Ike-Nixon Agreement Reached

Constitution Basis For New Proposal

WASHINGTON (AP)—The White House Monday announced an agreement under which Vice President Nixon would become acting President if President Eisenhower should become unable to serve.

Press Secretary James H. Hagerty described it as "one of the most important understandings Eisenhower and Nixon have had. Eisenhower mentioned an understanding at his news conference last Wednesday, but he refused to say exactly what was in it."

The President and the vice president have agreed that the following procedures are in accord with the purposes and provisions of Article two, section one of the Constitution, dealing with presidential inability. They believe that these procedures, which are intended to apply themselves only in no sense outside or contrary to the Constitution but are consistent with its present provisions and intent.

Requests Ministers Talk First

Russia Calls for April Meeting

WASHINGTON (AP)—The Soviet government Monday requested that the United States invite the Soviet foreign minister to talk first with the American foreign minister before the two meet in Moscow.

The contents of the Soviet note were a little held secret in Washington. However, Moscow radio revealed it suggested an April foreign ministers meeting paving the way for a heads of government session in June.

The U.S. State Department has not yet responded to the Soviet request. It is expected that the U.S. will not accept an advance time and place for the meeting.

A Challenge!
A Big 10 championship pep rally has been scheduled Friday night at 7:30 in Jenison. The objective is to cheer the team on to a victory over Indiana Saturday and undoubted title as Big 10 basketball champions.

Rebels Seek U. S. Arms

Need Aid To Counter Inursion

EVOLUTIONARY HEADQUARTERS, Central Sumatra (AP) — Rebel President Syafrudin Prawiranegara said Monday his rebels will ask the United States for arms if the Japanese government seeks aid from Russia for an invasion of this rebel territory.

"I said he doubted the forces of President Sukarno were capable of a successful attack without outside help. If the Russians are to help Sukarno, he said, we will feel free to save ourselves from attacks."

"I will ask the United States for arms," he said. "It is not in the interest of the United States if this area becomes Communist."

During the Indonesian campaign in December to drive out the economic interests, the Japanese government dispatched military missions to Communist and Czechoslovakia and Yugoslavia to negotiate for arms and military equipment.

Foreign Minister Subandrio said that time, however, the government was also willing to accept arms from the West. Syafrudin talked to newsman about mountain headquarters to escape bombing attacks from Sukarno's planes.

The 47-year-old rebel leader, former Governor of the Bank of Java, scoffed at reports that Sukarno is planning an attack with 10 battalions. He said a small number of Indonesian troops of 14 battalions well-equipped Dutch troops sent during the war for independence.

"It was a much better army that Jakarta could send," he said. "We were poorly defended. If the Dutch failed, Sukarno would be making a bigger mistake. An attack would center the fighting here and leave other areas free to move, especially in Sumatra," he said.

The military commander of Sumatra has declared his neutrality. Syafrudin predicted, however, a campaign by the rich islands to withhold foreign proceeds from Jakarta, bringing the Sukarno government to its knees in three months, if there is no foreign intervention.

Syafrudin admitted his own forces set up last month, faces economic problems of its own, such as a shortage of gasoline and other petroleum products. "We have plenty of rice," he said, "the most important commodity."

Phi Gamma Nu Tops Field Again

Phi Gamma Nu is the third consecutive MSU chapter to top the national competition. Phi Gamma Nu is a professional society for women majoring in business and is a member of the Professional Pan-Hellenic Association. An efficiency contest is being waged among its 21 national chapters based on professional ability, scholarship, membership, finances, chapter initiative and administration. The contest covers the period October 1, 1957 to May 31, 1958, with a maximum of 100 points. At present, Omicron chapter is leading with 25,400 points. Phi chapter of Kent State University is the closest competitor with 21,975 points.

Survey Concludes:

Mentors' Hesitancy Not Always Their Fault

Some teachers are more hesitant to act in controversial situations than they need to be but it is not all their fault, according to a survey by Dr. Louis A. Doyle, of Michigan State University.

