U. S. AIR FORCE AVIATION CADET PROGRAM

The Air Force pilot or navigator is a man of many talents. He is, first of all, a master of the air—and no finer exists. In addition, he has a firm background in engineering, electronics, astro-navigation and allied fields. Then, too, he must show outstanding qualities of initiative, leadership and self-reliance. He is, in short, a man eminently prepared for an important career in the new Age of Space.

As a college graduate, you will be given priority consideration for the Air Force Aviation Cadet Program. While openings are limited, you will be tested and advised immediately of qualification status. Find out if you measure up. Paste the attached coupon on a post card and mail it now.

Dodgers Watch Movies. Smash Out 26 Basehits

LOS ANGELES (AP)—Movies are showing the Dodgers why they've been losing ball games.

Manager Walt Alston credits films taken of his players in games last week with helping correct some glaring faults in the batter's box.

After the men saw the films in slow motion and the coaching staff suggested changes, the team began improving Sunday's rash of 26 Dodgers have hit indicates the Dodgers learned their lessons well.

Shooting Don Zimmer, for instance, was standing with his feet too close together. His stance was spread and in Sunday's second game he walloped four-for-five, including a resounding homer into the left field seats.

First baseman Gil Hodges, generally a slow starter, has been slower than usual this year. The films showed he was standing too far back in the batter's box.

Outfielder Otto Cimini and some of the others were uppercutting the ball, the films showed.

Manager Alston said the movies didn't turn up anything that hadn't been detected by his staff from time to time, but he said a reminder of a detected flaw doesn't get the lesson home well enough.

"When the player actually sees himself making the mistake he knows for certain he's wrong," Alston explains. "He doesn't have to accept someone's word for it. Seeing the movies leaves an indelible mind picture."

The most auspicious rise from a batting slump was shown by Charlie Neal, the Longview, Tex. Lancer, who socked two homers, a triple and a single

We're proud to be No. 2

The people who live in the United States have more of almost everything—including telephones. Therefore it's possible, in such a fabulous country, to be the No. 2 communications system in size—and still have a great opportunity for service and growth.

General Telephone serves, for example, more telephone customers than the total number of telephones in such a country as France. And this list is growing—at the rate of 1,000 new customers every working day—partly because so many of the areas we serve are suburban areas, which are the fastest-growing areas in this country.

All of which confronts us with many challenges. If we cannot be the largest, we can surely aspire to be the finest—to do whatever we do better than it has been done before.

So we're happy to be No. 2. It keeps you on your toes.

Commissioner Wants Standardized Parks

NEW YORK (AP)—Baseball Commissioner Ford Frick is asking the Playing Rules committee to set a 325-foot foul line and 400-foot center field minimum for all new parks built or remodeled after June 1.

This would in no way alter the present 281-foot foul line, seven at the Los Angeles Coliseum.

Although Frick admitted the short fence in Los Angeles had provided him into action, he said his thoughts on minimum foul lines and uniform parks were not inspired by the Dodgers' playing field.

Frick said he was writing a letter Monday to James T. Gallagher of the Philadelphia Phillies who is chairman of the official Playing Rules committee. He asked Gallagher to take

a mail vote of his 10-man committee so that a definite rule could be put in the books by All-Star game time in July.

The only mention of home run distance in the present rules is

Varsity Club

Members of the Varsity club are urged to attend a meeting to be held Wednesday at 7:30 p.m. in the club room in Spartan Stadium. Election of officers will be held.

The section covering the playing field. It reads like this:

The distance from home base to the nearest fence, stand or other obstruction on fair ground

shall be 250 feet or more. A distance of 325 feet or more along the foul lines, and 400 feet or more to center field is preferable.

Frick said he had been concerned about the 250-foot home run rule for some time and long had favored standardized ball parks. He also said he had suggested that a rule be drawn up to prevent any new temporary fence to be erected closer than 400 feet to home plate. Again, this would not effect parks already in use, such as the Los Angeles Coliseum.

"There is nothing we can do about parks that have been built," said Frick. "But I have a hunch that 10 or 15 new parks will be constructed in the next four or five years. We want them to know the minimum distances while they still are in the blue print stages."

Frick said he had suggested at one time that a secondary screen be erected in the Los Angeles Coliseum but understood some California laws would not permit any such structure in the middle of a section where people normally sit.

"I don't think it is a good situation in Los Angeles," said Frick. "But it is a temporary thing until they get a new park. I hope Babe Ruth's home run record won't be broken. I don't think it will be. The players who profit by a fence like that are not the real home run sluggers but the banjo hitters."

Frick said he had not received more than two dozen letters from fans, critical of the coliseum screen.

Here is the way the current major league parks shape up:

Brown Favored To Retain Crown

HOUSTON, Tex. (AP)—Champion Joe Brown, with impressive power, and challenger Ralph Dupas, with amazing speed, took their final rough workouts Monday for Wednesday night's lightweight title boxing match at Sam Houston Coliseum.

Brown's power and experience has established him a narrow favorite over the 22-year-old New Orleans challenger in the scheduled 15-round bout that will be televised nationally.

Paul Jorgensen, featherweight contender, was among those watching Dupas' rough workout. Dupas was again with his brother-in-law, Joe Brown, who believes the 31-year-old Brown's best chance to make his fourth successful defense of his championship is to win on a knockout. He favors the more agile Dupas if the fight goes the full 15 rounds.

"I kind of like Joe because he's such a good hitter," Jorgensen said. "But if he starts leaning a little or waiting it out as he has done in some of his fights, I think Dupas will pile up the points and win."

Dupas worked out at a Houston gym, Trainer Angelo Dundee said today, scheduling will include only a bit of roadwork. Dundee has denied reports that Dupas has been having trouble cutting his weight in the 135-pound limit but has declined the post-fight, two-day, to announce weight figures. Dupas reported a weight of 134 1/2 when he arrived last Thursday.

Brown returned to Camp Holston some 20 miles northwest of Houston for his final workout. The champion squatted six rounds here Sunday after week-end rains left his outdoor ring wet. He plans to stay at Camp Holston until late today.

Lon Viscusi, manager of the Louisiana Negro who won the lightweight crown from Wallace "Red" Smith on Aug. 24, 1956, in 13 rounds at New Orleans, said Brown will have no trouble making the 135 limit. Viscusi gave the champion's weight as 135 1/2 pounds.

Professor Predicts Voters' Blame For Recession to Center on GOP

The American voter will hold the Eisenhower administration and the Republican party responsible for the recession, even though they may be other causes for the present economic slump, Dr. Douglas Dunham, associate professor of history and social science at MSU, said Sunday.

Answering on Viewpoint over WKAR radio, he pointed out that in American politics the administration is held accountable for both the good and the bad. With him on the program were Walter DeLozier, assistant to the speaker of the House of the Michigan legislature, and Major John Barron, the pig-breast host.

The President's dwindling prestige among the voters, according to Dr. Dunham, has greatly reduced the importance of the President's speaking out in favor of any of his party's candidates. It is evident that the public hopes are almost exclusively on local issues.

"This is illustrated in Michigan where GOP politicians are building up their campaign for a storehouse of local issues rather than from an Eisenhower platform of party accomplishments at the national level."

The Republican platform, added, has been criticized by development of its own affairs, recession, the country's own declining economy and a division between liberal and conservative elements of the Republican party.

Dr. Dunham acknowledged that this split was partly set by a similar division between the northern liberal and conservative Southern elements.
