## Rightists Seek French Seats

### Tendency Apparent In Tickets

Candidates Favor Algerian Integration

ALGIERS (AP) — Candidates favoring closer ties between rebellious Algeria and France made up an overwhelming majority Sunday after the deadline in filing for 70 seats in the French parliament.

A tentative count showed 86 party lists were filed from Algeria's 18 voting districts, offering a total of 190 candidates, including 131 Muslims and 59 Europeans.

The proportion of Muslims to be elected was fixed by law at two-thirds of the total. The elections are to be held Nov. 28-30.

In two voting districts, Oranville and Tizi Ouzou, only one list was filed, meaning there will be no competition there.

Central Vote Control Commission officials announced the figures after the midnight closing time for filing.

A preliminary check of the party list names and of the candidates whose backgrounds are known showed the dominant tendency is right wing and favorable to integration of Algeria with metropolitan France.

About 10 party lists appeared to be inclined toward the center and could be expected to campaign for something short of the rightist demand for integration.

Nowhere in the varied titles of the newly-born parties nor among the candidates themselves was there any hint of a demand for independence for Algeria.

Most of the party lists had titles linking them closely to the Algeria Public Safety Committee Movement which took over the Algerian government last May and helped pave the way for Premier De Gaulle's return to power.

Filing of party lists speeded up in the final hours before the midnight deadline.

A total of 70 deputies will be named to the French National Assembly sitting in Paris. Sixty-seven will come from Algeria proper and three from the Sahara, which is administered separately. Of the total, 46 are to be Muslims—44 from Algeria and 2 from the Sahara.

An analysis of all the parties and candidates will be possible after the campaign is underway.

### MSU Student Held on Charge Of Draft Dodging

An MSU engineering student was arrested by Campus Police Saturday on a charge of failing to report for induction for military service.

Clifford Swanstrom, 26, of 1530-J Spartan Village, was held overnight in the East Lansing jail and taken to Grand Rapids Sunday where the U. S. District Attorney charged the student with dodging the draft on the basis that he was about to become a citizen of Canada.

The U. S. District Attorney said Swanstrom was ordered by the Muskegon draft board to report for induction on Feb. 6, 1967, but instead of reporting for induction, fled to Canada and then virtually snubbed his nose at the draft board.

Swanstrom was born and raised in the U. S., although his parents have lived in Forest, Ont. for many years.

### Extend Sign-Up Today For Security Rushes

Candidates who failed to sign up for security rush last week may continue to register today only in the office of Miss Mabel Peterson, assistant director of the women's division, in 101 Student Services. The Office hours are 8-11 and 1-4.

## Fined \$100 Each U of M Stars Plead Guilty of Gambling

The future of Tony Rio and Jack Lewis, U of M athletes guilty of gambling charges, remained uncertain Sunday.

The pair were fined \$100 each Friday in the football parley card scandal which struck the campus Oct. 28.

Rio, a first-string fullback on the football team, and Lewis, captain-elect of the basketball team, pleaded guilty of participating in an illegal occupation. A third student was fined the same amount.

The three were arrested with four other Michigan students in a police crackdown on the pool-card racket. Three of the others have pleaded guilty previously.

Carl Kinsman, associate sports editor of the U of M student newspaper, said that he will plead innocent Nov. 13 and face trial.

Athletic Director H. O. "Fritz" Crisler suspended Rio and Lewis from their respective teams.

Dr. James Lewis, vice president for student affairs, said the next step for the students involved will be an appearance before the dean of men and another before the Joint Judiciary Council, a student-faculty body.

Lewis said action will come "very soon," but he did not set a date. Action probably won't be taken until after Michigan's final football game Nov. 22 against Ohio State.

After the council takes action, the cases of the athletes then will go to the Michigan Athletic Board of Control.

Rio and Lewis are seniors. Rio, however, has played only two varsity seasons. If university clearance is granted, he could return to the team next year. But the Big 10 must approve his participation.

## Coed, Sailor Die, 3 Others Injured In Auto Collision

An MSU coed and a Charlotte sailor, returning home on leave, died in a head-on collision Friday evening on US-27, just north of Olivet. Three others were injured.