The survey, conducted two years ago among 96 elementary teachers, 96 parents, 15 school board members and 18 school administrators in three Michigan communities, is summarized by Dr. Doyle in the winter issue of the College of Education Quarterly.

Lack of recognition, thinks the assistant director of Continuing Education, has made teachers tend to underplay their role.

The survey was conducted to find what teachers believe, what they think others believe and what the others say they believe.

Teachers, school board members and school administrators were asked to give their opinions on 48 items covering such roles of the teacher as director of learning, counselor and guidance worker, member of the school community, mediator of the culture, a link with the community and a member of the profession.

For an example, Dr. Doyle explains, teachers were asked if they should explain about communism. They were also asked if their immediate supervisors, members of the school board and parents thought teachers should explain about communism. The "others" were then interviewed to find if they thought teachers should explain about communism.

In this case, which is typical of the controversial questions, Dr. Doyle found 66 per cent of the teachers thought they should explain about communism.

Chile President Quits

SANTIAGO, Chile (AP) — The Chilean foreign ministry said it received word Monday from La Paz that Bolivian President Hernan Siles Suarez has resigned and left Senate President Francisco Alvarez in charge of the government.

Television Education Discussed

Educators Report Positive Results

CHICAGO (AP) — Television has invaded the classroom, and two educators reported Monday it is very effective in teaching.

Leslie P. Greenhill of Pennsylvania State University and Francis A. Gaul of Chicago City College, agreed classroom TV has its drawbacks. But they also agreed it is rich in rewards for students, school and teacher. The two men led a discussion group on the subject at the national conference on higher education. The conference has drawn more than 1,000 educators from U. S. colleges and universities to debate higher education in the space age.

Greenhill has been watching educational TV in operation at Penn State for three years. He told the conference: large numbers of students are accepting the practice, and it's economically feasible if handled properly.

Gaul taught a social science course over a Chicago station for a year. To him it was a taxing experience, calling for careful attention to timing, technology and content. This was facilitated by releasing from classroom routine, with more time to read and think—something he has needed for years—and an opportunity to review and reorganize his ideas after seeing his lectures played back on film.

Greenhill said a series of more than 100 television over the three-year period showed significant differences in effectiveness between televised and direct instruction.

Earlier this year, he said, 3,000 students in eight TV courses were asked what they thought of television as a means of handling courses with large enrollments. Nearly 80 per cent called it very good or fairly good.

Greenhill said a careful cost accounting was made last year on four well-established courses at Penn State.

Gaul said the biggest drawback he noted was the absence of face-to-face contact with the student.

Jerry Franz, Lakewood, Ohio, sophomore, and Ron Barnum, Lansing sophomore, try their act before an amused audience. They will help entertain all comers at the Union Board Variety Show, "Soria Satire," Friday night.

European Summer Work Available in Resorts, Farms

Summer jobs in Europe are being offered this year by the American Student Information Service, whose offices are in Copenhagen and Washington.

Students will be able to work on farms, in hotels, at resorts, and in other specialized industries. The wages and conditions will be the same as the people with whom they are working. The purpose of opening these opportunities is to promote closer relationships and understanding between the future leaders of Europe and America.

By allowing the student to actually become a part of a European community he will be able to further appreciate its advantages and disadvantages, its products and its needs, as compared with his own.

The average summer in Europe involves at least \$500 more transportation costs, however, by working in a country where the wage standard approaches that of the U. S. the student's student will be able to pay his living costs and save a substantial amount of money.

Many opportunities are available for students in the agricultural fields. Most of these jobs are located in Germany and Scandinavia. Students interested in working in Europe this summer may write to American Student Information Service, Suite 202, Roskilde 21, Copenhagen, Denmark, for further information.

Bessone Praises Icer DeVuono's Offensive Play

By DAVE BARRELL
The most productive Spartan hockey season in history is over, but Fred DeVuono will be back next year to boost the Icers in his inimitable way.

Martin's Arrival Stirs Detroit Tigers Camp

LAKELAND, Fla. (AP)—Before he has rapped out a single base hit or made a single putout for the Detroit Tigers, fiery little Billy Martin has become the good doctor who is supposed to cure most of the club's ailments.

