Goldwater Will Yes Votes Leading for Con-Con Nix School Aid

WASHINGTON (AP)—Sen. Barry Goldwater, R-Ariz., said Monday he will offer an amendment to President Kennedy's school aid bill providing for federal loans to church and other private schools.

Goldwater said he remains unalterably opposed to federal aid to education and will vote against the Kennedy bill even if his amendment is attached to it.

However, he said if such a

Drill Team Competes In New York

Seventeen members of the MSU Pershing Rifles Drill Team took part in the Pratt Institute Invitational Drill Meet held at the 102nd Engineer Battalion Armory in New York City.

In this event, which is the first the MSU drill team participated in this year, the Pershing Rifle Team competed against eleven other drill teams in both conventional and truck drills.

The team was flown to New York in 442nd Air Transport Squadron plane as a part of a training flight.

Pershing Rifle advisor, Captain John Edgerton and drill trainer sergeant, SFC Donald Hauser, accompanied the team, which included the following cadets: Stanley Crump, Gary, Indiana; Martin Ehrlich, Springfield Gardens, New York; Jon Ritchey, Valley Station, Kentucky.

Michigan residents who took the trip included the following cadets: Frank McCanham of Peck; Thomas Baird of Bellevue; James Bennett of Bellevue; James Day of Wayne; Ed- ward Demery of Owosso; Paul Durak of Detroit; Keith Jackson of Niles; William Rea of Jackson; Walter Reeling of Detroit; David Service of Lansing; Duane Zalkowski of Grand Ledge; William Thurman of Birmingham; William Crouch of Lansing; and David Johnson of Williamston.

ROTC Team In Nat'l Parade

Saber Drill, the AFROTC exhibition drill team, has received an invitation to the nation-wide ROTC drill competition and National Cherry Blossom Festival parade in Washington, D. C., this month.

The group qualified by taking first place in the Arnold Air society E-2 area competition last term.

The E-2 area is composed of about 20 midwestern colleges and includes most of the big ten.

The team practiced as much as six hours a day during registration week in preparation for the contest.

Advisors for the group are Capt. Theodore King and Sgt. Clifford J. Noll. Capt. King, who was on the West Point drill team, is the originator of the MSU unit.

The team is composed of 15 marchers in addition to a guide-on-bearer and the commander, Kurt Magee.

Harvard Prof Talks Science

Dr. Fletcher G. Watson, Harvard science educator, will speak on the crisis in science teaching at the Educational Research Colloquium at 4 p.m. today in the Kiva.

Watson received his PhD in astronomy from Harvard in 1938. After returning from World War II, he joined the Harvard Graduate School of Education, where he is now professor. He has co-authored several books on science education.

program is enacted, "it is my belief that both justice and morality require that all of our citizens receive such aid, and that no class, group, or segment of our people who contribute to such program can rightfully be excluded.

"THE PARENTS of children who attend private and parochial schools not only pay taxes for the support of our public schools, but in addition, out of their own pockets, pay to maintain a huge and acceptable educational establishment which supplements our system of public education."

Administration forces have feared that inclusion of a private school amendment would stir a religious controversy which could kill Kennedy's \$2,298,000,000 bill.

For this reason, such supporters of the legislation as Sen. Wayne Morse, D-Ore., and Joseph S. Clark, D-Pa., have said they will not offer or support a private school amendment this year.

However, Morse and Clark have introduced a separate bill authorizing such loans and seeking to arrange for a quick court test of their constitutionality.

HIGH OFFICIALS of the Catholic church have asked that loans for their schools be included in any general school aid bill.

Johnson Gets Warm Hello

DAKAR, Senegal (AP)—U.S. Vice President Lyndon B. Johnson was almost mobbed today by joyous Senegalese celebrating this country's first year of independence.

The warmth of Johnson's reception officially and by the crowds was in marked contrast to the cold manner in which Soviet Deputy Foreign Minister Jacob A. Malik has been treated in this West African nation which used to be French territory.

Johnson and Malik are representing their countries at the two-day independence celebration which got under way at a presidential reception.

Johnson, French Cultural Minister Andre Malraux and British representative Douglas Dodd Parker were received privately by President Leopold Senghor while Malik waited outside in one of the vast reception rooms of the palace.

Representatives of French African nations were received. Next Malik and the remaining delegates were received by Senghor in the Alphabetical order of their countries, with the result that Malik was one of the last to convey the good wishes of his government.

Malik did not appear to be enjoying his treatment. He was practically snubbed at the airport upon his arrival and the luggage of some members of the Russian delegation was searched.

Malik was asked if he planned to meet Johnson. He replied: "I'm bound to bump into him at one of these crowded receptions."

But the two men made no move to greet one another at a later point in the reception when they found themselves standing bare, a handshake apart. Johnson's back was turned and he continued to chat amiably with young Aga Khan IV.

Johnson presented President Senghor President Kennedy's personal gift, a crystal cup engraved with the arms of the United States and a token dedication by Kennedy. Johnson received from Senghor a gold cigarette lighter and an engraved bronze medal, token gifts bestowed upon all official delegates.

As Johnson was leaving the presidential palace after the reception, a crowd of several thousand broke through police lines and swarmed over his car, shouting "Long live the United States, champion of independence."

Castro Hints U. S. Foul Play

WASHINGTON (AP)—The U.S. government reported Monday that Castro forces had intercepted an American sailing ship outside Cuban waters. It promptly protested this "harassment on the high seas."

The incident occurred last Friday and involved the schooner Western Union, a 95-foot vessel used by the Western Union

company to keep underseas cables in repair.

The State Department said the small ship which normally carries a 12-man crew was outside the three-mile Cuban territorial limit when a Cuban gunboat intercepted it. The report said the Cubans forced the craft into the nearby port of Baracoa, boarded and searched it and finally released it after six hours detention.

State Department Press Officer Lincoln White said "we have asked the government of Switzerland to demand on our behalf a full explanation from the Cuban government of the harassment on the high seas of a U.S. registered vessel."

U.S. communications to the Cuban government are now handled through Switzerland, because Washington has severed direct diplomatic ties with the pro-communist regime of Fidel Castro.

President to Confer With De Gaulle in Paris

PALM BEACH, Fla. (AP)—President Kennedy, engaging more and more in summit personal diplomacy, will confer with French President Charles de Gaulle in Paris for three days starting May 31.

Plans for the visit, reflecting a continuing change in Kennedy's attitude toward highest-level meetings, were announced at the President's vacation headquarters Monday.

KENNEDY'S TRIP, his first overseas since taking office, will round out a series of talks on East-West problems with the Big Three leaders of western Europe.

The new President already has conferred with Britain's Prime Minister Harold Macmillan. They will have further talks on Laos and other problems when they meet in Washington Wednesday.

The other member of the Western Europe Triumvirate, West Germany's Chancellor Konrad Adenauer, will be in Washington April 11-12 for discussion with Kennedy.

Kennedy aides said there are no present plans for expansion of the trip to France. At the same time, the aides did not flatly rule out broadening of the trip.

AS FOR THE THREE-DAY Paris visit, it will be a modified state visit—with some limitation of the ceremony usually accorded a chief of state. This is to give Kennedy and De Gaulle a maximum amount of time for working sessions.

As in the case of talks with Macmillan and Adenauer, Kennedy is expected to deal in discussion with De Gaulle with a broad range of problems straining relations between the West and the Communist power.

Ice Show Begins Friday

Skiers, Canadian Mounties, fairy queens, and elves will invade the ice arena Friday and Saturday at 8 p.m. for the annual Silver Blades ice skating show.