Dead are Miss Sandra K. Shattuck, 21, of 6917 N. Tony, Chicago, and William A. Brown, 20, of 211 Munson St., Charlotte. Injured are Miss Patricia Pasquin, 21, of Bellevue, Ohio, a 1958 MSU graduate and Saginaw school teacher; Donald L. Sperry, 23, Peoria, Ill.; and John Franko, 18, of Vassar.

The accident occurred at approximately 6:45 p.m. According to Eaton County Sheriff Elwin Smith, Sperry tried to pass a truck and met the convertible sports car owned and driven by Miss Pasquin head-on.

Miss Shattuck, riding with Miss Pasquin, died instantly. A senior majoring in elementary education, she had transferred to MSU from Drake University in 1967, and lived in West Yankley Dormitory.

Brown died in a Charlotte hospital shortly after the accident.

## Name the Band For J-Hop Tickets

The first clue in the J-Hop Name-the-Band contest is: "The was president of my school."

Contestants are reminded that they must fill out the entry blanks completely, including name and address, or they will be disqualified.

Ballot boxes are set up in the Union concourse, Estery, and the Natural Science building.

The contest closes at noon Thursday, Nov. 14. The five winners of J-Hop tickets will be announced at the MSU-East Lansing football game.

A new hint as to the band's identity will be published each day.

## Daugherty 'Lynched' At Stadium

Spartan football Coach Duffy Daugherty, in his fifth year as head mentor, was hanged in effigy Sunday night.

This marked the first time that Daugherty has been "lynched" since becoming coach in 1954.

The lynchers scored against Daugherty, who's team has not produced many scores this season.

A football-uniformed clad dummy swung in the night's breeze under the scoreboard at the north entrance to Spartan Stadium.

The incident marked the first time since the Spartans entered the Big 10 conference in 1949 that a coach has been hanged in effigy.

Under the dummy was the slogan, "Good-bye Duffy, bring back Biggie." Biggie Munn, who

## Wolverine Pix

Wolverine pictures will be taken tonight in the Tower Room according to the following schedule:

- 6:30 Delta Sigma Phi
- 6:30 Phi Gamma Delta
- 6:30 Alpha Chi Omega
- 6:30 Delta Upsilon
- 7:00 Kappa Sigma
- 7:00 Delta Gamma
- 7:00 Gamma Phi Beta
- 7:00 Psi Delta Theta
- 7:30 Theta Chi
- 8:00 Psi Upsilon
- 8:00 Kappa Rho Gamma
- 8:30 Rho Alpha Theta
- 8:30 Lambda Chi Alpha
- 10:00 Pi Kappa Phi
- 10:30 Farmhouse

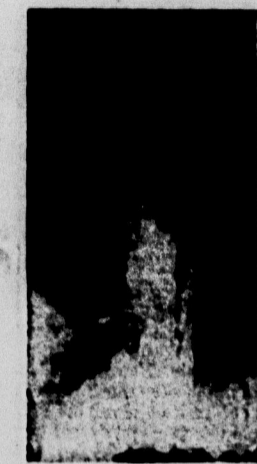

brought Michigan State into the national spotlight as a grid power, was head coach before Daugherty. Munn is now athletic director.

The incident came after the Spartans lost their fourth straight football game Saturday, a 6-0 shutout administered by Indiana.

The game marked the second shutout against State this season, and dropped it to ninth place in the 10-team conference.

The Spartans' record in the Big 10 stands at six wins against four losses and one tie. They've won two games, both non-conference affairs, over California (22-12) and Pittsburgh (22-8).

Last year's Daugherty-coached eleven compiled an 8-1 record and finished third in the Big 10. At the end of the season, Daugherty was offered the coaching duties at Texas A & M and numerous other universities.

THE U. S. AIR FORCE THOR, an Intermediate Range Ballistic Missile, was destroyed by the range safety officer only seconds after it left the launch pad in an unsuccessful test early last Wednesday at Cape Canaveral, Fla. The Thor

will be the first stage of the Air Force Lunar Probe try within the next week. The sequence from left: The missile is launched, flaming pieces fall after the explosion, and finally breaks apart.

## Sponsors Receive Orchid leis

## Ralph Marterie, Corps Sponsors Featured at ROTC Coronation Ball

Ralph Marterie's orchestra and the naming of the Army and Air Force honorary sponsors were dual highlights at the Coronation Ball held Friday evening in the Aud.