The arrival of the peppy infielder has greatly stirred the Tigers' early camp and the former New York Yankee and Kansas City Athletics player is the center of attraction wherever he goes.

Martin is supposed to play shortstop for the Tigers, relieving Harvey Kuenn who is supposed to switch to center field. No one is certain Martin can play shortstop. He has been a second baseman and a third baseman all his life.

"A couple of sports writers told me they didn't think I could play shortstop," said Martin. "But I told 'em it wouldn't be the first time sports writers were wrong. If I can't play it, I'll be the first to know it. And I'll find myself another position on the team."

MAN, LIKE
foot-longs!
VARSITY DRIVE-IN

except for when he is at State, has lived there all his life. In 1944 Fred started playing hockey in the Ice Wee division of the Sault Amateur Hockey League. He continued in that league until he reached 20, participating in the Juvenile and

finally the Junior divisions. In his final year with the Indian Boaters, they won the Michigan Junior Amateur Hockey playoff, in Detroit against Gage Olds team, 7-1. Gary Bowman, Fred's teammate on the varsity, played for the Gage club in that game and throughout the 1951-52 season.

The team then traveled to Lewiston, Maine for the National Finals where they were defeated by the Lewiston team, 3-2, in double overtime.

One following year Fred enrolled at State and has continued to display the fine caliber of his play he is noted for. Spartan fans will long remember

Fred DeVuono... strong skater...

the Icers only score against Minnesota in the final game of the year.

Fred took a pass at the red line and at full skating speed, clipped a shot past the Gopher goalie from outside of the blue line.

Perhaps this is an indication of what is to come next year from Fred. Coach Alvo Bessone

said, "Fred possesses a good hard shot which needs polish on control." The polish is applied, all we do now, is wait for it to day."

Bessone added, "Fred's a very strong skater and adapts well in different situations. Last year he played good defensive hockey for us and this year has stood out offensively; playing on three different lines."

"Fred's skating strength is his greatest asset. When he hears down there isn't anyone who can outskate him."

Fred lists as his greatest personal thrill, the threefold downing of Michigan. In each of those games he tallied once and was instrumental on defense when the team was minus a man.

He would like to play professional hockey if he receives an offer, but his immediate interest upon graduation is to try for a berth on the U.S. Olympic Hockey squad.

Fred is majoring in physical education and would like to coach high school hockey after completing his military obligation. Hockey in the high schools is one of his highest interests.

He feels that the amateur hockey leagues are a wonderful thing and believes they are doing a lot to further the cause of hockey throughout the nation. "I would like to see hockey played as a varsity sport in high schools," said Fred.

In high school Fred played varsity baseball and football for two years and 11 years of basketball in the summer recreational leagues.

Fred attributes much of his success to his coach in the Junior League, Roy "Wink" Wilson. He says that he likes very much playing under Alvo Bessone because, "he's the kind of coach that you always want to win for, regardless of the opponent."

The chapter is not closed on the 170 lb. junior as far as MSU hockey is concerned, and with some good fortune, maybe there is a chapter to follow in Olympic hockey circles.

Canada Crushes Finland, 24-0 In WHI Tourney

OSLO, (AP)—Canada overwhelmed little Finland 24-0 Monday and took the lead in points in the World Ice Hockey Championships.

The preverbal Canadian squad, co-favorites for the title with Russia, outclassed the inexperienced Finns. Canada rarely gave Finland a chance to get the puck and dominated the action.

Canada now has won all its three matches for a point total of six and a goal score of 50 against 1 for its foes, Russia, Sweden, and Czechoslovakia are next in the table with four points from victories in their opening two matches.

Czechoslovakia defeated Poland Monday, 7-1. The Canadians got seven goals in each of the opening two periods and then whipped another 10 in the final session as they skated the Finns into the ice.

Jack Mackenzie, a tall, gangling forward with an eye to every goal-scoring chance, paced the Canadians with five goals. Others came from Tom O'Connor (3), Ted O'Connor (3), Bob Atterley (3), Connie Broden (2), Harry Sinden (2), Sid Smith (2) and George Gosselt, Charlie Burns, Sandy Air, and Bus Gagnon (1).