Featured among the 214 skaters, most of whom are MSU students, will be Nancy Heiss, Bruce Heiss, Bobby McCay, and Donna Abbott Mitchell.

The show will consist of many production numbers such as: A Salute to Squaw Valley, and Alice in Mother Goose Land. Costumes and props are to provide glittering color.

Unreserved balcony tickets are \$1. First floor reserved seats are \$2.

Bullet Hole Status Sign In Laos

VIENTIANE, Laos (AP)—The Royal Laotian government will insist on a halt to the Soviet arms airlift before agreeing to a cease-fire in Laos, a spokesman said Monday. This position is believed tougher than the one taken by the United States.

Information Minister Bouavan Norasing said the Pro-Western government in Vientiane would agree to stop accepting U.S. military aid if the Russians also cut off their supplies to the Pro-Communist rebels. He maintained that an end to the arms buildup here should be a part of any cease-fire.

Washington, now engaged in diplomatic maneuvers with Moscow and London on working out a cease-fire in Laos, is reported to feel that an arms embargo would be unworkable in this virtually roadless nation with its countless isolated valleys and jungle trails.

THE LAOTIAN government has taken what amounts to a slightly favorable but wait-and-see attitude to Russia's reply to the Western cease-fire proposal. Bouavan is leaving Wednesday for U.N. headquarters in New York to be available for consultations with Western officials.

With the military situation so uncertain, the status symbol in this capital is an automobile with a bullet hole in the windshield. The holes were punched in the glass during last December's battle for Vientiane during which right-wing troops of Gen. Phoumi Nosavan drove out leftist soldiers of Capt. Kong Le. Nearly four months have passed but no one has put in a new windshield.

That phrase sums up the atmosphere in this city of 6,000—a mixture of defiance and anxiety.

Ten days ago two Vietminh soldiers were captured at the front 100 miles north of here. One died but the survivor said he was born in North Viet Nam. He said one-third of his battalion participated in the storming of Sala Phou Koun, the vital road junction on the Luang Prabang-Vientiane road that fell to the Rebels March 7.

DESPITE THE WAR, Vientiane goes about its business quietly and there are no outward signs of panic.

NEW DORMITORY—A model of the proposed dormitory viewed by the University Trustees on Friday, shows two six-story wings which would each house 500 students. A three-story center unit would contain eating facilities, 35 offices for faculty, eight large classrooms, a language laboratory and conference rooms. The "figure eight" wing (at top in photograph) would contain a library and lecture hall which would serve resident students as well as students living in two nearby dormitories.

Trustees Okay Twenty New Faculty Members

Twenty appointments, leaves, miscellaneous changes, 2 retirements and resignations and terminations were approved Friday by the Board of Trustees.

New appointments are as follows:

G. Russell Wentworth, officer manager and admissions counselor, admissions and scholarships, March 24; Pauline Mollar Mahar, assistant professor of sociology and anthropology, MSUO, Aug. 15; Maurice F. Brown, assistant professor of English, MSUO, Aug. 15; Norman Roseman, assistant professor of teacher education, MSUO, Aug. 15.

John E. Maher, associate professor of economics, MSUO, Aug. 15; Roger Eugene Brown, assistant professor of anatomy, July 1; Robert Franklin Lanzillotti, professor and head of economics, Aug. 1.

Lindsay D. Brown, instructor (research) of horticulture, March 16; James Bashore Beard, assistant professor of farm crops, July 1, and Evelyn Ermina-Matic, home economics agent of Macomb County, March 1.

Additional new appointments effective Sept. 1, are: Wallace Patrick Strauss, assistant professor, American

Mackie Ahead of Bedwell

Voting Appears Light Over State

DETROIT (AP)—Heavy backing from voters in metropolitan Wayne county boosted support of the constitutional convention proposal into a lead as early returns from the state's biennial spring election rolled in.

With 285 of the state's 5,072 precincts reported, the convention held a margin of more than 5,000 votes: 27,888 for, and 22,234 against.

But 116 of the reported precincts were in Wayne county, where support for the convention proposal was expected to be strongest.

Voting appeared to have been light over most of the state, except in scattered areas where election officials reported balloting moderately heavy, some of it due to interest in local races and issues.

Following the accustomed pattern in Michigan elections, Democratic candidates held comfortable-early margins on the basis of support in Wayne county.

Incumbent Highway Commissioner John C. Mackie held a 33,500 to 20,062 lead over his Republican opponent, Charles R. Bedwell, with 269 precincts in.

In the race for Superintendent of Public Instruction, incumbent Democrat Lynn S. Barlett was ahead of his opponent, Hugh M. Holloway, 24,049 to 16,297, with 219 precincts reported.

With only 119 outstate precincts recorded in the non-partisan race for two seats on the Michigan Supreme Court, incumbents Harry F. Kelly and John Dethmers held comfortable leads.

Campus Group Sponsors High School Night

High school business clubs will converge on the campus Wednesday to attend the annual High School Business Education Night sponsored by Phi Beta Lambda (Business Education Club), from 4:30 through 8 p.m. at the Union.

A welcome will be given at 4:30, in the second floor ballroom of the Union by Dr. Peter Haines, chairman of the Business Education group. At 5 o'clock, there will be four meetings. "The Employment Interview" will be discussed by Leonard Glander, University Director of Personnel, in Room 32; "Opportunities in Retailing" will be discussed in Room 33 with Howard Grimes, president of the J.W. Knapp Company of Lansing in charge.

John Kobs of the American Bank and Trust Company will head a discussion on "You Can Bank On Your Future" in Room 34; and "The New Look in Secretarial Administration at MSU" will be the subject discussed in Room 35, under the direction of Dr. Mary Virginia Moore, acting head of the department of business services.

At 5:30 participants will have an opportunity to move to a second discussion group from the above list. Following this discussion period, supper will be served in the Union Cafeteria with Phi Beta Lambda members as hosts.

At 7 p.m. Phi Beta Lambda members will present "Etiquette," Spartan Women's League's answer to high school and campus etiquette problems.

Also included in the evening program will be the presentation of the University Business Association's award to Michigan State's outstanding business education student and presentation of a prize to the high school group having the largest number of students present.

President Meets Ambassadors

PRESIDENT AND DIPLOMATS—President Kennedy poses at the White House with his recently appointed ambassadors: from left are Edward Stockdale, Ireland; Bernard Guller, Finland; Aaron S. Brown, Nicaragua; Kennedy; John Rice, Netherlands; J. Graham Parsons, Sweden; William Blair, Denmark, and William Attwood, Guinea. (AP wirephoto).

Festival Set For May 13

The annual International Festival will be held May 13 in the Auditorium.

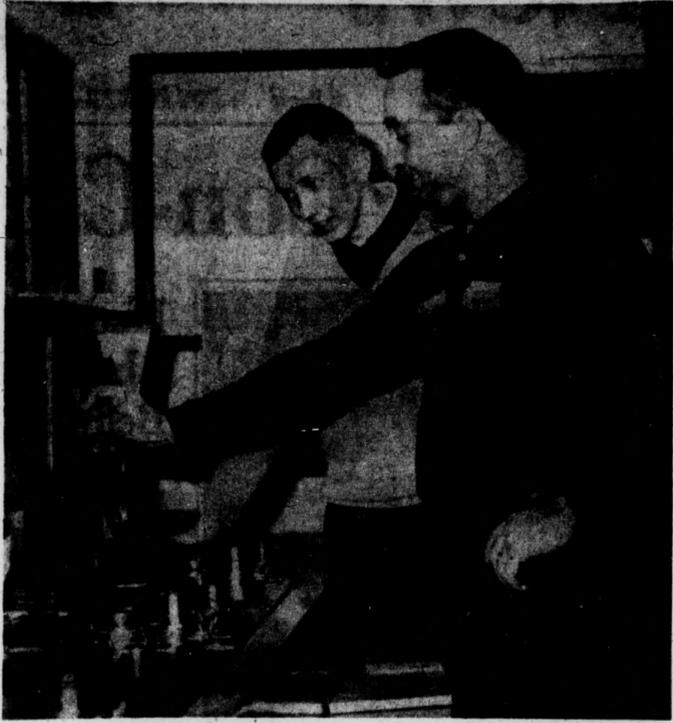

Committee chairman were elected by the International Board last week. Joe Syfax, Detroit, is general chairman and George Bouse, Detroit junior is co-chairman.