The sponsors, who were presented capes by their cadet escorts and orchid leis from the professors of air sciences and military science, have officially begun their reign over the year's military activities.

Mariene Memier, Woodstock, Ill., junior representing Delta Zeta, was named honorary colonel for the AFROTIC wing. Mary Ann Rickard, representing Chi Omega, Rockford, Ill., sophomore, was picked as honorary lieutenant colonel for Arnold Air Society.

Other Air Force honorary lieutenant colonel positions assigned were: Group 381, Terry Tracy, Monroe junior, North

## Shots Ready This Week

Polio immunization vaccine will be available to students today at Olin Health Center, according to director Dr. James Feurig.

## UB Week Petitions

Those interested in working on Union Board week should obtain a petition at the Union Board office in the Union concourse. The committees open are: publicity, decoration, art show, jazz show, dance tickets and special events.

For students taking the series of shots this year this will be their second injection. The vaccine is available to any student after purchasing a 50-cent ticket from Student Government in 332 Student Services.

This week, today through Friday, the Center will donate its services from 8-4:30 p.m. to administer the shots.

## Project Member Dies Saturday in Viet-Nam

George Kimball, 53, police administration specialist with the Viet-Nam Project died in his sleep Saturday in Saigon, Viet-Nam.

A former member of the Detroit police, Kimball was overseas as a consultant to the Viet-Nam government in police administration.

He has been in the Far-East since the spring of 1957 and was scheduled to return to the United States this spring.

## U. S., Soviets to Exchange Exhibitions in '59

WASHINGTON (AP)—The United States will open a scientific, cultural and technological exhibit in Moscow next summer and the Russians will have a similar display in New York City.

Signing of an agreement for the exhibits, part of the East-West cultural exchange agreement, was announced Sunday by Harold McClellan, general manager of the American exhibition.

The agreement calls for an American exhibition hall to be built in a 300,000 square foot section of Moscow's Sokolniki Park, which will be landscaped for the purpose. Sokolniki is one of the Soviet Capital's most popular recreation spots.

"GOOD-BYE DUFFY, bring back Biggie." is the slogan of a dummy swung at the entrance to Spartan Stadium. Inate students, burned over the Spartan football team's fourth straight loss, hang a sign for Coach Duffy Daugherty in effigy Sunday night. The picture was taken by State News photographer Al Royce after midnight.

## \$40 Million Appropriated

## National Defense Act Grants Education Fund

Some of the aspects of a minor miracle were attached to the passage of the National Defense Education Act late in this summer's session of Congress.

In various forms, the bill had been debated many times previously and then in the last few days of Congress' session the final form miraculously was cleared.

Michigan State University is in the process of applying under various sections of the new act for student loans, fellowships and institutional grants.

After knocking out undergraduate scholarship provisions, the Congress just before adjournment voted \$46 million to get the program started. It is understood that the committee handling the request indicated they would consider a supplemental request to come as Congress meets in January.

Of the \$46 million, \$6 million is for the undergraduate scholarship loan program; \$19 million for assistance to states for equipment and facilities for science, mathematics and language learning; \$1,350,000 for state supervisory activities in these fields.

Other appropriations are \$3.7 million for area vocational training; \$4 million for testing, counseling and guidance; and \$700,000 for administration. This covers about \$4 million for research and study in the fields of communication and foreign languages.

Highlights of principal provisions of the bill are covered in the news major points. Strong emphasis is placed on national defense as science, math and language.

A college student loan program at 8 percent interest per

NEWLY LEASED SWANSTROM, Lansing and 474, points out one of the features of the new Women's Home-Student Building addition which is nearly completed.

ART SWANSTROM, high scoring center forward, leads the first of his five goals in Saturday's soccer game with Slippery Rock as the Spartans' victory (the right) swept the point-blank shot. The Spartans' goalkeeper (left) had pulled trigger against a 4-0 MSU win.

Swanstrom is the Spartans' second high all-time scorer and is tied for second in goals this season. He was one of six Spartan centers playing their final home game Saturday. See story, page 4.

# Frosh Capture Jug

## Hula Hoops, Hens, Key Competition

The Little Green Jug has changed ownership once again. This year it goes to the freshman class for their defeat of the sophomores in the annual Frosh-Soph Days held this past weekend.