Spartans Back in 12th Place in Weekly Poll

W. Virginia 2nd Behind Wildcats

Cincinnati Leads 3rd; Irish Climb

By THE ASSOCIATED PRESS
The Kansas State Wildcats, eager to become No. 1 college basketball team of the 1957-58 season, barely held their place at the top of the list Monday as they headed into the final week of the regular season.

The Final Associated Press poll of sports writers and editors will be taken Tuesday, but a majority of the regular season action, and the conference championships played in the past week, have been called. Games played in the season national championships will not be taken into account.

The semi-final week Monday gave Kansas State bare four-point margin over runner-up West Virginia, eleven points over Cincinnati in the light of voting season. Only 75 writers and broadcasters cast ballots, split them up rather evenly.

Kansas State drew 17 1/2 place votes, as compared to a week ago and a total of points on the usual basis for each first place vote is for second, etc. Although Wildcats wrapped up the title and a place in the NCAA tournament by beating Oklahoma and Missouri, their dropped some 200 points.

West Virginia, turning George Washington in over to continue its unbroken record of Southern Conference wins, polled 570 points. Mountaineers received 22 1/2 place votes, only one less last week.

Cincinnati's Missouri Conference Champions took 14 first (compared to 10 last week) and 563 points for 11 1/2 place. The Bears' gain in place, their conference title and NCAA berth by whipping Louisiana and Wichita.

In another close vote, Princeton beat out Temple, 426 for fourth place. Princeton beat sixth, leaving the voting order unchanged from last week.

Hope to Repeat in Big 10 Swimmers After Title

Coach Charles McCaffree's Spartan swimming squad will travel to Iowa City, Iowa Wednesday in hopes of preserving their Big 10 Championship title.

Six men who won eight titles last year will be returning for the 1958 meet. Dick Hanley and Cy Hopkins of Michigan hold three Big 10 records between them. Hanley won the 220-yard freestyle in a world record 2:01.5 and Hopkins took the 200-yard backstroke and the 200-yard butterfly.

Other returning individual stars are Glen Whitten, Ohio State diver; Gary Morris, last year's individual freestyle champion; 50-yard freestyle champion Fred Westphal and the back; eyes Don Harper, three-meter diving champion.

Michigan State boasts a balanced team with an outstanding chance to score well. The Spartans have the two strongest relay squads and Don Patterson has the fastest conference time in the 100-yard freestyle.

Michigan State's varsity hockey team closed its season yesterday afternoon with a 7-4 victory of the Freshman team. The varsity jumped to an early lead as they lead 3-0 at the end of first period. The Freshman held the varsity scoreless until midway in the period. At the start of the second period Fred DeVuono, scoring his second goal of the afternoon, put the varsity ahead 4-0.

The Freshmen then showed their determination as they started scoring while the varsity was hot. The score was 4-4 at the end of the second period.

The varsity added three fast goals in the third period to seal the victory. Dave Gosselt, Service manager, coached the regulars and Ken Zarks, Freshman manager, coached the Freshmen.

JOB FACTS FROM DU PONT

LIBERAL EMPLOYEE BENEFIT PROGRAM AT DU PONT INCLUDES INSURANCE, SAVINGS AND STOCK PLANS

WHAT'S YOUR LINE? DU PONT NEEDS ALL KINDS OF ENGINEERS

DuPont has always needed chemists and chemical engineers, and still does. But today, there's critical need for engineers in almost every other field—civil, mechanical, electrical, instrumental and industrial engineering, to name a few.

Expansion is the major reason. In 1957, for example, sales at DuPont were nearly two billion dollars. Four new plants were being built. New research programs were being launched. New products were moving into the production and marketing stages. Engineers and scientists of all kinds work in 75 DuPont plants and 98 laboratories in 26 states. All of this tends to broaden opportunities for the young scientist and engineer at DuPont.

