, it would also cut down the fatigue which hits almost all teams."

Anderson was satisfied with the scoring power state displayed.

"Jack (Oulge) certainly played his best offensive game of the season," he said. The coach also gave acknowledgement to the outstanding scoring performance of Larry Hedden and John Green.

Pittsburgh and Valby Thomas of the San Francisco Giants, two regular season enemies, led the winners attack.

Milwaukee's pitching gained added luster Sunday when Nelson, a 23-year-old right-hander who toiled on the Wichita farm last year, helped Puerto Rico beat Venezuela 6-1. Nelson still is on the Wichita roster but his work will be watched closely during the spring training season at Bradenton, Fla.

Robinson made it an all-MIP weekend Sunday in the Caribbean when he shut out Cuba, the favorite, with four hits as Puerto Rico whipped Puerto Rico of Venezuela 5-0. Humberto, a Panamanian, is 27 and is up for another chance after an 18-7 year at Toronto in the International League.

While all this has been going on in San Juan, down in Ciudad Trujillo in the Dominican Republic some other Milwaukee farm hands have been helping themselves. Vic Behm, a rookie lefty, was a 10-game winner. Other players in the league were Don McMahon, Carlton Wiley and Cassie Barnard (Wichita).

Janet Harley, Huntington Woods freshman, and James Browning, Indianapolis sophomore, will enter the Midwestern Figure Skating Championships in Troy, Ohio, this weekend. They will enter the Senior Pairs Competition, with hopes of winning one of the top three places which would make them eligible for the National championships in Minneapolis during March.

Martinez, Ballarin Draw

PARIS (AP)—Jimmy Martinez of Phoenix, Ariz., and Germain Ballarin of France fought to a draw in a 10-round middleweight bout at the Paris Sports Palace Monday night. Each weighed 157 1/2 pounds.

They were in a close, but uneventful decision over four-year Chavez, 14-1, France, in a 10-round middleweight.

Martinez must have a lead in the middle rounds and is likely in the 1958 from Ballarin's early attack.

Ballarin, rated as France's No. 2 middleweight, fought without the handlebar mustache that he wore in his American bouts last year. Although Ballarin appeared the stronger, Martinez carefully kept him at long range through the first eight rounds.

There were no knockouts and only one knockdown. Ballarin had a slight edge over the left-hander in the fourth, but Martinez was out on the side of the ring.

Ballarin managed to score in the 10th round as Martinez responded to the 10th. Martinez kept weaving in his punches.

'Little Max' Keeps SMU in Contention

DALLAS (AP) — A crowd of 8,000 roared as Max Williams, 5-foot-10, not only blocked the shot but outscored 6-foot-10 H. E. Kirtland on the jump ball that followed.

Williams, Southern Methodist's spectacular playmaker who already is considered the greatest college player in Southeastern Conference basketball, was having himself another big night as SMU scored its 60th win, beat Texas Christian.

"Little Max, who hails from a tiny speck on the Texas map—Amarillo—is the Fancy Dan of the Maple."

The crowd became ecstatic when Williams jumped higher than a 7-foot crowd and passed off behind him in any direction except the way he's looking. And when he passed the ball behind his back as he came down, the crowd pondered how he did it.

If that guy was 6-foot-10 he'd be the tallest player every time he jumped. Coach Don Hayes said.

They call Max "Showboat" but take it from Hayes, the boy doesn't intend it that way. "He's the most unusual player I ever saw."

Hayes comments, "He has more native ability, he has the quickest reactions, he jumps the highest, he is the cleverest dribbler, and he has more ways of passing the ball than Bob Cousy. I saw Cousy as a senior at Holy Cross and he couldn't do what Max can do with a basketball."

All the SMU players have had to speed up in order to keep pace with the firebrand from west Texas. It's taken a lot of practice for them to learn to look for the lightning pass from Williams.

Max doesn't shoot at the goal much but when he does he hits or almost 50 percent of his throws. He's one of the best outside shooters Hayes ever had.

American Wins Dog Sled Race

STE. AGATHE DES MONTS Que. (AP)—Arthur Allen of Canada leads a team of four men and two dogs in a 27-mile race for the second straight year at the International Dog Sled race in the Laurentian region today.