Other committee chairmen are Adele Weltman, Chicago junior, publicity; Margaret Oris, Marion sophomore, decorations and receptions; Suppiah Sinadural, Ceylon junior, stage and decorations; Mary Hilton, Marne senior, exhibits; and Ed Kelly, Lansing, master of Ceremonies.

There will be about 25 exhibits and 15 musicals representing the various parts of the world.

The International Festival funds are appropriated by the University Board of Trustees. The International Club manages the events in coordination with the Foreign Student advisor.

The deadline for participating in either the exhibits or the musical shows is April 13. Applications can be taken in the UN Lounge in the Union. Anyone interested in working in the festival may contact Mrs. Wold at extension 2224, in the UN Lounge.

Employs 30 Students WKAR Radio One of Best

By HARRY BOWES
State News Radio-TV Writer

Outstanding service to the university, Michigan and the nation characterize the growth of WKAR into one of the finest educational radio stations in the country.

Today, WKAR employs university students in all phases of station operation and provides programs to educational and commercial stations across the nation.

Currently, WKAR is employing 30 students in the capacities of announcing, continuity writing and engineering. These students are primarily radio-TV majors, but come from all departments in the university.

FOR RADIO-TV majors, this provides valuable practical experience; while for non-radio-TV majors, this provides an opportunity to pursue their interests in radio.

WKAR joined the National Association of Educational Broadcasters in 1946, and has been cooperating with them in raising the standards of broadcasting by providing programs for distribution to educational and commercial radio stations.

In 1960, with the NAEB's cooperation, WKAR provided 20 series of programs to 76 radio stations across the country.

"ORAL ESSAYS on Education," is currently the station's feature program and is carried on 69 radio stations in 26 states. Pat Ford, WKAR producer and director, is producing the series.

Due to its high quality of programs, the United States Information Agency designated production of programs for the Voice of America to be produced by WKAR. Ford is also the producer of these programs.

Distribution of these programs extend to all overseas areas covered by the Voice of America.

One of the outstanding features of WKAR is its tape service. WKAR began its tape service in 1951, and that same year provided 2,389 tapes to educational and commercial stations in Michigan.

BY 1960, WKAR had expanded its tape facilities and provided 9,565 tapes to 76 radio stations across the country.

Recently, WKAR remodeled its studios and increased its tape facilities to meet the increased demand for their taped programs.

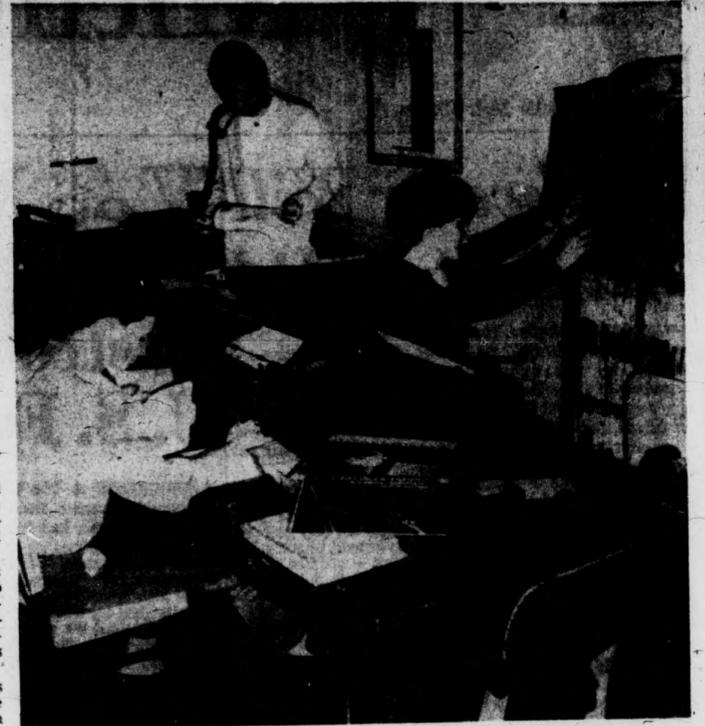

Established in 1917 WKAR is one of the three oldest radio stations in Michigan. The station received a Federal Communications Commission license and the call letters WKAR in 1922.

In 1940, WKAR moved its broadcasting facilities to the third floor of the auditorium where it is currently broadcasting.

DURING THE war, it carried numerous government programs as a service to the University and Michigan. Among these were addresses by President Roosevelt, British Prime Minister Winston Churchill, and Madam Chiang-Kai-shek of China.

After the war, WKAR continued to carry government programs and its service to the University.

During its broadcasting history, WKAR has received many awards for outstanding broadcasting. Among these are: the National Safety Council Award and the George F. Peabody Award for contributing to medical advancement; and, in 1960, the Michigan Educational Association School Bell Award for being the outstanding educational radio station in Michigan.

IT TAKES A large student staff to produce the programs that appear over WKAR radio. Shown left to right, are Ken Peck, Bay City sophomore, Jon Ritchey, Valley Station, Ky., sophomore, and Sharon Tuschak, Detroit sophomore.

'Cave Dwellers' A Play About Impact and Power of Love

By ALDEN SMITH
State News Feature Writer

Nat Eek, the director of the upcoming University Theatre production of Saroyan's "The Cave Dwellers," sports a pleasant smile, a crew-cut, a bow tie, and an occasional loud vest.

He hardly represents the stereotype of a theatre man (complete with pipe, long hair, boots, and or crevette), but does possess astonishing talent—which he'll need for "The Cave Dwellers," opening April 12 and running through April 16 in Fairchild Theatre.

At first glance, Saroyan's play appears to be a long, lugubrious labor of love. The "cave" is an abandoned New York theatre, inhabited by a collection of has-beens; an act-

ress, an actress, and a lightly used prize fighter.

THEIR LIVES are rather profoundly disturbed by the arrival of a girl, a wrecking crew (dead set on tearing down the place), and a family—complete with pregnant mother—and a trained bear, who in many respects is at least as human as the rest of the cast.

As in "My Heart's in the Highlands," Saroyan is concerned with the impact and redemptive power of love in the lives of very real people, whose names alone betray the playwright's symbolic interpretation and universalization of their characteristic attitudes.

The "King," an ex-Shakespearean actor and clown, and the "Queen," an ex-actress, will be portrayed by Mike Blasingame and Lois Cheney—

respectively—both of whom are graduate students. The "Duke," an ex-prize fighter, will be done by featherweight Nick Howey (220 lbs. dripping wet), and the "Girl" by the pert Mary Ellen Finucan.

Ken Andrews will play the "Silent Boy," and the "Father" and "Mother" by Ken Peck and Barbara Nicholls. Tom Fyzyk will tackle the "Bear," and Lloyd Whiting will head the demolishing crew.

Saroyan's sensitive and subtle sentimentality will undoubtedly be a genuine challenge to the east. Augmented by Director Eek's ready supply of swift pacing and incisive wit, "The Cave Dwellers" may very well prove an unique and outstanding contribution to the current season of the University Theatre.