If you're interested in finding full scope for your ability, and this includes a great many special fields, DuPont offers you plenty of opportunity to move ahead.

SEND FOR INFORMATION BOOKLET ON JOB OPPORTUNITIES AT DU PONT
Booklets on jobs at DuPont are yours for the asking. Subjects covered include: mechanical, civil, metallurgical, chemical, electrical, instrumentation and industrial engineers; atomic energy, technical sales, business administration, research and development. Name the subject that interests you in a letter to DuPont, 2491 E. Nemours Building, Wilmington 98, Del.

PERSONALIZED TRAINING

by F. L. Johns, DuPont Representative

When you join DuPont as a scientist or engineer, you're given an actual project assignment almost at once and begin to learn your job by doing it. That's the essence of our training philosophy at DuPont.

Our objective is to give you responsibility at the outset and quality you quickly for more, because the more we grow, the more we need trained leaders.

Although there is no one training program at DuPont (each of our many departments runs its own), all have several basic features in common. All are personalized—tailored to the new man's background and interests. All involve close supervision on an informal, day-to-day basis. And all permit periodic evaluation of the new man.

This flexible system helps the new man to move ahead according to his abilities. He gets to know DuPont and his job quickly. He gets a head-start on future responsibility.

You probably have questions about this program and how you'd fit into it. I'll be glad to try to answer them when I visit your campus. Why not sign up for a DuPont interview at your placement office now?

Means More Security, Greater Real Income To Young Graduates

DuPont believes that the employee builds his own job security by the way he does his work, by his contributions to the progress of the Company and by his readiness to accept responsibility.

But DuPont meets the employee more than halfway with a program of benefits designed to help him as he advances.

Your employee benefits go to work the day you join the Company. They grow and build equity for you as the years go by. Vacations, life insurance, group hospital and surgical coverage, accident and health insurance, pension and bonus plans are all part of the program.

Let's look at a special example, the Thrift Plan. You become eligible for it after one year with the Company. For each dollar you invest in U. S. Savings Bonds, the Company contributes twenty-five cents toward the purchase of DuPont common stock in your name. Roughly 65 per cent of the Company's 90,000 employees are now participating in the plan.

When you're deciding on a career, security is only one consideration. But it's an important one to you and your family. At DuPont, security is a bright part of the future awaiting the college graduate.

More than 700 of the some 1100 degree-granting colleges and universities in the U. S. are represented at DuPont. Of these 700, more than half are the smaller liberal arts colleges.

Spartans Tied for 1st by Indiana

Teams Collide Here In Showdown Game

It's official now—The Michigan State cagers will collide with Indiana's Hoosiers Saturday in the showdown game that will determine the Big 10 champion.

Indiana moved in to a tie for first place with the Spartans Monday night as they trounced Illinois, 96-86, at Champaign, Ill., setting the stage for the upcoming battle.

This ends all hopes that if the Spartans should lose Saturday they could once again back into a co-championship with the Hoosiers.

Indiana's victory a so eliminated all hopes for Purdue, who still had a slim chance to end in a co-championship with the Spartans and Indiana.

The Boilermakers beat Iowa Monday night, 65-59, to push the Hawkeyes into a tie for 10th place in the conference stand-

The Spartans and Hoosiers, both with nine wins and four defeats in conference play will square off at 4:30 p.m. Satur-

Big 10 Standings

Team	W	L
MICHIGAN STATE	9	4
Indiana	9	4
Purdue	9	5
Ohio State	8	6
Iowa	7	6
Northwestern	7	6
Michigan	5	8
Illinois	5	8
Wisconsin	5	9
Minnesota	3	11

day in what will probably be the biggest collision in Jensen Fieldhouse history.

The winner will take all in this game, and the loser will finish in a tie with Purdue for the runner-up spot.

The confusing, topsy-turvy Big 10 title chase finally has settled down to this two-team affair. It was last year that the Spartans upset Indiana, 76-61, at Jensen Fieldhouse to vault into the conference's top spot.

But State lost its final game of the season to the University of Michigan a year ago, and thus backed into a tie for the crown with the Hoosiers, who won their finale.