Allen, formerly of the Ice Man, covered the course in 1956 in 40 minutes, 18 seconds during a driving weekend event. He was six minutes ahead of his nearest opponent, Keith Brown of Canada, N.H.

The 27-mile race is part of the annual Ste. Agathe Winter festival.

GIANT 12 INCH HOT DOGS VARSITY DRIVE IN

Have a record this season? Remember last year when it was held fourth in the nation and 20,000 people had seen the spectacle? Eight have passed since then. \$1,500—did the same as last season—and Max has been a big reason for it.

He last scored 196 points, mostly on jump shots from 20 feet and had an important season. Why Southern Methodist is fighting for the conference championship.

Broken Main Threatens City

Jersey City Searching For Break

Use Precautions In Water Supply

JERSEY CITY, N. J. (AP)—Baffled workers searched for a broken main Monday as a million and a half gallons of city water poured into the ground each hour, causing schools and factories to close.

The break occurred at 10:40 p.m. Sunday somewhere in the underground maze of this city's 34-year-old water system. City engineer Harold M. O'Connell estimated that by next morning enough water had run off to form a 3-foot-deep lake covering four city blocks.

Officials considered using radioscopes and geiger counters to locate the elusive leak. The possibility of cave-ins, fires and explosions Sunday night caused Public Works Director August W. Hoffman to declare a state of emergency.

Some 100,000 residents, about a third of the population, found themselves without any water pressure for a time. But later pressure was brought up to 25 pounds per square inch.

This was enough to provide drinking water and a safe level for fighting any fires.

It also lessened the threat of explosions in the heating plants of large apartments and industrial plants. Normal pressure is 45 pounds.

But to major plants had left their workers for the day, shutting down in a move to conserve water.

Recently school buses were giving some 10,000 pupils a headache.

Leaves were cancelled for policemen and firemen. Many of those on duty were assigned to the brigade of leak hunters which numbered close to a thousand.

Denis J. Sullivan, City Health Officer, suggested a temporary in the affected area to conserve water, but it was a precautionary measure.

This industrial city pumps 300,000 gallons of water from the Hudson River across from New York City.

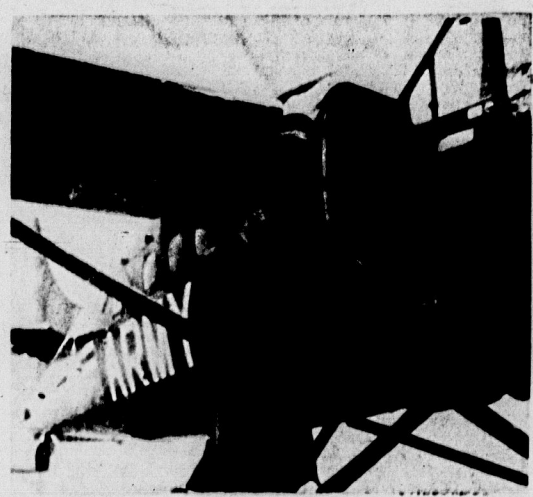

It gets the water from a large reservoir at Roseton in northern New Jersey. The clean water flows through a series of concrete conduits carrying the water to a smaller reservoir at Troy Street here where it is pumped into the city system.

Water department engineers working in 14-degree temperatures checked every foot of pipe 20-miles long (including 17 miles in London during the night). The search finally was narrowed to the 100-mile area where the pipes are underground and inaccessible.

Engineers' Meeting Schedules Dr. Joyce

Auto Critic Of Reuther Speaks Up

WASHINGTON, (AP)—Walter Reuther, head of the United Auto Workers union, was accused by an auto maker Monday of using a Congressional hearing to spread an "absolutely phony" impression that boosts in auto prices have been unjustified.

The charge was made by George Romney, President of American Motors Corp., to describe Reuther's statement that price increases imposed by automobile corporations have amounted to \$3 for every \$1 granted in wage hikes.

Romney said Reuther's recent statement to the Senate Antitrust and Monopoly Subcommittee failed to take into account increases in the price of materials and many other cost factors the auto makers had to face.

The American Motors Corp. head testified in the hearing for the present at least, of the subcommittee's inquiry into pricing practices in the auto industry.