The kickoff event was the free game contest between the two class presidents Friday night. Larry Campbell, freshman president, and Gil Cox, sophomore, took to the trees at 8 p.m. and only admit defeat until 6 p.m. Sunday and then only because of rain.

This made a total of 22 hours, establishing a new record for the event in the history of Frosh-Soph Days. The contest ended in a tie with the two presidents shaking hands.

In addition, Friday night, Dan Fabel, sophomore vice president, defeated Pete Van Leer, frosh vice president in a pop-stick war. Kathy Vickerman, frosh secretary won over Jane Hopkins, sophomore and Sharon Foster, sophomore treasurer was victorious against Sandy Nash, freshman in a hula-hoop contest.

Competition continued Saturday at 1 p.m. with Larry Harvey and Russ Kroppert, freshmen winning the first event, an egg throwing contest. Second event was the garter search in a haystack with the freshmen finding the greater number.

The freshman class were winners again in the third contest with Kathy Vickerman and Judy Lapelle leading the freshmen in the hula-hoop marathon. Three freshmen and two sophomores split the fourth event, a live chicken race.

The highlight of the day was the pig of war across the Red Cedar which resulted in a late season swim for a few sophomores.

The Little Green Jug will be presented to the freshman class at halftime of the Kansas State game.

SANDRA MARSH, freshman, thrashes around in the straw in the garter hunt to lead her class to victory.

GIL COX, sophomore class president, and Larry Campbell, freshman class president, prepare to bed down for the night during the president's tree sitting contest.

## Volume Aids Research 'Engineering Index' Available at Library

When engineering specialists wish to read magazine articles on some subject in their field, one of the first sources consulted is the "Engineering Index."

Started in 1884, this magazine index has been issued every year since 1906. It does for engineering periodicals what the "Reader's Guide to Periodical Literature" does for general magazines, according to Harmon Chamberlain, head of the division of physical science and engineering at the University library.

"The 'Engineering Index' volume, received each July, covers material published for the previous calendar year," he said. "Thus we might lack indexing of current material in this field for as long as a year and a half—from January of one year to July of the next. This possibility represents a serious handicap to research in a rapidly developing area."

"In order to remove the handicap, the library in 1957 subscribed to the card file service of this index, and these cards keep the index up-to-date. The card entries are received nearly every day and as quickly as possible they are filed in the same order in which they will appear in the bound volume when it is received next July."

"The cards are arranged and filed by subject," Chamberlain explained, "and each entry includes the subject heading, the title of the article, the author, the abbreviated name of the magazine, the volume, issue, date, and page of the article; and a short abstract (or digest) of its subject matter."

In order to locate the article itself, all of these items should be copied (except the first and last) and the call number of the magazine must be secured from the card catalog.

"The volumes and the card file are all available in the division of physical science and engineering on the third floor of the main library. An attendant is on duty at all times when the division is open—the hours are always posted on the door—and will gladly demonstrate to any interested person the use of this important, reference material."

## U. S. Humor Discussed On WKAR

"Americans aren't funny any more."

So said two professional students of American humor Sunday on Viewpoint over WKAR.

Dr. Martin Kornbluth, instructor in communication skills, declared that we are afraid to make jokes about any of our so-called "sacred" institutions—religion, politics, government, professional groups.

"A joke about doctors will have the AMA down on your head; if it is about Negroes, the NAACP; about dogs the SPCA. If the joke is about race or religion watch out for the anti-defamation league."

Kornbluth attributed most of the taboos to the development of mass communications.

Paul Lutzeier, administrative analyst of the Michigan Department of State, an educator on leave from Wayne State University, likewise deplored the comedian's loss of freedom.

"A comedian can't make fun of anybody today," he said "doctors, lawyers, Indians, chiefs—they're all immune. The poor comic has to choose between a number of alternatives: to let his stogies kid him like Jack Benny; to kid himself like Jimmy Durante; to start a feud with some other comedian like the fake ruckus between Hope and Crosby and Allen and Benny; or, as a last resort, like George Gobel, he can insult his wife."

Lutzeier, who like Kornbluth, teaches a course in humor, said, much of American humor bounces off news headlines. He pointed to the space gags of today, the sack dresses of last year, the bloomer girls back in 1909, Teddy Roosevelt's big game hunting in 1910 and the Ford jokes in 1914.