This year the story reads differently, however, as the team that loses Saturday is dead.

Spartan cage mentor, Coach Fordy Anderson, had this to say about Indiana's recent victories: "This is the most significant way to set up a championship game that I've ever seen. It's a rarity in Big 10 sports that the title is settled on the last day of the season, but we're mighty proud that we can be one of the two teams playing for the title."

They (Indiana) put us back into first place last Saturday by beating Purdue," continued the coach, "and we feel lucky that we're back in position to gain an undisputed championship."

Indiana smashed the Illini behind a 33-point scoring spurge by Archie Dees.

Illinois took an early 22-10 lead but Indiana inched its way into a 45-45 halftime tie. With Frank Radovich and Dees lead-

ing the way, Indiana ran up a 79-62 lead with 7:39 remaining. Illinois lost its touch and managed to sink only two of its first 20 field goal attempts in the second half.

Five of the six players Indiana used scored in double figures with Pete Obremsky and Sam Gee collecting 17 points each and Radovich adding 16.

Governor Vaughn topped Illinois scorers with 24 points and Don Ohi added 21.

Indiana shot a brilliant 47.2 from the field to Illinois' 33.4. The loss was Illinois' eighth in 13 games.

In another Big 10 cage game Monday night, the University of Michigan downed last-place Wisconsin, 72-65, to win their second game in their last 10 outings.

The Wolverine victory concluded Wisconsin's Big 10 season with three victories and 11 losses, its worst conference record since 1919.

ON THE REBOUND—Included in the current (March 3) issue of SPORTS ILLUSTRATED magazine is a "king-sized" story on Michigan State's basketball team and the entire Big 10 race.

The magazine goes against the sports writers' weekly basketball ratings, placing the Spartans at least in fifth place behind Kansas State, San Francisco, Cincinnati, and Temple.

They're the only team in the Big 10 that the magazine would put in the country's top 10 cage ratings.

Saturday's contest against the Hoosiers will mark the final appearance of four Michigan State seniors, at least in Jensen Fieldhouse and of Big 10 play.

Larry Heiden, cap of Jack Quigley, reserve center Chuck Benic and reserve guard Joe Rosling will be seen in front of the home crowd for the last time.

If the Spartans win against Indiana Saturday, it will be the first undisputed Michigan State basketball championship in its history. Last year they finished as co-champions.

Kansas State Loses To Nebraska, 55-48

LINCOLN, Neb., (AP)—Nebraska handed Kansas State, the No. 1 rated basketball team of the nation, a stunning 55 to 48 defeat Monday night. It was the second defeat for Kansas State in 22 games and the first in 11 Big Eight conference starts this season. Nebraska is 10-12 for the season and 5-6 in the conference.

Soccer

Soccer coach Gene Kenney announced that there will be a meeting of all varsity and freshman soccer players in 269 Jensen at 7:15 p.m. Tuesday. Anyone interested in playing soccer is invited.

The Michigan State rowing team shown above is holding workouts to prepare for the coming season. New members and those interested are urged to attend the workouts held in the adapted sports room in Jensen. A meeting scheduled for 7:30 p.m. Thursday in 209 Jensen the team will discuss racing plans for the year and set a date for getting the shells ready. Movies of the national champion Detroit Club crew will be shown. A tentative schedule includes Purdue, Minnesota, Wayne State, Cornell and Wisconsin.

The Baseball Outlook ...

Good Outfield Is Bright Spot

An abundant supply of outfielders is another of the bright spots in the 1958 edition of the Spartan baseball team. Only two lettermen will be missing from this year's squad, and four will be returning.

Denoy Mendyk, who had a great career in both football and baseball at Michigan State, is the lone regular who has been used up his eligibility. He won his letter as a leftfielder a year ago.

The four lettermen returning to the other gardens this year include seniors Ted Kearly and Dean Moore and juniors Dick McKenzie and Johnny Russell.