BY GOLLY, IT looks cold. This is a scene from the University Theatre production of "The Cave Dwellers," coming April 12 and continuing through April 16 at Fairchild Theatre. That's Lois Cheney, Mary Ellen Finucan, Nicholas Howey and D. Michael Blasingame huddling against the cold.

Senior Recital Offered Tonight

Marilyn MacDonalds will sing a senior recital at 8:15 p.m. tonight in the Music Auditorium. Olive Padgett will accompany her on the piano.

The concert opens with three Spanish songs arranged by de Falla: "Jota," "Nana," and "Polo." Other Spanish songs include "A las montañas ire" (Bolivia) and "Coco de los Santos" (Panama), arranged by Sandoval.

Songs by Schubert and Brahms follow. "Der Schmetterling" and "Lied der Mignon" comprise the Schubert songs. "O komme, holde Sommerhacht" and "Meine Liebe ist grün" by Brahms complete this portion of the program.

The final group in English includes "Silent Noon" by Williams, then "Bread and Cherries" by Gurney, Herbert Hughes' "Old Mother Hubbard" is followed by "Central Park at Dusk" by Duke.

The concert closes with Roger Quilter's "Love's Philosophy."

Oriental Art On Display

Currently on display at the Museum and Kresge Art Center is the Vietnamese National Collection of Art, an extremely valuable circulating collection of antiques, folk art and craftswork from Vietnam.

Organized by the Vietnamese government in conjunction with the Smithsonian Institution in Washington, the collection will remain on campus for approximately one month.

Some of the art treasures on display are specifically Vietnamese; others belong to ancient civilization which flourished on what is now Vietnamese soil," according to Tran Van Chung, Ambassador of Vietnam to the U. S.

Department Is Rated High Effects of Bacteriology Studied by Food Science

By HELEN SHERMAN
State News Feature Writer

The department of food science, one of the finest in the nation was formed in May, 1960, according to Prof. Bernard S. Schweigert, head of the department.

The departmental staff includes undergraduate students, 20 regular staff members, and 38 graduate students, working for their Masters or Ph.D. Students majoring in food science may work as laboratory assistants to gain experience in this field.

The functions of the food laboratory concern the processing of food, including the identification of food qualities, and the factors influencing the quality during processing, packaging and distribution.

One of the interesting aspects of this field is the effect of bacteriology on foods. Research is being done on the growth of bacteria in cottage cheese, the effect of moist and dry heat on the rates of bacteria destruction, the factors influencing the stability of fats in milk or meat products, the uniformity of heating through cans in the canning process, and the identification of chemical nature of different proteins in milk and eggs.

Color reactions on food is still another function of the laboratory, Schweigert said. The chemical nature of pigments is being observed, which involves the chemical stability of the red pigment in meats.

Also being carefully studied is the influence of freezing on

strawberries, blueberries, and cherries and the effect of heat treatment on food qualities such as the softness of cucumber pickles.

Equipment is similar to that used in chemistry, physics, and bacteriology laboratories. Facilities for experimental equipment in food processing, canning, freezing, drying and smoking foods are available.

The food science department is associated with other agricultural departments on campus including animal husbandry, horticulture, home economics, agricultural economy, and agricultural engineering.

"This department has the opportunity of becoming the outstanding food science center in the United States," Schweigert said.

Three MSU Musical Groups Return From Vacation Tour

Three MSU musical groups—the State Singers, the Spartan Bellringers, and the Concert Band—spent their spring vacations on tour.

The State Singers toured the East in nine days, singing in Ohio, Pennsylvania, Delaware, New York and New Jersey, ending their journey with a television concert on WJR in Lansing Wednesday night.

The University Choir was enthusiastically received at all its concerts, according to director Richard Klausli. At Bay Village, Ohio, they sang a few songs with the high school choir, and in several cities they sang extra, informal concerts at high schools.

A special feature of the State Singers is the orchestral group which accompanies them and also performs separately. Instrumentalists star as soloists, in groups, or with the choir.

The choir's concert program included hymns, classical pieces and folk music.

Each person in the groups rings from three to 13 bells as the group plays classical music, popular songs, and folk tunes.

Formed in the fall of 1954, the group has performed at the President's Christmas tree lighting ceremony in Washington, D.C., and has been in popular demand for concerts in Michigan.

MSU's Concert Band swung through southern Michigan and northern Indiana during spring vacation, presenting seven concerts in four days.

PERFORMING AT high schools in Battle Creek, Sturgis, Niles, Three Oaks, South Bend, Chelsea and Tecumseh, the 103 band members stayed in private homes on their overnight stops.

Included in the concert program were several pieces in which the trumpet, trombone, and clarinet sections demonstrated their skills. An audience

favorite was Respighi's "Pines of Rome".

The band was the guest of the C.G. Conn Instrument Company in Elkhart, Indiana. The company presented a lecture on the manufacture of modern instruments, a tour of the factory and a luncheon for the band members.

"The tour was very successful," said conductor Leonard Falcone. "The band was enthusiastically received at all the concerts. The auditorium at Sturgis was completely sold out before we arrived, and at some stops there was standing room only."

Falcone has received several letters praising the Concert Band's performance on tour. The director of bands at Notre Dame, Robert F. O'Brien, remarked "In addition to a good marching band, Michigan State has a terrific Concert Band as well."

All three groups toured under the auspices of the Cap and Gown series.

Scholarships Awarded To Top Seniors

Ten of the nation's most promising students selected from 1,016 applicants were awarded MSU scholarships of \$4,000 each, President John A. Hannah announced today.

The awards, Alumni Distinguished Scholarships, were made available by alumni through the Development Fund and will cover four years' study. They were awarded on the basis of merit rather than financial need.

The recipients were carefully selected seniors from throughout the country who took examinations in a final competition held in February.

Cox, Napoli Honored As Seniors of the Week

Angie Napoli, elementary education major from Chicago, Ill., and Gil Cox, Harper Woods, social science major, are the first spring term seniors of the week.

Angie is a member of Mortar Board, senior women's honorary and Kappa Delta Pi, education honorary. She is corresponding secretary of Kappa Delta Pi.

She has also been vice president of North Campbell Hall, and her sorority, Sigma Kappa. She is a member of Spartan Women's League and a past member of Women's Inter-residence Council.

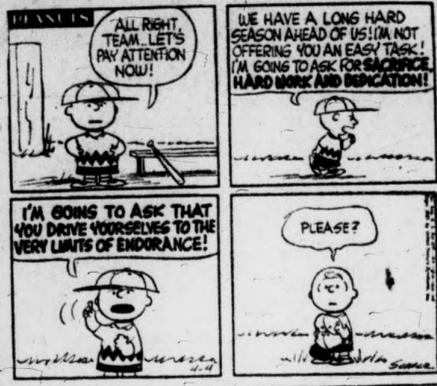

Angie was co-chairman of the 1958 Sno Ball and was AUSG Traffic Control recorder.

Her hobbies are playing piano, sewing and bridge. Last summer she attended the Sigma Kappa national convention in Sun Valley, Idaho.

After graduation in June Angie plans to teach elementary school near Chicago.

Gil is a member of Excalibur, senior men's honorary, and is vice president of Blue Key, national junior-senior men's honorary.

He has also served on Union Board, Inter-Fraternity Council and Phi Eta Sigma, freshman men's honorary.

THE SPARTAN Bellringers toured Michigan and northern Indiana in nine days.

The group performed at Prudential Plaza in Chicago and was on Don McNeil's Breakfast Club show—their second appearance on his radio program. They swung through Portage and Fort Wayne, Ind., and had an especially successful concert in the Union Building at University of Indiana.