Kornbluth scouted the idea of a native American humor. Occasionally he said, a humorist appears who tries to poke fun at American life, but he is rarely successful, commercially.

### Talk on Russia Slated

Madame Marcelle Abell will give a short talk on her voyage to Russia, Wednesday night at 7:30 in the International Center. The talk will be given in French.

## MSU to Host Home Ec Convo

New developments in the field of homemaking education will be described at the 11th annual Conference for Michigan Homemaking Teachers at MSU Friday and Saturday.

Dr. Thelma Porter, dean of the College of Home Economics, will speak on "What's New" Saturday.

About 400 teachers from across the state are expected for this Kellogg Center event. Joining with the Michigan Department of Public Instruction to present this in-service training conference are the Colleges of Home Economics and Education.

## Blueberry Ice Cream Gaining in Popularity

One of the new ice cream flavors gaining great popularity is "blueberry ice cream."

That remark was given at the 19th Annual Dairy Manufacturers Conference at MSU by an official of a national flavor company.

"And we use Michigan blueberries in our flavor," pointed out W. S. Steinitz, technical director of the American Food Laboratories, New York City.

The first national promotion of blueberry ice cream was in 1957 and many of the large flavor manufacturing firms and ice cream companies will join the parade in 1959, he said.

"The blueberry ice cream presents an interesting flavor and berry gives an attractive

color to the vanilla base in the variegated varieties," Steinitz observed.

Among the other unusual flavors hitting the markets in the future, raspberry and tropical fruits, the speaker reported. Michigan ice cream manufacturers, he said, should be interested in the fine ice creams using Bing cherries or using maple syrup.

Much research is being carried on to improve vanilla ice cream, he said, pointing out that vanilla represents 60 percent of the sales and is the base for the many variegated flavors. Among the research activities is the agricultural work with the vanilla bean in the Philippines. Vanilla, chocolate and strawberry account for 85 percent of the sales year in and year out, Steinitz said.

Vitamins... variety...  
and value...  
all in MILK,  
of course!

- MILK - dairy-rich goodness... energy in a glass.
- CHOCOLATE MILK - a hot or cold treat the year 'round.
- POWDERED MILK - the secret of economy-minded cooks.

You have to get up mighty early...  
to give the kind of service that's building  
the most telephone system

We aim to deliver the goods. Result: we're building fast for the Gen Tel Territory. America is finding the room the overcrowded big cities can no longer supply. New homes, new stores, new factories are springing up fast.

And so is the need for up-to-the-minute telephone communications. That's where Gen Tel comes in big. To meet the growing need for telephone service, we're installing 750 new phones each day, investing almost 4 million dollars each week in new facilities.

At Gen Tel we're working overtime to develop new uses for the telephone to keep ahead of the growing need for better and more complete communications. That's one reason we are America's second largest telephone system.

No doubt about it, America is on the move. And Gen Tel is moving with it—moving up.

## On Rote's Arm Detroit Jinx Stops Cleveland, 30-10

**CLEVELAND (AP)**—Sharp-shooting Tobin Rote threw three touchdown passes and Jim Martin chipped in with three field goals as the Detroit Lions humbled the Cleveland Browns Sunday, 30-10.

The loss dropped the Browns into a tie for the lead in the National Football League's Eastern Division. Cleveland's 4-2 record was matched by the New York Giants, who defeated the Baltimore Colts 24-21.

An inspired Detroit defense held Cleveland's Jim Brown to 53 yards rushing in 21 attempts, his lowest total of the season.

The 30-year-old Bron, veteran of nine years in the league, led Cleveland's defense with passes, completing 17 of 30 and good for 166 yards.

The only consolation for Cleveland was the crowd of 73,163 which brought the season total at Municipal Stadium to 266,122 for four games.

It was the Browns' worst defeat since the NFL title game at Detroit last December. The Lions scored a 16-14 runaway triumph in that one.

The victory for Detroit assured their amazing mastery of the Browns, who still haven't won a regular season contest from the Lions. Detroit has won seven of eight games, the only Cleveland victory coming in the 1934 championship game.

Rote threw his TD passes to a trio of receivers. He hit Jim Gibbons with a 4-yard scoring pass in the second quarter and Howard Cassidy in a play that covered 24 yards in the same period, when the Lions trailed 17 points.