McKenzie was the most versatile Spartan outfielder a year ago, and his .320 batting av-

NBA Names Armstrong No. 9 Contender; Boxer of the Month

MILWAUKEE (AP)—The National Boxing Assn. in a move to encourage young boxers, Monday designated a relatively unknown middleweight, Gene "Ace" Armstrong of Elizabeth, N.J., as Boxer of the Month.

Fred J. Saddy, chairman of the NBA ratings committee, said Armstrong, previously unranked, also had been ranked 9th on the NBA's list of contenders for Carmen Basilio's middleweight title.

The 26-year-old Armstrong, who has won 14 straight bouts, earned NBA recognition as the result of his upset victory over the veteran Charley Joseph in a New York bout last month. Joseph, although currently unranked, holds a decision over Spider Webb, N. 3 contender.

"The NBA feels that giving up and coming competitor, will encourage young boxers to give this accolade to Armstrong, on their best in the hope of win-

Dittrich Is New Track Coach

Francis C. Dittrich, present assistant track coach, was named by the State Board of Agriculture last week to take over the duties of retiring Head Coach Karl Schlademan effective July 1.

Dittrich, a School Michigan State track star and a 1936 graduate, has been assistant coach for 26 years.

As a Spartan undergraduate he won three varsity track letters and captained the team in his senior year. He excelled in the broad jumps, high jump and the 100, 200 and 400 yard sprints during his last year in school.

Francis C. Dittrich, new track coach in July.

He was named on the All-American track team.

Dittrich captained the International Track Federation's Eastern States team at the 1936 Olympic trials in the United States.

He was named by the American Athletic Union as a 1936 All-American and was named by the American Athletic Union as a 1936 All-American.

In World War II Dittrich served as a Navy lieutenant with duty in the Pacific as commander of an LCI. Presently he holds the position of secretary-treasurer of the National Collegiate Track Coaches Association.

Rozsavolgyi Vows He'll Beat Delany

NEW YORK (AP)—Istvan Rozsavolgyi headed home for his native Hungary Monday to begin training for the European Track and Field Championships in Stockholm this summer with two promises:

1. He'll beat Ron Delany in the 1,500 meters.

2. He'll lower his own world 1,500-meter record of 3:49.4. The slight, 126-pound blond was here only long enough to run in three races. Twice he was second to Delany in the mile and last Saturday, with Ron competing with other athletes with the Michigan team, Rozsavolgyi set his own world record in 3:44.7 in the 1,500 meter.

"Now that I'm getting the feel of board running," he said through an interpreter, "I'm getting to like it and think that some day I might beat Delany. Right now I think I could do 4:04 against top competition."

"With a little more experience, maybe in July, I'll beat Ron. As far as he is to make the mistake."

"The two probably will clash in Stockholm and Poznan, Poland, will be waiting."

"I'll have a much better chance against Ron because I can run the mile and 1,500 meters. I'm going to be working hard to beat him. I'll be in a good position to beat him. I'm in such good condition and so confident now that I

think I can go under 3:40 for the 1,500 meters."

That would be a fantastic time for the metric mile, the equivalent of between 1:57 and 2:08 for the mile. Delany's time in winning the 1,500 meters in the Olympics last year was 3:41.2.

Rozsavolgyi, who also holds the world records at 1,500 and 2,000 meters, would not be better prepared if he is invited to come over again next year.

"And I really hope I am," he said. "I like indoor running now that I'm getting the hang of it. I found that you use an entirely different set of muscles running on the short, banked boards."

Rozsavolgyi also said he thought he would have a chance of beating the American mile runner, Ron Delany, who has won the mile in the Olympics and the world record.

"I'd like to have Delany and my own coach, Guska Antal, along with me in the mile. And I think I'll be in a good position to beat him. The only thing that disappointed me in this trip was the fact that my working time was so short."

John McGoff, left, coordinator of continuing education, who will serve as 1958 Michigan Week chairman for Ingham county, and Jack White, public relations director of Oldsmobile Division, General Motors, inspect the new Michigan Week emblem which shows the official state bird, the proud robin, standing atop the huge towers of the Mackinac Straits bridge. Mr. McGoff is now organizing a county committee to move forward with plans for the fifth annual state celebration scheduled for May 4-10.