Romney, in attacking the UAW head of using the subcommittee as a sounding board, also criticized Reuther's profit sharing proposal by giving auto buyers rebates.

"Knowing the economic squeeze of auto companies, I see no prospect of any price reductions in automobiles," Romney said.

He said Reuther also had put forth for "publicity purposes" a proposal for industrywide conferences between the UAW and auto workers on such things as production schedules and automation.

This, Romney said, put the companies in the negative attitude of refusing such a meeting while Reuther knew they could not discuss such matters jointly without violating the antitrust laws.

Romney said he could testify freely only because he had been able to pull his company "into the black." Otherwise, he said, he would be accused of seeking special favors for a firm that was losing money.

But, Romney said, American Motors had been forced to absorb part of its cost increases in the last four years. He said his company's price increases had averaged 7 percent less than the cost increases during that period.

This, Romney said, put the companies in the negative attitude of refusing such a meeting while Reuther knew they could not discuss such matters jointly without violating the antitrust laws.

Romney said he could testify freely only because he had been able to pull his company "into the black." Otherwise, he said, he would be accused of seeking special favors for a firm that was losing money.

But, Romney said, American Motors had been forced to absorb part of its cost increases in the last four years. He said his company's price increases had averaged 7 percent less than the cost increases during that period.

He said Reuther also had put forth for "publicity purposes" a proposal for industrywide conferences between the UAW and auto workers on such things as production schedules and automation.

This, Romney said, put the companies in the negative attitude of refusing such a meeting while Reuther knew they could not discuss such matters jointly without violating the antitrust laws.

Basic 112	Monday, March 17, 1:45 p.m. - 5:45 p.m.
Basic 113	Monday, March 17, 1:45 p.m. - 5:45 p.m.
Basic 114	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 115	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 116	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 117	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 118	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 119	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 120	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 121	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 122	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 123	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 124	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 125	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 126	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 127	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 128	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 129	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.
Basic 130	Tuesday, March 18, 1:45 p.m. - 5:45 p.m.

The time of examinations in sections other than those college courses is determined by the days and the time for each is scheduled during the week. Examinations will be given in the same examination rooms for each meeting during the term.

Final exam rooms for the days and hours follow the regular pattern, all sections including the same courses with which they are held. In a few cases, at the request of the department concerned, the final examination has been scheduled by the single hour session.

The examination scheduled by the single hour session will be held in the examination room scheduled by the single hour department, respectively. The special scheduling of the examination will be held in the examination room scheduled by the single hour department, respectively.

All instructors having examinations from 8:00 a.m. to 12:00 p.m. are requested to terminate their examinations at 11:30 a.m. and to leave their examination rooms for the examination period which follows.

If your class meets at the time and date listed below, you should arrive at the examination room at least 15 minutes before the examination begins.

Phi Eta Sigma Plans Rush Smoker

Phi Eta Sigma, freshman scholastic honorary fraternity, will hold a rush smoker Wednesday in Old College Hall, 7-8:15 p.m.

All freshman men who have earned a 3.5 grade average or better for one term or for their first year are invited to attend.

Phi Eta Sigma was founded in 1922 at the University of Illinois to encourage and reward outstanding scholastic effort. It has become a national fraternity with chapters on major campuses.

Officers and members will present to explain the meaning of Phi Eta Sigma and its program. Coffee and donuts will be served and Ralph Renwick, faculty advisor, will speak.

CALLING ALL ENGINEERS

MECHANICAL ARCHITECTURAL INDUSTRIAL ELECTRICAL CIVIL

We're looking for engineers who want to make the most of their abilities in stimulating, challenging careers. The pay is excellent right from the beginning, with regular increases. Extra benefits add to security. Special on-the-job training prepares you for bigger and better positions.

You can advance quickly because ours is a rapidly growing business. The number of Michigan Bell telephones doubled in the fifteen years before 1935, doubled again from 1935 to 1945, and has doubled again since 1945.

This remarkable growth is creating unprecedented career opportunities. We need men to take the lead in our expanding engineering fields, and we need men with engineering degrees who want to advance in executive positions.

Get the details about a management career with Michigan Bell Telephone Company. Write or call today to Mr. K. A. Newman, 1365 Cass Avenue, Detroit 26, WOODWARD 1-1235.