In Michigan, they performed at high schools in southern Michigan and the thumb area.

Wendel Wescott directs the ten members of the Spartan

Scholarship Applications Available

Students may apply for scholarships starting today through May 15, according to the scholarship office.

Scholarships will be awarded according to need and scholastic ability.

To apply, freshmen must have a 2.6 point all college; sophomores, 2.8; juniors 3 point, and seniors 3.2. This applies to both university and donar scholarships.

Scholarships are awarded for

tuition and sometimes for books and other expenses, if the student shows a need for them.

Students may apply by filling out an application at the scholarship office, 202 Student Services.

There are 1,356 English language daily newspapers in the United States with a combined circulation of 59,239,723.

Lax on FTC Laws 'Destroys Capitalism'

Business is actually destroying capitalism by not complying with federal trade laws, said a former chairman of the Federal Trade Commission (FTC).

Earl W. Kintner, chairman of the FTC under the Eisenhower administration, said that the federal government will institute stronger regulations unless business learns to comply with existing ones.

He spoke Thursday night at the university before the students and faculty of the executive development program in food marketing management.

THE INTERESTS of business can best be served by companies complying with existing laws instead of weakening them through litigation, Kintner said. Failure to obey the law can only lead to strict government control.

"Each of you has an important role to play in the future of food marketing," he said. "Each of you has a responsibility to keep our system free by your own individual efforts."

Unless business learns integrity in their operations, Congress will institute stronger laws until eventually the free enterprise system "goes down the drain," he said.

Kintner said that the FTC, by rigorous enforcement of existing laws, is actually aiding the capitalistic system.

HE CITED the Philadelphia trials as an example of the recent crackdown on business by the FTC and said that seven 30-day jail sentences and almost \$2 million in fines were assessed against companies for fixing prices.

He said that this case has produced a broader and sharper awareness of the existence of our anti-trust and trade regulations than has previously existed.

Allies Plan Joint Space Program

WASHINGTON, (P)—England, France and the United States set up a joint program Monday to test communication satellites in the future.

The agreement calls for the establishment in Europe of special ground stations to use satellites to transmit telephone, telegraph and television signals.

THE SATELLITES will be launched by the National Aeronautics and Space Administration in 1962 and 1963 in projects Relay and Rebound.

The ground stations will be provided by the British General Post Office and the French Center for Telecommunications Studies. The sites will be determined later.

The stations will have extremely accurate tracking devices.

Project Relay involves the launching of repeater satellites weighing less than 100 pounds into orbits 100 to 300 miles above the earth. Such satellites contain equipment to record messages received from the earth and relay them, on demand, to other stations.

PROJECT REBOUND is a development one step beyond NASA's first passive communications satellite program, project Echo, which reflects radio waves and bounces them back, but contains no active communication devices to record and relay messages.

This awareness of the part of business is necessary if they wish to prevent stronger laws from being passed, he added.

Kintner said that because of the size of companies, it is the job of each individual within the organization to guard against infractions of the anti-trust laws.

Compliance with the regulations can exist only when private business gets together with government to find out how business can work under the law instead of fighting it, he said.

KINTNER SAID that difficulties over compliance with existing laws can be alleviated if they are explained in terms that laymen can understand.

The FTC has already made movements to increase education about the laws, he said. This type of clarification will be a significant help in the understanding of the trade laws and how companies can comply with them.

Hansen Heads New Biochem Department

A department of biochemistry, combining the department of agricultural chemistry and the biochemistry section of the chemistry department was established Friday by the Board of Trustees.

The action became effective Saturday.

The new department will be headed by Dr. R. Gaurth Hansen, who has been head of the agricultural chemistry department. It will be jointly administered by the College of Agriculture and the College of Science and Arts.

Biochemistry, which is concerned with chemical activity which supports life, has been studied, taught and applied in a number of departments for many years.

The new department was established to provide better coordination of teaching and research in the rapidly growing field.

Biochemistry dates back to about 1900 but has had its greatest growth since the 1930's. Many advances in biology, public health, nutrition and agriculture have resulted from biochemical research.

"Biochemistry has become a mature discipline, important to many fields. The establishment of the new department should contribute to further development of MSU," Hansen said.

Hansen came to MSU in 1957 as head of the agricultural chemistry department. He is noted for his research on basic problems of nutrition and metabolism.

In 1960 he received the Borden award in nutrition for developing a method for identifying carriers of galactosemia, a relatively uncommon, often-fatal, hereditary disease of infants.

Born in Utah in 1920, Dr. Hansen received the BS in chemistry in 1944 and the MS and PhD degrees in biochemistry in 1946 and 1948, at the University of Wisconsin. He taught at the University of Utah and the University of Illinois before coming to MSU.

Hansen has studied nutritional problems of residents of Ecuador, Turkey and Thailand on trips to these nations. The trips were made for the U. S. Public Health Service and the Department of Defense.

Trustees Approve Twenty

(Continued from Page 1.)

essor of philosophy; Gopinath Kallianpur, professor of statistics; Dorian Feldman, assistant professor of statistics.

Barry N. Floyd, assistant professor of geography; Peter Jay Hedrick, instructor of music; Isabelle K. Payne, associate professor of nursing; S. Arthur Reed, instructor of biological sciences.

Charles F. Schoman, professor of hotel, restaurant and institutional management and director of the food research center, and Roland I. Robinson, professor, accounting and financial administration.

Sabbatical leaves of absence: Edmond W. Alchin, coordinator of continuing education, May 1 to Oct. 31; Charles McCaffree, Jr., associate professor and swimming coach, intercollegiate athletics, April 1 to Sept. 30; Wade O. Brinker, professor and head, surgery and medicine, June 15 to Sept. 14.

Chester A. Lawson, professor and head, natural science, June 19 to Aug. 31; Richard Schlegel, professor of physics and astronomy, Sept. 1 to Aug. 31, 1962; and Louis-Philippe Cormier, associate professor of foreign languages, Sept. 1 to Aug. 31, 1962, research in Quebec.

Thomas F. Green, associate professor of education, Sept. 1 to Aug. 31, 1962; Gertrude G. Blaker, associate professor, hotel, restaurant and institutional management, Sept. 1 to Aug. 31, 1962; Max M. Mortland, associate professor of soil science, Sept. 1 to Aug. 31, 1962.

Richard A. Machiele, county director, Ottawa County, Mar. 27 to June 10; N. Lorraine Sprague, home economics agent, Gratiot County, May 6 to June 5; and Kenneth A. Swanson, agricultural agent of Jackson County, June 12 to Sept. 11.

Other leaves: Beryl Levine, librarian, library, July 19 to Aug. 31, 1962; Charles R. Adrian, professor of political science and continuing education, April 16 to Aug. 31; Charles H. Kraft, associate professor of statistics, May 1 to Aug. 31.

Meyer Garber, assistant professor of physics and astronomy, Sept. 1 to Aug. 31, 1962; William H. Kelly, assistant professor of physics and astronomy, Sept. 1 to Aug. 31, 1962; and J. S. Frame, professor of mathematics, Aug. 1 to July 31, 1962.

Mabel Ruth Cooper, instructor of textiles, clothing and related arts, Sept. 1 to Aug. 31, 1962; John T. McNelly, assistant professor of journalism and communications research center.

ZTA Officers

Tina (Christina) Galant, a junior from Grosse Pointe Farms, has been elected president of Zeta Tau Alpha.

Other officers are: Vice president, Jan Bingham, Springfield, Ohio junior; recording secretary, Carol Harris, Twinsburg, Ohio junior; corresponding secretary, Pat Voss, Grand Haven junior; treasurer, Marian Ebinger, Clio junior, and historian, Nancy Smith, East Lansing junior.