Gene Getman carried over the third touchdown on a 13-yard pass play from Rote in the third quarter. Martin, the former Notre Dame star who once played for the Browns, booted field goals of 43, 43 and 37 yards and also kicked three conversions.

Lou Green got an 11-yard field goal for Cleveland in the second period. Bill Plum passed 11 yards to Ray Ruffin in the closing minutes of the game for the Browns' only touchdown.

**DETROIT** 30 17 9 3-0  
**Cleveland** 10 3 7-10

**DETROIT TD:** Gibbons (4 pass from Rote), Cassidy (13 pass from Rote), PAT, Martin 2, P. J. Martin 2 (43, 37, 43).

**Cleveland TD:** Ruffin (11 pass from Plum), P. J. Gross (11), PAT, Gross 1.

## Indiana Stops State, 6-0

### Fourth Straight Defeat For Sputtering Spartans

Indiana University gave its Hoosier gridders a set of new, blue uniforms before the start of the season, and they haven't been defeated while wearing them yet.

The Hoosiers, perennial cellar-dwellers in the Big 10, won a 6-0 decision over Michigan State's Spartans Saturday at Bloomington to complete their home schedule with four consecutive victories.

It was the first win over the Spartans in nine years, and was State's fourth consecutive loss, its worst showing since 1927, when the Spartans last lost four in a row.

In the past eight years, it has been merely a matter of the Spartans stepping on the field to beat Indiana. Two years ago the Spartans won a 13-6 decision and last year won 34-6.

The victory for Indiana was only its second triumph in the Big 10 since 1936. It snapped a season-long winless streak last week by downing Minnesota, 6-0.

It was another strange ball game—a style of play which has become popular with the Spartans this year. They rolled up 177 first downs in Indiana's eight 231 yards rushing to Indiana's 131 and 28 yards passing to Indiana's 19, but when touchdowns opportunities came, they found a way to keep from scoring.

Spartan Coach Duffy Daugherty is now asking the question, "What else can happen to us?" For Saturday it was another unusual play which played the key role in spelling another defeat for State.

A determined scoring bid by the Spartans early in the second quarter was abruptly turned into Indiana's only touchdown of the afternoon.

The Spartans, with the help of three consecutive first downs, had penetrated to Indiana's three-yard line, with fourth down and two yards to go for the first down and three for the touchdown.

# Booters Shut Out Slippery Rock

## Spirited Crowd Sees Spartans Triumph, 4-0

By LARRY GUSTIN

It was a great day for Michigan State's soccer team as they did the booters' defeat tough Slippery Rock 4-0, but the backing of one of the largest—and certainly most enthusiastic—crowds in history.

Despite cool, windy and rainy weather, more than 1,500 spectators showed up for this last home game of the season. The cheering indicated that most of them watching their first soccer game had become fans at first sight.

It was a hard-fought, exciting contest. Slippery Rock showed a stout defense and had a number of scoring opportunities. The Spartans won through a "team effort," but there were some excellent individual performances.

Coach Gene Kretzer said it was impossible for him to pick out any amount of the game. Six veterans of three varsity seasons made their last home appearances and all played well.

Speedy halfback John Asmah put on one of his best performances, and earned the praise of teammate Art Serrin.

Asmah did a perfect job at halfback, Serrin said. "He was really moving out there."

Serrin, who scored twice, was also at his best in his last home game for the team he helped found.

Neil Butler, Leo Vander Horst and Al "Phantom" Sarrin all looked good. And senior reserve Jackie Tatter handled the ball well when he was put in during the last period.

But any praise for individual performances must also include goalie Noel Drago, Erich Streder, and Bruce Okine.

While Nystrom's team had the passers, Gordie Serr's Whites had the better ground crew. Even though they couldn't score, the Whites moved the ball freely between the 20 yard lines.

Gary Ballman, Larry Hudis and George Hugas reeled through and around the Green line for much yardage. Ballman made two spectacular runs of 50 and 60 yards.

But the Greens were not without exceptional runners. Ed Ryan and Tony Kamiega tumbled the puck through the line for much yardage. Carl Charan, a Green fullback, plunged for valuable short gains, but his block-

## In Frosh Football Quarterbacks Look Impressive Friday

By JIM WALLINGTON

A possible solution to Michigan State's current football trouble, quarterbacking, may be forthcoming. But not this year.