Book Discusses War of 1812

On August 16, 1812, a Sunday afternoon, the British Union Jack was hoisted to wave over Detroit.

The ceremony was punctuated by the boom of a rapturous cannon—first taken from the British in the Revolutionary War—and the triumphant playing of "God Save the King."

For had not the great Henry Clay pronounced from the floor of the House: "The conquest of Canada is in your power. I trust I shall not be deemed presumptuous when I state that I verily believe that the militia of Kentucky are alone competent to place Montreal and Upper Canada at your feet."

Details of this and other significant campaigns are related in a new book, "The War of 1812 in the Old Northwest," by Alice R. Gilpin, assistant professor of humanities. It is published by the MSU Press.

The book should be of particular interest to midwesterners, for it is filled with familiar

places and names in Michigan, Ohio, Indiana, Illinois and Wisconsin.

Striding through its pages in battle dress are such figures as Lewis Cass, who was to become U. S. Senator, Minister to Paris

and Secretary of State in addition to his post as Territorial Governor of Michigan; Richard M. Johnson, later Vice President; Duncan McArthur and Robert Lucas, later governors of Ohio, and of course William Henry Harrison and Zachary Taylor, whose war reputations helped them to become U. S. Presidents.

The triumphal figure drawn by Dr. Gilpin in his history is that of William Hull, first governor of Michigan Territory who volunteered to serve and whose ill fortune it was to command and surrender Detroit, though he was not given sufficient force to defend it.

State-Wide PTA Meet Conference

The Michigan PTA, with 1,990 units across the state, announces plans for the Michigan PTA Problem Clinic at MSU March 27-29.

CAMPUS CLASSIFIEDS

MSU College of Education sponsors for the annual clinic, report that once again this event for local officers will be held on the Spartan campus.

Supreme Court Rules Preinduction Activities Not Discharge Concern

WASHINGTON (AP)—The Supreme Court ruled Monday that the Army cannot take into account a soldier's preinduction activities in deciding the type of discharge he is to receive.

An unsigned opinion said that the authority Congress gave the Secretary of the Army to make discharge decisions is limited to military service records in the Army's possession.

The court's vote was 8-1. Justice Clark dissented.

The tribunal decided the issue with an interpretation of law and did not base its holding on constitutional points.

The majority opinion cited a law which provides that no person may be discharged from military service without a certificate of discharge issued by the Secretary of the Army.

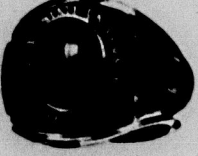

Another section of the same law provided that the court could review the Army Review Board of the Secretary's action.

The majority opinion said that the preinduction activities of a soldier should be taken into account only if they are reflected in the Army's military record in the Army.

The court's decision is expected to be a relief to many soldiers who had been discharged on the basis of preinduction activities.

We think the word records as used in the statute means records of military service, and that the statute properly construed means that the type of discharge to be issued is to be determined solely by the soldier's military record in the Army.

Sticklers!

WHAT IS THE MAN WHO KEEPS THE CIGARETTE MACHINES FILLED WITH LUCKIES? (SEE PARAGRAPH AT RIGHT)

THE REALLY GREAT MEN of history are forgotten men. Who did throw the overalls in Mrs. Murphy's chowder? Is Kilroy still here? Does anyone remember Dear John's last name? No, friends, they're all (Sob!) forgotten. So right now, let's pay homage to the greatest of them all—the man who keeps the cigarette machine filled with Luckies! Let's honor the guy who supplies the one cigarette that's packed end to end with fine, light, good-tasting tobacco, toasted to taste even better. Let's salute 'Fanfare!' the Vender Tender! Touching, isn't it?

Stuck for dough? START STICKLING! MAKE \$25

We'll pay \$25 for every Stuckler we print—and for hundreds more that never get used! So start Stuckling—they're so easy you can think of dozens in seconds! Stucklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings! Send 'em all with your name, address, college and class to Happy Joe Lucky, Box 67A, Mount Vernon, N.Y.)