Appointed were: Maryann Opas, Allegan sophomore, as social chairman; Jean Bower, St. Joseph sophomore, scholarship chairman, and Beth Lyman, Dearborn junior, house president.

ter, Sept. 1 to Aug. 31, 1962; Harry G. Brainard, professor of economics, Jan. 1, 1962 to Aug. 31, 1962.

Wallace N. Atherton, assistant professor of economics, Sept. 1 to Aug. 31, 1962; Roger L. Bowly, assistant professor of economics, bureau of business and economic research, April 1 to March 31, 1962; and Dale E. Hathaway, professor (research) of agricultural economics, Oct. 1 to June 30, 1962.

Promotions, changes in title and new designations: Nicky Allan Smith, promotion from instructor (extension) to assistant professor (extension) of botany and plant pathology, April 1; Floyd W. Hicks, change in title from field poultryman (extension) to assistant professor (extension) of poultry science, April 1.

William L. Finni, change in title from assistant director to associate director of admissions, April 1; T. Wayne Porter, professor of zoology, additional title of assistant director of the Kellogg Biological Station, March 1.

A. J. M. Smith, professor of English, designated Poet in Residence at Michigan State University, April 1; Einar Harlin, assistant professor of economics and the labor and industrial relations center, designated associate director of the labor and industrial relations center from July 1 to June 30, 1962.

Jacvier Breslin, secretary of the university, given the academic title of professor of administration and designated secretary of the retirement committee, Feb. 16; Paul M. Shields, instructor in police ad-

ministration and public safety, assigned to Vietnam project, July 1.

Roger G. Hansen, to be professor and head of newly established department of biochemistry and replacing the former department of agricultural chemistry, and W. Weldon Frase, assistant professor of education, transfer to assistant professor of education and regional director of continuing education.

Retirements: May Belle Stiffler, housekeeper at Williams Hall, April 1; Russell E. Horwood, associate professor (extension, research) of dairy, April 1.

Resignations and terminations: Glenn R. Groustra, staff physician, health service, April 15; John B. Coyle, assistant professor, labor and industrial relations center, March 14; John S. L. Holland, production editor, MSU press, March 31.

Lottie J. Vincent, assistant to executive director, mathematics, MSUO, Feb. 28; James A. Gherity, Jr., assistant professor of economics, MSUO, Aug. 31, and J. Frederick Smithcoors, associate professor of anatomy, Aug. 31.

Mary Ann Durocher, instructor of nursing, July 8; Ruth S. Norczyk, instructor of nursing, June 30; Virginia Breiner, assistant professor of nursing, July 18; Herbert R. Hengst, assistant professor of education, June 30.

Norman H. Martin, professor of personnel and production administration, March 31, and Esther B. Waite, assistant editor, bureau of business and economics.

Music Group Elects Spry President

Gerry Spry, Wyandotte sophomore, has been elected president of Phi Mu Alpha, national professional music fraternity.

Other officers are: Pete Schewe, Midland junior, vice president; Dan Bush, Grand Ledge sophomore, secretary; Keith Amstutz, Midland sophomore, treasurer.

Chuck Coltrane, Norfolk, Va., junior, alumni secretary; Gene Gillette, Standish sophomore, pledge master; Pete Demos, Jackson sophomore, historian; Phil Hillstrom, St. Paul, Minn., sophomore, publicity, and Joel Leach, New Eagle, Pa., sophomore, social chairman.

Chairmen to Give Themes

Living unit themes will be chosen at a meeting of water carnival chairmen in the Tower room of the Union Wednesday at 7 p.m.

Additional information is available from Garry Blowers at Phi Kappa Psi house, ED 2-5039.

All Things Considered - Except U of M Thinclads are Ready

By JERRY ROBERTS
State News Sports Writer

Spartan tracksters have that lean hungry look this spring as they eagerly await their April 14th outdoor opener and a chance to improve on a "so-so" indoor campaign.

Already, with two weeks left before the season gets underway, competition runs at its keenest among the vying athletes.

Each has his heart set on taking his event and possibly representing State at the A.A.U. or N.C.A.A. finals.

COACH DITTRICH seems quite confident that a successful season awaits the Spartans. "It will definitely be a better season for us than indoor track was, and we have a real good chance to finish second in the big 10," he said.

No optimistic opinions were given on a possible first place finish due to a powerful, almost unconquerable University of Michigan squad. It seems that Michigan's problem lies not in winning the Big 10, but by how much of a margin.

Other than the Wolverines, Coach Dittrich feels the gate is wide open for the Spartans. "Notre Dame and Pennsylvania State will give us some rough outside competition, but I think we can take them."

A squad spearheaded by a bulk of juniors and sophomores will pace the Spartan efforts this season. Among these will also be a large number of experienced varsity trackmen approximately twenty in all.

THIS SITUATION thus gives Michigan State a dual advantage. Not only does the majority of the young team have much helpful experience, but it will also provide a very solid nucleus upon which to build next year's squad.

Pacing this powerhouse of fleet runners is Jerry Young whose specialty is the two mile run. Chances are good that this young athlete can carry MSU's hope for national championship all the way.

Sprinter Zach Ford is another possible champ for the Spartans. Coach Dittrich plans heavily on Ford for the dash events and sprint relays.

Inter-collegiate competition begins April 22 when the Michigan State tracksters will take part in the Ohio-Relays. Such potent forces as Notre Dame, OSU, and Penn State will clash with the Spartans before the all-important Big 10 meet held May 19-20 at Iowa City, Iowa.

At Iowa, the boys either "make it or break it." From that meet, the first, second, and third finishers will continue on to the state A.A.U. Championships here at East Lansing and possibly on to the N.C.A.A. finals at Philadelphia.

Frank Torre Cut

BRANDENTON, Fla. (AP)—The Milwaukee Braves assigned reserve first baseman Frank Torre and three pitchers to their triple-A farm clubs.

Torre and pitcher Denver Lemaster, a product of the Braves' farm system, were sent to Vancouver in the Pacific Coast league.

BILL ALCORN
... MSU Pole Vaulter ...

Anchors Away for State Sailors Third in Regatta

By BEN BURNS
State News Sports Writer

The MSU sailors took third in their first regatta of spring term this weekend. They finished behind Detroit Institute of Technology and John Carroll.

The meet, which was held back by snow rain and freezing temperatures was held off Belle Isle in the Detroit River.

It was the Wayne State Spring Invitational Regatta and Wayne

and Indiana finished fourth and fifth.

Dave Davies and George Banning were skippers for MSU of the "Tech" class sailboats. Other members of the club crewed.

The club will meet at 7:30 Tuesday evening in Parlors A & B of the Union. Movies of previous regattas and club activities will be shown.

Al Kranz, of the club, invited all students interested in sailing to attend the meeting.

Paul Bryant To Highlight Grid Clinic

Paul (Bear) Bryant, one of the nation's top collegiate football coaches, and Elmer Engel, equally a stand-out among Michigan prep coaches, will star as guest lecturer at Michigan State's 8th annual Football Coaches Clinic this spring.

The clinic will be conducted May 11-13 with headquarters in Kellogg Center and most of the demonstrations and lectures taking place in Jensen Field House.

This also will be Old Timers Game week end at State, and the big annual clash between the Spartan varsity and an all-star alumni team will climax both the clinic and State's spring training.

The clinic annually draws hundreds of prep, college and pro coaches from the mid-west and other sections of the country and is recognized as one of the biggest things of its kind anywhere.