Two freshman quarterbacks put themselves in the limelight by leading the Green football squad to a 21-0 victory over the White team in the first of the Green and White series Friday in Spartan Stadium before 200 shivering fans.

Leroy Loudermilk and Al Lipinski stood out at quarterback for the Greens as they provided the scoring spark with fine passing. Loudermilk scored a touchdown and passed 25 yards to Art Brandstatter for another. Lipinski lobbed a 14 yard aerial to Fred MacEachron for a touchdown.

Brandstatter, an all-stater from East Lansing, had most eyes on him. He fascinated the crowd with his long end zone kick-offs and exceptional pass catching. But several times he allowed gains around his end.

One was Ballman's 50 yard end run. Hudis executed a perfect block on the mammoth end to free Ballman.

Serr singled out Bill Timm as the exceptional lineman on the White team. Timm's blocking was effective and tackling rugged according to the coach.

After the game Serr commented, "Everybody did a good job in the amount of time we have worked on the multiple offense."

Oxendine, from Pennsylvania, was outstanding on both offense and defense. Besides pulling in two passes, his blocking was sharp. On defense he twice broke through to bring down a White back for big losses.

## SAE Team Disqualified From 'Trot'

Sigma Alpha Epsilon, which placed first in the fraternity division of last Thursday's 15th annual Turkey Trot, has been disqualified. Intramural Director Harry J. Beeman announced Sunday.

As a result of this, Alpha Tau Omega, who scored 137 points Thursday, takes over the first-place spot causing teams in the fraternity division to move up in the final standings.

Second place went to I.C.A. who scored 141 points. A.G.R. capped third with 162. Sigma Nu earned fourth with 168. Delta Upsilon scored 260 points to take fifth and Delta Sigma Phi captured sixth with 210.

This fraternity championship plus the fine 5:57.9 performance of ATO's Don Wiegand in individual competition, makes it nearly a clean sweep for the winner.

Sam Williams, captain of the 1958 Michigan State football team, caught 11 passes good for 236 yards and three touchdowns during the 1957 season.

## Interesting Eye Hi-Lites

about contact lenses and general eye problems as elicited by questions commonly asked in our office. For more detailed information submit your questions to Dr. Joseph B. Gutstein. (See address below.)

Dr. Gutstein, Iseral Lansing Ophthalmologist, graduate of College of City of New York and of Columbia University, formerly Associate Professor of Optometry at Memphis College of Optometry and Assistant Professor of Optometry at Chicago College of Optometry, both in Chicago. Author of "A Student's Guide to Optometry." Dr. Gutstein holds licenses to practice Optometry in New York, New Jersey, Illinois, Indiana and Michigan. He has the honorary degree of D.O.S.

QUESTION: Do contact lenses need changes in prescriptions as often as regular spectacle lenses?  
ANSWER: No. It is interesting to note that prescriptions in contact lenses rarely change. The scientific reason for this is that the contact lens covers the cornea. Since it is the changes in the cornea which usually necessitate changes in spectacle prescription and since the cornea is not a factor when contact lenses are used, this results in the prescription not changing with contact lenses for many years.

QUESTION: Do contact lens specifications vary?  
ANSWER: Yes indeed. Each contact lens is custom made for your own specific needs, according to the prescription of your doctor. Contact lenses are held to tolerances infinitely greater than spectacle lenses.

QUESTION: In wearing contact lenses is a fluid necessary?  
ANSWER: Not in modern contact lenses, more especially the small type, the natural fluids of the eye are used.

QUESTION: Do contact lenses eliminate the necessity of bifocals?  
ANSWER: No. If bifocals are necessary in regular spectacle lenses, they will still be necessary in contact lenses. Nowadays bifocal contact lenses can be (and are being) made.

## Leafs Defeat Wings

DETROIT (AP) — Dick Duff scored both goals and the Toronto Maple Leafs captured their first road victory of the season, a 2-0 shutout over the Detroit Red Wings Sunday night.

The triumph was Toronto's first in two seasons on Detroit ice and was Detroit's first home shutout in 36 games.

# Violins, Cello Featured Program Scheduled By Faculty Quartet

Tuesday evening the Faculty String Quartet will play its first music department performance of the year.