Bryant currently is head coach and athletic director at Alabama, his alma mater. He was head mentor at Maryland, Kentucky and Texas A. and M. before returning to Alabama and boasts a fabulous over-all record as head coach of 111 wins, 46 losses and 12 ties.

He is known especially as a great defensive coach and it is on this phase of football that he will lecture to the clinic.

Engel, a product of the University of Illinois, took over a Bay City Central football team which had lost 27 of 28 games, and in 11 seasons since then has built a record of 77 wins, 19 losses and three ties. His teams have won or shared four titles in the tough Saginaw Valley Conference.

Engel is known best as a disciple of T-formation offense and it will be in this phase of football which he will stress in his clinic appearance.

The MSU varsity coaching staff headed by Duffy Daugherty and demonstration units from the varsity squad also will participate.

Quarterback Milt Plum of the Cleveland Browns had a 60.4 completion average on passes thrown in National Football League games last season.

Stanley Cup Semi-finals Black Hawks Hope To Finish Montreal

CHICAGO, (AP)—The Chicago Black Hawks wound up a lively one-hour workout on the ice determined to eliminate the Montreal Canadiens in the sixth game of their semifinal Stanley Cup Playoffs tonight.

Because of an ice show production on their home Chicago Stadium rink, the Hawks practiced at the Rainbo Fronton. The stadium will be ready for the 16,000 fans expected to show up to try to root the Hawks to a decisive fourth victory over Montreal.

Chicago leads the best-of-seven series 3 games to 2. If the Canadiens win, the final game will be at Montreal Thursday. A triumph for the Black Hawks would send them against Detroit and mark the first time Chicago has gained the Stanley Cup final since 1944. They last won the Cup in 1938.

A victory also would knock Montreal from the playoffs for the first time in six years.

And with Detroit safely in after eliminating Toronto in five games, a Chicago victory would set up the first all-U.S. finals since 1950 when the Red Wings faced New York.

"This wasn't a stiff workout today, but a good lively one," said Hawk coach Rudy Pilonis, still beaming over Saturday night's 3-0 victory at Montreal. "They had lots of leg bounce out there yesterday and are determined and ready to go. We again will remind them to play clean and hard and avoid cheap penalties that leave us short-handed. We did this Saturday with good results."

If a seventh game is not required at Montreal, the Hawks and Detroit will open the final best-of-seven series in Chicago Stadium Thursday night. The Hawks, having finished the National Hockey League season in third place, have the choice of dates and sites for the opening of the series finals.

What a Racket! Tennis Team 5-2 Down South

Michigan State's tennis team returned from its spring training trip with a 5-2 win-loss record and prospects for an improved season over 1960.

Spartan Coach Stan Drobac is pleased with the showing of three newcomers and the improved performances of his veteran nucleus.

The three additions to the squad over last year are sophomores Jack Damson of Holland and Dick Hall, the Spartan basketball star, from Manitowoc Wis. Also new to the team is junior transfer Bill Lau from Flint.

Damson, who started out the trip at No. 6 singles, now is in contention for a crack at either the No. 4 or No. 5 singles spots. He posted a 6-1 record on the spring tour for the best individual performance.

Hall and junior letterman Brian Eisner, also of Manitowoc, figure to give Drobac one of the finest doubles combinations in the Big Ten this year. They teamed together in high school to win the Wisconsin state doubles title.

Besides Eisner, Drobac also had veterans Roger Plagenhoef of Holland and Ron Henry of East Lansing.

Drobac's tentative season lineup has Eisner at No. 1 singles, followed by Hall, Henry, Plagenhoef, Damson and Lau in that order.

Last year State won 17 of 20 matches over the season and finished third in the conference.

Maas for Brickell In L. A., Yankee Trade

Major League baseball teams begin playing for keeps next week and the clubs have started plugging the gaps revealed by a month of spring training.

Two deals, both involving second line players, marked Monday's trading activities.

The New York Yankees, hurting for pitchers, regained Duke Maas from the Los Angeles Angels. They sent Fritz Brickell, versatile but small infielder, to the new West Coast nine for the pitcher they lost in the stocking of the Angels and the Washington Senators this winter.

In the other trade, the Chicago White Sox acquired Ted Lepcio from the Philadelphia Phils. It was a cash deal but the switch of the veteran utility infielder to the Chicagoans may be the prelude to a bigger swap.

The White Sox already have utility infielders Billy Goodman and Sam Esposito and desperately need relief pitching and catching help. Lepcio, who spent most of his big league career with Boston Red Sox, hit .227 for the Phils last year in 69 games but was at bat only 141 times.

Maas had a 5-1 record with the Yankees last season, being used mainly in relief. He com-

pleted a 4.11 earned run average in 70 innings. The Yankees lost pitchers Maas, Bobby Shantz and Eli Grba in the stocking of the two American League clubs and have been seeking second-line mound help ever since.

Brickell, son of the former Pittsburgh and Philadelphia outfielder Fred Brickell, played last year with Richmond of the International League. He batted .258 but has a .385 average for seven games this spring.

IM News

At 7:30 tonight, all dormitory precinct managers will meet in room 208 of the Intramural Building to obtain information on coming dormitory sports events. It is necessary for every precinct to be represented.

All fraternity softball managers, along with the managers of independent bowling, softball, and volleyball teams will meet at 8:30 in room 208 of the Intramural Building.

The intramural office is now accepting entries for the MSU Intramural Paddleball Singles Tournament which will begin April 18.

Lucky Strike presents the contest to end all contests!

WIN THE FROODMOBILE

"It runs!"

Dr. Frood presented the automobile industry with this magnificent pre-compact. Hurt and disillusioned because the auto industry preferred to develop their own compact, FROOD NOW OFFERS HIS CAR TO SOME LUCKY COLLEGE STUDENT! This is a brand-new, gas-driven, REAL CAR. It features four (4) wheels, genuine foot-power brakes, "fresh-air conditioning," and actual left-right steering mechanism! The economical 7.9 horsepower engine saves you hundreds of dollars in hay and oats! Goes 32 miles per hour, gets up to 65 miles per gallon. The Froodmobile can be licensed in every state except New Jersey. (New Jersey hates Frood.) WIN this beautiful car (with "FROODMOBILE" mounted in brass on the cowl!). Actual value over \$1,000.

TO ENTER THE LUCKY STRIKE FROODMOBILE CONTEST, simply finish this sentence in 25 words or less:

"I need the Froodmobile because..."

Entries will be judged on the basis of humor, originality and style (preferably Froodian). If, in the opinion of our judges, your answer is best, the makers of Lucky Strike will deliver to you, on campus, the Froodmobile. A carton of Luckies will be given to the first 100 runners-up. Along with your entry send your name, return address, college or university, and class. Entries must be postmarked no later than April 15, 1961. All entries become the property of The American Tobacco Company. Send your entry (or entries) to LUCKY STRIKE, P.O. BOX 17A, NEW YORK 10, NEW YORK.

CHANGE TO LUCKIES and get some taste for a change!

6 Editors Hear Civil Rights Discussion

A four-member panel discussed the problem of housing discrimination Thursday with students attending the Civil Rights Conference for Michigan High School and College Editors, sponsored by the Michigan Fair Employment Practices Commission.

Meeting in Detroit's Sheraton-Cadillac hotel, the student journalists heard Miss Verne Kinsey, Michigan assistant attorney general; William Price, director of community services, Detroit Urban League; and Dr. Eleanor Wolf and Dr. Mel Ravitz of the Wayne State University department of sociology.

Miss Kinsey said that discrimination in housing is one form of discrimination usually ignored by newspapers and government as well.

THE FEDERAL government, Miss Kinsey said, has been interested in housing for the past 25 years, working through the Public Housing Administration, Voluntary Mortgage Credit Association, and indirectly through the Veterans Administration.

Today there are more than 2,000 federally supported projects housing two million people, Miss Kinsey said. The United States Constitution does not say anything about housing discrimination, she said, and Congress has not taken any action although only 428 of the 2,000 projects are integrated.

Miss Kinsey also noted there are 567 federally supported projects in development now, and that only 31 per cent of them will be integrated.

MICHIGAN, she said, has a general statute against housing discrimination and Rule 9, which makes it illegal for a broker to refuse to show property on the grounds of race, color, religion, or national origin.

Rule 9, which became famous when used against the Grosse Pointe point system for selecting home buyers, is now being used in court, Miss Kinsey said.

William Price pointed out that Negroes usually live in the central core of a city, the area which is blighted and slum ridden. Then new housing supply for Negroes is usually found at the edge of old Negro areas he said.

Various factors contribute to this policy of Negro containment, he said.

PEOPLE OF one race are discouraged from moving into an area which has a predominance of another race, he said.

Real estate associations are formed which maintain a dual list of homes available for sale and for rent, he said. Negro and white salesmen are not allowed to show homes to prospective buyers or renters of another race, Price said.

Mortgaging, Price said, is the backbone of the housing industry. The brokers associations are able to keep Negroes from getting mortgages for homes in what are considered white areas, regardless of their financial stability, he said.

Financial institutions which are in a position to issue mortgages argue that if they used the money of the people in the neighborhood to help the first Negro family move in, the whites in the neighborhood would say that the institution was helping to tear down the neighborhood, he said.

SOME BUILDERS, Price said, construct what they call "quality" homes in "restricted" neighborhoods. These builders believe they have the right to

pick who will be the owners of these homes, he said.

The Federal Housing Authority acquiesces to this policy, he added.

Dr. Eleanor Wolf said that while in the Detroit area there are now more and better areas open to Negroes than there used to be, most Negroes remain confined to sub-standard housing, and they will remain there until they can afford to move.

Studies have shown, Dr. Wolf said, that some white families have had the experience of living with Negro families of comparable incomes. Sometimes these people have banded together in neighborhood improvement groups, she said.

IN SUCH areas, many schools have had an interracial character for years and some young people have made interracial friendships, she said.

It is difficult to keep a neighborhood racially stable, Dr. Wolf said, because of the increased pressures on the people in the area from outside.

The more neighborhoods are integrated, she added, the less "excessive" demand will be made by Negroes to move into an area.

The problems of better incomes for non-whites and a cheaper housing supply are closely related, she said.

DR. MEL RAVITZ said there are four ways to work for open occupancy: the policy of letting a man live where he chooses, regardless of race, color, religion or national origin. These are education, legislation and administrative decree, community organizations, and employment.

Ravitz said the problem must be attacked through both formal and informal education. The problem of formal education, he said, is how to first educate the teachers to the open occupancy point of view.

Informally, open occupancy can be fought for through newspapers, church groups, and local organizations like the Greater Detroit Committee for Fair Housing Practices, which is designed to help make it possible for a man to work and live where he chooses, as long as he can afford to do so, Ravitz said.

The committee is presently carrying on a covenant campaign modeled after a similar campaign which was begun by some Cleveland church groups, he said.

People join in the covenant campaign by signing a card which states that they believe in, and are committed to open occupancy. The list of signers is published in the newspaper.

PRESIDENT KENNEDY has promised an executive order to hold back federal financial aid to projects practicing discrimination, Dr. Ravitz said.

But, Ravitz added, legislation and local committees do little good without the purchasing power of higher earnings. There is a clear relationship between wages and housing. Housing dictates patterns of education and social contact, he said.

Deadline for Petitions Friday

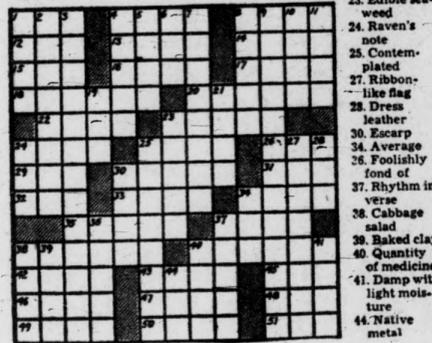

Petitioning for senior of the week awards has been extended to Friday. Petitions are available in the Union-concourse. Students who petitioned previous terms need no repetition, as their petitions will still be considered, according to Clairen Hamilton, Marshall senior, chairman.

General Motors Corp., Fisher Body Div. interviewing all majors from all colleges with emphasis on Business & Liberal Arts.

Brandon Schools (Ortonville, Mich.) interviewing Later Elementary Education, Business Education and History.

Coed Burned In Chem Class

A sulphuric acid burn sent Laura Chapman, Gary, Ind., freshman, to Olin Health Center Monday afternoon.

Miss Chapman was burned when a container of acid spilled on her forearm. She was taking apart some apparatus in her chemistry class.

She was treated for second degree burns and released.

Suntanned Students Stymied

Anyone with a fresh suntan asking for a student loan will have to explain himself, according to Tom King, dean of students.

If the student had money enough to go to Florida for a vacation, the loan will be denied, he said.

This only corresponds to the policies in lending money, said Henry Dykema, assistant director of the men's division in charge of student loans.

MONEY AVAILABLE for loans is limited, he said and must be loaned only to those who show a great demand for it. Students who splurged their savings for Ft. Lauderdale spring vacations do not show a need for money, or they would not have spent it during vacation.

Spring term usually brings an increased demand for student loans, said Dykema, and consequently, there was not enough money to loan to "suntan requests."

"Out of the many hundreds of students who did apply, he said, 'some even without suntans had to be denied. Of the requests, 392 applications were granted \$94,597 for just spring term."

Students with suntans invariably fall into the same category as students who own automobiles, said Wykema. According to the regulations for loaning money, if they can afford a car, they do not need a loan.

SHORT TERM loans were granted, however, said Dykema, for students to meet unavoidable emergencies, such as waiting for money from home. These loans lasted only a week or so.

In an effort to bring more money back into the student loaning fund, a four percent interest charge was added last January for loans over 30 days, said Dykema.

In the past, loans were lent interest-free until after graduation, when interest rates were then applied.

Bank, Finance Expert Joins Grad Staff

Dr. Roland I. Robinson, an international authority in banking and finance, has been appointed a professor in the graduate school of business administration.

The appointment was announced at the Broad of Trustees' meeting Friday.

Robinson, a native of Pellston, has been with the Federal Reserve System during a large part of his professional career. From 1956 to the present, he served as adviser to the division of research and statistics, Board of Governors, Federal Reserve System. He directed research in banking and consumer credit during World War II.

Robinson earned a doctorate in economics at the University of Michigan and served as a consultant to the U. S. Treasury Department in consumer public debt management.

He is widely recognized for books he has authored in banking and finance. His work in bank management is a leading textbook in the field. He has also written numerous articles for the Federal Reserve Bulletin and other board publications.

A 1960 market study for state and local government securities made by Robinson for the National Bureau of Economic Research has been widely quoted.

A professor of banking at Northwestern University for nine years, Robinson lectured at the SEANZA School of Central Banking in Sydney, Australia, in 1958.

Robinson was president of the American Finance Association in 1953 after serving as vice president in 1950 and 1952. He is a member of Phi Beta Kappa and the Cosmos Club.

When he was campaigning for the coroner's office in Urbana, Ohio he now holds, the Associated Press reports Dr. Victor B. Frederick wore a big button with this slogan: Vote for Vic—Be Dead Right.