Faculty string quartet members are all active teachers in the music department. Composed of mature and sensitive musicians, the quartet is known for its technical finesse and its interpretative subtlety and style.

## Dorothy Fisher, Vermont Novelist, Succumbs at 79

ALBANY, N.Y. (AP)—Dorothy Fisher, a quiet, motherly-looking woman who wrote a remarkable number of novels, short stories and screenplays, died Sunday at the age of 79.

She became famous for the novels she wrote before World War I and in the years shortly after—"The Scarlet Cape," "The Best Thing" and "The Drowning Stream" were among them.

A native of Lawrence, Mass., she spent her childhood in her father's law office and her mother's book store.

## 36 Lost in Plane In Ocean Near Portugal Coast

LISBON, Portugal (AP)—A jetliner carrying 40 passengers and crew disappeared Sunday in an attempt to land in the Azores, a group of islands in the Atlantic.

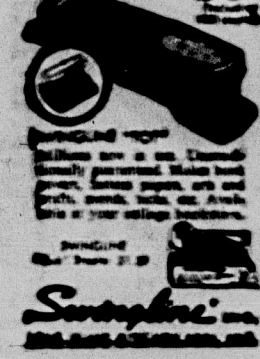

## Today Last Day For Withdrawals

Students now at campus hold their last withdrawal date for the semester.

According to the 1958-59 calendar, a student desiring to withdraw from the semester should file his withdrawal form with the Registrar's Office by 5 p.m. on Nov. 15.

Abstracts Displayed The art department is displaying abstracts of the work of its students in the gallery of the art building.

## Seniors of the Week

MARY HELEN HEWITT

ADOLF CAPIAK

One of the proudest kindergarten teachers of the 1958-59 school year is Mary Helen Hewitt, Kindergarten teacher of the Week.

Official recognition of Miss Hewitt's natural and personal charms is nothing new. Many will recognize her as a member of the 1958 yearbook, Homecoming Court, and still others will remember her as the 1958 Harvest Queen and the December, 1958 Santa Pix.

## All Male Civilians On British Cyprus Called to Action

NICOSIA, Cyprus (AP)—All British male civilians on Cyprus—about 800 men—were called to security headquarters Sunday and given information on plans to combat the island's anti-British violence.

The Pro-Greek Underground Movement Force is blamed for the slaying of 24 Britons, including three officials, since it opened a new campaign five weeks ago.

For the first time, plans are being made to issue arms to British civilians throughout the island.

Many of those against accepting arms were businessmen who work with Greek Cypriots.

Some said they think that if they are armed they will become more obvious targets for gunmen.

Student executives find her not only an attractive, but highly capable secretary. She has held this job with the AVISG Veep (1956), for International Week (1956), and was committee secretary for last year's Water Carnival. This year she is Water Carnival general secretary.

One of the most active seniors of campus is Adolf "Bomber" Capiak. Someone less energetic than he might find more than enough to do with participation in intramural basketball, the Men's Club membership in the Newman Club or the IFC special events committee.

These, however, only begin Capiak's list of activities.

In addition to the job of treasurer for his fraternity, Alpha Sigma Phi, he has been the group's rush chairman, social chairman, and public relations chairman.

The title of "Mr. Chairman" has been by no means restricted to his house activities. Outside of his fraternity offices, he has directed both Water Carnival theme and committee purchasing and Senior Council homecoming activities.

## Milk Production Scarcely Effected By Tranquilizers

Old boss may like peace and quiet while she produces her milk, but the "happy pill" brand of tranquility may not fill the bill.

That's the conclusion of dairy scientists at the MSU Agricultural Experiment Station after checking the effect of a boost in milk production, body weight or feed efficiency.

Scientist Charles Lassiter points out that cows are under tension to produce all the milk they possibly can. A sedative which relieves some of the tension may help them to produce more milk.

The bovine guinea pigs in the test were fed five levels of a supplement containing hydroxyzine. Dosages ranged from 2.5 milligrams to 25 milligrams per cow per day.

According to Lassiter, the only place where the tranquilizer did any good was at the 10 milligram per day level. But he doesn't think the boost in milk production is big enough to be practical.

The experimental station scientist says that it is possible that one of the other tranquilizers can help cows to produce more milk.
